

Read Novel Married At First Sight Chapter 2100

Married at First Sight Chapter 2100-Mrs. Stone held the TV remote control and kept changing channels. She couldn't watch it; it's not as good-looking as the previous TV series, and the actors feel the same. Was it because she couldn't keep up with the times and had lost her aesthetic sense?" Mr. Stone said with a smile, "You never like to watch TV, and you don't have time to watch TV—when can you watch TV? Play music and listen to it."

Mrs. Stone is a strong woman. Before retirement, she focused on work and was busy with business matters every day, so how could she have time to watch TV?

In the past, her children were young, and after finishing their business affairs, Mrs. Stone had to take care of the three children's studies. When the children were asleep, it was already late at night, and there was no mood or time to watch TV. The next day, she had to wake up as usual, start a new day of work.

That is to say, the eldest son had the ability to take over the Stone Group. The couple retired at home and no longer took care of the company's affairs, so Mrs. Stone was free.

Mrs. Stone recalled her first half of her life, and said, "That's true. I have rarely watched TV since I was young. Why don't we set up a few plots in the backyard and let the two of us grow some vegetables and fruits?"

I want to plant. In the evening, when the sun goes down and it's not so hot, we'll dig up the soil, open up a few plots of land, plant some vegetables and fruits, and plant some flowers and plants you like in the front yard. Taking care of the flowers and plants every day will not be too difficult or boring."

After quitting the power center of the Stone Group, the couple seldom attended banquets, unless they were hosted by people with good friendship, the couple would show their faces.

Hearing the steady footsteps, Mr. Stone said: "Clive is back."

Mrs. Stone hummed and looked towards the door of the house.

Soon, she saw the tall and straight figure of the eldest son appearing in her sight, striding towards them.

The file bag in Clive's hand reminded Mrs. Stone of what she asked her eldest son to investigate. She turned off the TV, and when her eldest son approached, she asked, "Clive, have you checked it out?"

Clive handed the bag to his mother and said, "Mom, look, everyone in the older generation in Jensburg knows what Serenity said. It's not difficult to type, but it's hard to find evidence."

Mrs. Stone took the file bag and opened it and took out a few sheets of A4 paper from the bag.

Clive sat down opposite his parents, and said: "Mom, this is the information of those who can speak in Jensburg Farrell's family."

Mrs. Stone hummed and stopped talking.

She read through the materials of the Farrell family one by one. The information of the current head of the Farrell family mentioned the accidental death of the elder sister and younger sister of the head of the family, but did not mention the two nieces.

Probably because she didn't want people to find the two nieces and her own daughter to compete for the position of Matriarch.

Mrs. Stone: "Is it all rumors that the current head of the Farrell family killed her elder sister and younger sister?"

Clive: "People in the older generation of Jensburg said that she killed her elder sister and younger sister, but those people have no evidence. The whole family of the head of the Farrell family is dead, and her mother's family is the current head of the Farrell family. Although they pretended to investigate, the results announced to the public were accidental. If you are not a relative of the previous head of the Farrell family, you just talk about it and don't know how to find out the truth. Now that things have passed for decades, it is even more difficult to find out the truth."

Mrs. Stone said after a long silence : "Check slowly, as long as she did it, one day, flaws will be exposed and evidence will be found for us. Mom believes that the Skynet will be restored, and it will not be missed."

Her parents and family members all said that she died in a car accident.

Car accidents could be man-made.

The main reason was that her aunt also died in a car accident. The son sorted out the cause of the death of the previous head of the Farrell family. Her aunt had heard that her parents and family members had a car accident and drove to the scene of the accident, but she also had a car accident on the way.

Mrs. Stone always thought it was too coincidental.

It was related to the cause of death of parents and family members, and Mrs. Stone would definitely investigate to the end.

“Clive, Mom and your dad will investigate this matter slowly. We are both retired at home and free. This is related to Mom’s life experience. Mom must investigate clearly.”

Clive: “Mom, I can help you too.”

Mrs. Stone said gently: “You are in charge of the company, and Alice is pregnant again and needs your care. Although Mom has retired, she is not too old to walk. Mom believes that as long as If we don’t give up, we can always find out what happened back then.”
