Married at First Sight Chapter 1998-Good job Kathryn, why should a guy drive a million dollar car?

It was to take it back, sold it for cash and not let Shiloh use it.

After that incident, the conflict between Shiloh and Kathryn became more and more serious.

At this moment, seeing Kathryn coming down from the Maybach in a women's suit, Shiloh couldn't help but ask, "Sister Where did you go today? You were dressed so formally."

Kathryn: "Went to work. Don't you know that I have to go to work every day? Aren't you like this before?"

Kathryn's words made Shiloh speechless and filled with jealousy.

Shiloh used to be the same as Kathryn. She had to go to work every day. She followed her mother to learn how to manage the Farrell family's business, and she had to meet clients, talk about business, and socialize every day, so she was very busy.

Although she was busy, she could also enjoy the power of successors. The younger generation in the clan, even the three sons of the adoptive mother, were respectful in front of her.

It could be said that the mother was the emperor, and Shiloh was the princess. But as soon as Kathryn came back, Shiloh lost everything that belonged to her.

Shiloh could still often return to the company, but on the surface she could no longer manage the company's affairs, and she was not even allowed to have a false job.

Matriarch Farrell wanted to arrange a position for her that was not high but paid well, but Kathryn said: "The company can't support idlers. Shiloh, if you can't create profits that are more than ten times your salary, then you can't be hired."

Not only Kathryn objected, even the people in the family also opposed it. Everyone felt that Kathryn was the real daughter of the Farrell family. In the future, Kathryn would take over as the head of the family. All the business of the Farrell family had to be handed over to Kathryn. Then let Shiloh intervene.

In the end, she became what she was now, with nothing to do every day. Fortunately, she had several houses under her name, which she bought with her own private money. After renting them out, she could earn tens of thousands of dollars a month money for rent.

She was now trying to convince her mother to buy her some stores. The income from the shops was greater than that from the homes, whether they were owned by the owners or rented out.

What Shiloh could do now was to buy as many houses and shops as possible, and lived on rent collection in the future.

“Dressed up beautifully, did you go to Queen’s group to find Young master Queen?” Kathryn glanced at Shiloh and asked Shiloh, without waiting for Shiloh to reply, she said coldly: “Young master Queen is not suitable for you. If you want to get him, I advise you, you should give up your mind as soon as possible. Of course, if you are lucky, you can get the favor of Young Master Queen, and your status in this family will also rise.”

After finishing speaking, Kathryn left Shiloh behind, held her head high, and strode towards the main house with strides.

Shiloh shouted at her back: “In this family, I will always be the favorite daughter of my parents and brothers. Kathryn, you can’t compare to me!”

Parents, brothers and sisters-in-law treated her much better than Kathryn.

That is to say, servants and people in the clan would respect Kathryn more.

Those were lowly people, ignore them.

Besides, since Matriarch Farrell loved Shiloh so much, it was still unknown who would be the head of the Farrell family.

Didn’t think that she had no followers because she rarely returned to the company.

She also had a lot of connections in the company, and arranged a lot of eyeliners to help her keep an eye on Kathryn, ready to catch Kathryn’s mistakes and hit Kathryn hard.

On the surface, she didn’t care about the company’s affairs, but behind the scenes, there were shadows of her meddling in many matters.

Because her father and brother and sister-in-law would tell her about the company, she would raise some ideas and speak out through their mouths to influence Kathryn’s decision.

Kathryn had not yet gained a firm foothold in the company, and she was also weak and deceitful. She used soft words to coax everyone into agreeing to her decisions, without any courage.
