Chapter 3584

Before he could finish, Jack raised a hand and interrupted him, “Don’t worry, I won’t send you two to your deaths like that. You just need to look for chances to attack the beasts at the fringes.”

At that moment, Rudy had hurried over from afar.

Jack had arranged for him to stay at a safer spot earlier instead of bringing him along when he first attacked the golden python.

Since the situation was calmer, Rudy walked over.

He looked at Jack and noticed that he was getting even more confused.

Jack was just planning on dealing with the beasts that were at the sides, not wanting to bother with the strongest beasts that were at the center. However, he clearly said that he wanted to be the final victor.

His words and his current actions were a bit conflicting. If it was anyone else, Rudy would have thought they were just bragging. However, since it was Jack, he would not think that way.

Jack was not someone who would exaggerate things at all. No matter what, he had always said things as they were.

Since that was the case, Rudy was even more confused. However, it was not the time to talk about that. He merely looked on quietly.

Since the two warriors had agreed to work with Jack, they were forced to agree to his plans. Furthermore, Jack had only told them to lure the beasts at the fringes toward him, which was much safer.

Calruz and Toren exchanged a look. Even though they could see the reluctance and worry in each other's eyes, it was too late for regrets. Thus, the two of them turned around and walked into the battlefield again.

After a few moments, two massive beasts chased after Calruz and Toren as they roared. Both beasts were evidently enraged.

One of the beasts was called the Silver Beast. It was not as strong as the golden python, but it was still at the same level as the red fox.

The other beast was called the Thunderflame Wolf, and it was around the same level of the Silver Beast.

Both of them used middle ultimate god rank techniques. Calruz and Toren could work together against one, but they would not be able to deal with two at the same time.

After the two of them used their attacks, they easily lured the two beasts toward Jack.

Jack raised an eyebrow as he stood in place, easily forming seals with his hands. In a flash, the Soul Burst Rings were formed.

His hands held up the Soul Burst Rings, aiming right at the two beasts before he pushed forward. The two rings expanded rapidly, surrounding the two beasts behind them.

Calruz and Toren had not even been able to react when they heard explosions behind them.

The two of them were pushed forward a few meters by the explosion. Turning around, they could see that the beasts that were chasing them had been blown to bits.

They were flabbergasted once more, deeply impacted. Beasts that were so strong in their eyes were as fragile as paper against god-like warriors. It really was frustrating.

To not attract the attention of certain people, Jack did not remain in one place for too long. He only remained at the fringes of the battle for an hour, but the rewards had been amazing.

He had killed almost 30 beasts. Other than the 32 golden keys he earned, he had gotten another 95 keys. On top of the 131 keys he had before, he had a total of 226 golden keys.

That number excited even Jack. However, he knew that he could no longer remain there. He was frantically killing beasts at the sides, and even killed a few stupid warriors from second grade worlds. He would definitely start attracting attention soon.

Those strong warriors were not just there for show. If they truly worked together against Jack, it would be troublesome. For safety's sake, Jack led Rudy away from the battle after an hour. However, they did not go that far, and only found somewhere comparatively safer.
