Married at First Sight Chapter 1958-Hayden coldly refused: "I don't want to drink with you, Miss Shiloh, excuse me."

As she spoke, surrounded by bodyguards, she walked past Shiloh.

Shiloh watched her pass by in front of her eyes, and yelled twice, but Hayden ignored her, and didn't even stop.

Shiloh was so angry that she stepped on her foot.

Although the Farrell family was not the richest in Jensburg, it was also one of the top wealthy families. In the past, as the daughter of the Farrell family, whenever she attended a banquet, she would always hug her.

There were also many men who admire her, but those men were not capable, they were the second generation ancestors.

If Shiloh was raised by the Farrell family to be arrogant, how could she look up to the second ancestor, but, because of the Farrell family's patriarch's rule of only recruiting sons-in-law and not marrying outsiders, no good man would want to provoke the successor of the Farrell family.

Only those second-generation ancestors with no real skills would like the successors of the Farrell family.

Like Hayden's admirers, Shiloh couldn't forget Hayden after meeting her. After observing secretly, her heart was tied to Hayden and she couldn't come back.

In the past, when she was talking to Hayden, Hayden would still nod, respond to her, and occasionally say a few words.

Since her identity was exposed a year ago and she was no longer the successor of the Farrell family, even though she was treated the same as Kathryn, the real daughter, many things had changed.

Shiloh's successor was no longer Shiloh, but Kathryn.

The clansmen preferred Kathryn, saying that Kathryn was dignified and generous, and she deserved to be the successor of their Farrell family.

From Shiloh's point of view, Kathryn was timid and weak, how could she be dignified?

Some businesses of the Farrell family had been handed over to Kathryn. The reason why they didn't collapse was that Shiloh thought it's because of the help of the

company's senior management. Otherwise, Kathryn Farrell, a country bumpkin, had no ability to manage the business?

When attending the banquet, everyone's attitude towards Shiloh and Kathryn was what Shiloh couldn't accept the most.

Obviously, she was still the daughter of the Farrell family, and her mother had adopted her as an adopted daughter. As long as the mother attended banquets or entertainments, she was often brought with her, but everyone started to ignore her.

Just because she was not the real daughter of the Farrell family, she couldn't become the head of the Farrell family in the future.

After taking a sip of wine, Shiloh said in a low voice, "Hayden, you are mine! Even if I can't get you, I won't let you be with Kathryn."

Kathryn also had a crush on Hayden, Shiloh could tell.

What made her jealous was that Hayden had a very good attitude towards Kathryn. Every time Hayden talked to Kathryn, she was very gentle and looked at Kathryn Farrell with appreciation.

"Shiloh."

A familiar shout came, Shiloh looked at the young woman who was walking towards her, she was the youngest mistress of the Farrell family, and also her sister-in-law.

"Sister-in-law."

Shiloh went to sister-in-law and asked, "What's wrong?"

"Mom didn't see you, so she asked me to come and find you, why are you standing here drinking alone. So many people are trying to get close to Young master Queen, but you are hiding here and drinking."

After Young Mistress Farrell finished speaking, she lowered her voice and said, "You are the second young lady of our family now. You don't need to recruit a son-in-law. You have an advantage over Kathryn. For a man like Young master Queen, he will never give himself to you. Our Farrell family is the door-to-door son-in-law."

Young Mistress Farrell meant that Shiloh had an advantage over Kathryn, but to Shiloh's ears, she felt that her sister-in-law hinted that she could not take over the position of Patriarch, so she had to find a good husband's family quickly.

With a calm face, Shiloh said, “The thing Young master Queen dislikes the most is women who take the initiative to reciprocate. Those admirers want to get close to Young master Queen every time. Which time did they succeed?”

Shiloh was envious and jealous when she saw Kevin appear beside Hayden because this male love rival always found a way to get close to Hayden.

If the two were not rivals in love, Shiloh would like to ask Kevin for advice.
