

Read I Am A Quadrillionaire Chapter 2180

I am a quadrillionaire chapter 2180-From this aspect alone, one could see how extraordinary Pebbles was.

Who would dare to eat a Beast Crystal directly?

They might have died before they could recover their soul power.

“Pebbles, if you want to eat in the future, just tell me and I will buy them for you. However, whenever you can't eat anymore, stop. You can only eat when you want to eat, understand? Otherwise, you will hurt your body with poor digestion,” David looked at Pebbles and said seriously.

“Understood. You are the best! Thank you!” Pebbles squealed happily.

Looking at the smiling little girl, David was also very happy.

He also knew that Pebbles might not have a simple identity.

Despite this, so what?

He was not trying to get anything by being nice to her.

He was also not trying to please the forces behind Pebbles.

He was just fond of this little girl.

Besides, did David need to please anyone?

Not at all!

The system was his biggest backer.

He had unlimited possibilities with his system.

Even if Pebbles was backed by the most powerful force in Level 9 civilization Leila.

David did not need the other side's help either.

As long as he worked a little harder and spent all the L Dollars in the system as soon as possible, the forces behind Pebbles might even come begging for them at some point.

Since he was fond of this cute and sensible little girl named Pebbles and decided to keep her by his side, David would regard himself as Pebbles' backer instead of wanting to get anything in return.

After Pebbles ate the Silver Flood Dragon's Crystal, she started to feel sleepy.

Soon, she fell asleep in David's arms.

She must be digesting the Beast Crystal in her body.

Yet, even when she fell asleep, the little girl still refused to let go of David. Her arms were firmly wrapped around his neck as she slept in his arms.

David originally wanted to wait for the little girl to fall asleep and then leave quietly to go to another room.

However, the moment David removed her hands from him, the little girl woke up.

He tried several times, but he kept failing.

In the end, David had no choice but to hold her to temporarily sleep.

The next few days, David bought many treasures from Sole's trading street with Beanie by his side.

While obtaining lavish points, he was simultaneously also preparing rations for the little girl.

Pebbles only took two days to digest a Beast Crystal worth hundreds of billions. Now, she started to ask for food again.

Thus, it would be good to always have some food to stand by.

When David spent his money on a shopping spree at The Spirit Cage...

Deep in the universe, a blue light arrived at a small corner of the level 9 civilization Leila.

This was the sphere of influence of the Feather family.

Although the Feather family was not the top power in Leila, its strength was not weak, so they were at least the upper middle class.

The area they controlled was huge and they governed dozens of galaxies.

The blue light that just appeared was immediately captured by a mysterious force and disappeared.

A middle-aged man was enjoying the special service of several pointed-eared beauties with his eyes closed in a luxurious room.

The pointed-eared beauties were stunning.

Except for their pointed ears, they were almost indistinguishable from humans.

However, they were much more beautiful than human females.

Any one of them were comparable to the most beautiful human female.

They were the Elves, one of the many races in the universe.

The Elves were a very famous race in level 9 civilization Leila.

The Elf women were very beautiful, and they had a very unique way to entertain others.

Except for races without bodies like the Robotias, all the men from other races were very fond of the Elves.
