

# The Ex-Husband's Revenge By Dragonsky

Chapter 217

Read The Ex-Husband's Revenge By Dragonsky Chapter 217 – It was not a big deal anyway, and doing the test again would not use up that much time.

After that, the specialists from the R-and-D department recalibrated the machines. After making sure there were no issues, they put the products into the machine again, performing an even more detailed test.

The results were out very quickly.

Looking at the screen, the results were the same. Ashwin, George, and all the doubtful executives were suddenly completely quiet.

Suddenly, there was not a single sound in the entire place.

Leon looked around and calmly fixed his gaze on Ashwin and George. He was the first to dispel the quiet atmosphere, "Mister Mercer, Mister Proctor, do the two of you have anything else to say?"

"I..."

Both Ashwin and George looked incredibly ashen. They had an incredibly defeated look on their faces.

The two of them could not figure out how Leon did it at all. It was too unbelievable!

"Since the two of you have nothing to say, then I've won this wager!" Leon said coldly.

"Leon, don't be so pleased with yourself! Even though you've successfully developed new products, last time, you said that you'd even increase the efficiency of us refining our raw materials other than that! If you can't increase our efficiency, then you won't win the bet!" Ashwin clenched his teeth as he spoke, putting his hopes on the efficiency of the raw materials.

"Mister Mercer is right! If you can't increase the efficiency of us processing the raw materials, you wouldn't have won the bet!" George composed himself as a new hope ignited in his heart.

He knew that it was incredibly difficult to increase the efficiency of raw materials. It was no less difficult than making new products.

It was just a mere week, it was already a miracle that Leon developed so many new cosmetics!

He did not think that Leon was able to pull off another miracle!

"Haha..." Leon suddenly laughed, amused by both Ashwin and George.

"We're speaking the truth! Why are you laughing?!" Ashwin's expression soured greatly.

"I'm laughing at your ignorance!"

"I won't hide it. I've already increased the efficiency of processing the raw materials before I even started. looking into new products!" Leon laughed and said.

"What?!"

"How's that possible?!"

Both Ashwin and George were shocked.

Even Iris had a face full of disbelief!

Chapter 217

217

They would never have expected that Leon would have been able to increase the efficiency of their raw materials on top of developing sixteen different products.

It was too unbelievable.

"Ariel, is this real?" Iris looked doubtful. She did not want to doubt Leon, but the situation was just too unbelievable!

"Yes, that's right!"

"Currently, the efficiency of refining the materials has already risen from about sixty percent to over eighty!"

"I saw everything myself!" Ariel nodded as she looked at Leon with a complicated expression.

She thought that both matters would be incredibly difficult, but Leon did it.

Leon somehow did it!

He shocked Ariel greatly.

"Good, this is amazing!"

"So many good things have happened today!"

"Leon, you didn't disappoint me!" Iris had a smile on her face. The joy in her heart was impossible to describe.
