

## The Return of the God of War [The Protector] Chapter 4036 -

Seeing that the two women were still hesitating, Levi Garrison probably guessed what they were thinking.

“You may be able to live a little longer by staying where you are, but you will never be able to get out of this area alive.”

“But if you follow me honestly, maybe you can still win a chance.”

“What’s more, there must be a large number of top-level treasures in the Buried Dragon Valley. Risks and benefits coexist. You should understand this truth.”

Levi Garrison said with a smile.

Gongsun Yueying and Murong Qingxue both sighed, why don’t they know this truth?

Now the known treasures in the Dragon Burial Valley are only divine bones, but in such a fierce place, hundreds of years of thunder bombardment quenched the chain.

Even more terrifying treasures of heaven and earth will certainly be born, but even the top experts here will not come out alive.

The peak powerhouses in other areas may still be able to leave safely, but they also have similar fierce places in this area, so there is no need to seek distance.

Therefore, no one knows the level of danger in the real core area of the Buried Dragon Valley, and the unknown is the most terrifying.

“Let’s go!”

Murong Qingxue clenched her silver teeth tightly and followed suit.

Gongsun Yueying’s mouth twitched, but in desperation, she could only follow Levi Garrison to move on.

However, this time Levi Garrison released his power directly, completely isolating the area of the shield from the ground.

The two women felt as if they were being supported by some invisible force under their feet, and the previous situation where their feet were deeply sunk to the ground never reappeared.

This shocked their spirits, and at the same time relieved the power constraints to the greatest extent for the two women.

Although it wasn't as light as Levi Garrison's, the three of them moved much faster.

Walk another two or three miles.

Clap! Clap!

Two crimson thunders with the thickness of water buckets suddenly fell, but Gongsun Yueying and Murong Qingxue avoided them.

Two deep pits about two or three meters deep appeared where the two women originally stood.

Hiss!

The two women each took a breath of cold air, and the cold sweat on their foreheads couldn't stop dripping down.

"so close!"

The two women are fortunate to break free from the brink of Xiang Xiaoyu's death.

However, this mentality has not completely dissipated, and a purple sky thunder suddenly smashed down again.

With a seemingly random wave of Levi Garrison's hand, the two women were swept away by a violent aura and quickly retreated five or six feet away.

Boom!

The purple Tianlei was surrounded by three people with a thickness of three, and it slammed into the position where the two were standing just now.

All of a sudden, the rubble that splashed out was also shaken to powder by the aftermath of the thunder.

The two women looked at the place where the purple sky thunder struck, and a huge bottomless circular pothole appeared.

Kick-kick!

As the two women were pushed out of the power shield just now, their feet sank deeply into the ground again.

Coupled with the coercion and blessing of the power of Tianlei, the two were unable to move forward at all.

Even though they tried their best to remove their feet, they were still unsuccessful.

It wasn't until now that the two women knew how powerful Levi Garrison had resisted them.

"It's no wonder that so many powerhouses came here to perish, and they had to avoid the bombardment of the sky when they were bound by such a huge force."

"It may be done once or twice, but if you walk for a long time, your physical strength and spiritual energy will be exhausted."

"If you don't die from exhaustion, you will be struck to death by thunder until you are wiped out."

The two girls were confused.

Levi Garrison also quickly came to them, and was enveloped by the energy shield again, and the two women's huge sense of restraint finally disappeared.

"This is not a place to be stunned. If you are a little careless, it will disappear into ashes. I don't always have time to save me."

After Levi Garrison finished speaking, he continued to move forward, and the two women hurriedly followed.

"Don't get too close to me, the lightning coverage here is very wide."

Levi Garrison reminded again.

As soon as the voice fell, a purple lightning struck straight down again.

"Sect Master be careful!"

Murong Qingxue reminded in a panic.

Gongsun Yueying also sucked in a breath of cold air, once Levi Garrison was shot and killed, she would not be able to escape.

However, in the stunned eyes of the two women, Levi Garrison let the purple thunder strike him.

For a while, the purple electric light flashed on the waist, and the two of them didn't dare to continue to watch, and instinctively closed their eyes.

However, after a moment, the power of Tianlei dissipated, and they carefully opened their eyes, and saw that the imagined scene did not appear.

Levi Garrison stood there like a god of war, and there was even a low moan that was almost due to comfort.

"This... how is this possible?"

"Not only is it hard against thunder, but also unscathed?"

The two women were stunned in shock, unable to believe that the scene in front of them was real.

"The strength of Levi Garrison's body is too abnormal, isn't it?"

The two girls filled their hearts with this idea.

"What the hell, keep going!"

Levi Garrison waved to the two women and continued to lead the way.

"Sect Master is too strong!"

"It should be safe to follow the master."

The two women's eyes glowed with light, which was the desire to survive.

The three continued to move forward, and as they gradually penetrated into the Dragon Burial Valley, there was no sign of any life activity.

The ground in the entire area was devastated, apparently struck by lightning.

Of course, what frightened the two women the most was the increasing number of corpses on the ground around them.

Some of these corpses were several meters long, and they were obviously huge in their lifetime.

Others are human skeletons, but they are only stumps and broken arms. They must be the peak powerhouses who entered the Dragon Burial Valley to hunt for treasures.

However, even if they tried their best to fight Tianlei, they ended up with such a tragic ending.

“These bones are also inferior god bones in a sense, and they are far from the top god bones!”

Levi Garrison shook his head and said solemnly.

Gongsun Yueying suddenly said: “Actually, I also learned a secret about the Dragon Burial Valley from the ancient books in the library of the Sun Moon God Fire Hall.”

“What secret?”

Levi Garrison asked.

Gongsun Yueying said hurriedly: “It is recorded in ancient books that in the deepest part of the Buried Dragon Valley, the sky is dense with thunder, forming an extremely terrifying sea of thunder.”

“In addition to this, there seems to be some mysterious thing, which is said to be able to survive bathing in the sea of thunder.”

“It is not known whether it is a human or a spirit beast, but since he can survive in such a terrifying environment, one can imagine how terrifying it is.”

“I hope we don’t meet, otherwise...”

Although Gongsun Yueying didn’t say anything after that, Levi Garrison also understood what she meant.

The sky thunder is full of lethality. If he was not a very special pure body cultivator, I am afraid he would have died under the bombardment of the purple sky thunder.

And that mysterious powerhouse can survive in the thunder sea, his strength is evident, especially his physical strength can be comparable to Levi Garrison, or even stronger.

“Then why didn’t you say it before?”

Murong Qingxue asked.

Gongsun Yueying sighed and said, “This is only recorded in ancient books, I don’t know if it’s true or not, if I don’t see it in the end...”

Gongsun Yueying obviously did not dare to speak any further.

Murong Qingxue suddenly realized that if he didn't see this thing in the end, Levi Garrison would definitely think that Gongsun Yueying was playing tricks on him to prevent him from entering the Dragon Burying Valley.

At that time, facing Levi Garrison's anger, I am afraid that there will be means waiting for her that are more terrifying than death.

"It doesn't matter if you meet him. If he is a person, maybe he can talk to him about the art of body refining!"

Levi Garrison didn't mean to back down when he heard the words, but was even more eager to try.

Looking at Levi Garrison's relaxed face, Gongsun Yueying was obviously unable to complain.

There seems to be nothing in this world that makes Levi Garrison afraid?

"Continue to go!"

Levi Garrison took the lead and continued to drive forward.
