

The Return of the God of War [The Protector] Chapter 4041 -

The three of them looked at the sound, and saw a dark purple sky thunder with a diameter of about tens of meters pouring down, directly bombarding the center of the cold pool.

At the moment when the entire cold pool was bombarded, it seemed to boil directly, and soon a waterspout shot straight into the sky, breaking through the layers of dark clouds.

The water surface of the cold pool is centered on the bombardment position of the large-scale thunder, and the violent electric light spreads everywhere, forming a terrifying electric light spark.

The piercing electric arc sound is deafening and deafening, making people feel chills just by looking at it.

Boom boom boom!

At this moment, other locations suddenly bombarded the surface of the cold pool with batches of small thunder.

As if trying to calm down the power imbalance caused by the large-scale thunder.

Hundreds of thunderstorms of varying degrees poured down in an instant over the entire cold pool, hitting the surface of the cold pool indiscriminately.

The whole scene is magnificent and spectacular to the extreme, which is very similar to the special effects of thunderstorms in the end-of-the-world movies.

Watching it up close and personal is even more shocking.

Even Levi Garrison was a little stunned, and he even wondered if he could withstand this level of thunder bombardment?

This scene of the thunder group sloping down lasted for about ten minutes before it gradually subsided.

And the waterspout caused by the previous large-scale thunderstorm was finally calmed down, and the water surface of the entire cold pool returned to calm again.

As if the shocking scene just now had never happened.

“Is this a thunderstorm?”

Levi Garrison smacked his lips, he finally understood why the water surface of the cold pool was so dark, it was completely struck by lightning!

Moreover, these blackened waters obviously carry some kind of power rhythm, and it is obvious that they have accumulated a little thunder power over the years.

“Sect Master, are you still going forward?”

Murong Qingxue said in a trembling voice.

Levi Garrison said with a smile, “Of course! The bones of the gods are so close at hand, how can there be a reason to return empty-handed?”

The corners of Murong Qingxue’s mouth twitched. If she continued to walk in, she would most likely die, and then she would be gone.

What about getting a god bone?

Moreover, the previous rumors were all false, saying that the thunder of the Dragon Burial Valley would collapse and die with the accumulation of time.

Even after a thousand years, it will be completely gone, and the scene before me directly shatters this statement.

“But Master, the facts have proved that the rumors are false, and the thunder that we encounter when we move on can only get stronger and stronger.”

“Just in the battle just now, I’m afraid we won’t be able to hold on for a long time before we go in and it will be wiped out.”

“Even the two palace masters of the Sun Moon Divine Fire Palace will never survive, and even the old monsters of the Taiyi Chamber of Commerce have no chance of retreating.”

Gongsun Yueying became more and more dejected as she talked, and there were even faint tears in her eyes.

She was indeed terrified to the extreme, especially when she saw the terrifying scene of the ‘group of thunder dancing’ just now, Gongsun Yueying was so frightened that she died.

“Yeah, Sect Master, just that huge sky thunder just now, even the top and hardest forging materials, will be blasted into smoke in an instant.”

“Just now we entered the core area, and the three-color sky thunder came at an extreme speed, and even the energy shield was instantly broken.”

“We tried our best to resist and we could only barely survive the aftermath. If we go in, there is really no hope of surviving!”

At this moment, Murong Qingxue also put aside her fear of Levi Garrison and chose to speak bluntly.

She even felt that if she didn't speak at this moment, it was very likely that she would never have the opportunity to speak in the future.

At this time, the two women spared no effort to persuade Levi Garrison not to enter the core area.

After all, whether Levi Garrison chooses to bring them in together or he enters the area alone, both of them will die.

The chaotic thunder in the non-core area can also kill them, and the only hope is to dissuade Levi Garrison from entering the core area.

In this way, the two women can follow Levi Garrison and retreat.

The Return of the God of War [The Protector] Chapter 4042 -

“Finished?”

Levi Garrison asked with a smile.

The two women nodded stunned, and for some unknown reason, a bad premonition suddenly rose in their hearts.

Sure enough, before they could react, they suddenly felt that they were enveloped by an invisible energy, and then they entered the core area uncontrollably.

The three talents had just entered the core area of the Dragon Burial Valley, and the calm water surface of the cold pool was sparkling again.

If you look closely, you will find that the ripples are not real water waves, but electric waves accumulated over many years.

Boom!

The next second, the deafening thunder sounded again from the rolling black clouds.

The lightning was like a terrifying beast that was suddenly stimulated, flickering and jumping like crazy, as if to tear the sky apart.

“Follow me, and don’t take out the energy shield unless you have to.”

Levi Garrison said in a deep voice.

Gongsun Yueying and Murong Qingxue were still in shock and nodded instinctively.

But they could clearly feel their fear, and the two pretty faces were not even bloody, but full of fear.

Clap!

With a flash of lightning across the sky, the thick dark clouds instantly seemed to be blood-stained.

Immediately afterwards, a two-colored sky thunder with a thickness of red and blue in the water tank suddenly fell, hitting the top of Levi Garrison and others directly.

“Be careful!”

The two women screamed in surprise, and now Levi Garrison is all their hope.

Although there is some resentment about Levi Garrison forcing himself into the core area, but now he can only bite the bullet and accept it.

At the same time, the two women also ran the exercises, preparing to fully resist the aftermath of the thunder.

boom!

The two-color sky thunder instantly enveloped Levi Garrison’s entire body, and Levi Garrison’s figure was completely lost in sight.

Only the jumping two-color electric flower and the extremely terrifying energy coercion are left.

The place where Levi Garrison originally stood was blasted into a huge pit, but the extent of the fall was not too deep.

Obviously, the ground strength of the core area is by no means comparable to other places. It should be the result of being bombarded by lightning for many years.

“What a terrifying two-color sky thunder, which has never been seen in the non-core area.”

“That’s right. Before, we saw only different colors of thunder, but they all appeared alone. Obviously, the two-color thunder is more destructive.”

Gongsun Yueying and Murong Qingxue looked at each other, and both saw deep fear in each other’s eyes.

Moreover, the two women felt that the two-color Tianlei seemed to be able to shred people’s souls. Even if they were so far away, they felt a surge of excitement.

That is the influence of the aftermath of the two-color Tianlei power attack on the mind.

It is conceivable that Levi Garrison directly bears the power of the two-color thunder, how violent the impact on the soul should be?

“It’s so hot!”

Murong Qingxue couldn’t help wiping her forehead, but she didn’t touch even a drop of sweat.

It turned out that the sweat had just appeared, and it was evaporated by the blazing air.

The entire area seemed to have risen several hundred degrees in an instant.

If it weren’t for the protection of the energy shield, I’m afraid this extreme high temperature is enough for two women.

“What a strong energy aftermath!”

Gongsun Yueying’s movement skills offset the last trace of the aftermath of the thunder, and the blood in his chest surged, and he almost suffered serious internal injuries.

Murong Qingxue was also not much better, but he finally completely resisted the aftermath of the two-color thunder.

The two women looked in the direction of Levi Garrison at the same time, and saw that the outline of his whole person gradually became clearer.

His body jumped with electric sparks, but he didn’t suffer any damage, and even his clothes were only slightly wrinkled.

“Is this too strong?”

The two girls couldn’t help but sigh.

However, at this moment, two thunders fell from the rear again, and the target was obviously the heads of the two women.

They panicked instantly and cursed Tianlei for not talking about martial arts.

The Return of the God of War [The Protector] Chapter 4043 -

The two women never imagined that Tianlei would also play insidious sneak attack tactics.

Although these two thunders are not of two colors, their coercive intensity is several times stronger than the thunder in the non-core area.

“We are dead!”

Both women were extremely desperate, because at this moment Levi Garrison had not completely consumed the energy of the two-color Tianlei, so he had no time to care.

And with their own cultivation and energy shields, it is obviously impossible to resist two such terrifying thunders.

“Concentrate and don’t be distracted, I will take over most of the power of the thunder.”

“As for the aftermath of these two thunderbolts, try to coexist with them as much as possible.”

“Don’t always think about confrontation. This is a thunderbolt against you. It is not only your catastrophe, but also your chance.”

Before he finished speaking, Levi Garrison suddenly activated the basic exercises.

Tianlei, who originally slashed at the two women, seemed to have found a large lightning rod, and turned directly to the top of Levi Garrison’s head.

The two women were dumbfounded and did not fully understand the meaning of Levi Garrison’s words just now.

But Levi Garrison forcibly attracted Tianlei to pass over, letting the two women breathe a sigh of relief, and at the same time trying to think about the meaning of Levi Garrison’s words.

But soon they understood what Levi Garrison meant.

The aftermath of the thunder was surging, and the two women were surprised to find that the shock of this baptism did not cause them any substantial damage.

On the contrary, they strengthened their physique, and even the meridians had a faint increase in toughness.

“The Thunder Tribulation has some kind of power of rules, and the conventional consideration is that the monks have destroyed the energy balance in this area.”

“The thunder attack will destroy it to achieve the purpose of energy balance again, but as long as you can withstand this thunder calamity.”

“You can coexist with the energy in this area for a short time. As long as you can bear it, you can use the thunder tribulation to improve your cultivation for a long time.”

Gongsun Yueying already understood what Levi Garrison said.

As the beautiful girl of the Sun Moon Divine Fire Temple, she is still very good at cultivating her comprehension ability.

Murong Qingxue was also very talented, and probably understood Levi Garrison's intentions.

The two women turned their attention to Levi Garrison again, and found that he was surrounded by thunder.

With a relaxed and comfortable face, where is there any sense of urgency about the threat of thunder?

It looked like he was enjoying the sun, and the surface of his body also formed the unique thunder and lightning rhythm of layers of thunder.

“The sect master dares to use the sky thunder to quench the body without resistance?”

“The master's body is so strong that it is abnormal! Even if the palace master is personally there, he will never be able to do this.”

“Especially in the case of hard resistance to Tianlei, I am afraid that it will be severely damaged by the two-color Tianlei, or even die directly.”

The eyes of the two women were full of shock. Along the way, they were truly convinced by Levi Garrison's terrifying strength.

However, this was not over yet. As the three continued to penetrate into the core area, more powerful Tianlei swarmed.

There was even a three-color sky thunder violently smashing down, Levi Garrison bathed in it, and the surface of the skin jumped with dazzling electric flowers.

Levi Garrison became more and more excited, and he could feel the change in body strength.

The effect of using the sky thunder to quench the body is far better than that of the dragon veins.

Even Levi Garrison had the idea of staying here for a long time.

“According to the effect of this body quenching, it won’t take long for my strength to rise to a whole new level.”

“Especially the strength of the body and meridians will be even higher, and there will be no fear in the face of the Kunlun Ruins super strong.”

Thinking of this, Levi Garrison rushed again facing more thunder.

Obviously, for Levi Garrison’s approach, the area in the Buried Dragon Valley is like a beast that has been continuously provoked, and a crazy revenge has completely erupted.

For a time, thunder surged, and the entire Dragon Burial Valley shook violently.

The Return of the God of War [The Protector] Chapter 4044 -

Because Levi Garrison and others broke into the core area of the Dragon Burial Valley, they used Tianlei to quench their bodies.

The entire Dragon Burial Valley shook violently, and the violent aftermath of the energy also spread wildly.

Tianlei in the non-core area also seemed to have been affected, becoming more frantic than usual.

The power of thunder and lightning broke out completely, which directly shocked the members of many sectarian forces who besieged the entire Dragon Burial Valley.

“what’s going on?”

“Could it be the movement made by that gangster?”

“I don’t think so. Even if his strength is good, he will be wiped out under the bombardment of this level of thunder.”

“Fortunately, we didn’t have a face to break in, otherwise we would have come out alive.”

Looking at the dark clouds and thunder rolling in the far end, the small and medium-sized sectarian powerhouses were all frightened.

Of course, it’s not that they were too timid, even the two temple masters of the Sun Moon Divine Fire Palace were a little scared in their hearts.

The two of them are considered the strongest among the many sects in the siege of Levi Garrison, and the ability to sense power is also the strongest.

The power of the thunder that erupted just now made them clearly realize how terrifying it was.

It’s just that as the commanders of many sects, they naturally cannot express this fear, otherwise they will shake the hearts of the army.

The two hall masters communicated with each other. At first, they thought about entering the non-core area to investigate, but now they have completely dispelled this idea.

Divine bones and other genius treasures are tempting, but it is not worth the loss of life for this.

As for the bandit who killed the many geniuses in the hall, the two hall masters did not take it to heart.

In their opinion, no matter how powerful the gangster’s cultivation base is, they will definitely fall under the bombardment of such a terrifying thunderbolt.

However, in order to be safe, the two palace masters still decided to take someone to seal the place for a few days.

Even if Levi Garrison was lucky enough to escape, it would definitely be severely damaged under the bombardment of the thunder, and they would be able to wait for work at that time.

To say that the most excited among many sects is Gong Qianqiu.

She also felt the horror of Tianlei in the Buried Dragon Valley. In the world of the world, she had never seen such a magnificent scene.

And even the power of the thunder in the edge area, I am afraid that it can instantly kill a middle-level sect elder level powerhouse.

“That is to say, I don’t know the real situation inside, otherwise this sect master can try to swallow the power of Tianlei.”

“Of course, even if you can’t swallow it, it’s good to use Sky Thunder to quench the body.”

This situation made Gong Qianqiu think of using the Tianshi Mansion to quench the body and increase the upper limit of swallowing.

However, the power of the thunder within the Dragon Burial Valley far exceeds the strength of the thunder that the Tianshi Mansion used to attract.

It is precisely because of this uncontrollable that Gong Qianqiu did not dare to act rashly.

She didn’t want to steal chickens without losing rice, and that would not be a wise move.

What’s more, there are many people on the scene, and Gong Qianqiu doesn’t want to be this bird.

“Levi Garrison, I’m afraid you will never see such a scene.”

“In the past, this sect leader aimed to defeat you, but now it seems like a big joke.”

“With your current cultivation base, I’m afraid that any thunder in the Dragon Burial Valley can blast you to ashes.”

Gong Qianqiu thought of this feeling of superiority.

“Levi Garrison, if you are fortunate enough to meet this sect master again, you can only kneel and look up at this seat.”

Gong Qianqiu sneered in his heart.

The other saints in the Taixu Shenzong were equally astonished, and they had never experienced this level of Jedi experience.

The rolling thunder was so oppressive that it really opened their eyes.

Especially thinking that the notorious gangster is likely to die in the Dragon Burial Valley, his heart is inexplicably happy.
