

Read Novel Married At First Sight Chapter 2040

Married at First Sight Chapter 2040-After helping Shiloh wipe away tears, Matriarch Farrell said softly: "Young Master Queen is young and promising. The Queen family is richer than our Farrell family and has more status in Jensburg than our Farrell family. It is impossible for Young Master Queen to be a son-in-law.

Unless you can make him love you deeply, for you, he is willing to be the son-in-law of the Farrell family. Now that Kathryn is back, according to the family rules of my Farrell family, I still have to let Kathryn take the position in the future, even if Mom is not happy to look at her as the superior, but the family rules are like this, and mom can't change it.

But that's fine, Kathryn and Young Master Queen are impossible, but you can pursue Young Master Queen in an open and honest manner. Shiloh, you like Young Master Queen, and you must use the right method to pursue Young Master Queen. You can't use your power to bully others. Don't be afraid, now your rivals in love are very powerful. You have to think about how to get Young Master Queen's favor. Remember, as long as you can make Young Master Queen fall in love with you, no matter how powerful your rivals are, they won't help."

Shiloh thought about it.

Matriarch Farrell: "Look at Kevin's brazenness, he is not afraid of others seeing jokes, and stalks Young Master Queen. Does Young Master Queen have nothing to do with him? Kevin is advancing step by step by relying on his shameless behavior. You can learn from fighting Kevin."

Shiloh felt that what her mother said was reasonable, so she said to her mother: "Mom, I understand, I don't need to focus on dealing with Kevin, but focus on Young Master Queen, taking down Young Master Queen is the right thing to do."

Matriarch Farrell smiled and praised her: "As expected of the daughter I raised, she knows everything.

Okay, don't be sad, go and touch up your makeup. Mom will call your sister-in-law and ask her to come and accompany you to go shopping, and buy whatever you want."

"Thank you Mom." Shiloh was in a good mood, she immediately got up and walked into the lounge to touch up her makeup.

She also heard that her mother really called her sister-in-law and asked her to come to the company to pick her up, so that the both sister-in-law and sister-in-law could go shopping together.

While she was touching up her makeup, she heard a knock on the door, and soon, she heard her mother's scolding, and she knew that Kathryn had come in.

Before Shiloh's makeup was finished, she went out.

She liked the scene where her mother scolded Kathryn the most.

She didn't know what Kathryn did wrong. When she went out, she saw her mother scattered several documents on the ground, and Kathryn was squatting down to pick up those documents.

"I don't know what you do every day. You have been in the company for almost a year, and you still don't understand anything. Why are you so stupid? You don't look like a daughter of my Farrell family at all." Matriarch Farrell scolded Kathryn with a black face.

Kathryn didn't reply, and silently picked up the papers on the ground.

Matriarch Farrell: "Kathryn, let me tell you, even if you are my biological daughter, if you are not familiar with the company's affairs and cannot handle it alone, the position of Matriarch will not be handed over to you. Don't rely on your brothers for everything, and don't rely on those professional managers. The achievements they have made are not something you can take over if you want to. Do you really think I don't know anything?"

After Kathryn picked up the papers, she stood up, looked at her mother, and tried to explain a few words, but Matriarch Farrell yelled impatiently and sharply: "Get out, get out right away, I don't even want to see you, it's just a piece of mud, even the poles can't support the wall."

Kathryn: "mom..."

"Mom, what mom? How many times have I told you? Don't call me mom in the company; call me Mrs. Farrell! Get out!" Matriarch Farrell patted the table and scolded Kathryn, telling Kathryn to get out so as not to affect her mood.
