

## Read Novel Married At First Sight Chapter 1942

**Married at First Sight Chapter 1942**—“That’s right, my elder brother doesn’t like you, Mr. York, but I really like you. Otherwise, you’d better accept me. My brother and I are twin brothers. We look so alike.” Hugh came over with a playful smile, and said.

After being stared at by his sister, Hugh touched his nose and didn’t dare to laugh anymore.

Kevin’s black eyes were deeply locked on Hayden’s beautiful face, imagining that she had long hair and dressed in women’s clothing. She must be as beautiful as a fairy, and would be the most beautiful among all the women he had ever seen.

“Mr. Queen, everyone has the right to pursue love. I think you’re my future partner. I like you, and I want to pursue you. I know you can’t accept my pursuit for a while. I have no defense. After a long time, you got used to it. I will also let time and actions prove that I am always serious about you, and I will not change because of anything, nor will I change my love.” He glanced at Hugh, implying: “Even if That person is seven or eight points similar to Mr. Queen, and he can’t replace Mr. Queen’s position in my heart.”

Hayden also had deep eyes, and felt that Kevin just didn’t want to get in, and she was too lazy to argue with him.

Turning around, she returned to the car.

“drive!”

The driver drove off immediately.

Soon, Hayden’s car drove into the big villa.

Kevin strode inside holding the bundle of money.

Hayden’s bodyguard tried to stop him.

Kevin didn’t fight with them, but he didn’t take their interception seriously, as if he saw through that they didn’t dare to attack him, Kevin insisted on walking in with the bouquet in his arms.

The bodyguard stopped and retreated, not knowing for a while whether to do it or not.

It was really difficult for the young master to have such a suitor.

Before getting into the car, Hugh said to his sister’s bodyguard team: “My brother didn’t ask you to stop him. You don’t need to stop him, and you can’t stop him. If he can’t go in

through the gate or climb over the wall, if he falls, it's not easy for us to explain to the York Family."

His sister had nothing to do with Kevin.

After listening to Hugh's words, the bodyguards silently put down the hand that was stretched out to stop Kevin.

Then, holding the dazzling bouquet of cash, Kevin walked towards Hayden's Maybach with a smile on his face.

He also drove a Maybach.

They liked to drive the same car.

The butler looked at Kevin who was walking over, and then at the Eldest young master who just got off the car, and asked softly, "Eldest young master Queen, what about third young master York?"

She also saw Jensburg's hot search at home, and knew that the third young master York actually publicly said that he wanted to pursue the Eldest young master Queen.

Facing the handsome face of the Eldest young master Queen, the butler sighed in his heart. The young master was so good-looking, not to mention that women would like it, even men couldn't help but be moved when they often face the young master Queen's face. But, here the Third Young Master York was the first one to fall in love with the Eldest Young Master Queen and took action.

After Hayden was silent for a while, she said, "You can't send him away, he's just a guest."

After speaking, she went straight into the house.

The butler understood what the young master Queen meant, stepped forward two steps, smiled and said to Kevin: "Young Master York, please come inside."

"Okay." Kevin followed the butler into the house.

The house Hayden lived in was very big, and it also had a front and back yard. The yard was very large. The scenery in the yard was very tasteful, with a big garden.

Kevin thought in his heart, when Hayden was willing to go back to Wildridge Manor with him to meet his parents, she would definitely like Wildridge Manor.

Anyone who had been to Wildridge Manor had nothing to dislike. Because of the lack of servants, the whole villa seemed quiet.

Kevin couldn't help walking lightly, for fear that his steady footsteps would become noise.
