

## Chapter 341

The frightened Xie Yunpeng ran to Tian Linger in a panic, and quickly explained: “Linger, I’m sorry, it was me just now, I didn’t expect it to be you.”

“Don’t call it so affectionate, am I familiar with you?” Tian Linger said disdainfully.

For Xie Yunpeng to be closer to the Heavenly Family, he was very familiar with him, and he treated everyone in the Heavenly Family very intimately. But before, he was called Tian Linger so, and he had never been rejected by Tian Linger, so he didn’t understand why Tian Linger said that.

“Linger, if you are angry, I can compensate you, whatever you want.” Xie Yunpeng said.

“Compensation?” Tian Linger smiled faintly, and said: “Do I need someone to buy something I like? Do you look down on me. Or do you look down on Heaven?”

This made Xie Yunpeng’s scalp numb. He didn’t have the guts to look down on the Heavenly Family. Although they had a cooperative relationship with the Heavenly Family, the Xie Family did not even have the qualifications to straighten up in front of the Heavenly Family. Tianjia wants to change partners, but it’s just a sentence.

“No, no, I didn’t mean it, I just want to make amends for what I said just now.” Xie Yunpeng said.

“Since you want to make amends, kneel down and make compensation.” Tian Linger said, just now Xie Yunpeng kicked George Han. George Han didn’t repay this grudge, and she had to repay George Han.

When Xie Yunpeng heard this, his face was extremely ugly. How could it be said that today is his wedding. On this occasion, he is the protagonist. If he kneels down, wouldn't this wedding really become a joke?

Before, he used George Han's wedding as a joke, but he didn't want this to happen to him.

“Uncle Honghui, what can I say after the wedding is over?” Xie Yunpeng asked Tian Honghui.

Tian Honghui glanced at George Han, and said faintly: “No, George Han is Linger's brother. You kicked him just now, can this be the case?”

“What!” Xie Yunpeng looked at Tian Honghui in shock.

How could George Han be Tian Linger's brother? How could this be possible!

Tian Linger walked to George Han's side, smiled brightly, and said, “Brother, you really know how to sprinkle dog food, I am almost envious.”

George Han smiled helplessly. When the incident happened suddenly, he didn't think that the reason why he would do this was the result of love. He suddenly thought of the grievances Amelia Su had suffered for so many years, and that Keiyandao kneeled on one knee. After the next three words Amelia Su said, it made George Han feel that he should make up a proposal ceremony for Amelia Su.

For those who are already married, this kind of ceremony is unnecessary in the eyes of outsiders, but in George Han's view, he should make up for Amelia Su.

“Why are you here?” George Han asked.

Tian Linger narrowed her mouth in disdain, and said: “This Xie family has some cooperation with the Tian family, so my dad will attend. It’s a little bit of face for them.”

George Han nodded suddenly, no wonder Xie Yunpeng would make trouble for him, it turned out that Tianjia was the backstage.

After Tian Linger finished speaking, she walked to Amelia Su, holding Amelia Su’s hand, and continued: “Sister-in-law, how does it feel to be proposed? Happy?”

Amelia Su had an embarrassed expression on her face. She was very touched just now, and she cried faintly, but now that I think about it, it is somewhat embarrassing. After all, she shed tears under the public.

“En.” It’s one thing to lose face, but Amelia Su also has to admit the happiness in her heart, and proposing at someone’s wedding, this kind of crazy thing, probably only George Han can do.

Looking at the closeness of Tian Linger and George Han couple. Xie Yunpeng felt a wave of despair.

In Thomas Tian’s birthday banquet, Thomas Tian showed the importance of George Han, but in many people’s eyes, Thomas Tian wanted to use George Han. He is just a puppet character, and there shouldn’t be any weight in the old man’s mind.

When this kind of remark was widely circulated in the upper class of Basin City, almost everyone believed it, and Xie Yunpeng was no exception, so he dared to make things difficult for George Han.

But now it seems that the truth of the matter is obviously not as rumored.

If George Han was really a used puppet, how could he become Tian Linger's brother?

Except Xie Yunpeng. The others present were also very surprised. If Tian Linger really recognized George Han as his elder brother, then his status would be unmatched by anyone present.

Many people have changed their eyes when they look at George Han. When they think about the People's Square, it is even more difficult.

"Honghui, these are trivial matters. Let Yunpeng finish the wedding first." Xie Yunpeng's father Xie Haoran walked over to Tian Honghui. He has a very good relationship with Tian Honghui, so he feels that he should be able to solve this problem by coming forward.

"Xie Haoran, you may not know what the situation is right now, I can't give this face." Tian Honghui said disdainfully.

Xie Haoran's expression stiffened for a while, and he couldn't understand why Tian Honghui helped George Han in this way. Looking at this posture, he would not hesitate to tear his face with their family.

"I immediately called Father Tian and let him call the shots." Xie Haoran said.

"You can fight." Tian Honghui smiled, letting the old man know that Xie's situation would only be worse.

In the eyes of others, the Heavenly Family is helping George Han, but who knows that the Heavenly Family is actually trying to please George Han?

When the phone got through, Thomas Tian was playing chess with Wang Mao at home. Nowadays, the Basin City Go Association only has Wang Mao as the sole

supporter, so he is free, so he likes to find Thomas Tian to play, otherwise the life will be too boring.

When Thomas Tian received the call that day. Regardless of the ins and outs, after hearing only three words from George Han, he said directly: “Xie Haoran, do you want to follow in Jiang Fu’s footsteps. Or do you want to be safe?”

These words frightened Xie Haoran with cold sweat on his forehead.

Jiang Fu’s group of people are about to become beggars now. There is no room for survival in Basin City. How could he want to become the second Jiang Fu?

“If you don’t want to. Kneel down.” After Thomas Tian finished speaking, he hung up the phone.

Wang Mao settled down and asked curiously: “What’s the matter?”

“Xie Haoran’s son got married today. I don’t know why George Han is involved. He called me to call him the shots.” Thomas Tian said.

Wang Mao smiled helplessly, and said: “The Xie family is so short-sighted, isn’t it that Jiang Fu has not given enough warning to these people?”

“It’s still to blame George Han for being too low-key. There are always people who think they can play with him.” Thomas Tian laughed.

Wang Mao nodded, George Han was indeed too low-key, so he was constantly in trouble.

“Why didn’t he raise a high profile?” Wang Mao wondered.

Thomas Tian held the chess piece in his hand, and did not place the game for a long time. After a long silence, he said: “The tree attracts the wind, maybe, he is plotting something big, or maybe he is used to low-key.”

“The gentleman’s possession, this kind of talent is the most terrifying, Jiang Fu’s group of people, not injustice.” Wang Mao said.

“No matter how terrible he is, he is now Tian Linger’s elder brother. For the Tian family, there is only good but no harm.” Thomas Tian said triumphantly. In the past few days, as long as he thinks of this, Thomas Tian will feel Le blooming.

Nongjiale, Xie Haoran, who was holding the phone, had a soulful tour of Jiuxiao. He didn’t expect that Thomas Tian would have such an attitude when facing this matter. He would not help at all, but he still carried a threat.

Just thinking about the fate of Jiang Fu’s group of people, Xie Haoran began to weaken his legs. After decades of accumulation, the Xie family finally gained a foothold in Basin City. He didn’t want such a simple matter. , Put all their efforts into waste.

“Dad, what did the old man say?” Xie Yunpeng asked nervously. Now only with the help of old man can they resolve this situation. If they really have to kneel down, the Xie family’s reputation will be over.

Xie Haoran did not speak, but presented it with practical actions.

With a bang, Xie Haoran knelt on both knees.

Xie Yunpeng was stunned.

Countless people on the scene gasped.

Ji Chun flickered and fell to the ground.

She just wanted to suppress Lily Jiang's limelight and stabilize her position in the sister group, but she didn't expect things to turn into the current situation.

## Chapter 342

“hiss.”

The sound of cold air kept on the scene, and the visual impact of Xie Haoran's kneeling on everyone was like a stormy sea.

The expression on everyone's face is full of disbelief.

Who can believe that Xie Haoran actually knelt down!

George Han took Amelia Su's hand and walked to Xie Yunpeng.

Xie Yunpeng lowered his head, afraid to look at George Han.

This happened because of George Han, and Tianjia asked them to kneel down. It was not just because he rebuked Tian Linger and clapped his hands, but it further showed that George Han was unique.

At this moment. Xie Yunpeng couldn't help but complain about Ji Chun. If Ji Chun had to make things difficult for George Han, how could this happen?

“Are you afraid?” George Han blurted out simply.

Xie Yunpeng was sweating coldly, how could he not be afraid, he was so scared now that he wished that this had never happened before, otherwise the situation would not be so ugly now.

“George Han, today is my wedding. Please save me some face.” Xie Yunpeng said to George Han in a begging tone.

“Don't worry, I don't plan to make things difficult for you. Thank you.” George Han said.

How could Xie Yunpeng dare to believe that George Han would thank him? He must have something to say, this kind of person will never let him go easily.

“If it weren’t for you, I wouldn’t have the chance to propose to Amelia. Since your father is already on his knees, don’t you.” George Han said lightly.

Xie Yunpeng looked up at George Han incredibly, would he really forget it? Is he saving the abdomen of a gentleman with a villain?

This sentence is also incredible to those who watch the excitement, because no matter if you change to any one of them, you will never let Xie Yunpeng go easily. This is a good opportunity to give yourself a face. Who is willing to help? Don’t want to vent your breath? What’s more, it is George Han who has been humiliated for more than three years.

Doesn’t he have any grievances to vent in his heart?

“No, he really wants to let Xie Yunpeng go?”

“This George Han is really useless. The Heavenly Family has come forward for him. He actually let Xie Yunpeng go so easily.”

“What do you know, this means that the adults don’t care about the villains, maybe George Han didn’t put Xie Yunpeng in his eyes at all, and if you care about Xie Yunpeng, it will only make him lose the price.

The unmarried lady present when everyone was whispering. He was deeply impressed by George Han’s charm.

Before George Han proposed to Amelia Su, the tenderness he showed was enough to make people envious, but now, George Han’s atmosphere is another kind of obsessive temperament.

“I really want to marry such a man, this is the real Prince Charming.”

“I used to think that Amelia Su was wronged by marrying him, but now it seems that Amelia Su is the happiest person.”

“Why am I not Amelia Su, why can't I find such a man?”

Amelia Su, who was once laughed at, is now greeted with countless envious eyes, but she doesn't care about these, holding George Han's hand tightly, this is what she cares about most.

The eyes of others, the cynicism, and the gossip, after George Han's sentence will you marry me, all disappeared.

“Thanks, thank you.” Xie Yunpeng stammered to George Han. Although I can't believe it, it seems that George Han does not intend to continue to pester this matter, so he doesn't know what to say besides thanking him.

Lily Jiang, who had been holding a sigh of breath in his heart, walked up to Ji Chun and said condescendingly: “Ji Chun, I came to your son's wedding today with a blessing attitude. I didn't expect you to make such an arrangement to make it difficult for George Han. Amelia Su, he is willing to let you go, but I don't agree.”

George Han smiled helplessly. Although he had guessed that Lily Jiang would not give up, he still had some brain pain after the incident happened.

“Mom, let's go.” George Han said.

Lily Jiang is not a low-key master, she can't wait to take all her belongings with her to show others. This kind of character is destined to her not willing to suffer any losses.

“Where to go, things haven’t been clear yet, why did the host mention your name on purpose? Don’t you want to figure it out?” Lily Jiang said.

The host belongs to the role of watching the show. After all, he just obeyed Xie Yunpeng’s instructions. From the beginning of his joke mentality to the appearance of the Tian Family, his mood changed and he became nervous, afraid that he would be involved, but when George Han no longer pursued this. When things happened, he was more relieved.

But now. Mentioned directly by Lily Jiang, the host’s heart hung in his throat instantly.

He was just an employee of a wedding company, and he belonged to the Xie family and the Tian family. He didn’t know how he died of such cannon fodder.

Hearing Lily Jiang’s words, the host hurriedly walked over and said: “This matter has nothing to do with me, I just listened to Xie Yunpeng’s instructions.”

“What does he tell you to do?” Lily Jiang asked coldly.

The host tremblingly said: “He, he wants to play with George Han. Make George Han embarrassed at the wedding.”

Lily Jiang looked at Xie Yunpeng and continued to ask: “Who gave you this idea? What is your purpose for doing this?”

Xie Yunpeng and George Han have no grievances and no grudges. In his heart, George Han has always been a joke. It’s just a few jokes in his usual pastimes. There is no real reason for George Han.

But Ji Chun is his mother. Since Ji Chun has this requirement, he naturally has to satisfy Ji Chun.

“No one gave me an idea, and I have no other purpose.” Xie Yunpeng said.

Lily Jiang smiled faintly and said, “There is no other purpose? If it weren’t for your mother, would you not do this?”

After speaking, Lily Jiang looked at Ji Chun again and continued: “I know you are dissatisfied with me and think I have taken your limelight, but I didn’t expect it. I came to your son’s wedding with kindness and you would do it. Something like this.”

Ji Chun regrets how much she regrets now, she can’t measure it, only feels that she shouldn’t do this. It wouldn’t be the situation like this.

Even if the wedding can continue, Xie Haoran has already knelt down, which is ultimately a shame for the Xie family. Will be laughed at.

In the future, in the sister group, she would not even want to raise her head, and even be laughed at by outsiders.

“Lily Jiang, it’s my fault. You have to hold it accountable and come at me.” Ji Chun resigned, and now even Tianjia has to help George Han. She has no choice but to admit that she is unlucky.

“You envy me so you do this kind of thing, right?” Lily Jiang said proudly.

“Yes.” Ji Chun nodded.

This sentence made Lily Jiang’s face full of spring breeze, and his vanity was greatly satisfied, and his eyes scanned the other sisters, seeming to declare that she was the highest-ranking person among the sisters.

George Han sighed. Lily Jiang’s mentality of seeking superiority is incomprehensible in his life. Is the opinion of other people really that important?

People live for themselves, not for the opinions of others.

“What is so lively, I won’t miss the good show.” At this time, an abrupt woman’s voice sounded.

Outside the wedding, two women walked up, one after the other, although they were very simple in dress, their beauty instantly attracted the eyes of all men.

“f\*ck, where’s the beauty, this figure is too good.”

“This temperament, it must be the eldest lady of which family, we Basin City, when did such a beautiful woman appear.”

“She is even more beautiful than Amelia Su, she is qualified to be the number one beauty in Basin City.”

Countless sighs due to beauty sounded in the crowd.

When George Han saw the visitor, he frowned.

Han Yan!

Why does she appear here for no reason.

“It’s a shame to kneel down at an age.” Han Yan said with a cold expression when she saw Xie Haoran kneeling on the ground.

Xie Haoran raised her head angrily and said: “Who are you, who do I kneel for, does it have anything to do with you?”

“I am your savior. If you want to kneel, you also kneel for me, not this waste.” Han Yan smiled.

Tian Honghui looked at George Han and was puzzled. Where did this woman come from? She seemed to know George Han, and this sentence was very targeted, so she directly cursed George Han for trash!

## Chapter 343

“Han Yan, what are you doing?” George Han said with a gloomy face.

Hearing this name, Tian Honghui’s heart was shocked. The same surname was Han, and he didn’t put George Han in his eyes. Could it be that she was also from the Han family?

If this is a struggle within the Han family, the Heavenly family must not be involved in it.

Han Yan looked at Xie Haoran. Ignoring George Han’s words, he continued: “Are you afraid of the heavenly family? I can give you the capital to fight against the heavenly family and make you the number one family in Cloud City. Do you dare to have it?”

Xie Haoran never thought that one day he would surpass the Heavenly Clan, because in Basin City alone, the Heavenly Clan was almost a one-handed existence, even if Jiang Fu’s group of people united together to plot against the Tian Clan, he still dare not dare. Take action. They are afraid of failure, afraid that impulse will lead to nothing.

But this does not mean that Xie Haoran will not be tempted when such an opportunity arises.

However, a person who appeared inexplicably told him that he could give him the capital to fight against the heaven. How could Xie Haoran believe it easily.

“I don’t know you.” Xie Haoran said.

Han Yan smiled faintly, and said, “Of course you don’t know me for rubbish like you. To me, everyone here is rubbish and is not qualified to know me, but I am willing to give you a chance.”

Arrogant and defiant.

Every sentence and every word in Han Yan reveals a strong domineering attitude, and she doesn't put anyone in her eyes. It seems that the entire Basin City is like an ant in her eyes.

Tian Honghui should suppress Han Yan's arrogance at this time, after all, the Heavenly Family is the most powerful in Basin City, and Han Yan is the first to bear the brunt of such insults.

But without knowing Han Yan's true identity, Tian Honghui did not dare to mess around.

Inside Basin City, the Heavenly Family is aloof, but the real big family like Han Family is not something that the Heavenly Family can provoke at will.

Xie Haoran glanced at Tian Honghui secretly, this woman's arrogant words. Tian Honghui was swallowing his breath, which shows that he is afraid of the identity of this woman!

If she is really willing to give him a chance, then this is the only time when the Xie family can crush the Heavenly Family.

Xie Haoran stood up suddenly and asked Han Yan respectfully, "What do you want me to do?"

Han Yan showed a smile of contempt, this kind of trash, just a little bit of sweetness can give her her life.

"It's really boring, doesn't anyone have an opinion on what I said? I mean the entire Cloud City is rubbish." Han Yan looked expectant, and seemed to hope that someone would stand up and refute her.

Tian Linger wanted to speak impulsively, but was stopped by George Han. With the patience of the Tian family, it was absolutely impossible to be Han Yan's opponent, even if it was Basin City.

The saying that Guo Jianglong can't fight the earth snake is absolutely not applicable to the identity of the Korean family in the United States. Their hundred-year foundation in the United States, to deal with a small cloud city, is not easy to come by.

"Han Yan, don't be too arrogant." George Han said.

Han Yan looked at George Han right now, then put his eyes on Amelia Su again, and said sympathetically: "It's really pitiful. Are you not unwilling to marry this kind of rubbish? Isn't he unwilling to marry this kind of rubbish? What can it bring you?"

Han Yan's aura is very strong, even Amelia Su feels that when facing her, the pressure is stronger than when facing her grandma.

"I am very happy." Amelia Su said.

When Han Yan heard these four words, she burst into laughter, and said: "You can comfort yourself quite well. This is also called happiness. As expected, you have never seen the world."

Between the lines, Han Yan was above everything else, and it seemed that everyone in her eyes had become a stuffed bun who had never seen the world before.

"There are many definitions of happiness. If you can't feel my happiness, it can only mean that you haven't got real love." Amelia Su said.

“Love, can you eat as a meal?” Han Yan cocked her mouth in disdain, in her world. The meaning of women’s existence is used for marriage, and only when they are combined with a stronger family can they reflect their meaning, the word love. It is a joke in itself.

“You are very pitiful.” Amelia Su said with a sigh.

Han Yan’s expression became cold. She was able to marry into the royal family with only one step. Even now, there are many heirs from big U.S. families who want to marry her. She enjoys the treatment like a pearl in her palm. Some people think she is pathetic!

“What are you. You dare to call me pitiful.” Han Yan said coldly.

“You have never felt love before, so you can’t understand the beauty of love. Isn’t it pitiful?” Amelia Su said.

Han Yan looked at George Han coldly, and said, “Marry a waste, and comfort me with so-called love. You are pitiful, extremely pitiful.”

Amelia Su has never defined whether George Han is a waste. But the happiness she felt in her heart was real.

“People who have never understood love, it is useless to say more, I am pitiful to you, but you are also the same to me.” Amelia Su said.

Han Yan’s hand trembled slightly. If she were in the U.S., anyone who dared to say this to her would have slapped her.

“George Han, if you don’t know how to discipline your own women, I don’t mind helping you.” Han Yan said.

“Han Yan, if you dare to hurt her hair, I will kill you.” George Han said coldly.

When Han Yan heard this threatening sentence, she was not at all scared, but instead laughed and said: “It’s still a long time, I will let you kneel down and admit your mistakes. You will understand what is truly powerful. With a dog, you can leave you dead.”

After speaking, Han Yan turned to look at Xie Haoran. Said: “Will you be my dog?”

The word dog is very humiliating, but Xie Haoran will give up his dignity if he can be a dog above the heaven.

From the moment of her appearance to the present, this woman has been a rainbow of momentum.

Tian Honghui didn’t say a word. His fear is obvious.

After a few seconds of consideration, Xie Haoran said: “I am willing.”

“You are very smart. Next, I will give you the qualification to play with Basin City. Whether it is George Han or Tianjia, it will become rubbish in your eyes.” Han Yan said.

Since he chose to believe in Han Yan, Xie Haoran did not leave herself any retreat, and said to Tian Honghui and George Han: “The humiliation suffered today, Xie must be doubled in the future, and now I invite the two to leave my son. Wedding.”

George Han took Amelia Su away with a calm face.

Lily Jiang and Wilson Su did not stay long.

In the car, Amelia Su looked at George Han with an unusually serious expression, and she couldn’t help feeling a little worried. In her memory, George Han had

never been so serious. This shows that the woman named Han Yan is very powerful, powerful enough to make Han Han Three thousand fears.

“George Han, you can fix that woman soon. I don’t want to see her in Basin City in the future.” Lily Jiang said to George Han in a commanding tone. Han Yan’s arrogance just now made her very disgusted, so she didn’t want to See Han Yan in Basin City.

George Han smiled helplessly. Han Yan is not a three-legged cat, who can drive her away from Basin City casually. Behind her, there is the support of the Korean family in the United States.

“Mom, things are not as simple as you think.” George Han said.

Lily Jiang frowned displeased and said: “You won’t even be troubled by a woman. If she stays in Basin City, she might hurt Amelia in the future. If Amelia loses half of her hair, I will take you. ask.”

“Don’t worry, I won’t allow anyone to hurt Amelia.” George Han said solemnly.

“Three thousand, is she very powerful?” Amelia Su asked softly.

George Han took a deep breath and said earnestly, “Not only is she very powerful, her status is beyond your imagination.”

When Lily Jiang heard this, he laughed disdainfully, and said: “How powerful is it? This is Basin City, the site of the Heavenly Family. You know the Heavenly Family so well, can’t you even deal with a woman?”

Amelia Su turned her head and glared at Lily Jiang, motioning her not to speak.

If this matter is really that simple, how could George Han show such a serious look.

“Three thousand, if there is any trouble, tell me, I will work out a solution with you.” Amelia Su said.

George Han nodded and said, “Don’t worry, I can handle it myself.”

## Chapter 344

After Tian Honghui left the farmhouse, he immediately returned to the Tianjia Villa.

Thomas Tian and Wang Mao were still playing chess and looked puzzled when they saw Tian Honghui hurrying home.

“Why did you come back so soon? You have to give Xie’s some face and eat lunch.” Thomas Tian rebuked. Although something happened at the wedding, Xie’s fall was the partner of the Tian’s family. And if Xie Haoran was smart enough, he should have apologized to George Han.

After looking at Wang Mao, Tian Honghui said to Thomas Tian with a serious expression: “Dad. I have something to tell you, go to your study.”

Thomas Tian frowned, and it looked like something happened.

“Linger, come and play chess with Grandpa Wang.” Thomas Tian said to Tian Linger.

Tian Linger also wanted to participate in the conversation between the two of them, but when she saw Tian Honghui’s frosty face, she suddenly gave up the idea.

She can act unscrupulously in the sky, but for this majestic father, she is still very scared.

The two came to the study. After Tian Honghui closed the door, Thomas Tian couldn’t wait to ask: “What’s the matter? Did George Han forgive Xie’s family?”

If George Han has opinions on the Xie family. To destroy the Xie family, even if it would cause some loss to the Tian family in disguise, Thomas Tian would do what George Han meant.

Now George Han's position in the Heavenly Family, especially in the heart of Thomas Tian, occupies a very important position. As long as it can meet George Han's requirements, Thomas Tian will do whatever it takes.

"Dad, do you know a person named Han Yan?" Tian Honghui asked.

"Han Yan? Never heard of it." Thomas Tian frowned and said.

"Does the Han family really only have two sons and no daughters?" Tian Honghui continued to ask.

"En." Thomas Tian said affirmatively: "When the twins were born, they made a sensation throughout Hillwood City. No one knew about the people who visited the hospital, such as the crucian carp in the river."

Tian Honghui shook his head in confusion. Since the Han family does not have a daughter, where did Han Yan come from?

Tian Honghui narrated to Thomas Tian exactly what happened at the wedding, and Thomas Tian also found it strange.

"This Han Yan, if it weren't for the Han family, she wouldn't have dared to have such an arrogant attitude." Thomas Tian was full of suspicions, very puzzled by Han Yan's identity.

"I can see that George Han is afraid of her." Tian Honghui said.

Thomas Tian rubbed his temples, thought for a long time, recalling all the information he knew about the Han family, but apart from the twins, there was no impression of Han Yan.

"Is it an illegitimate daughter?" Thomas Tian doubted, but after saying this, he denied himself again: "No way, if she is an illegitimate daughter, what right does

she have to treat George Han as rubbish? Even if George Han is an abandoned son of the family, she is a daughter. With Han Jun in jail, she is not qualified to compete with George Han for the family.”

“Dad, for us, it doesn’t really matter who she is. What is important is how we should choose now.” Tian Honghui said, this is the purpose of his anxious going home.

You don’t need to go into details about Han Yan. For the Heavenly Family, they only need to know one thing, that is, this woman is not easy. The confrontation between her and George Han did not fall in the slightest, so the Heavenly Family will face one. Life and death decision.

Continue to stand in line with George Han, and get out of this matter as soon as possible to avoid being caught in the fish pond.

How could Thomas Tian not know what Tian Honghui said, but without knowing Han Yan’s identity, he had no basis to make a decision.

“Dad, let me say something bad. Although Han Yan is a woman, I feel that her momentum and confidence are stronger than George Han.” Tian Honghui reminded.

“I know what you want to say, but I know George Han. He can do anything to protect Amelia Su. His fall means that Amelia Su has fallen. How could he allow this to happen.” Thomas Tian said that he understood what Tian Honghui meant. Tian Honghui did not want to take too much risk. In this case, the rapid retreat was the wisest choice.

But whether they can really retreat with their whole body is unknown, but one thing is certain, that is, once they retreat, their relationship with George Han will break.

“Are you still willing to believe him?” Tian Honghui said.

Thomas Tian did not nod lightly, his expression was extremely serious and solemn, because this decision determines the future of the heavenly family, whether it is life or death, just in one thought.

Tian Honghui was not in a hurry, waiting quietly for Thomas Tian’s answer, he knew. Such a decision is very difficult for Thomas Tian.

After a long time, Tian Honghui stood up, smiled and said to Thomas Tian:  
“George Han is already Tian Linger’s brother, isn’t it?”

Tian Honghui sighed, although Thomas Tian did not say clearly. But the meaning of his remarks is already very obvious.

“Dad, no matter what decision you make, I will support you.” Tian Honghui said.

“We just need to stand behind George Han and watch it quietly in this fight of the gods.” After saying that, Thomas Tian showed a wry smile and continued: “In the eyes of Basin City people, the heavenly family is already It is an unattainable existence, a figure standing on the top of a mountain, but only we know it. This position is just the foot of a higher mountain.”

“Who said it wasn’t.” Tian Honghui sighed helplessly. Cloud City is just a small place in the huge Huaxia, not to mention the territory of the entire world, and the glory of the heavens is more powerful in those. In the eyes of humans, it is nothing.

After George Han returned home, he shut himself in the room and faced Han Yan and the entire Korean family behind her. For the first time, George Han felt a sense of powerlessness. He who was accustomed to controlling the situation has now lost this kind of control. He knows that the American Han family will definitely invest a lot of capital in Basin City, and even the entire China. .

He holds tens of billions of assets. In the eyes of ordinary people, this is an astronomical figure that is unimaginable, but for the Koreans in the United States, tens of billions are just a drop in the bucket. With such huge capital settled in, George There is no chance to resist.

The Su Family Company, which has just emerged, is likely to collapse in an instant, and he can only watch this happen.

In the living room, Lily Jiang still had an indifferent expression, and did not realize George Han's worry at all.

“The way he looks now is like when he first entered our Su's house, he was so embarrassed that he didn't dare to say anything, even afraid of a woman. It's too shabby.” Lily Jiang said disdainfully.

Although Amelia Su could not understand George Han's feelings, she knew that being able to make George Han so serious was enough to show that Han Yan was difficult to deal with.

Facing Lily Jiang's attitude of despising George Han, Amelia Su reproached and said: “Mom. When is it, you are still in the mood to talk coldly.”

“What is cool talk, I didn't say cool talk, I just don't dispute it, he should also show his masculinity. How can he be afraid of a woman?” Lily Jiang said lightly.

“You think Han Yan is too simple, Jiang Fu and those people are powerful enough, are George Han afraid of them? This time George Han is so worried, there must be a reason.” Amelia Su said.

The incident in People's Square made Lily Jiang amazed. She did not expect this incident to end with Jiang Fu and others kneeling and going bankrupt. This shows how powerful George Han is.

But since he is so powerful, isn't it easier to deal with a woman?

With Lily Jiang's pattern, she can only think of the situation in Basin City. She believes that Basin City belongs to the heavenly family, and George Han has such a good relationship with the heavenly family. It is naturally easy to defeat an outsider. She does not I would think of the forces behind Han Yan, and couldn't imagine what the world outside of Cloud City was like.

This is called long hair and short knowledge. The thoughts she thought in her heart were extremely ridiculous.

“What else could be the reason? Maybe he just saw Han Yan's beautiful appearance and he was reluctant to start. Amelia, you have to be optimistic about him, if he cheats, you have to let him go out of the house.” Lily Jiang dismissed it. Said.

## Chapter 345

Amelia Su heard Lily Jiang's words, her hair exploded in an instant. This is the time. Lily Jiang actually wanted to make George Han Jingshen out of control. It seemed that in her eyes, there was only money and nothing else.

“Mom, how can you think like this. George is trying to solve the trouble, but how do you want him to go out?” Amelia Su gritted her teeth.

Facing Amelia Su's angry attitude, Lily Jiang didn't care at all, and said: “I'm just in case, who knows what he's thinking in his mind, my dear daughter, don't trust a man too easily, in the world. Are there any bad guys?”

Amelia Su took a deep breath, her scalp numb with anger, she knew exactly what kind of man George Han was.

It is true that there are very few nasty men in the world. But this line depends on whether you can control yourself.

Amelia Su believed that even if George Han had a lecherous side, he could well control this boundary.

“Mom, I warn you, don't say anything like this in the future.” Amelia Su said coldly.

Lily Jiang was upset at the time, and said: “I am your mother, would you talk to me in this tone and warn me?”

“Even if you are my mother, you can't slander Three Thousand in this way.” Amelia Su looked at Lily Jiang with a torch.

Seeing Amelia Su's tough attitude, Lily Jiang didn't dare to fight too much, but said: “I'm for your own good. Do you want to listen to me? It's up to you.”

Amelia Su smiled indifferently. It is always this sentence for your own good. The world doesn't know how many people are inexplicably bound by these four words. When they said this sentence, didn't they think about the feelings of the other party?

“You elders, you are willing to use these four words to intervene in other people's lives, and you are still justified and confident.” Amelia Su said with disdain.

“Is it for your own good?” Lily Jiang said angrily.

“Is it for my own good, or for your desire to control. Don't you still know?” Amelia Su retorted.

Lily Jiang didn't know how to refute this, and even she herself didn't know whether what she did was to satisfy control, or was it really for Amelia Su.

In the room, George Han who racked his brains suddenly received a call.

Looking at the caller ID, George Han's first thought was to hang up. He is now exhausted, but he is not in the mood to deal with these peach blossoms.

But after thinking about it, George Han still pressed the answer button.

“What are you doing?” George Han asked.

The call was made by Qi Yiyun. Under Dong Hao's investigation at all costs, she now knows the identity of George Han.

“I'm at Kaiwei Hotel and want to meet you.” Although Qi Yiyun's current image Han Yan and Han Feng may not be able to recognize him, Qi Yiyun changed his place to stay to be on the safe side.

“I'm not interested in you.” George Han said lightly.

“I know.” Qi Yiyun smiled miserably. With her appearance, she was rejected by George Han several times. The degree of her inner injury was very serious, but now the situation is not always certain. She doesn’t necessarily have to get George Han, as long as she can cooperate with George Han, it can also solve the troubles of the Qi family.

“Since you know, don’t contact me in the future, I don’t want to make Amelia Su sad.” George Han said.

“Han Yan returned to China for you. Although I don’t know the reason, you, the abandoned son of the Han family, are now facing a lot of trouble, and I can be your helper.” Qi Yiyun said.

This made George Han frowned. Qi Yiyun was able to utter the four words Han family abandoned son, indicating that she already knew her identity, and wanting to investigate this is not something ordinary people can do.

George Han had doubts about Qi Yiyun’s identity, but George Han could not determine who she was.

“Why are you helping me?” George Han asked.

“I’ll wait for you. After I come, I will tell you everything.” Qi Yiyun finished speaking and hung up the phone.

George Han, who was holding the phone, hesitated. This might be a good opportunity to find a way. But Qi Yiyun would never simply help him, George Han was very sure of this.

When she walked out of the room, George Han made a decision and planned to meet Qi Yiyun. No matter what she wanted to do, at least George Han could know her identity.

“I’ll go out.” George Han said to Amelia Su.

Amelia Su walked up to George Han nervously and asked, “Is something wrong?”

“No, I’m going to meet a friend. Don’t worry.” George Han said with a smile.

Amelia Su knew that George Han was comforting her. How could it be possible for George Han to be so serious.

But as a woman, what she can do now is to support George Han silently.

“Be careful.” Amelia Su said.

“Wait until I come back to finish my meal.” George Han smiled.

As soon as George Han left the house, Lily Jiang said strangely: “You can be careful, maybe he is going to the hotel to have a private meeting with someone.”

Amelia Su stared at Lily Jiang angrily, and said dissatisfied: “Mom. Do you have to find ways to destroy our relationship?”

“I’m just reminding you that I don’t want you to be empty and financially empty.” Lily Jiang said confidently.

Amelia Su sighed helplessly, arguing with Lily Jiang about this kind of problem really caused her a headache.

George Han drove to Kaiwei Hotel, and there was a person standing at the door. The familiar appearance and figure shocked George Han’s heart.

Isn’t this the guy who hit the twelve swords into the hospital in the boxing ring?  
How could he be here!

“Long time no see.” Dong Hao walked up to George Han with a cold expression. As long as he wanted, he could kill George Han with a single thought, but he couldn’t.

“I didn’t expect you to be Qi Yiyun’s subordinate, which shocked me.” George Han said.

Originally, he had a certain guess about Qi Yiyun’s identity, but now, Dong Hao’s appearance completely broke George Han’s previous imagination, obviously. Qi Yiyun is more powerful than he thought, and more than a little bit.

“Miss won’t let me move you, otherwise you would have died in my hands.” Dong Hao said coldly.

George Han nodded his head and did not deny that he was able to beat Twelve Swords into the hospital. Killing him is easy.

“But you dare not lead the way.” George Han said lightly.

Dong Hao clenched his fists in an instant, and George Han ignored his attitude, full of naked provocation. He wanted to beat George Han to death with one punch, but just as George Han said, he didn’t dare to do so.

“Don’t pretend, if you dare not do something. Why struggle?” George Han continued.

Dong Hao snorted coldly and said, “Sooner or later I will find a chance to kill you.”

“You like her? So when facing her, you are very unwilling to give me a hug?” George Han deliberately angered Dong Hao.

Donghao's killing intent emerged, and gritted his teeth and said, "The young lady didn't give you a hug, it's just that you are valuable."

Hearing these words, George Han laughed and said, "It turns out that she just wants to use me."

Dong Hao was taken aback, almost crushing his posterior molar with hatred, only then did he understand why George Han wanted to irritate him on purpose.

If Qi Yiyun knew that he had said this, Qi Yiyun would never forgive him.

"This is just my own guess, it has nothing to do with Miss." Dong Hao said.

George Han smiled but walked into the hotel.

In the elevator, Dong Hao mentioned the incident again and said: "My wild guess, I hope you didn't take it seriously."

George Han couldn't help but laughed, and said, "Have you never heard the sentence "Darker and darker"? The more you explain, the more you explain your guilty conscience.

"I have no guilty conscience, I just don't want you to misunderstand Miss." Dong Hao said.

"Don't worry, I didn't misunderstand her, because I believe you are telling the truth." George Han said. Talking to this kind of person who only has the strength value and has no IQ at all, George Han feels quite relaxed, although Donghao can He recruited and killed him, but in terms of Scheming City Mansion, George Han was able to play Donghao round and round at will.

Dong Hao's current mood, killing George Han a thousand times, couldn't vent his anger, but he couldn't do that.

When the elevator reached the floor where Qi Yiyun was, Dong Hao said: “Miss is in the room at the end of the corridor, go by yourself.”

“Don’t worry, even if you don’t go, I will tell Qi Yiyun what I just said.” George Han said with a smile.

## Chapter 346

In the room, Qi Yiyun, who had specially painted light makeup and put on a dress, paced back and forth, and kept looking in the mirror in the bathroom. Qi Yiyun, who had always been very confident about his appearance, seemed very nervous at this time.

It was not the first time she met George Han, but every time she met, Qi Yiyun felt like an ugly daughter-in-law sees her in-laws, as if there was a small deer bumping into her heart.

When she heard the sound of footsteps stopping at the door, her nerves were tense, and the doorbell rang. It made her a little dazed.

After standing at the door and taking a deep breath, Qi Yiyun opened the door.

George Han walked into the room without any emotion in his cold eyes.

Qi Yiyun let out a heavy sigh. The girl is happy and pleasing to herself. She was specially dressed up, but she couldn't let George Han look at it. Although this was something she could have expected, it happened in her heart. Some can't accept it.

“Can't you even look at me?” Qi Yiyun said in dissatisfaction. She has no feelings for George Han, but she feels that her meticulous dressing should at least be recognized by George Han's eyes. Such ignoring is tantamount to an insult to her.

“How do you want to use me? Let's just say it.” George Han said lightly.

Qi Yiyun frowned her eyebrows and said, “I didn't use you, I just wanted to cooperate with you.”

George Han sat on the sofa and then glanced at Qi Yiyun. He had to admit that her figure and appearance are extremely attractive to men, but to George Han, she is nothing but a beautiful woman. , Nothing more.

In George Han's heart, no one can compare with Amelia Su's status. His relationship with Amelia Su did not happen because of Amelia Su's beauty, but because of the suffering they suffered from each other over the past three years.

After finally waiting for the day when the clouds were lifted, how could George Han shake Amelia Su's feelings because of Qi Yiyun's beauty?

"Your subordinates have made it very clear, you don't need to quibble." George Han said.

Qi Yiyun's face suddenly sank, and gritted his teeth and said, "What did he say?"

"He said that you gave me a hug, not like me, but wanted to use me, but you don't need to blame him, this is from my side, although his skills are very powerful, but his brain is still lacking. "George Han said with a smile.

Qi Yiyun knew that Dong Hao had never wanted her to get too close to George Han, but Qi Yiyun also believed that Dong Hao would never say these things casually. It must be George Han who used the trick to make Dong Hao unguarded. Said it.

"Yes, I did want to use you before, but now, we have a common enemy, so we can cooperate." Qi Yiyun said.

"Common enemy?" George Han said, "Your so-called common enemy, is Han Yan?"

"It's the entire Korean family in the United States." Qi Yiyun said.

“It seems that your family is in the U.S. It’s not simply doing business, right?” George Han smiled. Qi Yiyun’s identity could not be investigated in Basin City. This shows that they hide extremely deeply, and the deeper they hide, The more it explains her not easy.

“Yes, the Qi family is in the U.S. Chinese area and has a lot of influence, and even has some connections with the royal family, but compared to the Han family, there is still a big gap.” Qi Yiyun explained.

“Amelia Su and Shen Lingyao were so miserable that you were deceived. I heard Amelia said that in the past, when you had no money at school, you spent both of them.” George Han said.

“It’s just that they mistakenly thought I didn’t have money. I never said that I had no money.” Qi Yiyun said. During school, she ate very mediocrely, but this was what she liked, but Amelia Su and Shen Lingyao misunderstood it as saving. , So these two people often buy her some delicious food. Although these foods are eventually dumped into the trash can, Qi Yiyun still remembers this love.

Had it not been for the appearance of George Han, Qi Yiyun would never destroy the relationship between the three of them.

In fact, there is a problem Qi Yiyun thought about for a long time. When she and George Han had a common enemy, she didn’t have to destroy the relationship between George Han and Amelia Su. As long as they reached a cooperative relationship with George Han, then Qi family The trouble can be solved with the help of George Han.

However, an excellent man is placed in front of her. For Qi Yiyun, who has a very demanding selection criteria, she still cannot give up George Han in her heart. Even if she does not love it now, one day Qi Yiyun feels that she will fall in love with the one in front of her. the man. And the sister relationship between her and Amelia Su is destined to be fragmented.

“What hate does the Han family have with you?” George Han asked.

“The Han family is just a helper for the Qi family’s enemies, but if you can solve the Han family, Qi family’s opponents, there is nothing to be afraid of. Although I don’t know why Han Yan came to you, but from the United States that I know The Han family, they will definitely make very excessive demands on you.” Qi Yiyun said.

George Han smiled helplessly and said: “It’s not just too much, it’s simply unreasonable. They asked me to change my surname. How could I agree to such an overbearing request.”

Qi Yiyun looked astonished. She guessed countless possibilities, but she never expected that the Han family would have such a request.

The world is big. There are so many people with the surname Han, can they still arbitrarily let everyone change their surnames?

“Because you have the blood of the Han family, are they afraid that you will lose face?” Although this is a ridiculous reason, Qi Yiyun could not think of other reasons.

“Not bad.” George Han nodded and said, “But the Han Family has long forgotten about this matter, and never thought of clinging to the relationship between the Korean family in the United States, and I don’t know why they did this time. decision.”

This is something that George Han has not figured out. After all, Grandpa Tai has been back to China for many years, and he has never contacted the Korean family in the United States. He knew there must be some reason, but George Han couldn’t figure out what it was.

“Have you ever thought that this matter is related to your brother?” Qi Yiyun said.

“It seems that you have a deep understanding of the Han family. You can find out in such a short period of time. You didn’t spend less money?” George Han smiled.

“For me, as long as the Qi family can get through this difficult situation, no matter how much money is spent.” Qi Yiyun said firmly, she has never done anything for the Qi family, but this time, since she helped the responsibility resist On the shoulders, it must be completed.

“If it is him, this matter will involve another person. After all, he is still in jail, and these things are not something he can accomplish.” George Han said, Shin Weng is indeed likely to do so, George Han had also conceived it before, but the reason why it wasn’t definitely was Shen Weng, because he couldn’t see that Han Jun could get any benefits in this matter.

Wouldn’t it be true that the Korean Han family in the United States would put Han Jun in their eyes if they did not put him in their eyes? This is obviously impossible.

“It seems that your brother is indeed more popular than you. Even if your grandma is dead, someone is still willing to help him.” Qi Yiyun said.

George Han nodded undeniably, Han Jun’s status has always been higher than him, he is like a stocked orphan. Even if he lives in the Han family compound, no one will take him seriously. Even the servants in the family will make irresponsible remarks behind their backs, saying that he, the young master, is a trash and will have no future. He will even be driven out of the Han family.

“But he won’t get any benefit by doing this.” George Han asked in confusion.

Qi Yiyun smiled like a flower, more beautiful, walked up to George Han and sat down, putting her slender and white legs together. Stepping on crystal high heels, the curves are extremely s\*xy.

“Some people do things not because they want to gain something for themselves, but see what you lose. They won’t get any benefits, but they can see that you lose a lot. Isn’t that a good thing for him?” Qi Yiyun smiled Tao.

These words completely awakened George Han. The problem he had been struggling with was solved easily, and this statement was absolutely valid. Given the character of Shen Weng and Han Jun, they did nothing wrong.

As long as he loses what he has now, Shin Weng still has the ability to make Han Jun come back, and George Han knows that Shin Weng’s biggest purpose is actually to avenge Nangong Qianqiu.

## Chapter 347

“How about, do you want to cooperate with me?” Qi Yiyun asked when George Han was silent.

George Han stood up suddenly, walked to the window, and said faintly: “I don’t want Amelia to be sad. Since the Korean family in the United States is also your enemy, cooperation is not impossible, but you must remember that under any circumstances I can’t do anything that makes Amelia Su sad. Otherwise, I will never let you go.”

Listening to George Han’s stern voice, Qi Yiyun felt a faint pain in his heart.

Is it just for Amelia Su?

“Could it be that I am in your heart, can’t have a little weight, do you know how many men like me, for them, to be able to kiss Fangze is a great blessing in life, and now, this opportunity is in front of you.” Qi Yiyun Said unwillingly.

George Han smiled indifferently and said: “You are indeed beautiful, and beauty can impress most men. But I am an exception. My love has been given to Amelia. In this life, I will never be tempted by other women.”

After speaking. George Han left the room.

Qi Yiyun was sitting on the sofa with a pale face, her hands covering her aching chest. This kind of merciless rejection shouldn’t happen to the excellent her. When she took off her glasses, she surprised the world, but she never did Thinking of it, George Han didn’t care about it at all.

“Dad said, the more difficult it is to climb the peak, the more fulfilling you will feel after you climb, George Han, I don’t believe you can really stay unmoved, you

are just a common man.” Qi Yiyun gritted his teeth and said to himself. Language, obviously very unwilling to this matter, and has no plan to give up.

At this time, Dong Hao pushed the door and entered, Qi Yiyun suddenly raised his head and looked at Dong Hao coldly.

Dong Hao lowered his head for the first time and explained: “Miss, I accidentally missed it. If you want to blame me, Dong Hao has no complaints.”

“This is the last time I warned you, otherwise you will go back to the United States.” Qi Yiyun said.

“Yes.”

For the next half month, George Han accompanied Amelia Su on a morning run every day. Picking up Amelia Su to and from get off work, everything seemed unsurprising, but George Han knew that this was just the peace before the storm.

During this period of time, the Peninsula Hotel was very busy, and every day there were countless luxury cars parked at the door. They all came to see Han Yan, and even people in the city bureau, but no one knew what they had talked about.

One day after half a month, a heavy news smashed the calm Basin City into a stormy sea.

The east of the city will build a new city, not corresponding to the west of the city, but competing against each other. The investment will far exceed the west of the city. For a small cloud city, the establishment of two new cities will definitely have one of them. Become a stepping stone.

The Korean family of the United States is also officially listed on the Han Group in Basin City. Han Yan, as the chairman of the Han Group, speaks publicly, and will use the power of the Han family to drive the development of the entire Basin City.

The living standard has greatly improved, for a time, Han Yan's words. It has become a sought-after object among the masses of Basin City, and many people even regard Han Yan as a belief.

In the weak real estate, George Han appeared in Zhong Liang's office with a face like water.

Although he had expected Han Yan to intervene in the situation of Basin City, he did not expect that Han Yan would be so aggressive.

The new urban area in the east of the city is now only in the stage of area planning, but it has received the support of almost the entire Cloud City. Whether it is ordinary people, businesses, or official personnel, they are now involved in this matter, and the momentum is already The west of the city is completely incomparable.

"Young Master, even many workers have run away on the construction site in the west of the city. What should we do now?" Zhong Liang asked George Han.

"Stop construction and stop losses in time." George Han said.

Zhong Liang's heart was shocked. The investment in the Chengxi project has been huge. If construction is stopped at this time, all these losses will be irreparable.

"Little Master, are we going to give up?" Zhong Liang said unwillingly.

"This is just their initial investment. Next. There will be a lot of capital pouring into Cloud City. With the funds I have now, I can't compete with her at all."

George Han took a heavy breath. It is the power of money, which he does not want to admit. No matter how many methods he has to turn the tide, any strategy will appear weak when capital enters the market continuously.

Whether it is ordinary people or those businessmen, they can only see the benefits, and the east of the city can bring them greater benefits, who will put the west of the city in their eyes?

More importantly, even the official attitude is now more willing to support Chengdong, which leaves George Han with no choice.

Zhong Liang gritted his teeth. Said: “This Han group is like a god from heaven, deliberately targeting us.”

“Her appearance itself was aimed at me, and now I can only take one step and look at it one step at a time.” George Han didn’t think of a way, nor did he want to be in such a passive situation, but he had no way to solve the immediate situation Dilemma.

For him, money is just a bunch of unimportant numbers, but this sentence is only used in life, and what he is facing now. It’s the overwhelming pressure from the business world, and this little money seems a little insignificant.

The Korean family of the United States has a century-old history. How can he turn the tide just with the tens of billions in his hands?

At this time, the office door was pushed open, and the charming secretary walked in in a panic, and said to Zhong Liang, “Brother Zhong, there is a woman named Han Yan who wants to see you.”

Hearing this name, Zhong Liang was even more furious. Just about to say nothing, Han Yan had already walked into the office, with Han Feng and Han Qing beside him.

Han Feng looked dull, wishing to walk sideways like a crab.

“Except for George Han, everyone else will get out.” Han Feng said arrogantly.

Zhong Liang glanced at George Han, he would not listen to Han Feng, unless it was George Han who asked him to go out.

George Han glanced at the secretary and motioned for her to leave first, but Zhong Liang was left by George Han.

“Don’t you understand human words? Let you get out.” Han Feng said as he looked at Zhong Liang coldly.

“Or try the dog barking, maybe he can understand it.” George Han said lightly.

“Trash, you said I’m a dog?” Han Feng looked at George Han with gloomy eyes.

“I didn’t say that. But if you are willing to admit it, of course I have no objection.” George Han said calmly.

Han Yan stopped Han Feng, who was about to get angry. The aristocratic eldest lady’s temperament was fully manifested at this moment, and said to George Han: “George Han, you still have a chance now. My request is very simple, I want everything. People in Huaxia know that you are not worthy of the surname Han from now on, whether you are on TV or the Internet.”

“Han Yan. Why do you think I will promise you?” George Han said.

“Because I have control of the situation in Basin City now, and you such a waste, is there still room for resistance?” Han Yan smiled lightly, her eyes full of contempt, and now it’s just her first step to deal with George Han That’s it. George Han had no power to resist before the real capital appeared. Apart from surrendering, in Han Yan’s eyes, George Han had no other choice.

“We still have more time to play.” George Han said.

Han Yan's eyes were cold. The reason she came to George Han was that she didn't want to delay too much time in China. The Chengdong project, even if it spends a lot of money to hire more people, will take at least two years to complete. After staying in China for two years, she would collapse. Han Yan felt that it was hurting herself to breathe more air in such a garbage place.

“What are you playing with me? Do you have such strength? Even if you can inherit all the assets of the Han family, in my eyes, it is nothing more than a bunch of pocket money.” Han Yan said disdainfully.

“Trash, do you know what really rich is? You don't think that there are hundreds of millions of people who are rich.” Han Feng laughed at George Han disdainfully.

Han Qing also said smoothly from the side: “Master Feng, he is an inexperienced person, let alone hundreds of millions, even tens of millions is a lot for him.”

Han Feng smiled faintly, and deliberately asked Han Qing: “Xiao Qing, how much is the island I bought last time?”

“Master Feng, only 1.3 billion.” Han Qing said with a smile.

Han Feng raised his eyebrows and looked at George Han, and said, “Trash, do you have such strength?”

## Chapter 348

“How can the waste have strength, Master Feng, you are really joking.” Han Qing covered his mouth and chuckled.

Old God Han Feng nodded his head and said, “That’s true, how could I ask such a stupid question.”

“George Han, this is my last chance for you. I hope you can think clearly, otherwise, you won’t have a way to survive.” Han Yan said as she came to Basin City. It’s not to force George Han into death. For Han Yan to die a waste, there will be no sense of accomplishment. It is Han Yan’s desire to complete this matter as soon as possible and leave China.

But if George Han insists on having a hard bone, Han Yan doesn’t mind giving her some blood lessons.

Seeing the three people leave the office, George Han hit the desk with a punch.

The solid wood desk trembled due to the tremendous force, and some cracks appeared on the desk.

Zhong Liang was startled, but he personally picked and bought this desk. It was so powerful that the crack was smashed by the young master’s punch!

“Young Master, they are too hateful, do they need other methods to deal with it?” Zhong Liang said gritted his teeth.

George Han knew what Zhong Liang meant. But even Qi Yiyun has a master like Donghao around him, how could Han Yan not have it? Therefore, George Han gave up this idea a long time ago. He was afraid that doing so by himself would affect Amelia Su’s safety.

“According to what I said, the city will stop work.” After speaking, George Han checked the time and almost had to pick Amelia Su from get off work.

When George Han left, Zhong Liang touched the crack on the desk and was frightened. If he hit someone on his body, he would be half a waste of life.

He was treated as a waste by the Han family, what has he experienced over the years?

“Young Master, I hope you can survive this matter. After so many years of tolerance, even I don’t want to see it go to waste.” Zhong Liang said silently.

When he came downstairs at Su’s company, George Han did as usual. After parking the car, he leaned against the car and smoked. Because Amelia Su was afraid of the smell of smoke, he would try to avoid Amelia Su when he smoked and would never be in the car. Any smoke smell left in it.

He glanced at the commissary, and since Mo Yang became the boss, George Han has lost one place to pass the time. Whenever this happened, George Han regretted it a little. If it hadn’t been for Mo Yang to come back out of the arena, at least there would be someone chatting with him, so it wouldn’t be so boring.

Seeing Amelia Su coming out of the company, George Han hurriedly threw away his cigarette butts, breathed a few times, patted his clothes, and tried to dissipate the smell of smoke.

“How about it, nothing happened in the company today?” After getting on the bus, George Han asked Amelia Su.

Amelia Su Yu Guang secretly looked at George Han and said: “The company is nothing, but the situation in Basin City is a bit scary. The Han Group is coming and the Chengxi project is probably going to be cut. Does your classmate know about this? “

Speaking of classmates, George Han had a headache, because the legendary classmate was himself, and he hadn't figured out how to explain this to Amelia Su.

"This... let's talk about it at home." George Han said.

Back to the mountainside Villa, Lily Jiang and Wilson Su were both in the living room. This is not common. Since their family became rich, Lily Jiang usually played cards outside at this time. And Wilson Su had made an appointment with a drinker to go out for a drink.

"Mom, is there anything wrong with you?" Amelia Su asked Lily Jiang.

"The Han group is making such a terrible disturbance. Mom is uneasy. She doesn't even have the thought of playing mahjong. George Han, you should quickly find a way to deal with Han Yan, don't tire our family." Lily Jiang said to George Han, With a hint of blame in his tone, as if George Han had done something wrong in this matter.

"Three thousand, who is this Han Yan? How could she be so rich?" Wilson Su asked puzzledly.

The worry of these two people is very selfish. They are just afraid of affecting their current lives. As for what George Han is facing, they don't care at all.

"Han Yan came back from the U.S. The Korean family in U.S. has a history of one hundred years, and the assets of the Han family are beyond your imagination." George Han said.

"If you can't deal with it, go to a helper. Isn't the Chengxi project a weak water real estate. Instead, you hurry up to find Zhong Liang for the total. Isn't the weak water real estate afraid of the impact of this incident on the west of the city?" Lily Jiang Staring at George Han and complaining that George Han was not doing things badly, he couldn't even think of this way.

George Han smiled bitterly and glanced at Amelia Su. This lie seems to be time to tell Amelia Su, continue to hide it, I am afraid there will be no such opportunity for confession.

“Amelia, in fact...I am actually the boss behind the weak water real estate.”  
George Han said.

“what!”

“what!”

Lily Jiang and Wilson Su stood up from the sofa, looking at George Han strangely.

The weak water real estate turned out to belong to George Han!

This means that Amelia Su had to be the person in charge of Weak Water Real Estate before, but George Han made secret arrangements.

Lily Jiang always believed that Amelia Su was excellent, so Zhong Liang was valued, and even thought that George Han would have more capital to eat soft food in the future. And I hated George Han more.

But now, this thought has given Lily Jiang a head start.

All she thought was a joke. The man who ate soft food in her eyes had already controlled everything.

All the changes in the Su family came from this man?

“What are you kidding? How could the weak water real estate be your company?”  
Lily Jiang said unwillingly.

Wilson Su also had the same attitude. After so many years of useless work in the Su family, he suddenly became the behind-the-scenes boss of a big company. How could this convince him?

“George Han. Don’t talk nonsense, isn’t the weak water real estate owned by the Han Family? What does it have to do with you.” When this sentence was uttered, Wilson Su was completely stunned, and the strong shock in his eyes made his eyes. All are slightly protruding.

Han Family, George Han!

A crazy idea was born in Wilson Su’s mind, so that in an instant, Wilson Su got goose bumps.

“You...you, you won’t be from the Han Family, right?” Su Guotao felt his scalp numb and his legs soft.

“The woman named Mary gave the wedding gift to Amelia because it belonged to her?” Lily Jiang also wanted to understand some things at this time. She used to think that Mary was wealthy, so she didn’t care about that. Money would be handed over to Amelia Su, but now that he knew the truth, Lily Jiang’s worldview was about to be overturned.

“Not bad.” George Han nodded and admitted.

Lily Jiang and Wilson Su collapsed on the sofa at the same time.

The young master of Han Family, who has been a poor son-in-law in their house for several years, was pointed and scolded by them, and was humiliated and looked down upon by them. The past, like a marquee, constantly resurfaced in their minds.

At this moment, Lily Jiang finally felt what it meant to be frightened. She knew that if George Han wanted to care about all this with her. The grass on her grave may be two meters tall.

George Han didn't even look at the reaction of the two of them. He kept his eyes on Amelia Su, because in his world, only Amelia Su was worthy of attention. It doesn't matter what other people think of him.

But what surprised George Han was that Amelia Su did not react as much as Lily Jiang and Wilson Su, but rather seemed very calm.

“Actually, I have already guessed this possibility.” Amelia Su said with a smile.

“Why? When did I show my feet?” George Han asked in confusion.

“How can my ability make the weak water real estate look good. And with my position in the Su family, I can't afford the position of the person in charge. Harry Su is more qualified than me, and your classmates never show up. More importantly, the company name of Weak Water Real Estate.” Amelia Su paused, and continued: “Weak Water 3000, right?”

George Han smiled helplessly. He thought he was hiding well enough, but he didn't expect Amelia Su to guess it. This made him unexpected, and said, “Weak George, only marry Amelia.”

In George Han's opinion, Amelia Su at this time should be a little moved, but in fact it is not the case. Amelia Su walked to George Han, grabbed George Han's ear, and said fiercely: “Let you lie to me,” He told me it was a classmate.”

## Chapter 349

George Han screamed with pain, Lily Jiang and Wilson Su sitting on the sofa looked terrified.

If they did not know the identity of George Han before, they would be happy to see this scene, but now, knowing the identity of George Han, Amelia Su's behavior gave them a sense of horror inexplicably.

This is Young Master Han, how can he pull his ears casually!

Lily Jiang quickly walked to Amelia Su. Said: "Amelia, what are you doing, let go quickly, he is the young master of the Han family."

Amelia Su didn't let go, but didn't use much effort, and said, "What about the Han family, isn't it my husband?"

Lily Jiang was taken aback by this sentence, right. Although he is the young master of the Han family, he is also Amelia Su's husband and her son-in-law!

The young couple flirted and cursed, and she followed up with what she did.

Back to the sofa with a smile. Lily Jiang was not so nervous and afraid in her heart. She was very happy. George Han changed from a waste image to become the young master of the Han family. For her, this was something to show off.

If you let those sisters know, they wouldn't be scared to be foolish?

Lily Jiang couldn't wait to see the expressions of those sisters after they knew George Han's true identity.

"Are you wrong?" Amelia Su said to George Han.

In this case, George Han dared not admit his mistake, and repeatedly said: “I know, I know that I was wrong.”

Amelia Su let go of George Han, and she looked angry, like a frog calling.

“Who is this Han Yan? Since you are the young master of the Han family, why should she target you?” Amelia Su asked.

“Han Yan is also from the Korean family, but she is from the U.S. Korean family. After returning to China from the U.S., my grandfather broke off with the U.S. Korean family. I don’t know exactly what happened. Back to China for development, I didn’t get the approval of other people. So now, the Han family in the United States regards the Han Family as a branch of the family.” George Han explained.

“The two families have not been in contact for decades. This time, for some special reason, Han Yan returned to China and used a very absurd reason to deal with me.” George Han continued.

“How ridiculous?” Amelia Su asked curiously.

“It’s so ridiculous that I’m afraid you won’t believe it. The Koreans in the US are afraid that I will shame them, so they want me to change my surname.” George Han smiled bitterly.

Amelia Su’s eyes widened, and she couldn’t believe that this American Han family was so overbearing that they would deprive George Han of the rights of Han?

“Is it just for this reason?” Amelia Su said.

“It’s hard to believe, but it’s true.” George Han said. There are many reasons for his grandfather, but this has been a matter of decades, so do they have other ideas, George Han It is unknown.

Amelia Su suddenly gritted his teeth and said angrily: “They really think of themselves as someone, so why do they even care about your surname? Does it have anything to do with them?”

Feeling Amelia Su’s feeling of fighting for her own injustice, a smile appeared unconsciously at the corner of George Han’s mouth. No matter how big the storm is, as long as Amelia Su’s support, George Han has the confidence to fight all the troubles.

“George Han, you are the young master of the Han Family, isn’t it easy to deal with them?” Wilson Su asked incomprehensibly.

“Dad, the Han Family is very powerful in your eyes, but for the Korean family in the United States, it is nothing. The Korean family in the United States has a century-old foundation outside. Whether it is network strength or monetary power, it is not comparable to the Han Family, Hillwood City All the assets of the Han family are nothing but a drop in the bucket for the Korean family in the United States.” George Han said.

Wilson Su was stunned again by shock, although he did not fully understand the capabilities of the Han Family. But what the Han family said is also a very famous family in Hillwood City, and there is such a big gap with the Han family in the United States!

“How much money does that have to be?” Lily Jiang couldn’t help but ask again, revealing the side of his wealth.

“How much money is there, maybe even they don’t know it.” George Han smiled bitterly. He has always believed that money is not a very important thing, but now, George Han understands the importance of money, especially when he wants to withstand some resistance, money is the most intuitive and powerful weapon.

Lily Jiang swallowed unconsciously. The money was so much that he didn't know what it was like!

“Are you not qualified to deal with Han Yan now?” After being surprised. Lily Jiang began to worry about herself again. At the same time, she suddenly felt that the identity of the Han family master was nothing. After all, it was still unknown whether he could continue to be the master.

George Han felt the change in Lily Jiang's mood very clearly, but over the years he has become accustomed to what kind of person Lily Jiang is, so there is not much resistance.

“From the current situation, there is really no good way.” George Han said.

Lily Jiang's face suddenly became cold. Stand up and say: “I will go back to my room to rest.”

“Mom, about my identity, I hope you can keep it secret and never tell anyone.” George Han reminded Lily Jiang that in addition to the Han family in the United States, he has enemies in Hillwood City, although George Han does not know the other party. Whether he knows his existence now, but if he can keep it secret, George Han will try not to let his identity leak out, otherwise the pressure he faces will be even greater.

To make Han Tianyang die on holiday and take Han Tianyang away silently, the other party is definitely not a simple family.

“It's not a long-faced thing, who can I tell you.” Lily Jiang said flatly.

“I'm going back to the room first.” Wilson Su followed upstairs.

Amelia Su walked up to George Han, took his hand and said, “Don't be familiar with them.”

“Of course I won’t, but I’m a little worried that my mother will reveal my identity.” George Han said worriedly.

“Does it matter?” Amelia Su asked puzzled, in her opinion. In this situation, George Han had no need to conceal his identity, and as the young master of the Han family, he might be able to give the merchants in Basin City a certain amount of deterrence. It would make them afraid to stand in line with Han Yan too rashly, which is a good thing.

“Because the Han family still has enemies, once they know my identity, I will have to face more troubles.” George Han explained.

Heard this. Amelia Su became nervous. Anything that might threaten George Han, she didn’t want to happen, and said, “I will remind her later. Let her stop talking nonsense.”

“Want to hear a story? A very long and boring story.” George Han turned his head to look at Amelia Su, and said with a tender face.

Amelia Su knew that George Han was about to confess to her the things she was curious about. Although she did not expect this day to come suddenly, in Amelia Su’s heart, she had already made preparations for this.

“En.” Amelia Su answered.

The reason why George Han suddenly made such a decision was not that the time was right. According to his previous plan, he needed Amelia Su to see and know more about the dark side of society before he could let Amelia Su know about these things, because only in this way, Amelia Su It is easier to accept in my heart.

But in the current situation, George Han has to say, what will happen next is completely beyond the control of George Han, so he needs to let Amelia Su know what kind of person he is and what kind of situation he may face in the future. .

Back in the room, the two sat cross-legged on the bed, Amelia Su squeezed George Han's hand nervously.

For her, now is the time to really get to know George Han, and people have a kind of instinct, fear of unknown things, she doesn't know whether the relationship with George Han will happen after knowing these things. Kind of change

“They are twins. From the day they were born, they have attracted much attention and caused a sensation in Yenching.”

“But at the age of twelve, sadness began. The appearance of a Taoist priest changed the status of the two brothers in the family. One was supreme and the other was like an orphan. Even the servants in the family looked down on him. , The boeing cold and warming of the biological parents never happened again. It seems that the whole world is surrounding the elder brother. Since then, the younger brother has sworn to prove it to the Han family.”

“At the age of fourteen, he started his first business experience.”

## Chapter 350

The master bedroom of the mountainside Villa, Lily Jiang has been worried after returning to the room. Although George Han's identity shocked her, after careful consideration, Lily Jiang found that such an identity was meaningless at all, because of the opponent he is facing now. , Is much stronger than the so-called Han Family, which is no longer a category that she can understand, and such existence will definitely bring them great threats.

Lily Jiang is a selfish person. And this has always been the case, all her thoughts must be around herself, even this time, she was not worried about George Han, but worried about herself.

If George Han can't deal with Han Yan, this matter may involve her. Nowadays, Lily Jiang enjoys the easy life, and she never wants to be influenced by anyone.

"What do you think?" Wilson Su asked when Lily Jiang's face was calm and silent.

"I'm thinking of a way to prevent the Su family from being implicated in this matter. Do you think they are as heartless as you and don't care about anything?" Lily Jiang said, looking at Wilson Su coldly.

Wilson Su sighed, and said, "This kind of thing is no longer within the scope of our intervention. Can you still help George Han?"

Lily Jiang shook his head without hesitation. Said: "I can't help him, but the Su family must not be threatened."

"What do you mean?" Wilson Su looked at Lily Jiang puzzled, with a vague premonition in his heart.

With Lily Jiang and his wife for so many years, Wilson Su has a very thorough understanding of her character, but her thoughts make Wilson Su confused, because her decisions are often incomprehensible to ordinary people.

“George Han clearly can’t deal with Han Yan, if he is finished, how can the Su family not get caught in the fish pond?” Lily Jiang asked Wilson Su counter-intuitively.

Wilson Su looked at Lily Jiang vigilantly, and said, “What do you want to do? I advise you not to mess around. Now Amelia and George Han have a very good relationship, and you can’t destroy it.”

Lily Jiang gritted her teeth and said, “What’s the matter with a good relationship, are we going to be buried with George Han? Amelia may blame me now, but she will know later that I did it for her good.”

“What do you want to do.” Wilson Su asked quickly, afraid that Lily Jiang would do something stupid.

Lily Jiang took a deep breath and said, “Let them divorce temporarily. If George Han can get through this difficulty, then remarry will be fine in the future. If he can’t overcome this difficulty, it has nothing to do with us.”

After a pause, Lily Jiang continued: “He must have a lot of money in his hands now, as the joint property of the husband and wife. Half of it should be for Amelia.”

After listening to Lily Jiang’s words, Wilson Su only felt his scalp numb. Such a woman was terrible. How could she marry her in the first place!

If it’s good, keep George Han by her side. Now when it’s dangerous, she kicks George Han away, and I won’t talk about kicking it away. She is even thinking about George Han’s money!

It is said that a woman's heart is like a snake. Wilson Su used to think that Lily Jiang was a careful and selfish person, but now it seems that her cruelty is more than a snake!

“Are you crazy, you actually want them to divorce at this time.” Wilson Su gritted his teeth.

“Wilson Su, you drink every day. Where did the money come from? Did you make it yourself? If you have the ability, do I need to do this? If I don't do this, George Han will be involved, and the future will be Jiang Fu, Are you going to wander on the streets?” Lily Jiang said.

“So what about the street.” Wilson Su straightened up and said: “This kind of unjust thing will be struck by thunder. And now is the time when their husband and wife are in trouble together. If you welcome Xia and him Divorce, can Amelia forgive herself? And I believe she would never do it.”

Lily Jiang looked at Wilson Su with a torch. She thought that her idea could be supported by Wilson Su, but she did not expect him to have such an attitude.

The sky thunders?

Only when people are not for themselves will the heavens and the earth die. She is only looking for stability for herself and Wilson Su and Amelia Su.

“Wilson Su, what is injustice, do you f\*cking eat and drink poop? Are you buying money from the sky?” Lily Jiang said fiercely.

In the past, Lily Jiang's state made Wilson Su very scared, because he was a man who was afraid of his wife, because he was incapable, because he was useless, so he could only bear the curse.

But today, Wilson Su's attitude is very firm, and he looked at Lily Jiang without fear, and said: "I would rather eat and drink shit and piss than let Amelia do this kind of thing. This kind of utterly conscientious glory and wealth, what use is it? ."

Lily Jiang trembled with anger. When he walked in front of Wilson Su, he slapped him in the face and said coldly: "Then you eat shit and pee by yourself, Lily Jiang must not lose everything I have now."

Wilson Su's face was painful, but he still did not flinch. Persuaded: "I advise you not to do this, and to consume Amelia Su's good feelings about you again and again, even if you are her biological mother, you will eventually make Amelia hate you."

"Huh." Lily Jiang hummed coldly, and said, "Of course, I will not ask Amelia about this matter. I will let George Han quit. Since he loves Amelia, he is qualified to protect Amelia. All dangers should be borne by him alone."

Wilson Su sighed. He knew that no matter how he persuaded Lily Jiang, it would be impossible for Lily Jiang to change his mind. For her, the relationship between George Han and Amelia Su was not important at all, only her prosperous and wealthy life was important.

Downstairs, after Amelia Su listened to the whole story of George Han, although her expression was not sad at all, the tears on her cheeks kept welling up.

More than ten years old, this is at a naive age. But George Han began to bear tremendous pressure, began to drift away from the business world, began to plan his own future, and conspiracy, the pressure he undertook was completely unimaginable for Amelia Su.

"At the age of fourteen, I am still thinking about saving money to buy a doll, and you have already begun to face the pressure brought by the whole family. It is very

fortunate.” Amelia Su tightly grasped George Han’s hand, slightly slightly Trembling.

George Han took Amelia Su into his arms and said faintly: “It’s no hard work. Since I have you, I feel that everything is painful, and no matter how hard it is, it is worth it.”

“Grandpa knows your identity, so he didn’t hate me when he let you join our family, did he?” Amelia Su asked. She has always felt that Grandpa had arranged this matter very unfairly. Why did the Su family have so many girls, but they chose her? So Amelia Su thought that because Wilson Su was useless, because she was useless. Grandpa would make such an arrangement.

George Han smiled faintly, and said: “The old man told me that you are his favorite granddaughter, how can I hate you.”

“When I was young, my grandfather was really nice to me. But later, because my dad didn’t have any achievements in the company and his status was getting lower and lower, he didn’t care about our family affairs anymore.” Amelia Su said.

“The old man is angry and indisputable, so he deliberately fights, if he is still alive. Harry Su will never be a candidate for chairman.” George Han said. This matter was mentioned to her by the old man in the Su family. In his thoughts, there is no saying that men are superior to women. What he values is only personal ability, and Harry Su’s personal ability is obviously not as good as Amelia Su.

“It’s a pity that grandma always prefers boys to girls, so no matter what Harry Su does, grandma will help him.” Amelia Su said.

Speaking of this matter, George Han felt that the old lady would be very unwilling to go to the Palace of the Kings of the Lord. She could not even dream that the grandson she valued most would actually poison her.

“The bitter fruit she planted, now she has also tasted it. If it were not for her indulgence, she would not die.” George Han said.

Amelia Su suddenly raised her head and asked, “Three thousand, do you know how grandma died?”

Everyone had speculated that this matter was related to Tian Linger, but Amelia Su did not believe it, because Tian Linger had no motive or need to kill her grandma.

“After her death, who is the biggest beneficiary?” George Han asked with a smile.
