

## The Return of the God of War [The Protector] Chapter 4034 -

the other side.

The three of Levi Garrison have entered the real range of the Buried Dragon Valley.

The terrifying coercion of the power of thunder is dozens of times stronger than before.

Even the power shield that Levi Garrison displayed has already offset the coercion of Tianlei to the greatest extent.

But Gongsun Yueying and Murong Qingxue still felt the pressure.

The strong pressure seems to be able to reach the level of pervasiveness, and it actually penetrates the layers of protection of the energy shield.

dong dong dong!

Every step the two women took, the soles of their feet sank deeply into the ground, which made it difficult for them to walk.

The speed of spiritual power consumption has reached its limit.

“Sect Master, I really can’t hold on anymore, I have to rest for a while.”

Murong Qingxue said out of breath.

Seeing that Murong Qingxue was dripping with sweat at this moment, even her clothes were soaked.

She was gasping for breath, obviously her body had reached its limit.

Gongsun Yueying is also not much stronger than Murong Shengxue, and her pretty face is as pale as paper, her hair has been soaked with sweat, and it looks a little messy.

However, it can be clearly felt that Gongsun Yueying’s breath is relatively stable, and it is obvious that the level of practice is more advanced.

“Master, I have to rest for a while. This place is too evil. It is obviously supported by an energy shield. How can the consumption be so huge?”

Gongsun Yueying said with a puzzled face.

Levi Garrison frowned slightly. In fact, he discovered this situation not long ago.

“Actually we may have been misled from the start.”

Levi Garrison suddenly said in a deep voice.

Murong Qingxue asked with a puzzled face, “What does the sect master mean? Isn’t this the real Dragon Burying Valley?”

Gongsun Yueying’s gaze was also full of doubts.

Levi Garrison waved his hand and explained, “I’m referring to the real source from which we are bound by power.”

The faces of the two women were still a little confused, and they obviously didn’t understand what Levi Garrison meant.

“Regardless of the periphery or the core area of Buried Dragon Valley, there is the power of thunder that cannot be dissipated for hundreds of years in the air, and it is indeed oppressive.”

“And we have always been fighting against the energy coercion of the power of the thunder, and it is because of this that the energy shield will crack and shatter.”

“But what if we’re bound to more than one source of energy?”

While speaking, Levi Garrison pointed to the ground under his feet.

Both women are smart people, and they roughly understood what Levi Garrison meant in an instant.

As Levi Garrison said, since they entered the Dragon Burial Valley, Levi Garrison directly released an energy shield to protect them.

At the beginning, it really relieved the two girls a lot of pressure, and they didn’t even have much effort in the process of walking.

However, since entering the core area of the Buried Dragon Valley, the two women’s sense of difficulty has become more and more obvious.

Until now, every step was extremely laborious, and both feet were deeply sunk into the ground.

Then the source of energy bound by this is most likely underground!

After all, the energy shield resists only the power of the sky thunder in the air.

The ground is in direct contact with them and cannot be completely isolated.

In addition, most of Levi Garrison's attention was focused on resisting the power of the thunder, and he did not find anything abnormal under his feet.

Even if the two women's feet sank deeply into the ground, they instinctively believed that the reason for the increase in the power of the thunder as they approached the core area of the Dragon Buried Valley.

"But Sect Master, why are you okay?"

Murong Qingxue's face was full of puzzlement, she pointed her finger at Levi Garrison's feet, but Gongsun Yueying found that he only left light footprints.

Although Levi Garrison is powerful, there is such a problem on the ground that he absolutely cannot deal with it so easily.

In particular, Levi Garrison also supports such a large-scale energy shield, it is even more difficult to avoid being bound by this power.

Even if you don't sink your feet deep into the ground to your knees, you may have to sink your feet completely.

## **The Return of the God of War [The Protector] Chapter 4035 -**

Levi Garrison pondered for a moment and said, "This should be due to the difference in our cultivation methods."

"What's the meaning?"

Gongsun Yueying couldn't help but ask.

Levi Garrison explained: "It's very simple, no matter what kind of cultivation method ordinary monks practice, they need to absorb the spiritual energy of heaven and earth, and finally reach the realm of the unity of heaven and man."

"In this way, it will instinctively adapt to, and even rely on, this area, so it will be more affected by the suppression energy in this underground."

"But the exercises I practice belong to pure body cultivation. I am a separate energy body, and I can even exist in any space as a separate energy body. Even if I didn't notice the secret restraint of underground energy before, I am almost immune to this kind of energy. influence of power."

The two women seemed to understand what they said, but they also knew that it was basically impossible to ask Levi Garrison's exercises.

However, they didn't know that Levi Garrison still had a lot of things to say in his heart.

"The leylines under my feet must be extraordinary, and this energy also seems to have a sense of déjà vu."

"What kind of energy is it? And where have I seen it?"

Levi Garrison kept searching for relevant information in his mind, but after a long time he could not come to a definite conclusion.

Boom!

Clap clap!

As the deafening thunder sounded, several lightning bolts cut through the sky like fire dragons.

At this moment, it seems that even the dark clouds have been cut open several times by lightning.

Crimson-like lightning flashed above his head, and the entire earth was shone blood-red, as if the surface blood was flowing into a river.

The whole area seemed to be a blood-red world.

Coupled with the sense of oppression brought about by the increasingly powerful and terrifying restraint force, it makes people feel as if they are in the Hell of Shura, and they are unconsciously afraid.

"If you rest well, move on."

Levi Garrison said solemnly.

Clap clap!

As soon as the voice fell, several red-red lightning bolts struck the ground in the front block of the minefield.

In an instant, the ground was split into a number of bottomless pits as thick as a bucket.

Immediately, the broken stone that collapsed in the air was hit by other lightning strikes and turned into powder.

“Sect...Sect Master, do you really want to move forward?”

“Master, look at the power of that scarlet thunder.”

Murong Qingxue and Gongsun Yueying were obviously a little hesitant, their pretty faces could no longer hide their fear, and even their delicate bodies were trembling slightly.

They were really scared.

You must know that the ground itself in this area is extremely hardened by the mighty power of the sky thunder.

Even the best forging materials may not be able to compare, but under the crimson thunderbolt, they all turned into powder in an instant.

Their flesh-and-blood body is even more unavoidable.

“What are you afraid of with me here?”

Levi Garrison paused and continued: “Even if you stay here, how long do you think you can last with your own strength?”

The two women were speechless for a moment, and their faces were instantly ugly.

What Levi Garrison said was true, even if they stayed in place, they could not hold on to the restraint and coercion of their own against Tianlei and underground mysterious forces.

But with the frequent thunderstorms ahead, it is hard to say whether Levi Garrison can protect himself. Can he really protect them from harm?

The powerhouses of the Sun Moon Divine Fire Temple once explored the surrounding area.

The real treasure and the location of the divine bone were covered by even more terrifying thunder, making it impossible to approach.

Even if the two palace master-level powerhouses were seriously injured when they approached, they were not really close to the core area of the Dragon Burial Valley.

If it was replaced by other people, I would have died in the process of approaching.

Murong Qingxue thought the same way.

The Taiyi Chamber of Commerce also sent many strong people to explore the Dragon Burial Valley, and finally ended up with heavy casualties.

Because of this, almost no one has successfully explored the core area of the Buried Dragon Valley.

“Is Levi Garrison really good?” Such thoughts appeared in the minds of the two women at the same time.
