

Read I Am A Quadrillionaire Chapter 2076

I am a quadrillionaire chapter 2076-“David, what is the meaning of this? Are you doubting me? Did I waste my breath saying all those things? If you have a chance in the future, you can go to Leila to find out what kind of person I am and what the Feather family is like. You are insulting me and the Feather family by saying this,” Azul replied, pretending to be angry.

“Okay! I hope you will do as you say!”

David did not continue to argue anymore. He had already summoned the clone, so he had nothing to worry about.

Even if Azul went back to his words, David had the means to deal with him.

Then, David said to the clone, “Master, we have already discussed this. Give him the sword!”

David’s main form called the clone Master. This made Lorraine, who was still in his arms, speechless for a while.

Without saying a word, the clone directly threw out the Ice Soul Excalibur in his hand.

Azul stretched out his right hand and the Ice Soul Excalibur went to him.

A smile appeared on his face and then he began to gently stroke his sword while muttering to himself, “Old friend, we have finally met again. Don’t worry, from now on, I will never let you suffer any grievances. From now on, I will continue to lead you to fight in every corner of the world, make great achievements, and become famous all over the world.”

David watched the other party quietly.

He was ready to respond to any unexpected situations.

In his opinion, the moment Azul got the Ice Soul Excalibur should be the point at which he would shed all pretense.

Azul could keep his promise, but the chances of that happening were low.

It was so low that it was almost negligible.

Even David did not quite believe that Azul would get the sword and then simply leave with his people.

Despite this, he still chose to return the sword to the opponent first.

If Azul went back on his words, then David would not feel guilty for what he would do next.

After all, he was too kind.

He did not have the heroic mentality of rather killing a thousand by mistake than letting one go.

Only when he was sure of the enemy would he choose to fight back without hesitation.

Such a person was destined not to be an intimidating person, but a hero.

After Azul got the Ice Soul Excalibur, he kept stroking his old friend who had been with him for many years.

He was also muttering some irrelevant words.

David did not say anything to hurry him up.

After about a few minutes, Azul put away his sword and looked up at David.

The two looked at each other with a smile on the corners of their mouths.

Just as Azul was about to make a move, he suddenly sensed something, and together with David and his clone, the three looked in the same direction.

A space crack appeared in front of them, and a figure came out from inside.

It was Sid, who had rushed over from the Central Sacred Continent.

The speed of a Sacred Saint in the eight-dimensional space was quite fast.

As soon as Sid came out, he saw David holding a woman in his arms and standing beside his master while confronting a young man he did not know.

Behind this young man were the four True Saint reputable elders of the Iridescent Sect.

'What happened?'

He did not understand what was going on, so he stayed where he was and did not move.

David did not expect Sid to come.

He should have sensed the energy emanating from Azul and come to check the situation.

As the guardian of Star Kingdom, Sid naturally wanted to check on things if he sensed the energy of a strange powerhouse.

Azul only glanced at Sid before looking away.

Sid was just a Saint who had not yet reached the peak, so he did not deserve Azul's attention.

"Lord Sid, take the people from the Iridescent Sect away! I can handle this," David said first.

"David, what happened? Who is this person? Why haven't I ever seen him before?" Sid asked suspiciously.

"It's a bit complicated, I'll explain it to you later."

Azul said proudly at this time, "Who am I? Old man, listen carefully. I am from a level 9 civilization called Leila, and my name is Azul Feather, a direct descendant of the Feather family in Leila."

Sid's heart skipped a beat when he heard that.

'A level 9 civilization?

'How could there be someone from the level 9 civilization in Star Kingdom?

'When did he come here?

'What does he want?

'Is he going to invade Star Kingdom?'

A series of questions appeared in Sid's mind!
