**Married at First Sight Chapter 2073**-Rosella felt that what her husband said made sense, she nodded with a smile, "I don't know how the third child, Kevin, is doing in Jensburg? Kevin has settled down, and the fourth child and the fifth child are about to start. If the brothers and sisters get married together, then our family is really overjoyed."

Matthias smiled and said: "Thinking about it this way, the reality is not so beautiful. The youngest child, Rowan, is still studying."

If Rowan was at home on vacation, he would be busy hugging the thick thighs of his sister-in-law.

By hugging his sister-in-law's thigh tightly, he could do less questions, otherwise the eight brothers would give him gifts, they would all be papers, making him dizzy when doing the questions.

Matthias: "That's right, Rowan will have to wait at least ten years, which is to say the least. If he is like his elder brother, he may have to wait for more than ten years before getting married."

Thinking of the age of the old Mrs. York, Rosella said softly: "Mom will help Rowan choose a good wife."

Matthias: "Mom has only nine grandchildren, and she never favors one over the other. Naturally, she is the one who chooses the grandson-in-law."

Rowan was only in his teens now, and it would take more than ten years to get married at the age of his brothers. To live long enough for the great-grandchildren to grow up.

What the old couple in the house were talking about, the little lover outside the house didn't know.

Camryn was led by Callum to wander around the villa, thinking about what happened before the meal, she asked Callum in a low voice: "If we didn't get pregnant immediately after we got married, would your parents be like uncle and the others?"

"No, we are not in a hurry to have a child. After your eyes are cured, I will take you to travel and have fun everywhere, to make up for the ten years you missed, and let you appreciate the great mountains and rivers of our motherland.

Don't worry, my parents are very open-minded. In fact, my uncle and aunt are also very open-minded. It's just that the relatives are talking too much. The uncle and aunt blocked a lot for the oldest brother and sister-in-law. This time it was grandma who was worried. The oldest aunt did not. There is a way to get back that medicine list."

Camryn hummed, "Even so, sister-in-law is under a lot of pressure."

"In the past, it might have been really stressful. Now I see that my sister-in-law has treated her with a normal heart. Besides, my brother also said that they are taking contraceptive measures. It is normal for my sister-in-law not to be pregnant."

Callum believed all the lies Zachary told.

He thought his brother and sister-in-law were really taking contraceptive measures, so his sister-in-law was not pregnant for a long time.

Callum: "The oldest brother and sister-in-law are indeed very busy, and their wedding is approaching. After the wedding is over, they will not be so busy. I think they will start the birth plan. I really hope that the sister-in-law can have a baby. I don't know if there is any. What is it like to be a niece?"

Camryn smiled and said: "Everyone in your family is looking forward to their daughters, while other families are looking forward to their sons."

Callum: "Actually, it's all the same. If you have more sons, you look forward to your daughter, and if you have more daughters, you look forward to a son. People are not enough, and they all want to have both sons and daughters "

Camryn smiled, "That's right, people's hearts are always lacking."

Those who didn't belong to her want to fight and snatch them, just like her two big aunts.

Callum: "Your two big aunts, they can't make a difference. Don't worry, I will help you deal with it."

After Camryn was silent, she said: "I can handle it myself, you just need to help me collect the evidence, let me handle it."

She didn't want to rely too much on Callum.

She couldn't see with eyes, but she still had wrists.

Callum pulled her hand up, kissed the back of her hand, and said, "Okay, I'll help you collect evidence, and leave the rest to you. Tell me if you need my help."
