

## Read Novel Married At First Sight Chapter 2106

**Married at First Sight Chapter 2106**-Elisa thought her mother only had one daughter, so she told her to go up.

She didn't have this ability.

Before her mother did something big, Elisa vaccinated her mother in advance, "Mom, you really want to take back the position of the head of the Farrell family, don't think about me inheriting it, what kind of virtue is your daughter, how many pounds does she have? You know that I can't take on the burden of leading a family.

Go find Serenity and give Serenity a few years, she has the ability."

Elisa dragged Serenity out as a shield Anyway, a dead fellow Taoist would not die a poor daoist.

Mrs. Stone stared at her daughter and said to her: "Serenity is extremely busy and under great pressure. She will be the head wife of the York family in the future. It will not be easy at all. How can we entrust the burden of the Farrell family to her?"

Elisa said: "I don't care, because I don't have that ability, my head isn't that big, and I don't wear such a big hat. Serenity can't do it, so let sister Liberty do it. sister Liberty is the oldest of us three, and isn't the Farrell family's oldest daughter the strongest?"

Mom and my aunt, my mother is very powerful, and my mother only gave birth to me, but my aunt has two daughters, and sister Liberty is my aunt's daughter. The eldest daughter is the most powerful one, and if she returns to orthodoxy in the future, let sister Liberty be the head of the family."

At this point, Elisa felt that this was feasible, and she laughed: "As long as sister Liberty becomes the head of the Farrell family, she and Mr. Lewis are well-matched, and she and Mr. Lewis will not be under too much pressure when they are together, and kill two birds with one stone."

Julian said, "Her surname is Hunt."

Elisa said: "My surname is Stone, we all are not Farrell, but it can be changed."

Mr. Stone stared at his daughter.

Elisa said: "Dad, don't stare at me. My mother really asked me to be the leader. I will definitely change my surname to Farrell. If you don't want your only daughter to change her surname, please persuade my mother not to let me be the leader. I can't."

Mr. Stone: "..."

Mrs. Stone stared at her daughter, a little bit resentful that iron cannot be made into steel.

It's not that the younger sister's daughter was not good, but she was annoyed that her daughter had started to shrink back without even trying.

"Mom, I really don't have that kind of ability. I was born to you, and you know your daughter's ability. My ability is to invest in a small business, and that's about it. The Farrell family probably has a bit of internal fighting now. Seriously, you also know that your daughter is straightforward, and she can't compete with those thousands of people with a clear heart. Maybe I have ascended to the sky before I take the position of Matriarch."

"Bah, Good luck!" Mrs. Stone scolded her daughter and talked nonsense.

Mrs. Stone continued: "It's too early to say those things now. After really investigating, the position of the head of the Farrell family should return to you. Mom will choose the most suitable candidate. If the three of you can't do it, let Kathryn take the position."

Kathryn didn't grow up with the head of the Farrell family, even if she returned to the Farrell family now, she was already twenty-seven or eight years old, and her personality had already been established.

Judging from Clive's investigation of Kathryn's information, Kathryn was a child with upright views and strong abilities, and could still bear the heavy burden of the family.

Of course, Mrs. Stone still hoped that she or her younger sister's daughter would inherit the position of head of the Farrell family.

Serenity couldn't do it. She wanted to challenge the family's burden. Her daughter would really marry into Johnson's family in the future. If she wasn't the eldest daughter-in-law, she wouldn't have to carry the heavy burden, but her daughter's personality wasn't good for fighting with people who had big hearts.

As Elisa said, Liberty was the best candidate.

However, the matter had not been investigated clearly, and the step of deciding the heir had not yet been reached, so there was no need to worry about it for the time being.
