I am a quadrillionaire chapter 2226-How much got would depend on their strength.

The stronger their strength, the more they would get.

All the people who lived around David that day moved out.

Those who could live in the downtown area of Sole were very high net worth and they did not want to be neighbors with a murderous man like David.

Although it was the Macee family who came to provoke him, David acted like nothing happened after he killed hundreds of powerhouses from the Macee family. This made the surrounding residents feel deeply scared.

What would they do if they accidentally provoked David and got wiped out?

Even if they did not provoke him, who could be sure that David had no enemies?

If an enemy with almost the same strength came and both sides started a fight, wouldn't the surrounding residents suffer from the battle?

To avoid this disaster, the only choice was to move away and stay away from David.

In the following days, David had a great time.

No one bothered him again.

The Macee family incident was not followed-up and the Macee family in the real world also did not send anyone to trouble David.

Perhaps they felt that it would be useless since Basil and hundreds of powerhouses from the Macee family were no match for David even when together and, in the end, the entire team was annihilated.

The Macee family was also wondering if the enemy would come to them in real life to wipe out the remainder of their family.

Occasionally, Sole's powerful forces came to visit David with treasures, and then, he would buy them according to their value.

It was all for lavish points.

The days passed slowly in peace.

Thor became David's spokesperson and he would collect all kinds of treasures for him in Sole.

The little girl Pebbles would just eat and sleep.

She had a bigger appetite now, so she was eating more and more treasures.

At the same time, her body was also quietly growing, but it was still not obvious.

If it were not for David's system, ordinary people would not be able to afford the little girl's food.

Of course, in this process, David also got great benefits.

Shortly after the Macee family incident, his lavish points reached 10 thousand.

At this time, he did not leave The Spirit Cage to return to the real world to upgrade his Body. He would collect another 10 thousand so he could go back to upgrade his Body and Mind in one go.

On this day, David's lavish points finally broke through the 20 thousand-point mark.

He could upgrade his Body and Mind from Primordial level 1 to Ancestral level 1 at the same time.

He knew that it was time for him to return to the Star Kingdom to improve himself.

He had not been back for so long, so he would also have a look at how everyone was doing.

At night, David made an excuse that he wanted to be alone.

Pebbles was standing guard just outside the door.

As long as Davey did not come out, no one could go in and disturb Davey.

If anyone dared to break in, she would beat them up.

Sitting on the bed, David turned on the system and opted out of The Spirit Cage.

He then began to feel dizzy.

When he opened his eyes again, he had returned to the real world.
