Married at First Sight Chapter 2038-Hayden stood up, her smile disappeared, and she became extremely serious again. She warned Kevin coldly: "If you reveal my secret, I will never end with you."

Kevin didn't take her warning to heart at all, but he also said: "How could I reveal your secret? If I let others know that you are a woman and they all like you, wouldn't I invite myself a rival in love? Now I have a lot of rivals in love, I don't want to have a few more rivals in love, I think I am the most pitiful man, a lot of female rivals in love!"

Hayden said coldly, "I asked for it."

Then, she pulled out the chair, turned around and walked away.

It's not that she told Kevin to pursue her.

Kevin did not catch up with her, but said loudly: "Remember to go home to eat grilled fish at night, and call my future brother-in-law."

Hayden: "...Who is your brother-in-law, Kevin, please show some face?"

Kevin: "Of course you are not my brother-in-law. I have shame in front of others, but shame in front of you."

Hayden's face was black, and she walked out of the private room with a sullen and beautiful face.

Her bodyguards were already full and waiting outside for her.

Seeing her come out, the bodyguards yelled in unison: "Young master."

"Let's go." Hayden took steady steps.

The name the bodyguards called her brought her back to reality. She was still the young master Queen disguised as a man. Only when she was alone with Kevin would she always remember that she was a woman.

...

Farrell industries.

Shiloh sat opposite Matriarch Farrell, crying until her eyes were swollen like two peaches.

Shiloh: "Mom, you told me not to provoke Kevin, but Kevin bullied me. He sent someone to blow me out of Fortress Hotel. Mom, can you vent your anger for me?"

Matriarch Farrell already knew what was going on.

What happened at noon had already spread throughout Jensburg, and even made the headlines of Jensburg's entertainment news.

Matriarch Farrell: "Young Master Queen doesn't like you, so don't hang out in front of Young Master Queen anymore, and don't offend Kevin for Young Master Queen. There are so many people who admire Young Master Queen, and now any one of them is better than you. They don't dare to be like you, a beautiful woman who saves a male god. They all say that Kevin is a smiling tiger, and they dig a hole for you with a smile."

Kevin's refutation of Shiloh's words also spread throughout Jensburg.

It spoke out everyone's heart.

What kind of daughter of the Farrell family was Shiloh now, and she still wanted to use her status as the daughter of the Farrell family to do whatever she wanted?

Usually everyone saw Shiloh's face and did not do anything to Shiloh. Just silently clearing Shiloh out of Jensburg's upper-class circle, even this made Shiloh's teeth itch with hatred.

Kevin no longer had such a burden. He had no friendship with the Farrell family, so he didn't have to give face to the head of the Farrell family, let alone give Shiloh face.

"I saw Kevin treat Hayden like that, I just couldn't help it, he was too shameless, because he is also a man, he used force on Hayden, and forcibly pulled Hayden into his hotel inside. Mom, I regret to death. I regret that I didn't practice boxing and kicking well when I was a child. I couldn't beat Kevin to the ground with one punch." Shiloh cried, then added: "He doesn't give me face, and he doesn't give mother face. Even if I am not the biological daughter of the Farrell family, I was raised by my mother as her own daughter. Mom, you also said that Kathryn and I are the same of!"
