

I'm A Quadrillionaire chapter 1431

Chapter 1431

Occasionally, David would come out to chat with Celia and the others.

However, most of the time, Amadi would come to David and talk to him about the high-level civilization, Star Kingdom.

He wanted David to have a general understanding of some basic information about Star Kingdom so that David would not be confused when they arrived.

Of course, as the younger head of Star Mansion, most of Amadi's topics revolved around Star Mansion.

He kept going on about how powerful and awesome Star Mansion was, both directly and indirectly.

At the same time, he would make the other forces look weak.

Still, in Amadi's opinion, Star Mansion was the strongest force in Star Kingdom.

Even if it was not the case now, it would be in the future.

This blind confidence left David speechless for a while.

"David, Star Mansion is definitely your best choice. I guarantee that after you join, you will get the best treatment from us." Amadi would always say this before he left.

"Don't worry, Amadi. As I said, if I have to join a faction, I will definitely make Star Mansion my priority, but now, I'm used to being alone, and I don't want to be tied down. I hope you understand," David replied.

"Okay! Then I won't force you, but if you need to join forces in the future, you must give priority to Star Mansion. We can be regarded as good brothers who have experienced life and death."

"Of course, definitely! Amadi, think about it. I got to know you and Celeste before I went to Star Kingdom. The Iridescent Sect where Celeste is located does not accept men. Hence, if necessary, I will definitely choose to join Star Mansion since, as you said, we are brothers who have experienced life and death."

"Since you said this, I feel more at ease. You should rest first, and I'll get going."

"Take care, Amadi."

Amadi left.

He believed that once they arrived at Star Kingdom, David would come to him and join Star Mansion in no

time.

As for what David said about not wanting to be tied down, it was a fantasy.

Of course, one had to abide by the rules of Star Mansion after joining.

This was not unique to Star Mansion.

Nothing could be accomplished without norms or standards.

Each force would have its own unique rules to control its people.

No matter which force David joined, it would be the same. The higher his status and strength, the fewer constraints he would be subject to.

For example, the Iridescent Sect did not accept men.

This was the rule set by the ancestors of the Iridescent Sect.

It was impossible to change that rule because of one person. Even if David's extraordinary talent shocked Celeste, the Iridescent Sect still would not accept him.

As the younger head of Star Mansion, Amadi could not give David too much authority.

David needed to gradually reveal his talent and strength to them step by step.

If David did not want to be restrained as he said, he could only realize this if his strength reached the point where he could be the one to set the rules.

Otherwise, it would not be easy to be free and unrestrained.

In Star Kingdom, it would be unrealistic for someone to achieve anything on their own without a strong backer.

Some nobles came from poor families in Star Kingdom, but they were few and far in between.

Even if there were, they would eventually join big forces to continue to progress further.

Amadi was sure that David would join Star Mansion in the near future, and there was another important reason behind this.

Five of the seven high priestesses had appeared in the Iridescent Sect this year.

In other words, there would be seven high priestesses if they found two more.

The remaining two places caused countless Star Kingdom forces to fight to their deaths.

Everyone wanted to send their own people to try out and become one of the seven high priestesses of the Iridescent Sect.

In this way, not only could they build a good relationship with the Iridescent Sect, but they could also get countless resources and have limitless future achievements as one of the seven high priestesses.

I'm A Quadrillionaire chapter 1432

Chapter 1432

However, it was not easy to become one of the seven high priestesses of the Iridescent Sect.

This needed talent, luck, and looks.

These seven people represented the face of the entire Iridescent Sect.

Since Celeste had taken Lorraine as her disciple, one of the spots was basically hers.

There was one more spot, and if Amadi guessed correctly, it should belong to Selena.

She was one of David's many little lovers.

If Selena became one of the seven high priestesses of the Iridescent Sect, no matter where she came from or what her background was, she would definitely become a woman that everyone looked up to. Moreover, she would also have a bright future.

If David did not work hard and make progress, there was no certainty that Selena would still like him in the future.

Other than that, the rest of David's lovers were stunning too. Some of them were pretty talented. David wanted to protect them, but his current strength was far from enough.

In the Milky Way, David was the strongest man, so he could be free and do whatever he wanted.

However, in Star Kingdom, he needed to start everything from scratch.

Joining Star Mansion could at least give David a higher platform than most people.

Amadi believed that when David arrived in Star Kingdom and understood the situation, he would make the optimum choice.

David could only display his natural advantages with Star Mansion as his backer and realize his value to embark on a different path.

After Amadi left, David sat down and started thinking about some basic facts about Star Kingdom.

Although Amadi only revealed to him the tip of the iceberg about Star Kingdom, David could tell that Star Kingdom was much more complicated than the Milky Way from what he said.

The Milky Way had always been dominated by the Milky Way Empire, and all forces had to follow the empire's rules.

Therefore, everyone could not do anything major. Hence, there was no chaos.

If not for the Sangruil Sinners, the Milky Way would have been absolutely safe and stable. Moreover, there was *no* possibility of large-scale war.

Unfortunately, Star Kingdom was different.

There was no single force that dominated everyone over there.

It was a bit like the situation in the ancient times of Somerland on Earth when warlords would have

independent regimes.

There was more than one force standing at the tip of the pyramid.

Judging from Amadi's tone, David even suspected that Star Mansion might only be regarded as the second tier of the pyramid.

In this kind of place with many independent regimes, David was actually very restricted.

If he wanted to improve his strength quickly, he had to spend a lot of money.

If he had no backer and no background, he might attract attention when he spent too much money in Star Kingdom if he was not careful.

When that happened, his strength at Eternal Realm beginner Ruler Rank would not be enough.

Joining Star Mansion could help him a lot of trouble from the outside world. Even so, he was worried he would attract the attention of Star Mansion officials.

David did not believe that Star Mansion was united and that everyone was like siblings who would risk their lives for each other.

The internal conflict of such a huge force would often be large and more aggressive.

When he was back in Somerland on Earth, there were laws. Hence, he was always as careful as if he was walking on thin ice when he started spending money, let alone in Star Kingdom.

'How can I avoid attention whilst spending lots of money to gain lavish points to increase my strength?' David was in a dilemma.

I'm A Quadrillionaire chapter 1433

Chapter 1433

Just when David was having a headache thinking of how he would spend money, Celeste's voice suddenly sounded in his ear.

"David!"

David was taken aback for a moment. Then, he quickly got up and looked around, but he did not see

Celeste.

He was in the room where Amadi and Celeste often chatted, so David thought Celeste was also here.

"Celeste? I'm here!" David replied.

"Are... Are you busy now?" Celeste asked hesitantly.

"No, can I help you with anything?" David asked.

'What else can I do here?

'I only sleep and chat with others here.

'I can't even make out with Celia because I'm worried I'll stimulate the desire in Celeste's body.'

Ever since the last time Celeste talked to David and asked him to control himself, David never made out with Celia again.

At one point, Celia thought that David was not interested in her body anymore.

She even said that if he was not interested, he could go for the other women.

David tried his best to explain to her, but he could not tell her the truth.

Therefore, he could only lie as a last resort..

He said that he was in a critical moment of cultivation at that time, and he could not be distracted. That was how he convinced Celia.

“David, if you’re free now, go back to your room. I have something to ask you.”

“Okay, Celeste, wait a minute, I’ll go back now.”

After finishing speaking, David walked to his room.

At the same time, he was thinking while walking, ‘Why is Celeste looking for me?’

After leaving the Beast Galaxy, Celeste stayed in her room and never came out once.

Everyone else thought Celeste was cultivating in seclusion.

Only David knew that she needed to suppress her desire, which was why she never came out.

During this time, David had been worried about Celeste’s situation.

After returning to his room quickly, David had just locked the door when he heard Celeste’s voice again.

“David, for now, don’t interrupt me. Just listen and wait until I finish speaking before answering.”

“Okay! Go ahead, Celeste, I’m listening.”

After David finished speaking, he remained silent, waiting for Celeste’s voice.

However...

One minute...

Three minutes...

Five minutes later...

David waited a full five minutes and yet Celeste did not say a word.

'What's going on?'

David was confused.

Celeste told him not to interrupt and only answer after listening to her.

However, he had been waiting for five minutes but the other party never said a word.
Inside the red room...
