Novel Married at First Sight Chapter 1827 -“Seren, thank you for your hard work.” Zachary apologized. He was also very helpless.

Serenity said it seriously: “Your heart is still with me, so I guard you, but if you have any intention of cheating, I am not willing to guard you anymore. Whoever wants to marry you, I will give way. There are endless rivals in love. Husband magnet, I really want to keep it.”

“Honey, I love you and always will, and I will only ever love you.”

“Hmph, it depends on your performance, I’m hanging up the phone, so go ahead.” Serenity hung up the phone after finishing speaking.

After hanging up the phone, Serenity sued Zachary in a rare way. She said to the old lady: “Grandma, your precious grandson always eats jealousy. It used to be like this, and it’s still like this now. I guess it will be the same in the future. I can’t change it.”

Grandma May said: “I scolded him last night, if he complains about you ignoring him in the future, you can tell me, I will let him know what real neglect is.”

Serenity became interested and asked, “Grandma, what can you do?”

Grandma May: “You block all his contact information, and then go on a trip with me, and don’t come back for ten days and a half months, so that he can taste the real neglect.”

Serenity: “...When he previously blocked me, he later tried to add me back. I told him that if he blocks me again, it will be time for us to part ways.”

Grandma May: “That’s it, then you can change to a new mobile phone, and don’t let Zack know the number of the new mobile phone. The current mobile phone is at home, and he can’t contact you.

Serenity: “But he can find it.”

Grandma May: “With grandma here, if grandma doesn’t let him check, he won’t be able to find out. You can travel with grandma with peace of mind, how about it? Serenity, do you want to take a long trip with grandma?”

Grandma May tried her best to persuade her granddaughter-in-law to accompany her on a trip by herself.

“I’m leaving for a business trip tomorrow and will be gone for a few days.”

Grandma May: "Serenity, Grandma will accompany you. After you finish the serious business, we will go play again. By the way, bring Sonny; there is a child to be more lively. Seeing that the summer vacation is coming to an end, you haven't taken Sonny out to play. Have you grabbed the tail of the summer vacation and brought Sonny out to see the world and broaden your horizons? It's better to travel thousands of miles than to read thousands of books. Take the children out for a walk."

Serenity was moved, she was too busy and hadn't relaxed for a long time, she asked the old lady: "Grandma, where do you want to travel?"

Grandma May: "Let's go to Jensburg. My third grandson, Kevin, is over there. Let's go there to watch the fun. Last time you said that grandma would not take you with her when she went to Jensburg, but this time, grandma will take you with her."

Serenity: "Okay, then let me tell Zachary, when are we going to leave?"

Seeing the excitement of Kevin, Serenity even put aside the business trip, wishing to leave Jensburg immediately.

"You don't need to tell him. When we go out, just leave him a note. Aren't you going to deal with private matters? Go and deal with the matter first. In the afternoon, we will set off."

Serenity laughed, "That way Zachary will catch me."

Grandma May: "Didn't he always complain that you ignored him? You care so much about him and he still complains. Let him taste what it's really like to be ignored. I promise that he won't dare to complain about you again in the future."

Grandma May: "I went to Jensburg, and then went to Annenburg. Don't you like Jane's pair of twins? Grandma also wants to see the pair of twins. See more, and be blessed by Jane."

Maybe Serenity could also have twins in the future.

Grandma May didn't say this, lest Serenity think she was giving birth.

"Okay, there are a few children in FC Manor, it's very lively."

Jane gave birth to a pair of twins, and Dr. Carden was about to give birth. The Johnson family was really thriving.

Oh, her in-law's family was also prosperous, but it's a pity that the York family always had no daughters. Only Ben's generation of Johnson's family has no daughters, when it comes to his children's generation, he already has a daughter.

The cousins below him were not yet married, so it's hard to say whether they would have more daughters in the future.
