

# The Almighty Dragon General

Chapter 1185

□ □ □

Chapter 1185

Perplexed, Tobias held his sword and looked at James, who was covered in bronze.

What kind of martial arts technique was that?

The Cadens had collected countless ancient scrolls that recorded past events of different periods in history.

However, he had

never seen records of the martial art technique that James was performing in any of the ancient scrolls.

Tobias raised his sword, and it glowed brighter.

"Take this!"

His face darkened, and he roared, charging toward James with his sword.

As he flew toward James, the long sword in his hand unleashed terrifying Sword Energy.

The first Sword Energy!

The second Sword Energy!

The fifth Sword Energy!

The tenth Sword Energy!

The eleventh Sword Energy!

The twelfth Sword Energy!

Twelve materialized Sword Energies burst out instantly.

Tobias tilted his long sword.

The twelve Sword Energies dashed across the sky and formed a sword net in the air. With a terrifying and imposing force, they shot toward James.

"T-Thirteen Heavenly Swords!"

"There are twelve Sword Energies. He's lacking one more to fully master the Thirteen Heavenly Swords."

"His Sword Energy is incredibly potent. I feel terrified even at such a distance."

The expressions of the martial artists in the distance slightly changed.

"Grandpa, don't!"

Maxine's face turned pale in fear, and she could not help letting out a loud cry. However, it was too late. The twelve Sword Energies shot toward James with destructive power like twelve meteorites.

James' face changed, and he quickly backed away.

Unfortunately, he could not outrun the Sword Energies.

One of the Sword Energies plunged into his back.

The Invincible Body Siddhi was a great defense, and James did not sustain any external injuries. However, the Swords Energy's

explosive force shook the Bloody Energy in his body.

Unable to suppress the surging rush, James spurted out a mouthful of blood.

After being hit, his movements slowed down.  
Soon, another Sword Energy followed and struck him.  
His whole body was struck down in an instant.  
Since he was suffering such serious internal injuries one  
after another, he could not gather his True Energy. His  
body fell from  
the sky and plummeted to the ground.

Boom!

He crashed into the thick blanket of snow, causing the  
snow to flutter.

"Huff!"

The ancient martial artists watching in the distance  
gasp.

Tobias was overpowering!

The Thirteen Heavenly Swords were terrifyingly  
strong.

Tobias displayed such aggressive swordsmanship and  
potent Sword Energy. Who in this world was capable  
of going against  
him?

His strength was expected as he was one of the Ancient  
Four family heads. The Cadens had passed down  
peerless sword  
techniques for thousands of years.

Bryce's face was terrifyingly grim.

He never expected Tobias' power to be so extreme. Moreover, he had even mastered the twelfth sword of the Thirteen Heavenly Swords. Even James did not stand a chance and was defeated.

He secretly looked for an opportunity to slip away. As for Tobias, he gradually descended to the ground and walked to where James had landed.

He wanted to check if James was dead or not.

When he got close, he thrust his palm forward, and a force swept the snow away instantly.

James was lying on the ground, covered in blood, on the brink of death.

"James..."

Maxine rushed over quickly and tried to help James up from the ground.

However, Tobias raised his sword and blocked her path.

"Grandpa..." Maxine burst into tears.

Tobias said gently, "He took innocent lives, so I punished him for his sins. He got what he deserved."

Everyone thought that James was dead.

However, James suddenly rolled around, got up, and attacked while Tobias had his guard down. His long sword pierced through

Tobias' body
