

Read I Am A Quadrillionaire Chapter 2067

I am a quadrillionaire chapter 2067-Upon hearing this voice, the four sisters shouted in surprise, "Master!"

They could feel the blue light repairing their bodies.

The four sisters wept with joy.

Their efforts were not in vain.

The master had fully awakened.

This blue light was the unique ability of the Feather family. It had the dual functions of devouring and healing.

It could be said that it was the innate skill of the Feather family, and it was also the foundation of the Feather family.

In the Feather family, a person who awakened the blue light was undoubtedly a genius among geniuses.

Only those who had awakened the blue light could receive the key training of the family.

Their master was one of them.

Just now, their master emitted two blue lights.

One devoured the enemy's attack, while the other one saved the four of them.

Therefore, it was enough to prove that the master had fully awakened.

'Those in subordinate positions will follow the example set by their superiors. These old women were killing people at will. So as their master, you are not a good person either. Now that you've woken up, take your people and get out of here. Star Kingdom doesn't welcome you outsiders,' David replied coldly.

After combining what Nova and Lorraine said, David had roughly guessed the situation.

The person who just spoke had fallen into a deep sleep for some unknown reason.

As slaves, the four sisters had been working hard for their master's awakening all their lives and had done a lot of bad things along the way.

They established the Iridescent Sect, took advantage of the sect's reputation, and superficially only recruited female disciples. Meanwhile, their real purpose was to cultivate the sacrifices needed to revive their masters.

That was why Nova said the Iridescent Sect's seniors who had achieved Saint Realm never came out after entering the forbidden area.

They were definitely no longer alive.

This also led to the situation whereby even though the Iridescent Sect had been established for so many years, there were no other Saints except for the four True Saint reputable elders.

David would not go after evildoers like they were his enemy, but he would still take care of it if it was within his ability. However, he would forget about the things that happened in the past.

Since those things were in the past, then he would let them be.

Besides, David had deeper considerations.

If he were to offend these guys from a higher civilization to death, it would be good to take care of all of them at once.

If he did not, they might just bring disaster to Star Kingdom.

The invasion and collision between civilizations would often brought the most serious consequences.

At that time, the entire Star Kingdom would suffer.

Regardless of the outcome, Star Kingdom would be in ruins.

David believed that the dead Saint seniors in the Iridescent Sect would not want to see such a result.

No matter what the other party said, they had used Star Kingdom's resources to wake up.

As long as they could reach an agreement where they would not disturb each other, then David would let them be.

Such an outcome would be good for both parties too.

After David said that, the other party did not respond for a longtime.

He probably did not expect to be scolded in a level 7 civilization!

“Hehe. You are so brave! Not only do you want to kill my people, but you also scolded me. Do you know who you are talking to?” A voice came from the depths of the forbidden area again.
