

The Return of the God of War [The Protector] Chapter 4056 -

the other side.

Xiao Feng was also advancing at a very high speed, but he did not encounter any obstacles, which made him puzzled.

Along the way, Xiao Feng learned that the Buried Dragon Valley was extremely dangerous.

“Is the Buried Dragon Valley really as terrifying as rumored?”

Xiao Feng sneered in his heart, until now he seemed to only feel a little energy bound from the ground.

But for Xiao Feng at this time, this energy restraint is basically negligible.

However, at this moment, an extremely violent energy fluctuation came again.

“So strong! What happened inside?”

Xiao Feng was shocked in his heart, even though he used his strength to resist, he was still shocked and flew two or three feet away.

“There is such a powerful coercion at such a distance, so how terrifying will it be at close range?”

Xiao Feng was extremely shocked. At this moment, he suddenly saw a dazzling light burst out from the giant ball of light in the sky in the distance.

A wave of extremely terrifying energy poured down and bombarded somewhere in the distance.

“Is it the movement made by the master?”

“Or is the master being attacked by the power of the thunder?”

Xiao Feng was very worried about Levi Garrison’s current situation, so he planned to continue rushing towards the core area.

However, Xiao Feng had just moved about five or six meters, when a terrifying energy hurricane struck indiscriminately.

“This is... too scary, isn't it?”

Although Xiao Feng tried his best to resist, he was still knocked out.

The whole person is like a broken paper kite, and it is only after stepping back more than a hundred meters to stabilize his body.

What frightened Xiao Feng the most was that he was shocked by this energy so that the blood in his chest was surging faintly.

Looking up and looking into the distance, I saw that the giant electric ball burst into a dazzling light again.

The light of thunder and lightning poured down, constantly hitting the position of the core area.

From a distance, it was as if a huge crack had formed in the sky, and silver lights kept pouring out and smashing down.

In the distant sky, there was even more thunder and lightning, as if the end of the world had come, and all living beings would cease to exist during this period.

The energy storm continued to hit, and the trees not far away were uprooted.

In the close range, the black cloud tops the top, as if you can touch the cloud layer by raising your hand, but there is no sound of thunder and lightning.

“It must be that there is danger on the master's side, and I must rush over to see it.”

Xiao Feng gritted his teeth and ran the exercises to resist the blockage of the energy storm.

Although it was difficult, Xiao Feng never stopped.

Murong Qingxue and Gongsun Yueying, who were looking for divine bones and heavenly materials and earthly treasures, also suddenly stopped searching.

The entire core area of the Dragon Burial Valley vibrated violently, and the power of the leylines under his feet rushed towards Levi Garrison's position madly.

But it is worth mentioning that this situation has relieved the pressure on the two women.

Clap!

A sharp flash passed by, as if the entire sky was split in half.

The giant electric ball is shrinking rapidly at this moment, but the energy pressure is increasing instead of decreasing.

At the same time, dazzling thunder continued to fall, as if it was an ancient beast that was venting his anger.

Levi Garrison's whole person has long been swallowed by the thunder, if not for the fluctuation of energy aura emanating from his body, the two women have no doubt that the latter has been smashed to ashes.

However, even so, the hearts of the two women were raised in their throats, and Levi Garrison's life and death were related to their fate.

Of course, Levi Garrison's ability to carry it up to now has far exceeded expectations.

"Quick... Look, the electric ball seems to be about to fall!"

Murong Qingxue's voice trembled.

Gongsun Yueying also instinctively covered her mouth.

The electric ball that originally covered half of the cold pool has shrunk dozens of times in a short period of time!

I saw that the space around the electric ball had been distorted in the eyes, and the dark clouds in the entire sky had dissipated, so dazzling that people could not look directly.

The Return of the God of War [The Protector] Chapter 4057 -

The terrifying thunder and lightning pressure instantly filled the entire space, and the entire cold pool was also deadly silent at the moment.

It is like the last tranquility before the storm, which makes people feel uneasy, even fearful.

What followed was a frantic vibration at the feet. Although the two women were trying their best to control their body shape, they were still shaken up and down.

Fortunately, the power of the earth veins was rushing wildly, otherwise Murong Qingxue and the others would have no doubt that they would be sucked into the ground.

At this moment, they finally understood why those god bones were embedded in the ground.

They should have been sucked in by the power of the leylines, and coupled with the bombardment of the sky, they naturally showed their previous state.

As soon as she thought about it, Murong Qingxue and the others were so frightened that their souls were blown away, gasping for breath.

That is to say, in this short period of time, the energy shield has been shattered by two-thirds of the backlog of Tianlei energy aftermath.

The rest are still struggling to support them. If it wasn't for Levi Garrison, the target of most of the power of thunder and lightning, I'm afraid they would have been squeezed into pies long ago.

"Is the master okay?"

"Is the sovereign okay?"

Murong Qingxue and Gongsun Yueying simultaneously turned their gazes to the blazing lightning again.

A faint figure trembled slightly in it, as if a fierce beast in a cage was fighting a trapped beast.

Levi Garrison did feel a bit of pressure at this moment, especially as the giant electric ball kept shrinking.

The thunder and lightning coercion was combined with the terrifying restraint force from the ground, and the figure dropped several meters in mid-air.

"What a terrifying power of lightning!"

A flash of surprise flashed in Levi Garrison's heart, but he quickly stabilized his mind.

He knew that when the electric ball had shrunk to a certain level, he would give himself a fatal blow.

Sure enough, after a while, the electric ball suddenly bombarded, directly covering the area where he was.

Clap clap!

The harsh sound of breaking the sound barrier came, Levi Garrison's eyes narrowed slightly, and he could clearly see that the area where the electric ball passed was severely distorted or even torn directly.

It was as if a storm from an exotic space swept out, directly cutting down the surface of the invincible cold pool by several layers.

At this moment, Levi Garrison even felt that this space was compressed, and the electric ball seemed to destroy all the creatures in this area.

"I fought with you!"

Levi Garrison gritted his teeth and charged directly at the electric ball.

Boom!

A strong crash sounded, as if two planets collided with each other.

For a while, the energy hurricane swept the surrounding, and this space was like a folded paper, with obvious folds and arcs.

After the two sides were deadlocked for half a minute, Levi Garrison fell again, and finally hit the ground heavily.

Clap clap!

In an instant, the indestructible ground was filled with rubble, and the location that was first bombarded by the electric ball was directly turned into dust.

Even with the strength of Levi Garrison's body, he felt severe pain at the moment, and there were many scratches on the surface of his body.

And this is not the end, the terrifying electric ball has not dissipated due to the impact.

It seems to have spiritual consciousness, constantly changing its shape to completely wrap Levi Garrison's body, and bombarding Levi Garrison's body from all directions.

At the same time, the electric ball also seemed to communicate the power of the leylines, and the power that had been gathered for a long time exploded instantly, directly binding Levi Garrison's legs.

"You two work well together!"

Levi Garrison said a little depressedly.

Just now, he exerted his strength twice in a row, but he was not able to completely break free from the shackles of the ley lines.

Of course, the most important thing is because of the power of the electric ball, which is like the pressure of Mount Tai, otherwise, how could it be possible to restrain Levi Garrison with the power of the ley lines alone?

“Whether it can be completely transformed is at this time.”

Levi Garrison shouted loudly and quickly ran the basic exercises, which was actually directing the power of lightning into the body.

The Return of the God of War [The Protector] Chapter 4058 -

The giant electric ball suddenly fell, and the sound of breaking the sound barrier was particularly harsh.

Levi Garrison’s body hit it straight.

At this moment, Levi Garrison only felt that the tinnitus continued, and he instantly lost his ability to hear.

The burning sensation that is enough to burn everything in the world and the terrifying to powerful thunder strike.

As if to tear Levi Garrison into pieces.

At the same time, the power of the ley lines also suddenly attacked, and the two legs just got out of the deep underground, and they quickly restrained Levi Garrison’s feet.

“It’s really time to pick!”

In desperation, Levi Garrison could only fight against the downward dragging force from the ley lines.

Clap clap!

At this moment, the space seemed to be torn apart, and even with Levi Garrison’s physical strength, he felt a slight pain.

Coupled with the strongest blow of the giant electric ball, Levi Garrison felt paralyzed all over, and the numbness was still increasing.

This affects Levi Garrison's reaction speed in all aspects, and the power of thunder and lightning is pervasive, looking for every opportunity to attack Levi Garrison.

Fortunately, Levi Garrison is a pure body cultivator, otherwise the attack of the thunder and mercury can destroy anyone into rubbish.

"Ahhh!"

Levi Garrison roared, and because of the strength of his body, he also felt severe pain at the moment.

The power of lightning even penetrated through his sweat pores, trying to completely destroy every cell of Levi Garrison.

The power of the leylines is also increasing, as if to further drag the legs away from Levi Garrison's body.

The pain continued to increase, and Levi Garrison's roar continued.

Just when Levi Garrison thought that most of the thunder calamity had passed, the originally calm water surface of the cold pool suddenly shot a water arrow the thickness of an adult arm.

This water arrow also carries terrifying thunder and lightning energy, and there are electric flowers swaying around the water arrow.

In particular, the water arrow has an extreme coldness, as if it can freeze everything in time into ice cubes, and the space area that passes by is instantly frozen.

And the power of thunder and lightning showed a scorching temperature, and the frozen space area was instantly heated, and it shattered directly under the extreme hot and cold switching.

laugh!

The water arrow shot out and pierced Levi Garrison's heart.

Levi Garrison's eyes narrowed slightly, and he had already speculated about the true intention of the water arrow.

Thinking that Tianlei has seen that his body strength is far beyond ordinary people, he plans to use the arrow of cold pool to freeze himself, and then bombard it with Tianlei to heat it up.

Under extreme heat and cold, even the strongest body will be destroyed.

“Tianlei in the Buried Dragon Valley really has some kind of aura, and it can cooperate with the earth veins and the cold pool to play such a degree of joint attack.”

Levi Garrison was full of emotion, presumably this water arrow also gathered the power of extreme cold in the entire cold pool, and must be treated with caution, otherwise it may really be dangerous.

The basic exercises accelerated again, and at this time Levi Garrison had turned the exercises to the extreme.

Even against the many powerhouses in the past, he had not spent so much effort, but at this time, he had already tried his best to resist the joint attack launched by Tianlei.

The water arrow arrived in the blink of an eye, Levi Garrison first chose hard resistance, and then guided the extreme cold power of the water arrow into the body to avoid the continuous hardening of the body surface.

Clap!

The water arrow made a sound of ice cracking. From the initial length of several meters, it quickly shattered, and at the end there were only a few inches left.

eventually collapsed completely.

And Levi Garrison also retreated again and again, and the tingling sensation that came again made him gasp.

“Did you think that the power of this water arrow is so powerful?”

Levi Garrison was shocked, especially the chill, which made him extremely surprised. For a moment, Levi Garrison even thought that he had been frozen into an ice sculpture.

Even the limbs were extremely stiff, and after running the basic exercises for several weeks, he barely recovered.

“Break it for me!”

Levi Garrison let out a roar again, and his body instantly burst out with terrifying energy coercion.

The Return of the God of War [The Protector] Chapter 4059 -

The energy coercion was overwhelming and collided with the chain energy carried by the thunder attack.

Boom!

With the deafening loud noises, the jet black stone under Levi Garrison's feet shattered instantly, and the power of restraint was instantly disintegrated by him.

At the same time, Levi Garrison stepped on the ground with both feet, and the whole person was like an arrow from the string, rushing towards the half giant electric ball left in the void again.

Whoops!

The violent sound of electric current continued to spread, and all parts of Levi Garrison's body were covered by arcs.

But for Levi Garrison at the moment, this power attack really can't cause any substantial damage.

This confrontation lasted for a long time, and the giant electric ball finally gave up and slowly dispersed in all directions.

And Levi Garrison stood in the sky, as if an ancient god of war looked down on the world, showing domineering in his gestures.

"It's finally over!"

Levi Garrison muttered to himself, clenched his fist slightly, and the breath in his body was instantly surging.

However, when Levi Garrison released his fist, the energy dissipated in an instant, as if it had never existed.

flexible.

Levi Garrison feels that the control of power is more handy.

To judge whether a sports car is top-notch, an important indicator is the acceleration from 100 kilometers.

However, Levi Garrison's acceleration time is almost negligible at this moment, and at the same time, it can be completed instantly from top speed to zero speed.

This is the ultimate control of power, and Levi Garrison was unexpectedly able to achieve such an effect of freely retracting and releasing power.

As for other aspects, what Levi Garrison felt the most was his physical strength, which was completely elevated to a whole new level.

It's just that Levi Garrison didn't use up all the power of the thunder and the ley lines just now, after all, the ley lines are still useful to him.

Such a special leyline is undoubtedly the best choice for forging peerless divine weapons.

After a while, all the giant electric balls dissipated, and the clear sky darkened again, and the dark clouds covered the top like Mount Tai.

Above the cold pool and even in the entire core area, the scene of thunder surging once again appeared, and the leyline restraint also disappeared.

Everything seemed to have returned to its original appearance, but it was very different for Levi Garrison.

Because all the xenophobic forces in the Buried Dragon Valley are ineffective against Levi Garrison, as if they never existed.

After thinking for a while, Levi Garrison also understood the whole story.

The power he possesses now is beyond the scope of Leihai and Leylines, and it can even be said that he has formed a communion to some extent.

Since there is no coercion against Levi Garrison, all areas will return to normal again, waiting for the next 'abnormal' to appear before attacking.

the other side.

Many sectarian forces besieging the Buried Dragon Valley also sighed with emotion.

"The energy riot is finally over, and it looks like the thugs who entered it are dead."

"Just the pressure of the energy that burst out just now, even the Daluo Immortal can't survive."

"Fortunately, we didn't rush into it at the time, otherwise it would be a disaster!"

The two hall masters of the Sun Moon Divine Fire Hall also had lingering fears, and they had a clearer sense of the energy just now.

The two of them had no doubts that even if they exploded the power in their bodies to the extreme, they would be instantly killed by that giant electric ball.

“This is still the case, that unscrupulous madman will definitely not survive.”

The two hall masters gave birth to this idea at the same time.

Xiao Feng, who was rapidly approaching the core area, suddenly stopped, the giant electric ball in the distance dissipated, and his face instantly filled with grief.

“Master, you still can’t wait for your disciple!”

“How can this be, why are you here to risk your life to hunt for treasure?”

“Master, this unworthy disciple is here to send you the last ride.”

Xiao Feng screamed in the sky, and then he cheered up and continued on his way.

However, Xiao Feng had just walked a few feet forward when a sudden change occurred.

The Return of the God of War [The Protector] Chapter 4060 -

It looked like Levi Garrison, the ancient god of war, was suspended in mid-air.

Murong Qingxue and Gongsun Yueying’s eyes were full of shock, but their hearts were more of worship.

“Master has just passed that level of thunder attack?”

“The strength of the sovereign is too terrifying, isn’t it?”

“Even if the two palace masters come in person, I’m afraid they won’t be able to resist the bombardment of the giant electric ball?”

“I don’t know what realm the Sect Master has reached now?”

The two women sighed involuntarily.

However, just as they were about to get close to Levi Garrison, thunder suddenly rolled over their heads.

Clap!

Immediately afterwards, a thunderstorm with the thickness of a water tank poured down, directly hitting Murong Qingxue and the others.

Gongsun Yueying's face paled, and she completely lost her ability to think at that moment.

Murong Qingxue hurriedly pulled Gongsun Yueying to dodge, but at some point, the power of the leylines under her feet that had disappeared reappeared.

The sudden stagnation caught the two girls off guard, and one fell to the ground without standing still.

"Ouch!"

The two women screamed in shock, and it was too late to get up again.

The terrifying thunderbolt came in the blink of an eye, and it looked like it was about to hit the energy shield.

The hearts of the two women sank to the bottom in an instant. They knew that there was not much energy left in the energy shield at the moment, and it was difficult to resist the aftermath of the thunder.

Not to mention a complete Sky Thunder attack?

What's more, Murong Qingxue and the others had already exhausted their stamina from searching for the treasures of heaven and earth.

"Is it the end of it?"

"I don't want to die yet!"

The two women's eyes were filled with unwillingness and helplessness, and in the end they could only watch the falling thunder getting closer and closer.

Waiting for death to come.

However, at this critical moment, Levi Garrison in the distance seemed to teleport and came to the two women.

Then there was a scene of surprise that made the two women stunned.

Seeing the thunder that was about to hit the energy shield, it looked like a fast-moving sports car was suddenly slammed into the steering wheel by the driver.

Turning directly at a 90-degree angle, he finally fell into the cold pool.

"How is this going?"

Watching this incredible scene, the two women forgot to breathe for a while.

Immediately afterwards, there were again several thunderbolts that were originally slashing at the energy shield, all of which fell into other positions as if they were avoiding the god of plague.

Even if there were occasional three-color lightning strikes on Levi Garrison later, it would not be able to cause any damage to him at all.

It's as gentle as a breeze.

In particular, Murong Qingxue, who was beside Levi Garrison, could not feel the aftermath of the thunder at all.

This is completely different from the previous situation where the aftermath can shock them.

"It should be because I passed the test of Tianlei Tribulation. Tianlei in the Buried Dragon Valley regards me as his own and no longer rejects and destroys it."

"As for the fact that you are not affected, it should be the same. Within a certain range, no one or anything around me is hostile to Tianlei."

"The energy here has also reached a new balance. As long as you are by my side, everything will be fine."

Levi Garrison explained.

Murong Qingxue and Gongsun Yueying suddenly realized.

The shock and awe in their hearts at this moment cannot be added.

the other side.

Xiao Feng wanted to continue rushing to the core area, but the mutation suddenly occurred after taking a few steps.

The originally quiet sky was instantly filled with dark clouds, followed by lightning and thunder, and the power of restraint under the feet also increased several times in an instant.

"How is this going?"

Xiao Feng was full of doubts, and quickly ran the exercises to offset the power of restraint and continued to move forward.

However, at this moment, a thunder of the thickness of an adult suddenly slashed down and smashed directly into Xiao Feng's head.

"F*ck! Why is Tianlei here again?"

Xiao Feng screamed in shock, and hurriedly tried his best to dodge away into the distance.

The blazing thunder almost wiped the corner of Xiao Feng's coat and hit the ground.
