"Old Yang!"

Jiangnan General Assembly Hall, a large audio-visual room, the chairman Zhou Yongzheng and three directors stand in front of a three-dimensional virtual projection.

Zhou Yongzheng looked at the projection and smiled. "I didn't expect it to be you this time."

"Lao Zhou, you have made a decision on your application to the above." The projection is a middle-aged man in a gray robe. He smiled and said, "The day after tomorrow I will go to your Jiangnan General Assembly Hall to verify the situation of Wang Yi. If the situation is true, then Wang Yi can get a place to enter the elite training camp."

The Global Headquarters of Xtreme Martial Arts Center strictly controls the quota of each elite training camp. Everyone who enters the elite training camp will only be a true peerless genius unless it is a place paid by various forces and organizations. To be eligible to enter.

The title of 'World's No. 1 Training Camp' is not fake!

June 10th, morning.

Yangzhou City, Mingyue Community.

Since moving, Wang Yi has been staying in the villa, occasionally going to the clubhouse to borrow equipment or to test his current level of strength.

"My fist strength has reached about 18,500 kilograms, and my speed and neural response speed have reached the level of the 'medium general' level." Wang Yi, in a soft white training suit, stood calmly on the second floor with a full one hundred and twenty. In the square martial arts hall, each hand is holding a sharp sword.

Gene's original energy cultivation method, the nine-fold thunder sword's ultimate guidance technique, and his own genetic level is several times that of a human being on earth, so Wang Yi's physical strength has increased rapidly these days.

Especially after getting the guidance, practicing with the body technique and knife technique can deeply tap the genetic potential, and he can clearly feel that his strength is improving every day.

It's a pity, he didn't even get started with the first heavy knife technique!

"And the mental power has reached nearly 70,000 kilograms of strength! It has reached the level of the primary God of War!" Wang Yi released his hands, but the sword in his hand did not fall down, instead it was suspended in the air, as if invisible power was supporting them.

Wang Yi thought, swipe! The two war knives turned into two white streamers, spinning back and forth in the martial arts hall, like butterflies piercing through flowers, accompanied by a sharp sound of breaking through the air, which was breathtaking.

"Knife technique, specialization level!"

"Shen Fa, micro-level!"

Wang Yi held the saber again and looked down at the alloy saber in his hand, with a smile on his face, "Even if I don't use mental power, I can only rely on body skills, knife skills, and current physical fitness. Fight against each other."

"but....."

Wang Yi moved his eyes to a few open books on the ground of the martial arts hall.

"'Nine Thunder Knife' is indeed the most difficult sss-level cheat book to get started. I have been practicing these days, but I still don't have any clues."

Wang Yi shook his head.

He also knows that this kind of comprehension can't come in a hurry.

Cultivation is just like that. Sometimes it's hard to pursue it, but it doesn't have a clue to think hard, and sometimes a breakthrough is made as soon as the inspiration comes out.

is like Luo Feng in the original work. The process of comprehending the nine-fold thunder sword is often accompanied by various accidents.

However, Wang Yi thinks this is a kind of protagonist aura.

"If I can go to Hong's spaceship building or Thor's Seven Star Building to sign in once, I think I will have a big harvest." Wang Yi couldn't help thinking.

In fact, Wang Yi sometimes wants to find time to check in at the martial arts halls of various base cities around the world or some special areas to see if there are any unexpected gains.

However, in this era, the transportation between each base city is not so easy.

And the sign-in rewards of the various martial arts halls in Jiangnan Base City are too tasteless for Wang Yi now. It is better to stay at home with peace of mind and be able to accompany his girlfriend and family.

"Om——"

Suddenly, Wang Yi's mobile phone in the corner of the martial arts hall vibrated, and then a bell rang.

"Huh?" Wang Yi's figure flickered. The next moment the figure appeared there like a ghost, he picked up his mobile phone at random and saw the caller ID, and he was shocked. "It's Chairman Zhou's call!"

Since Wang Yi signed a contract with Xtreme Martial Arts Hall, he has obtained the contact information of Zhou Yongzheng and other senior officials of Jiangnan General Hall.

"Chairman Zhou called me at this time, what the **** was it..." Wang Yi guessed in his heart, while answering the phone.

"President Zhou."

"Wang Yi!" Chairman Zhou's voice came from across the phone with a smile.

"Chairman Zhou, you are looking for me..."

In the video, Chairman Zhou glanced at Wang Yi's practice clothes and the background behind him, with a thicker smile on his face. "Wang Yi, I am calling now. I have something to tell you..."

Wang Yi's heart jumped slightly.

"The Global Headquarters of Xtreme Martial Arts Gym has approved your application to enter the elite training camp, but it will send someone from the headquarters to conduct a verification. If there is no accident, it will be tomorrow. You must be mentally prepared."

"I see, thank you, Chairman Zhou." Wang Yi said gratefully.

"Haha...Thank you, you came out of our Jiangnan General Guild Hall. You can join the elite training camp at the headquarters, and we also have brilliance on our faces." Zhou Yongzheng smiled. "Remember, you can't drop the chain tomorrow."

"Don't worry. Chairman Zhou, there must be no problem." Wang Yi said confidently.

"That's good." Zhou Yongzheng nodded gently.

"That's right." Zhou Yongzheng seemed to have thought of something, his face slightly solemn, and said to Wang Yi: "If you formally join the elite training camp, then you will probably not be able to go to the headquarters side until the end of June. What are you planning to do during this period of time? Has it been arranged?"

Wang Yi said honestly: "I plan to concentrate on training in Yangzhou City."

Zhou Yongzheng said earnestly: "Wang Yi~www.mtlnovel.com~ Cultivation is very important, but for a martial artist, actual combat experience is also very important. You get the sponsorship from our Extreme Martial Arts Museum in advance, and you don't need to participate in the martial arts actual combat assessment. You become a warrior, but this also makes you lose an opportunity to exercise your mind and will."

Zhou Yongzheng's eyes were fixed on Wang Yi, his gaze was like a blade. Clearly across the phone screen, Wang Yi still felt a numb feeling of being pierced through his skin, and at the same time he was covered with invisible pressure.

At this moment, Zhou Yongzheng gave him the feeling that it was like a fierce beast choosing people and devouring it, full of blood.

Wang Yi's heart is horrified. Is this the real martial artist who has truly experienced the **** wind and emerged from the endless fighting battle?

Wang Yi also understood in his heart that although he was greatly enhanced by the help of the sign-in panel, he became a genius in the eyes of the world, but he lacked real training.

"I told you directly, when you enter the elite training camp, you also have to face fierce competition. The opponents are peerless geniuses from all over the world. Moreover, in order to train the students, the elite training camp will arrange half of the students every month. Time to hunt monsters in the wilderness." Zhou Yongzheng said slowly.

"Your current talent is enough, but after all, you are a newcomer and cannot match those well-trained geniuses. I am afraid it will be difficult to adapt to the environment. Therefore, I will arrange before you go to the elite training camp. An elite warrior team will take you outside the city for an exercise and give you more practical experience." Zhou Yongzheng looked at Wang Yi, "Are you willing to go?"

Wang Yi said without hesitation: "I am willing!"

"Good!" Zhou Yongzheng was very satisfied with Wang Yi's attitude. "Tomorrow when the headquarters inspector comes over, you will prepare, and the day after tomorrow you will set off with the warrior team to the wilderness area."

June 11th.

"Dad, Mom, I'll go out for a while." A black-haired teenager in sportswear said to his parents who were having fun with twin children in the living room.

"Hey, remember to go home for dinner at night." Wang Yi's mother Li Lan said with a smile while hugging her granddaughter.

These two children are the children of Wang Yi's sister. They were sent to Wang Yi to play today.

Wang Yi also intends to let his sister and family come to work here in Yangzhou City. After all, his sister and brother-in-law are just ordinary people and have little ability. It turns out that the job is not good.

I have to take care of the children after I have a child. I am also very busy at ordinary times. It reminds Wang Yi of his previous parents.

Of course, he can't let his two lovely nephews live like this from a young age. He has already prepared a house for his sister's family in a nearby community.

You can also come and meet with your parents at ordinary times.

"Say goodbye to uncle."

"Uncle~Goodbye~" Wang Yi also laughed when the two children were milky and squeezed their cheeks.

Li Lan added another sentence when he thought of it: "By the way, when you have time, you can also bring your friends over to play at home." After life settled down, Li Lan began to worry about his future grandchildren.

The friends she said are naturally Lin Youyu and the others.

Li Lan used to worry about each other's family status. Now that his son has become a warrior, Li Lan doesn't worry about it anymore, but starts to worry about when his son will get married.

Wang Yi left the house and boarded the train to the main urban area of Jiangnan Base City.

The means of transportation between the main urban area and the Eight David City is a train.

And most people who want to take the train must get a ticket three days in advance, and the fare is very expensive.

As for going from one base city to another, the fare is so high that ordinary people simply cannot afford it.

Therefore, the 200 million people in Jiangnan City rarely have the opportunity to leave the base city in their lifetime.

Of course, Wang Yi is now a warrior, and there are special warrior channels for travel, which is more convenient than ordinary people.

Jiangnan Base City, the main urban area.

There is a very large area, and one of the tall dark blue skyscrapers is where the Xtreme Martial Arts General Assembly Hall of Jiangnan Base City is located!

Outside the silver-white courtyard wall, there are soldiers holding real guns and live ammunition patrolling and guarding them everywhere, and at the spacious main entrance of the Xtreme General Hall, there are rows of soldiers standing, which can be said to be heavily guarded.

Wang Yi took out his martial arts card and passed the guard's inspection, walked into the base camp representing the extreme martial arts gymnasium of Jiangnan Base City, and walked directly to the dark blue skyscraper.

At the entrance stairs on the first floor of the headquarters building of the Xtreme General Assembly Hall, a man in a white suit is already standing.

"Mr. Wang Yi, my surname is Yu, the person in charge of the first floor of the Xtreme Club. The president and the others have already gone to the airport to meet the guests from the global headquarters. Before leaving, if you want me to receive you first, they will be back soon." The man was polite. The way.

"Thank you very much." Wang Yi nodded slightly, and under the leadership of this man walked into the lobby on the first floor of the Xtreme General Assembly Building.

"There are many warriors in the Jiangnan Xtreme General Assembly Hall." Wang Yi glanced at the lobby on the first floor and found many warriors sitting in the lobby, chatting, discussing, and drinking.

The entire Jiangnan base city has a population of more than 200 million. Of course, the number of martial artists in the Jiangnan General Assembly Hall is not a minority.

The man surnamed Wang saw Wang Yi's expression and knew that he was here for the first time. He smiled and introduced: "Mr. Wang Yi, the lobby on the first floor of the Xtreme General Assembly Hall is used for drinking and chatting with martial artists. From the second to the ninth floor, This is the place where warrior-level warriors stay. The tenth to nineteenth floors are where the general-level warriors stay. Up from the 20th floor, that's where some group meetings are held."

Wang Yi nodded.

But he has more important things.

Since I came to the Jiangnan General Assembly Hall, of course I have to sign in.

"Check in."

There is no wave in Wang Yi's heart.

【Ding, congratulations to the host for signing in successfully, and rewarding five degrees of experience in the body style. 】

【Your body style has been upgraded to the 'perfect level'. 】

【Number of check-ins available for this place: 0】

With the information on the mysterious golden panel, Wang Yi's mind was filled with that huge amount of information in an instant. If ordinary people's brains had so much more information in an instant, they might be unacceptable and fainted, but Wang Yi was fainted. There was nothing unusual, except that his eyes were slightly lost, and then he became normal.

Then, Wang Yi felt that everything around him seemed to be different.

"It's actually a perfect body..." Wang Yi himself was a little surprised and incredible.

In the swallowing starry sky, the dodge body skills are divided into 'basic level'- 'subtle level'- 'perfect level'- 'artistic level'.

into the micro-level, is to be able to use the smallest amplitude to avoid attacks, to achieve the most efficient avoidance.

Perfect level is to control the surrounding environment, use any kind of objects around, be able to make perfect use of the environment and perform the most accurate dodge. This is the body method of 'perfect level'!

If the 'micro-level shenfa' focuses on the ability to control oneself, then the perfect level shenfa has been extended to the external environment!

Make use of the surrounding environment to make yourself more efficient! Perfectly blending with the environment and fully exerting one's own strength, this is the perfect level of shenfa!

Ordinary warriors do not know how many battles and trainings they have to go through if they want to reach this point, but Wang Yi has the sign-in panel to directly instill knowledge, and naturally he can perfectly control this ability!

"This, this is really..." Wang Yi muttered in his heart, "It just doesn't make people work hard..."

The corners of his mouth were raised involuntarily.

...

Wang Yi sat in the lobby on the first floor for about half an hour. The man surnamed Yu walked over and said politely: "Mr. Wang Yi, the chairman and they have returned. They are now waiting for you on the 31st floor. Please come with me. "

Wang Yi looked at the door. He hadn't seen anyone come in just now.

Seeing Wang Yi's doubts, the man surnamed Yu smiled and said, "President, they came back on a smart fighter."

Wang Yi suddenly realized that he had been in this world for too long. He had forgotten some things in the original book. This world is more developed than the original world. Individuals can also have smart fighters, depending on the cost. , Ranging from hundreds of millions to hundreds of billions.

But those who can fly alone in the wilderness area usually cost more than tens of billions.

Wang Yi followed the man surnamed Yu to the 31st floor of the General Assembly Hall. He saw an empty silver-white large martial arts hall at a glance. Several people in the martial arts hall immediately attracted Wang Yi's attention.

"Wang Yi, come here." Zhou Yongzheng, the president of the General Assembly Hall, waved to him and smiled, "This is the supervisor of our Xtreme Martial Arts Hall's

global headquarters, Yang Hui, this time I came here to help you with your qualification assessment."

Wang Yi quickly said: "Inspector Yang makes you good."

"Yeah." A middle-aged man in a gray exercise suit took a look at Wang Yi, "Yes, a very good-looking and energetic young man, do you have a girlfriend now?"

"Um..." Wang Yi was a little surprised.

Zhou Yongzheng smiled and scolded: "Lao Yang, you are enough. It's not that your daughter can't get married. What are you going to do by hitting the people in our club."

"Wang Yi, don't mind, Supervisor Yang is joking with you."

Wang Yi also had to smile.

He now has three girlfriends...Of course, I can't say this directly.

"Go directly to the topic." Yang Hui looked straight, "Wang Yi, I will ask you again on behalf of the Extreme Martial Arts Gym, are you willing to join the elite training camp for five years of training?"

"I am willing," Wang Yi replied.

"Good, let's start testing now." Yang Hui said directly.

And the final test result... There is no doubt that Wang Yi passed smoothly!

Next, I was waiting for the day when I went to the Xtreme Martial Arts Center's global headquarters.

In the evening, Wang Yi was sitting on a chair in the study, opposite Lin Youyu, who was wearing a white pajamas and draped hair in his notebook.

Black and smooth long hair, under the thin lace nightdress, there is an exquisite figure and milk-like white and delicate skin.

The two are video chatting.

"So, are you going to the wilderness area tomorrow?" The girl bit her pink lip, and a worried look appeared in her bright and watery eyes. "I heard that the wilderness area is full of monsters, which are very dangerous. Don't you Will it work?"

This is Lin Youyu. She will only worry about Wang Yi's safety and not think about other things.

If it were Shen Yan and Gao Yurong, they wouldn't say anything to tell Wang Yi not to go.

This does not mean that they are not worried, but that everyone's likes and expressions are different.

"Don't worry, I will be fine. The Extreme Martial Arts Museum has arranged for me a powerful team of martial artists. We will act together, only in ordinary towns close to the base city, and will not go to those particularly dangerous places." Wang Yi comfort her.

"At most half a month in the wilderness area, I will be back."

In fact, even if he comes back, he will not stay in Jiangnan for a few days, he has to report to the Xtreme Martial Arts Center's global headquarters, and then he can come back at the end of the year.

There will be very little time to accompany them.

Wang Yi felt guilty.

But since he has decided on this path, he can only harden his heart and keep going.

Moreover, Lin Youyu and the others also have their own studies and lives, and both have to go to university. The two sides are destined to gather less and divorce more in the next few years.

"We still have to get stronger as soon as possible..." Wang Yi felt a sense of urgency, even if it wasn't for himself, for Shen Yan and the others, he had to improve his strength as soon as possible. "If you can buy a smart fighter, it will be much more convenient to go back and forth."

.....

the next morning.

"Son, be careful outside."

"take care."

Wang Yi packed his things and prepared them properly. A set of extremely close-fitting gray-black combat uniforms set off Wang Yi more heroic and upright. With two war knives inserted behind his back, he was also carrying a combat backpack, and he was fully armed. There was one more invisible. Refined and cold temperament.

Under the eyes of his family, he embarked on the road to Jiangnan Base City.

Lin Youyu and the others wanted to come and send them off, but Wang Yi refused.

But when Wang Yi walked out of the Wuzhe community and saw the thin figure who had been standing outside the door for an unknown period of time, he was still startled.

The girl moved her lips, "I'm worried about you..." Before she could finish her words, she was hugged by Wang Yi. The sudden warmth and intimacy made her head blank, and she couldn't breathe.

Wang Yi hugged Shen Yan's petite and soft body, and he was really touched in his heart.

The two hugged together motionless, time seemed to have stopped, even the soldiers at the gate of the community not far away deliberately kept quiet, silently watching the young couple.

.....

Jiangnan Base City, Extreme Hall, the lobby on the first floor.

"Wang Yi, let me introduce to you, this is the storm squad, one of the famous elite warrior-level warriors in the Jiangnan base city." Zhuge Tao, one of the four giants of the Jiangnan General Assembly Hall, laughed.

Opposite Wang Yi sat five warriors who were fully armed and full of vigorous aura, all male.

"This is the captain, Jiang Feng."

is the tallest of the five, with a scar on his left face, and the man in his yellow combat uniform who is in his thirties smiles slightly.

"Wang Yi, I heard Supervisor Zhuge say that you are a rare genius in our Jiangnan base city. When I saw you today, it turned out to be a young talent. I felt old when I saw you."

"Hello, Brother Jiang," Wang Yi said politely. "I'm still young, and there are still many places to learn from a few people."

Seeing that Wang Yi is so humble and very good, the five members of the Storm Team have a better feeling of him.

Originally, when he was assigned this task by the Jiangnan General Assembly Hall, the captain of the Storm Team was reluctant, because he had seen a lot of geniuses, and he was so arrogant and not a lesson. He was unwilling to be a nanny. Dry.

Which one of the warriors who wander around in the wilderness all the year round is not licking blood with a knife head, going through battles and killings, full of blood, not to mention that they would rather be unyielding, but if they want their heartfelt recognition, identity power alone is not enough.

Especially I heard that this time the other party was still a hairy boy who had just walked out of school.

But he couldn't refuse the mission of the Xtreme Club, and finally accepted it with his nose.

But now, looking at Wang Yi's character, it seems to be quite easy to touch.

chatted with Wang Yi for a while, the storm team looked at each other and nodded secretly.

Zhuge Tao saw that it was almost the same, so he stood up with a smile. "Several people, Wang Yi will ask you when I go out this time."

Captain Jiang Feng said solemnly: "Don't worry, Director Zhuge, this time we are only going to a few low-risk wilderness towns. As long as we don't encounter high-level beast-level monsters or large-scale beasts, there is absolutely no problem."

Jiang Feng's team is still very powerful. All members are at the general level, and the captain Jiang Feng is also a long-famous senior general-level warrior. He has hunted high-level beast-level monsters alone more than once in Jiangnan Base City. He is also a well-known figure in the martial arts circle, and he is a good person.

This is why Zhuge Tao chose Storm Team.

And Jiang Feng's team is also very simple, is to bring newcomers.

And this newcomer is undoubtedly Wang Yi.

Jiang Feng glanced at Wang Yi and thought to himself: "We can invite our elite team to bring a newcomer. It seems that this newcomer is highly valued by the Extreme Club~www.mtlnovel.com~ The club's recommendation to the elite training camp is currently only known to a few high-level officials and related personnel at the headquarters, so even Jiang Feng and the others don't know how talented Wang Yi is.

Zhugue Tao didn't talk to Jiang Feng and others either.

"Okay, time is almost up, let's go." Jiang Feng lifted his watch and checked, then stood up. "Wang Yi, do you have anything else to prepare?" The other four people also looked at Wang Yi.

"No more, Brother Jiang." Wang Yi also stood up.

"Well, then let's go!" Jiang Feng paused, "In the future, you can call me the captain directly."

"Yes, captain." Wang Yi changed his words.

Although Jiang Feng's strength is not as good as him, Wang Yi's mental power can be easily killed even at the elementary God of War level, but after all people kindly take him to the experience, Wang Yi can't help but know whether it's good or bad, so you have to be polite.

"Yeah!" Jiang Feng nodded in satisfaction, waved his hand, Storm Team and five people from Wang Yi, together with the guys, walked out of the gate of the Ultimate General Hall together, and set off in a hurry.

They boarded a military off-road vehicle with the "Extreme Martial Arts Hall" logo printed on it.

Inside the car.

"Wang Yi, we will take the train to the train station later, and then take the train to leave the base city to the wilderness area military area base." Captain Jiang Feng confessed, "the first time you enter the wilderness area, you must be careful, not only monsters, but alsopeople."

"Yes, I see, Captain." Wang Yi's heart was stunned.

In the wilderness area, there are dangers everywhere. In addition to monsters, there are also malicious malice that may come from humans.

After all, there is no law to restrict the wilderness area! It is not uncommon for warriors to fight in the wilderness area for various reasons, and everyone knows it well.

Sign In To Become a God #Chapter 29: Wilderness Tribulation - Read Sign In To Become a God Chapter 29: Wilderness Tribulation

Hundreds of miles west of Jiangnan Base City, there is a military area stationed.

With a rumbling sound, a train slowly stopped at the military area site, and then the warriors filed out in twos and threes.

"Wang Yi, the warrior supply base is in front."

Wang Yi raised his head, and he could clearly see the tall steel tower in front of him, which was fifty to sixty meters high.

Another member of the team, Zhao Wei, said with emotion: "Every military area in the world will set a special area to build such a high tower. We warriors can supply and rest here. It means that we are in the wilderness. The indicating lighthouse in the district illuminates our way home."

Wang Yi nodded, and followed the five members of the Storm Team into the military supply base.

Along the way, he was also fascinated by his eyes, and saw many things that he had never known in the base city of Pinghe.

Inside the warrior supply base, there are quiet three-story buildings, one of which is d3.

"Okay, let's take a rest here, and set off at 8 o'clock tonight, and head to the destination." Captain Jiang Feng put the heavy shield and heavy hammer on the ground, making a low vibration, twisting his neck, yes The player next to him smiled.

"By the way, Wang Yi, are you using double knives?" The team member Liu Xunyi looked at the two war knives on Wang Yi's back curiously.

"Yes." Wang Yi threw the tactical backpack on the ground, then unfastened the special strap buckle attached to the scabbard and pressed it lightly. With a soft sound, his body was lightened, and there were two hundreds of kilograms on his back. The sword fell and was caught by Wang Yi casually.

"Good guy." Zhao Wei saw the two war knives in Wang Yi's hand that were full of streamlined beauty like Persian scimitars, and his eyes lit up slightly, "Flowing War Knife a6 model? The full price is 25 million! You actually bought it. Two?"

People in other rooms heard Zhao Wei's voice and couldn't help but look over at the same time.

Although they saw Wang Yi carrying two battle knives before, they didn't care too much or paid much attention to them. They thought that at most they were ordinary warrior-level weapons, and at most they were junior warrior-level weapons.

Unexpectedly, it was actually an expensive 25 million-worth a6 model "Flowing Sword"?

This is generally a weapon used only by master-level masters!

The two add up to 50 million!

Other people gathered around, including Captain Jiang Feng.

Zhao Wei even picked up a fire-fighting sword that Wang Yi had thrown on the ground, feeling the unusually heavy weight, and was slightly surprised. "Sure enough, it's an a6 stream fire sword."

For each warrior of different strengths, the stronger the general strength, the more materials used in the weapon, the more precious, and the heavier.

For a general-level warrior, the physical strength has reached tens of thousands of kilograms. As long as it does not affect the strength, even if the weapon weighs several hundred kilograms, it is very common.

And the shield and the sledgehammer carried by the captain Jiang Feng are probably more than seven or eight hundred kilograms.

Wang Yi's a6 style fire fighting knife is extremely sharp. Even the body of a high-level beast-level monster can be easily torn. It weighs more than two hundred kilograms. For the martial artist, anyone who has just passed the quasi-martial arts test can be used. Swinging easily, of course, being able to perform perfectly is another matter.

"Let me see."

"I'll go, it's really an a6 Sword of Fire!"

"Even if the discount is discounted, it would cost tens of millions, right?"

"Wang Yi, your kid is amazing."

The people of Storm Team all sighed.

sonorously, Zhao Wei held the handle of the knife and gently pulled it out. With a clear cry, the knife came out of its sheath, and a **** light lit up, and the room illuminated the entire large living room.

I saw this sword is about 1 meter long, with a large curve like a crescent, and the width of the blade is narrower than other knives, about 3 to 4 cm wide. There is a blood trough in the middle. The head of the handle is not big or round, but it is bent down to a right angle, and the guard is also cross-shaped.

The body of the battle sword flickered with cold light, which could easily illuminate the hair on a person's face, and an invisible cold spirit filled the body of the sword.

Jiang Feng was a little surprised: "Your kid actually bought two Flowing Fire Swords, how much did Xtreme Martial Arts Gym give you the start-up capital?"

You need to know that when ordinary warriors join the Xtreme Martial Arts Hall, that is, one million start-up funds, plus a villa.

Some specially recruited warriors with high potential have a higher start-up capital than ordinary warriors, but there is also a bottom line. According to Jiang Feng's estimation, 10 to 20 million will reach the top.

But the total price of Wang Yi's two war knives is estimated to be more than 30 million yuan.

Jiang Feng was shocked, how much start-up capital Wang Yi has.

The free quota funds for buying cheats and the start-up funds are two different things. The free quota can only be used to buy cheats, and cannot be used to purchase things other than cheats.

and start-up funds can be purchased anything.

"Not much, it's only 100 million." Wang Yi said.

He really doesn't think so much. After all, he is the one who joined the elite training camp.

And as his performance becomes more and more enchanting, the treatment of this contract will change, just like Luo Feng in the original book.

"One billion!?"

"real or fake?"

The members of the Storm Team were stunned, their eyes widened.

Although they are all warrior-level warriors, they have worked hard for a year in the wilderness area and can earn tens of millions in income.

Only if you have good luck and encounter some extremely valuable and precious monster materials, you can hunt the monsters to make a fortune. At that time, you may have an income of 100 million a year!

Normally, perhaps only Jiang Feng, the strongest captain of the entire team, could earn hundreds of millions a year.

But this is what they did with their lives!

and Wang Yi didn't do anything. They just joined the Xtreme Martial Arts Gym and were given 100 million yuan in start-up capital. Compared with that, that's a huge difference.

"I said you kid, what contract did you sign with Xtreme Martial Arts Gym? Actually, the start-up capital is 100 million yuan!" The team member 'Li Hao' exclaimed.

Wang Yi just smiled slightly without explaining.

Captain Jiang Feng also looked at Wang Yi in admiration. "Your kid is really amazing, let's talk about it, where is your physical fitness?"

"Probably... it's almost a junior general level physical fitness level."

Wang Yi blinked and hesitated, but in the end he still didn't tell them his true physical fitness. UU Reading www.uukananshu.com

However, this was enough to shock the storm team.

You must know that Wang Yi is only eighteen years old. A student who has just graduated from high school actually possesses the physical quality of a junior war-general.

They did not suspect that Wang Yi deceived them, because as soon as they fought, it became clear.

"Elementary generals..." Zhao Wei's face twitched, looking at Wang Yi as if he was looking at a monster. "Your kid is really a monster. You are a warlord at the age of eighteen. When I was as young as you, I was not a senior martial arts student."

"No wonder the Xtreme Martial Arts Academy treats you like a treasure, sure enough, a genius is a genius."

"Great!"

After learning about Wang Yi's physical fitness, the storm team's attitude towards him suddenly changed.

After all, with Wang Yi's enchanting aptitude and age, it is estimated that becoming a **** of war is easy.

God of War, it is the dream of almost all warriors and the end of most warriors.

How many gods of war can there be in a base city? Everyone is a big shot!

Wang Yi has this qualification to become the God of War!

And they are teaming up with a future God of War!

"Hahaha..." Captain Jiang Feng smiled very happily. "Wang Yi, your kid is already a combatant without telling us. Now, our Storm Team is another all-member combatant. The warrior squad!"

Everyone else in the living room laughed, isn't it?

Captain Jiang Feng's eyes glowed, "Originally, I was planning to take Wang Yi to some common town activities near the military area. However, since Wang Yi is already a soldier, ordinary towns are not suitable for him to exercise. Maybe we can take a risk. , Into some deeper areas."

No. 0349 county-level city.

"Swipe!" A flash of fire-like blade light broke through the air at a subtle angle, and slashed like lightning across the neck of a three-meter-high, cyan scaled 'Blue Scale Wolf'.

When Wang Yi severely slashed the neck of the 'blue-scaled wolf' in front of him, Wang Yi's body suddenly seemed to be touching something, one staggered, and his body was short, just avoiding the attack of a 'green-scaled wolf' behind him. , And at the same time Wang Yi turned around, the blood-stained fiery sword once again turned into a cold light, and cut through the soft abdomen of the 'blue-scaled wolf' that attacked him from below, and the blood rushed out along with the internal organs.

"Okay!" The Storm Squad not far away were all watching, watching Wang Yi being besieged by a group of 'green scale wolves' on the street without any intention of intervening.

I touched more than 20 'blue scale wolves', each of which is a high-level beast soldier, and they act like wind, cooperate with each other, and are fierce and treacherous. Generally, the junior generals will be in a hurry when they are besieged by a group of 'blue scale wolves'. , But Wang Yi was able to cope with ease.

In a blink of an eye, the 'Blue Scale Wolf' was more than half killed and injured, and the remaining 'Blue Scale Wolf' seemed to be scared too. With a whimper, they turned around and ran away, not daring to besiege Wang Yi again.

A blue-scaled wolf flees more slowly, a figure has followed its shape like a shadow, flying past it like a maggot attached to a bone, a cold **** knife light flashed, and the next moment, the head of the blue-scale wolf flew out.

"Woo~~" The other green wolves were frightened and flew around.

Wang Yi didn't chase these monsters, but stood still and began to clean the Flowing Fire Sabre in his hands. He didn't seem to care about the materials on the monsters on the ground.

"This kid." Captain Jiang Feng shook his head, but Zhao Wei and several other team members behind him had already passed by with a grin, and they started to strip materials.

High-level Beast Soldier level is far less valuable than the materials on Beast General level monsters, but the accumulation of less can add up to a lot of money.

As for the materials on the blue-scale wolves that Wang Yi killed just now, they can sell them for hundreds of thousands when they take them back.

Wang Yi's tutoring a year ago was only tens of thousands of dollars.

This is just a little longer.

So it is not false that the warrior is rich. The more powerful the warrior, the greater the harvest in the wilderness area, the stronger the ability to make money.

But their expenditure on weapons, combat uniforms, potions, cheats, etc. is also very staggering.

Wang Yi is now lowering his head thinking about the subtleties of the nine-fold thunder sword technique he used in the battle just now.

keep trying.

There are faint thoughts in my mind.

I have to admit that in actual combat, it really helps a lot to comprehend the sword technique!

And most of the amazingly powerful cheats, jerkiness, are actually comprehended and summed up in actual combat.

Originally, the "Storm Team" was planning to take Wang Yi to hone in the wilderness area.

But later I discovered that this kid is far more perverted than they thought!

In the end, it became Wang Yi honing his sword skills in the wilderness area, and the Storm Team became a real nanny.

But everyone in the Storm Team is willing.

Jiang Feng saw that Wang Yi seemed to be in a daze, so he didn't bother. He waited until his teammates collected almost the monster materials and packed them into their backpacks. Then he walked over and said to the pensive teenager: "Wang Yi, time is almost here, it's time to go. NS."

Wang Yi woke up from his thoughts, looked around, and found some monsters faintly appearing. These were all attracted by the movement of the battle and the strong smell of blood.

Wang Yi nodded, no one in the entire storm team spoke, and proceeded silently, only occasionally talking in a low voice, and quickly left the street that had just been killed.

At night, a bright moon hung high in the dark night sky, sprinkling the bright moonlight, and the entire abandoned city seemed to be covered with a silvery white veil.

In a 15-story residential building in the east of the city, in a corner under the eaves on the top floor, a person is sitting quietly in the shadows, looking up at the moon, and two faintly placed beside him The bright red sword.

"I have been in the wilderness area for almost half a month, and I will be going back soon. The nine-fold thunder knife is the first. Although I have some insights and progress during this period, how to master it, let the body produce more dark energy, feel I still have no choice but to stay in place."

Wang Yi is a little bit distressed.

"Nine-layer Thunder Knife" is the world's top cheat book, and the strongest knack for human warriors!

Its creator is the world's second strongest "Thunder God"!

"Nine-fold Thunder Knife" is also known as the most difficult faculty to get started. If you want to practice it, you must have extremely high aptitude and savvy, even many gods of war, and they may not be able to successfully practice.

Wang Yi kept thinking about the content and records in "Nine Thunder Knife" in his mind.

Nine thunder swordsmanship, the reason why it is so powerful, it relies on a wonderful means of exerting force.

An ordinary person swipes a knife with all his strength, it may be perfect! When a practitioner of "Ninefold Thunder Knife" swings a knife, he will only use 70% of his power. When sending out the first gravity channel, they will try to make the body send out the second gravity channel again, the same 70% strength. The superposition of the two powers means that the power is 14%!

Nine thunder knives are divided into nine layers. In the first stage, one more secret force can be used, that is, 14% strength can be exerted!

The second level, you can use two more dark powers, and you can play 21 full strengths!

...

The ninth level, you can use nine more dark powers, and you can exert 70% strength! That is exactly seven times the original physical strength.

But it's easy to say, but it's difficult to do it, otherwise the Nine-Layer Thunder Knife won't be called the most difficult secret to get started!

Even in the world, there are not many who can successfully practice the Nine-Layer Thunder Sword.

"How did Luo Feng in the original work practice the Nine-Layer Thunder Knife for the first time?" Wang Yi thought hard, but the memory was too long and it was already blurred, and he couldn't take every detail of the original work. I remember clearly, I only remember that the third level of Luo Feng was touched by thunder when he was practicing swordsmanship in a wilderness city at night after killing Li Wei. I realized it all at once. The fourth level is even more in a virtual space and a certain When the student was engaged in a life-and-death battle, he suddenly realized that Wang Yi didn't want to complain about the protagonist's treatment.

And no matter what Wang Yi thinks, UU reading www.uukanshu.com can't remember how Luo Feng succeeded in the first and second levels of cultivation.

"It seems that I really don't have the protagonist's life..." Wang Yi was a little surprised.

The golden panel came to mind.

"Check in."

The golden panel does not move.

As expected.

Wang Yi 呶呶嘴.

Wang Yi picked up the Flowing Fire Fighting Knife under his feet, stood up, his eyes became firm.

Swipe, he swiped it out as fast as thunder.

Brushing, brushing, brushing... Wang Yi's figure changes on the top roof. The sword keeps splitting. The first 18 strokes of the first-level 18-stroke swordsmanship of the well-developed nine-fold thunder knife that has been practiced are carried out at will, and it seems that there is more light under the moonlight. The red light of the sword formed a piece of exercise.

Suddenly, Wang Yi, who was immersed in the artistic conception of swordsmanship, lowered his head inadvertently, looked at his shadow, and a flash of light appeared in his mind, and the whole person was suddenly stunned.

"shadow?"

He seems to have caught something, thinking desperately.

"Sword, shadow, dark power..."

"Two into one..."

As his thinking became clear, the fog that had been shrouded in his mind cleared, and Wang Yi's eyes became brighter and brighter.

"Huh!"

He flew up, leaping high, and at the same time the Flowing Fire Sabre in his hand suddenly slashed out.

At the moment when the first knife was cut, his body shook slightly, and a force was generated again, and the two forces merged together, making Wang Yi's sword's power suddenly soar!

"Hahaha..."

Wang Yi couldn't help laughing.

The first one of the nine-fold thunder sword, after nearly twenty days of practice, he finally mastered it.

The joy that this sense of accomplishment brings is even stronger than the first calamity of the "Secret of the Nine Tribulations", which was awarded to him for the first time by the sign-in panel.
