Novel Married at First Sight Chapter 1795 -He immediately picked her up and went upstairs.

Back in the room, Serenity struggled to get off the ground, then turned around and closed the door, then turned to look at him, affectionately, "Husband, I will take the lead tonight."

"Alright." Zachary was willing to accompany her.

He just liked her enthusiastic response, which made him more and more addicted to her.

This kind of addiction was a lifetime addiction, and he only loved her in his life.

No matter how beautiful the flowers outside were, no matter how he look at them, they were not as good as the flowers he carefully cultivated to bloom beautifully only for him.

The couple here were enthusiastic and unrestrained, and Analia over there returned to the villa her family bought in Wiltspoon, and unexpectedly saw her eldest cousin brother, Kingston waiting for her in the villa.

Analia frowned when she saw the elder brother, and asked the other party: "It's so late, Brother Kingston, why did you come to Wiltspoon?"

Kingston: "You sneaked to Wiltspoon without telling second uncle, so he send me to find you."

"This is my freedom. Brother, You don't care about it, don't use my dad to oppress me, pretend I don't know what you really want my father to be angry with me and kick me out of the company, and you two can take over the Dawson Group."

"Brother Kingston, let me tell you, the Dawson Group is my father's property, The shares in the hands of my father and third uncle are all for the sake of my brothers, and I will give them a little share so that they can share some share bonuses every year and spend their old age in peace.

My father has me as his own daughter, and all his property is inherited by me. You don't want to carve up and occupy everything that belongs to me. My father values family affection. After you graduate from university, you will arrange jobs for you. You should be grateful to Dad, but you think the rest is ungrateful and a white-eyed wolf."

Kingston was scolded by Analia so that his face was gloomy, red and black at times.

The Dawson Group was indeed Mr. Dawson's personal property, but because Mr. Dawson's children were weak, only his daughter Analia.., so Mr. Dawson would bring his brothers and nephews together, and also share a little bit of shares with the brothers, but the nephews had no shares.

Kingston and other cousins entered second uncle's company to work, and they all started from the bottom. At the beginning, no one knew that they were the nephews of the president. They climbed to today's position by virtue of their ability Only then did everyone know that they were the boss's family members.

Mr. Dawson had a strong family property, a huge company, and all the companies that cooperate with the Dawson Group were big groups. With such a big piece of fat, who in the Dawson family would not like it? Kingston was the most capable, and deep in his heart he also wanted to be the master of Dawson's group.

But the second uncle had a daughter, Analia who was trained by him. She had established a firm foothold in the company, and it was difficult for them to replace Analia, unless Analia committed a serious crime and angered the second uncle. Only in the future would the successor be replaced.

"Analia, the second uncle told me that I would watch over you and not let you come to Wiltspoon. I promised that the second uncle would be optimistic about you. What do you say you came to Wiltspoon suddenly? Our company cooperates with Yorks's project, and we don't need you follow."

Kingston actually didn't understand why his second uncle told him to take good care of Analia and not let Analia come to Wiltspoon, and as soon as Analia came to Wiltspoon, let him chase him immediately and take Analia back.

After receiving the news, knowing that Analia took a plane to Wiltspoon in the evening, Kingston immediately arranged the work at hand and booked a flight ticket temporarily.

Thinking of taking his cousin Analia with him.

Unexpectedly, the cousin said this to Kingston, making him very embarrassed, but there was a fire burning in his heart.

Although Analia was the only a daughter of Kingston's second uncle. According to what his father said, Analia would marry someone in the future. If Dawson's family's property is really handed over to Analia, it is tantamount to handing over Dawson's family to outsiders.
