

Read I Am A Quadrillionaire Chapter 2004

I am a quadrillionaire chapter 2004-All major forces with enough confidence wanted to expand their spheres of influence, obtain more resources, and grow amidst the chaos.

Meanwhile, those who had no strength just wanted to protect themselves.

Some small forces had begun to contact each other, preparing to unite to survive the chaotic period.

From the moment Nek died and Zenon became the head of the Saint Association, a storm began shrouding Star Kingdom.

The Palmore and Fellowes families were integrating their forces.

Zenon brought the Saint Association law enforcement team to help out, which acted as a cardiac stimulant for his family.

Everyone in the Palmore family was confident that they would surely take down the Fellowes family.

That was all they were thinking now.

Could they take down the Fellowes family with zero loss?

The members of the Fellowes family all showed surprised expressions after learning that a Sacred Saint was helping them.

They would not hope that they could outdo the Palmore family.

As long as they could get through this and not be exterminated, they would be fine.

Otherwise, they could let the Palmore family know that they had to pay a huge price to take over the Fellowes family so that the Palmore family would not dare to challenge them again.

The cores of the Palmore family were gathering on a huge warship engraved with the word 'Palmore.'

There were four True Saints and nearly ten Pre-Saints.

Other than that, there were also a lot of Eternals.

This was not even the full power of the Palmore family.

Some of them were still with the rest of the family.

They were all waiting for the arrival of their grandmaster.

Soon, a burly man walked in.

It was the Palmore family's Sacred Saint grandmaster, Zenon.

He was also the new head of the Saint Association.

Once Zenon came in, all the core members of the Palmore family immediately stood up, bowed, and shouted excitedly, "Grandmaster!"

Ignoring everyone, Zenon strode to the main seat. After sitting down, he waved lightly, "You may rise."

"Thank you, Grandmaster!"

After they answered, the cores sat down with excited expressions.

Zenon was like a God in the Palmore family, so he had absolute authority.

No one dared to object to what he said.

Even if it is wrong, they would still follow.

"You must be tired after keeping an eye on the situation here for so long."

"Grandmaster, it's our honor to contribute a little bit to the development of the family as members of the Palmore family," the only Peak True Saint of the Palmore family replied loudly.

"It's our honor to be part of the Palmore family!" The rest of the people followed suit.

Zenon nodded.

"Alright, not bad! I'm very pleased that you guys have such awareness. The Fellowes family is only our first goal. After taking care of the Fellowes family, let's quickly annex all the industries of the Fellowes family and then move on to the next family. We must occupy half of the Star Kingdom in this short time," Zenon said with a serious expression.

"Yes, Grandmaster!" The cores of the Palmore family replied in unison.

"I will deal with the three True Saints of the Fellowes family later and leave the rest to you. You must take down the Fellowes family while suffering the lowest cost. The Saint Association law enforcement team will also assist you."

“Roger!”

“If you have no doubts, just follow me! This battle is the first battle for us to show our strength. Therefore, we must do a good job so that all forces can see the power of the Palmore family. This has great significance for the future development of the family so we can't make any mistakes.”

After Zenon finished speaking, he walked ahead.

The rest of the Palmore family's cores respectfully followed behind.

Afterward, all members of the Palmore family were ordered to surround the Fellowes family tighter and get ready to take action. After this, they would take down the Fellowes family in one go.

If they could take down the Fellowes family with their own family suffering minimal damage and at zero costs, the expansion of the family would be much smoother in the future.

Who would dare to go against the Palmore family if they could wipe out a family as strong as the Fellowes family?
