

I'm A Quadrillionaire

Chapter 2024

Chapter 2024

If they did not take over the Fellowes family today, other forces in Star Kingdom would continue to wait for a catalyst to kickstart the revolution.

If that were the case, Star Kingdom would not fall into chaos.

The Palmore family would also have no chance of reunification.

In this way, Zenon's plan to ignite the fire and become the Immortal Deity could not be realized.

Over time, the situation would be more and more unfavorable for him, for example if two more powerful Sacred Saints came out of hiding.

Sid was the weakest of the three. Moreover, he was injured, so he naturally did not want to do anything.

If the Fellowes family had not found a peak Sacred Saint who could compete with Zenon today, he would not have shown himself.

It was still hard for Sid to accept this.

'There's another peak Sacred Saint hiding in Star Kingdom and I had no idea!'

As the head of the Saints Association, Sid knew most of the powerhouses hidden in the dark.

However, none of them had reached peak Sacred Saint Rank.

It seemed that he was still naive.

Although Star Kingdom was only a level 7 civilization, it had experienced countless eras.

Therefore, it was not too surprising that some old monsters were hiding in the dark.

However, Sid did not understand why instead of trying to find a way to ignite the Divine Fire, the peak Sacred Saint chose to hide.

'Is he recuperating?'

'This is the only possibility.'

Zenon was still contemplating but David was getting impatient.

'Just tell us if you want to fight or not! What's the point of wasting so much time?'

"Hey! Young man, do you still want to fight? You don't have to worry about my old bones, I can last a few more rounds. Otherwise, I will be mocked by my darling disciple again in a while. He'll claim that I can't beat you when I haven't even fought you seriously yet!" David's clone looked at Zenon and said slowly.

"Old man, can you really do it?" David's main form urged again.

"You punk, shut up! Do you think a peak Sacred Saint is

weak?"

"Well, don't you always brag about yourself in front of me? Why can't you back up all that talk now? Could it be that you were just lying this entire time?"

"You... You punk! You really piss me off!"

After David's clone finished speaking, he flew into a state of rage.

Boom!

His energy escalated and reached its peak after just a moment.

His energy was even stronger than just now.

This was no longer at the beginning of peak Sacred Saint Rank, but the pinnacle of peak Sacred Saint Rank.

When everyone thought that David's clone was going to teach his disciple a lesson, he pointed at Zenon with the Ice Soul Excalibur and said, "Come on, Palmore kid, let's fight for another three hundred rounds. This time I will be serious so you should show your true strength."

Zenon was hesitant inside.

He really wanted to fight the opponent with no restraints after being taunted aggressively.

Yet, when he thought of his family's situation and of Sid standing silently by the side, he held back.

Knowing that he was slowly losing the upper hand, he realized he could not complete what he came out to do today.

"I, Zenon Palmore, will remember what happened today. We will have all the time in the world in the future."

After Zenon finished speaking, he turned around and left without looking back.

While he was leaving, he glanced at the Saints Association's law enforcement team.

His gaze scared the members of the law enforcement team, and they dared not look directly back at him.

Not everyone could handle the gaze of a peak Sacred Saint.

"Palmore family, retreat!"

Zenon's last sentence announced the failure of his family's plan.

He did so much to deploy the Saints Association's law enforcement team and most of his power, but in the end, he left in despair.

He, the new head of the Saints Association, was likely to become a joke that everyone would talk about secretly.

Zenon was holding back the rage in his heart, and he had nowhere to vent.

The turning point of the matter was the sudden appearance of the old monster master and disciple.

Without them, Zenon would not have had to worry about Sid, and he could destroy the Fellowes family.
