Chapter 3622

Everything that had confused him was immediately clear the moment he saw how strong the person was. He was no idiot and had not been purposely annoying them. He truly did not care about Case, and truly did not care about any revenge from the Swelling Tide Continent.

Jimmy took a deep breath and his eyes shook slightly. He was starting to regret things. If Case saw that person's abilities, Case would probably regret going against that person too.

Everyone knew of how the Swelling Tide Continent acted, but they were no idiots. They still held back when they were facing someone truly strong. After all, the strong were not to be offended.

If the strong really wanted to fight back, it would cause quite a lot of losses. After all, it was not that easy to kill someone that

strong, especially in Cloud City.

He clenched his teeth, looking at Jack with a hint of resolve. They had to kill Jack. If they knew how strong Jack was, they would never have offended Jack. However, since they already did so, they could not let Jack live.

Otherwise, it would be dangerous for the Swelling Tide Continent in the future!

“You cheated and I fell for it! Are you really that poor? For forty million spirit crystals, you abandoned your pride as someone strong?” Jimmy glared right at Jack.

Jack raised an eyebrow as he let out an exasperated smile, “I cheated?”

Jimmy nodded, “You only lit up two crystals for compatibility! With your skills, how could you only be twenty percent compatible?

Who are you lying to?”

Those words served as a reminder to everyone. That was right! Everyone mocked Jack because Jack only got two crystals to light up. That was the result of a very average warrior.

Even though compatibility did not directly translate to skill, it was still a part of a person's talents. Such a low level of compatibility meant that a person's talents were not great. If their talents were not great, there was no way they could be that strong.

It was because of what happened that everyone had the impression that Jack was a braggart and a madman!

Jimmy continued, "I don't have amnesia. I won't forget how you performed on the stone. Just to win, you truly don't care what methods you use!"

Jimmy's mind worked very quickly, immediately describing Jack as a despicable man who had no pride when it came to earning spirit crystals.

At that moment, quite a few people started to look at Jack with disdain. They were definitely scared of his strength and definitely did not dare to go against Jack, but acting as shamelessly as that definitely made them look down on him.

Jack did not care what the others thought about it, but he would not stand by as he was slandered like that.

Rudy was furious as well.

He rushed over and shouted, “Who cares about those spirit crystals?! It’s just forty million spirit crystals. You think it’s some amazing fortune, but it’s nothing to us. Who do you think you are?! Do you really think we’d try so hard to trick you just for that small amount?!”

Jimmy narrowed his eyes, looking at Rudy with anger and hatred. The two of them looked like they were going to fight at any moment!

Jimmy glared and said, “Am I wrong? You’re already panicking now! You’re already feeling guilty!”
