I am a quadrillionaire chapter 1982-“Who dares to come to my Iridescent Sect to steal our treasures? No matter who you are, you will not be able to escape today!”

Then, three figures appeared and went straight to the ice cavern.

When he saw that the three reputable elders of the Iridescent Sect were about to arrive at the ice cavern, a sneer appeared on the corner of David's clone's mouth.

The Evil-Splitting Sword flew out from the sheath behind his back and fell into his hand.

Once he had the Evil-Splitting Sword in his hand, he subconsciously let out a low growl.

“Evil-Splitting Sword Technique!”

Immediately, the sword was swung.

A dazzling red glow shot out from the sword and its target was the three figures flying out of the forbidden area.

Perhaps the three reputable elders of the Iridescent Sect sensed the power of this sword, as they immediately came to a sudden stop. They stopped in their tracks and stayed in the air.

The red glow from David's clone vanished in front of them.

After the dazzling red lights cut into the void, the void lit up.

Fortunately, David aimed it at the void. If this was a little slanted, he would have slashed the Iridescent Continent in half.

If he could cut the Iridescent Continent in half with one sword, he would have displayed a True Saint's strength.

The cores of the Iridescent Sect watched this scene in shock.

The three True Saint reputable elders were stopped by a wave of this person's sword.

If they did not feel the threat from this sword, the three reputable elders would not have stopped.

‘Who is this person?’

‘He's so young and yet he has such terrifying strength.’

Nova finally breathed a sigh of relief.

Although she heard a lot about David's deeds during this time and she knew that David was very strong, what she heard would never be as shocking as what she witnessed firsthand.

Since David could stop three reputable elders with a wave of his sword, it meant that the rumors were true.

"You three, what are you doing here? You can't go down without my consent." David's clone said while waving the sword.

The three figures stopped by his sword were also three old women.

When they looked at David's clone, they did not expect the person who attacked to be so powerful.

Boom!

At this time, the voice from the ice cavern became louder and louder, attracting everyone's attention.

The four reputable elders of the Iridescent Sect looked at each other. They all wanted to take action.

David was not weak, but he was alone.

Just now, the reputable elders were only stopped because they were caught offguard.

It would only take two of them to take care of David.

After this, the remaining two could go down to inspect the situation below.

They could not lose the Ice Soul Excalibur in the ice cavern.

They did not have time to ask David how he knew there was a treasure there either.

No one knew that the Ice Soul Excalibur had been buried here for such a long time.

The ice cavern was only formed because of the Ice Soul Excalibur. The Iridescent Sect was only founded after that.

This was the treasure of the sect.

At this moment, four of them acted at the same time.

Two of them targeted David while the other two targeted the ice cavern.

However, at this moment...

Boom!

Suddenly there was a loud noise.

A large blue object burst out of the ice cavern and stopped in the air.
