Novel Married at First Sight Chapter 1830 -Zachary couldn't believe it: "My grandma and Serenity took Sonny to travel? She didn't tell me! I called her, but she didn't answer, and she didn't reply when she sent a message, she just left her husband at home and went off on her own!

Sister, look at Serenity, she doesn't pay much attention to me anymore. She doesn't tell me anything about it, usually for work, she often travels on business, and it takes three or five days to come back after a business trip, and she always ignores me. Abandoning me at home, whenever she reveals a word to me, even if she relies on me, she will go out with her."

Liberty: "...Serenity is too tired recently, go out and relax. She didn't ignore you."

Her brother-in-law often complained to her sister, and whenever the young couple had conflicts, Zachary would definitely come to her to complain, and she would criticize her sister.

Now Serenity said that if the couple had any minor conflicts, she would stop Zachary firmly, not let Zachary go out, nor let him call, for fear that he would complain to Liberty.

In addition to complaining, Zachary always complained that Serenity ignored him and didn't love him enough, which always made him feel insecure. He said that he wanted to become a pendant, hang on Serenity's body, and be together all the time.

It made Liberty dumbfounded.

"Sister, Serenity just abandoned me." Zachary said aggrievedly, "She still doesn't answer my call or reply to my message."

"Well, I'll call her and ask her to call you back. Serenity may have made a temporary decision, She didn't tell you in advance for fear of affecting your work, just wait, I'll call her first."

Liberty hung up her brother-in-law's phone and called Serenity instead, but found that Serenity didn't answer her calls either, so she had to contact Grandma May, but her phone was turned off.

Helplessly, Liberty replied to Zachary: "Zachary, Serenity didn't answer my call, and grandma's cell phone was turned off."

Zachary's eyes sank, and he understood that it was grandma's fault, grandma abducted Serenity.

"Grandma, my dear grandma!" Zachary laughed angrily at his old urchin grandma.

“Abducted my wife and didn’t say a word.”

Zachary complained. Grandma deliberately abducted his wife. Serenity’s mobile phone could get through but didn’t answer. If he guessed correctly, Serenity changed the mobile phone number so that he could not disturb her. They have fun playing.

After sitting quietly in the hall for a few minutes, Zachary went upstairs with the gift, and returned to his room. Sure enough, he saw Serenity’s usual mobile phone on the bedside table.

There was a note under the phone.

He picked up the note and read it, which read: Husband, I will go out with grandma to relax, and I will be back before school starts, don’t read it.

Zachary crumpled the note into a ball, threw it into the trash can, and then laid down on the big bed, looking up at the ceiling, thinking that he would not be able to see his wife during this time, let alone fall asleep with his arms around him. After a few times, he called Josh and said, “Josh, my grandma abducted my wife.”

Josh suspected that he had heard wrong, and he asked, “Zachary, what did you say? Who abducted your wife?” Abducted? Grandma May?”

Jasmine, who rested her head on Josh’s lap and was reading, put down the book, sat up with him, and asked in a low voice and concern: “Who abducted Serenity?”

Zachary collapsed. With a handsome face, like a resentful husband, he looked for someone to confide in, “It was my grandma who abducted Serenity. They both went out for a trip in the afternoon, and they both yelled at me, leaving me alone at home. They even brought Sonny, the little boy, with them, so they simply left me behind. “

Imagining Zachary’s resentful expression at the moment, Josh laughed.
