**Novel Chapter 3019** -Since childhood, she had never liked a man so much.

It would be great if Hayden wasn't the boss of the Dream Maker Group.

The current him was unattainable to Joanna, even in her dreams, she dare not dream of becoming his wife.

Thinking wildly at 3 o'clock in the morning, her daughter woke up hungry and started crying. She immediately got up and made a bottle of milk for her daughter. After her daughter fell asleep, she fell asleep tiredly.

The next day, at 8 o'clock in the morning.

Hayden brought Dorian to the villa.

When Dorian came to the new environment, the expression on his face was full of curiosity.

"Dorian, this is your grandmother." As soon as Hayden entered the living room, he saw Mrs. Picard first, so he taught his son.

Mrs. Picard immediately hugged Gia in the crib and walked up to the father and son.

"Look, Little Gia—who is here? Dorian, your brother, is here!" Mrs. Picard was very excited when she saw that Dorian had grown so big, "Can you give me a hug for Dorian?"

Hayden immediately handed Dorian to Mrs. Picard.

Mrs. Picard put Gia in the crib first, and then took Dorian from Hayden.

"Dorian, don't you know me? Little guy, you're fat and white, and you look so good!" Mrs. Picard hugged Dorian, and the more she looked at him, the happier she became.

Old people like their grandchildren to be white and fat.

Joanna was washing Gia's baby bottle in the kitchen. When she came out after washing the baby bottle, she saw Hayden and immediately greeted her with a smile, "Your parents didn't doubt you, did they?"

"Even if they suspect, they won't follow me." Hayden picked up Gia from the crib, looked at his daughter tenderly, "Baby, let's go, let's go see your brother."

Hayden hugged his daughter and came to Dorian.

The siblings looked at each other, and they became energetic in an instant.

“Hahaha! They are so polite! They stopped talking.” After putting the bottle away, Joanna walked up to the two children and stared at them, “Why don’t you put them together! Then let them have fun together! I just want to photograph the siblings.”

Dorian and Gia were placed on the floor covered with blankets.

Dorian could sit on the ground very stably, but Gia was not so stable yet.

So after a while, Gia lay on the ground, reaching out to grab the fat feet of the Dorian.

“Baby, you can’t eat this!” Joanna was afraid that her daughter would stuff her son’s feet into her mouth.

As a result, as soon as Joanna finished speaking, Gia stuffed her brother’s feet into her little mouth.

“Ah! You little greedy cat!” Joanna immediately went to pull his son’s foot. Fortunately, his daughter didn’t bite hard enough, so Joanna quickly pulled his son’s foot out.

Gia licked her small mouth, feeling unfinished. Dorian was startled, and he cried out.

Hayden: “???” Son so delicate?

Mrs. Picard immediately took a bag of rice cakes and gave them to Dorian. Dorian stopped crying when he saw what he was eating.

As a result, when Gia saw it, he reached out and snatched his brother’s rice cakes.

Dorian: “...”

After being stunned for two seconds, Dorian cried louder than before.
