I am a quadrillionaire chapter 1747—After the transaction, David took his four treasures and bid farewell to Alba and Valerio.

He did not have time to check his system, so he did not know if he had gotten the lavish points.

If the Hammer of Thunder was worth more than 11 trillion Star Dollars, he would surely get all of the lavish points.

However, if it was not, then he would only get the lavish points equivalent to its true price.

This was crucial to David.

This would determine if he would be in partial Saint Realm or skip realms to go straight to Saint Realm and Pre-Saint Rank.

However, David figured that since the system said the God of Thunder Hammer was one of the top three Ancient Weapons, it must be very valuable.

According to the market price of Star Kingdom, 11 trillion Star Dollars was not enough for a high-level Soulbound Weapon.

Since it was one of the top three Ancient Weapons, the God of Thunder Hammer would surely be worth

more than a high-level Soulbound Weapon even if it was damaged.

Therefore, there was a huge possibility that David would get all of the lavish points.

Alba and Valerio could tell that David was in a hurry, so they did not stop him.

After hurrying back to his room, David closed the door and used his mind power to keep an eye on his surroundings in case someone barged into his room suddenly.

Once he was done, he impatiently opened his system.

[Host: David Lidell

[Balance: 9985701990000000 Star Dollars

[Body: Sovereign level 6 (You may upgrade one level using 1000 lavish points)

[Mind: Sovereign level 1 (You may upgrade using 1000 lavish points)

[Combat: Eternal Realm Mid-Sovereign Ranker

[Combat Skills: Void Punch (Perfection), Air Crushing Slap (Perfection), Evil-Splitting Sword Technique (Perfection)

[Skills: Ancient Traditional Medicine (Perfection)

[Lavish Points: 113900]

When David saw the balance of his lavish points, a huge surprise shot out from his eyes.

At the same time, he let out a deafening laugh.

“Hahaha!”

After laughing to his heart’s content, he calmed himself down.

Luckily he had blocked out his room with his mind power, if not, the people from Treasure Trove would surely come to check on him after hearing that.

Indeed, just as he expected, the God of Thunder Hammer was worth more than 11 trillion.

Now, he had gotten all of the lavish points, so he could increase his strength.

Now that he was in Star Kingdom, he truly understood the importance of strength.

Even though he already knew that his strength was the foundation when he was on Earth and in the Milky Way, he was very low-profile and had never experienced the crisis of death.

However, Nek gave him an initial show of strength the moment he came to Star Kingdom.

If his mind power was not strong enough, he would have long been turned to ashes.

It was because he experienced the crisis of death before Nek and saw Celeste’s teacher banishing her to the ice cavern that he decided to increase his strength in a short time.

When he was a True Saint, he would go to the Simmons continent to seek revenge against Nek.

After that, he would go on to Sacred Saint Rank, save Celeste from the Iridescent Sect, and take Celia and the others away.

He would need to do those things step by step.

Now, he needed to break through to Saint Realm and become a Pre-Saint.

'Nek, you scoundrel, prepare yourself for me at the Simmons Continent. Soon, I will let you know how it feels to have someone control your fate,' David thought to himself.

Nek was a knot in David's heart.

Back then, he never experienced the fear of being killed at any time.

If Nek had not insisted on crushing David's skull back then, David would not have lived until now.

His mind power could only protect his head but not his entire body.

Now, Nek did would have another chance.

He had lost his best opportunity to kill David.

'I wonder if Nek the scoundrel will regret not killing me when I show up at the Simmons Continent. 'Perhaps I was just an ant to him at that time.'

I am a quadrillionaire chapter 1748–Nek might have thought he could crush David easily.

The next time they met, David would swap the roles so that Nek would know what it was like to be an ant.

“Hah... Huff... Hah... Huff...”

After taking a few deep breaths, David closed his eyes to try to recompose his body to its best state.

A few minutes later, David opened his eyes.

Then, he opened his system panel and clicked on increasing his Body.

A window popped up.

[This upgrade would cost 1000 lavish points. After upgrading, the host's Body will go from Sovereign level 6 to Sovereign level 7. Please confirm.]

There were two options below: Yes and No.

Of course, David chose Yes.

The system shone and David felt a gust of warm air entering his body.

A few seconds later, the system went back to normal.

His Body had changed to Sovereign level 7.

He had also spent 1000 lavish points, so there were only 112900.

Without wasting any time, David continued to upgrade his Body.

Sovereign level 8, Sovereign level 9, Sovereign level 10.

He spent a total of 4000 lavish points.

Finally, David upgraded his body to Sovereign level 10.

His combat power also increased drastically and came to peak Sovereign Rank.

At this moment, David's strength was on the same level as Nova, the head of the Iridescent Sect.

The two of them were peak Sovereign Rankers.

However, this was not enough!

David's goal was not peak Sovereign Rank, nor was it partial Saint Realm. He wanted to be a Saint.

Now, it was time to upgrade his mind power.

He upgraded one level at a time, and he needed 1000 lavish points.

Sovereign level 2, Sovereign level 3... Sovereign level 10.

Since David's mind power was only at Sovereign level 1, he spent 9000 lavish points just to upgrade it to Sovereign level 10.

When he upgraded both his Body and mind power to Sovereign level 10, David had spent a total of 13000 lavish points.

He took a look at the system panel.

[Host: David Lidell

[Balance: 9985701990000000 Star Dollars

[Body: Sovereign level 10 (You may upgrade one level using 100000 lavish points)

[Mind: Sovereign level 10 (You may upgrade using 100000 lavish points)

[Combat: Partial Saint Realm

[Combat Skills: Void Punch (Perfection), Air Crushing Slap (Perfection), Evil-Splitting Sword Technique (Perfection)

[Skills: Ancient Traditional Medicine (Perfection)

[Lavish Points: 100900]

Since his Body and Mind were both at Sovereign level 10, David's combat power was at partial Saint Realm.

Right now, he was at the same level as Valerio, the head of Treasure Trove.

With this strength, he was already pretty invincible in Star Kingdom, a level 7 civilization.

In addition to his strong mind power and Evil-Splitting Sword that could cut anything, David would be unbeatable as long as he did not run into a Saint.

He could be regarded as the number one figure below Saint Realm.

However, this was still not enough.

He still had 10000 lavish points, so he could continue to upgrade his Body.

Once he upgraded this, David's body would change, and it would go from a mortal's body to a Saint's body.

The most basic difference was that the mortal body would be threatened by the catastrophe. They would not be able to hide from the Eternal Catastrophe that would happen once every epoch.

However, once he had a Saint's body, there would be no catastrophe.

If there were no accidents, the Saint's body would truly live forever.
