

After finishing all this, several people returned to Arlo, handed the detonator to Arlo, and respectfully said: "My lord, you can detonate it at any time." Arlo took the detonator and asked him: "Are all the exits sealed

? Make sure that after the ship sinks, nothing can float to the surface of the sea, otherwise, once other ships find it, they will realize that the ship has sunk."

The man cupped his hands and said: "Don't worry, my lord, all cabins are closed, all The doors and windows are also closed, and the goods in the warehouse are all fixed with dense iron nets. Once the explosion is detonated, the sea water will flood in instantly, and the ship will sink soon, and nothing will surface. As for The fragments produced by the explosion, because they are all made of iron, will sink to the bottom soon and will not float to the surface of the sea, so you can rest assured."

Arlo nodded and said: "Now there are only a few of us left . It's fixed, you come with me to the captain's cabin."

"Of order!"

Several people followed Arlo to the captain's room. Arlo locked the heavy cabin door firmly, then took out a bottle of spirits, poured a few glasses, handed them to the people in front of him, and said, "Everyone, we work together. For many years, it is fate to be able to die together today, and this glass of wine is for us!"

At this time, several people also regarded death as home, nodded heavily, and took the wine glass.

Arlo clinked glasses with several people, raised his head and drank the spirits in the cup, then picked up the detonator, and pressed it without thinking.

Suddenly, there were two muffled sounds from the cargo warehouse at the bottom of the ship, and two large holes about one meter in diameter were blasted at the bow and stern of the ship.

A large amount of sea water was quickly poured into the cabin, and the freighter immediately began to sink at an extremely fast speed.

However, no one on board ran for their lives in a hurry.

Because all the people except them were sleeping soundly in each cabin at the moment, Arlo specially asked people to add special medicine to their meals to make them all fall asleep.

Now, everyone is sealed in each cabin.

The frantic influx of sea water did not wake these people up, and they suffocated to death one after another in their sleep.

Soon, the seawater began to pour into the captain's cabin, Arlo looked at death as if at home, and sat on the ground with several other people until the seawater filled the entire cabin.

Twenty minutes later, the 8,000-ton freighter completely sank into the sea water.

Due to the preparations made in advance, after the freighter entered the sea, it did not leave any other traces except for a vortex on the sea surface. The whole ship was like a huge cage, and sank to the bottom of the sea without looking back...
