I am a quadrillionaire chapter 2091-“David, I will definitely tell you the reason, and I have no doubt you will agree to this deal.”

Great curiosity arose in David’s heart as he looked at Azul, who had a confident look.

Why would Azul have such confidence that David would let him go in this situation?

‘Aren’t the dead better at keeping secrets?’

‘Why would he let a living person go?’

‘Would he leave the safety of Star Kingdom in someone else’s hands?’

“Azul, I don’t know where your confidence comes from, but I’m sorry to tell you that you will not walk out of Star Kingdom today. No matter how much I sacrifice, I must kill you. In my opinion, the dead are the only ones that can keep a secret,” David said blankly.

“Really? If I tell you that once I die here, the entire Star Kingdom will become my burial offering, would you still dare to kill me?” Azul smiled.novelxo

His smile was hideous, which made the others tremble with fear.

David stopped talking.

He frowned, looked at Azul, and weighed the truth of these words in his heart.

In the end, he could not determine the answer.

Azul might have said this just to try to survive.

However, it could also be true.

After all, Azul was from a level 9 civilization.

People from a level 7 civilization could never understand the numerous processes and techniques of the people from a level 9 civilization.

“Since the entire Star Kingdom will become your burial offering if you die here, I won’t kill you first. After I cripple you, I will take you to a place far away from the Star Kingdom and then kill you there. Won’t this allow me to avert any crisis?” David analyzed calmly.novexo

“Haha! David, you’re overthinking it. I won’t let you succeed. As long as you attack me again, I will immediately use secret techniques to ask the family for help. They will

sense my signal and then send the powerhouses over. Once they find Star Kingdom, you will know the consequences. Don't even try to stop me, as it'll be useless. This secret technique can only be used by the Feather family who have awakened their innate talents. You will never be able to stop it," Azul said with a laugh.

Although he was now seriously injured and in poor condition, everything would be fine as long as he could survive this battle.

These injuries did not even hurt the vital parts of a partial Pre -Deity.

Compared with the damage he suffered one million years ago that caused him to fall into a deep sleep, these injuries were much lighter.

David fell silent.

He did not know if what Azul said was true or not.

If what Azul said is true, what should he do?

The best approach was to kill Azul and then quietly bring Celia and the others back to Earth.

Judging from the distance from Earth to Star Kingdom, Earth would not be likely to be affected even if people from the Feather family decided to launch an attack.

David could still bring everyone to live safely on Earth.

However, if he did this, countless living creatures in Star Kingdom would be doomed.

The Feather family would certainly not spare them.

David figured that he was not a selfless person, nor did he have the heart to protect Star Kingdom like Sid.

However, if you asked David to let the whole Star Kingdom bear the wrath of a level 9 civilization for his own safety and cause the deaths of countless living creatures, frankly, David could not do it.

After all, he was still a youth in society with many good qualities who had received higher education on Earth.
