

At this time, the commander ordered again, "You should notify immediately, all excavation and fixed-point drilling should be stopped immediately, and all heavy equipment should be withdrawn, and then mobilize fences to surround the entire copper mine, and at the same time strictly prevent outsiders from approaching!"

Everyone nodded quickly.

The commander said again, "In addition, we must find a way as soon as possible to transport a large amount of construction waste from the surrounding construction sites. Within 72 hours, the collapsed part of the copper mine must be refilled!" The adjutant asked, "Boss, even if we fill this place

up Yes, the warheads and shell casings inside are still there, and they may be discovered in the future!"

The commander said, "Don't worry, the above means that after filling this place, it will be hardened immediately, and then this land will be sealed up. , send someone to guard it, and let a trusted department take over after the rumors pass, so you don't have to worry too much about it, and hurry up and move forward with the matter at hand!" Everyone suddenly realized

If this is the case, you can basically prevent future troubles.

So, everyone said in unison, "Obey!"

After finishing speaking, they immediately left the tent and each began to follow the commander's order.

At this time, Wu Shutong outside the tent was so nervous that he was sweating profusely, and his body couldn't help shaking.

In his heart, the panic has reached the extreme.

Such a major accident was the first time in the hundreds of years of history of the Qing Dynasty.

The point is, as the governor of the right army's governor's mansion, he was able to have the entire base of the dead soldiers stolen under his nose, and even ambushed here to kill Nakul Ou Bojun.

I'm afraid death penalty is inevitable...

At this moment, Wu Shutong almost immediately made up his mind that he must not report the actual situation here to the British Lord!

At the very least, you can't tell the British Lord that the warheads and shell casings of the near-anti-aircraft guns were found here.

Not to mention let the Lord know that there is a person's DNA on the warhead of the near-defense gun, and that person is likely to be Uncle Nakul, Ober-Jun.

Because the near-defense gun is too sensitive, and the discovery of shell casings in the copper mine is enough to prove to the British Lord that this dead soldier station has long been secretly controlled by the enemy under his own rule. In that case, his own Dereliction of duty is too serious.

Coincidentally, the Cyprus officials are also planning to conceal the news of the near-anti-aircraft guns, and they will also fill up the entire subsidence area, which means that everything that happened here will soon be dead without evidence.

As long as he didn't say anything, the British Lord would not know about the existence of the near-defense guns.
