

Genius 2651

Chapter 2651

Although he did not expect Tag to be so ruthless as to exterminate hundreds of elites of the Kong family just like that, Guangyao watched the situation with cold eyes.

However, the more this man acted in this way, the more he could confirm his suspicions.

Since Tege had gone to such lengths to find Lin Mo because he was aware of his superior medical skills, it was obvious that he was looking for an extremely important person within the royal family, and had even gone to the extent of exterminating the eldest son of the Kong family to do so.

“It seems that I still underestimated Lin Mo’s value!”

All in all, Guangyao’s guess was more or less based, just a little off from Tege’s fundamental purpose.

“Your Excellency, Mr Lin Mo’s troubles have been wiped out, no one is left alive!”

A team of men in diving suits reported with a tone that did not fluctuate, it was obvious that the sudden explosion of the Kong’s warship must have come from these men as well.

Teg did not reply either, just nodded calmly.

It was as if the hundreds of lives of the Kong family were just like insects that he had killed with his hands.

“Doctor Lin, now that Kong Xianzhuo has died at the hands of the two of us, we are in the same boat, so many friends make many roads!”

With that, his gaze skimmed over the tragic sea.

When the prince heard this, his face darkened.

“f*ck, they clearly died under you, none of our business, don’t think of dragging us down with you!”

He was also a smart man, and instantly heard the dark meaning between Taig’s words.

Across the street, the bodyguard who had killed Kong Xianzhuo spurted out his murderous aura.

“How dare you! How dare you use such a tone of voice to speak to us our Executive Lord.”

With a flip of his arm, the cold dagger suddenly appeared in his palm.

The prince was also a violent man.

Fierce? Fierce, my a*s! Gatling was once again held steadily in mid-air by him, and if the other party spoke one more word of nonsense, he would simply fire.

Almost at the same time, Lin Mo and Tegg both intervened to stop the conflict.

Lin Mo was a bit surprised by Tagg’s action, he was a tough guy!

“Mr. Tiger, what a thunderbolt. The Kong family has treated you with great respect, but you can just kill them!”

Lin Mo's gaze skimmed over Kong Xianzhuo's corpse, and then he raised his eyebrows towards Tiger, since the other party wanted to tie himself to their boat so much, he simply didn't point it out.

He was going to destroy Kong Xianzhuo's group anyway, and it didn't really matter whose hands they died in.

Tiger just smiled lightly.

"Since their Kong family dared to offend Divine Doctor Lin, Tag was just helping to deal with it.

This brother thought wrongly, it was not that I was trying to plant evidence.

What Tag said was just the truth, the original reason for which Mr. Lin already knew in his heart!"

With that, he raised his hand and pointed at the guests who were standing at a distance watching the show.

With these words, Lin Mo instantly understood what the other party meant. They did not dare to offend the Wanxiang Royal Family, so even if this Tag killed them in front of them, these people would not dare to divulge even half of it.

At that time, if the Kong family came to their door and asked about it, they would only throw dirty water on themselves, right?

"You're not wrong, alright, since Kong Xianzhuo is dead, let's continue our conversation!"

This Tiger was also a smart man, but he was just too eager and ultimately underestimated his power to exterminate the Kong family in front of him.

And with the death of Kong Xianzhuo, who had sent his head over a thousand miles, this cruise ship farce came to an end.

After summoning his ship, Guan York led the way by having his men bring his sleeping daughter over.

"Mr. Tiger, I will leave you alone and go first."

"By the way, Divine Doctor Lin would like to thank you for saving my daughter, Guan Linglong, no matter what.

Also this female, I'll leave it to you to dispose of."

As soon as his words fell, his men brought Yin Xiaoran, who had been tied up tightly, to Lin Mo's body.

Chapter 2652

With Guangyao taking the lead, the other guests also greeted Tag and hurriedly boarded Guangyao's boat to leave together.

As for the cruise ship underneath, it was naturally given to Lord Tag to use for a private meeting with Lin Mo.

With a swaying movement, the ship slowly started.

Looking at the figure of Lin Mo on the cruise ship, people had different thoughts, although it was a pity that you didn't manage to kill Lin Mo in the end.

But the mood of everyone is generally good, not only from the hands of Guan Yao to share the channel of not a small windfall business, and also in front of Lord Tege's face.

The two elders of Gan Pei were similarly tinged with mixed emotions, this kid was too weird, not only did he have the Zhao family on his back, but now he had accosted the Wanxiang royal family thanks to the relationship.

He had to admit that with this kid's existence the future situation in Da Qu might have to undergo another huge change.

Thinking about this matter Pei Lao couldn't help but sigh, Pei Xiao ah, grandfather can only find the opportunity to avenge you later.

With such emotions, he turned his head and looked at Elder Gan, and after two cold hums that rose at the same time, both sides turned their heads with indignant faces.

On the bow of the boat, Guan Yao was quietly blowing the sea breeze, when he heard the footsteps of his men, he opened his eyes.

"How's it going, is White-haired Boy hurt badly?"

"The rest is fine, just a crushed knee fracture, he needs to recuperate for a while!"

"Well, let him rest well, and also about that night vine, you have someone arrange for it to go down as soon as possible."

"Okay, I understand."

Right, Boss Guan, do you want me to arrange to reach out and do away with Lin Mo?"

White Hairy Boy was Guan York's beloved, and now that he was so badly injured, his men naturally had to ask out what Boss Guan wanted.

Guangyao shook his head.

"There's no rush to make a move first, this Lin Mo looks young, but behind it is the Zhao family as well as the Wanxiang royal family, let's wait and see what happens."

From the initial admiration, to the later desire to kill, to the later shock.

After all that Guan Yao had experienced, if he still believed in Lin Mo's self-reported identity, then he was truly foolish.

The feeling Lin Mo gave him was that he had no fear, no matter if he was facing the two Gan Pei families alone or in a gun confrontation, Lin Mo was always on cloud nine, that was a feeling of incomparable confidence in his own strength.

This confidence, whether it came from himself or from a backer, made Guan Yao curious.

"Forget it, it's better to stay away from this kid, it's hard to see."

On the other hand, the two Zhao brothers wrapped their coats tightly and just boarded the speedboat, they immediately wanted to report the news to the old man Zhao.

The Confucius family's eldest son had been killed, and at this point the involvement was too big for the two of them to hold.

"Father, something big is wrong?"

The sound of a chortle came from the other end of the phone.

"How old are you, still so fidgety, what happened."

"Father, Kong Xianzhuo is dead?"

"Who moved the hand?"

At the mention of this question, Zhao Jianping paused for a moment, and then answered with a straight face.

"It was Lin Mo, Kong Xianzhuo was killed by his sword capsule!"

There was a sudden silence on the other end of the phone, and only after a long time did Elder Zhao's solemn order come through.

"Alright, I know!"

Snap! After the phone hung up, the two Zhao brothers looked at each other and smiled, hey, Lin Mo this time I'll see if you die!

For all this Lin Mo did not know, at this time he had already arrived with Tiger was talking at the bow of the ship.

"What do you want from me, say it!"

Lin Mo couldn't say that she had a good feeling towards Tege, nor could she say that she had a bad feeling towards him either.

But all this had nothing to do with him, as long as he didn't make a fool of himself, Lin Mo wouldn't take the initiative to provoke trouble.

"Mr. Lin is quick to speak, so I won't hide it."

"This is how it is, there is an important person in our royal family who is not in good health and has sought many famous doctors but still has no significant improvement at all.

I have heard that Mr. Lin has a wonderful hand, so I am looking for him in the hope that I can ask you to help."

Chapter 2653

Lin Mo hesitated for a moment before slowly nodding his head.

"If the condition is serious, you need to pass on the patient's condition report to me in advance.

I need to see it in advance, and with Lord Executive's means, he should know my trail, right?"

Although he knew the other party's heel, he still wanted to get some information ahead of time.

Of course he knew in his heart that the other side must have something else in mind.

The neighbouring countries, Wanxiang and Zhenla, were eyeing Daqo. If they had already joined China, Daqo would have been swallowed to the bone.

Teg did not respond positively to Lin Mo's test, but said with a smile.

"This is naturally no problem, I will send the information to Divine Doctor Lin when the time comes.

It's just that what is involved in the information is a secret of my Wanxiang Kingdom, so please ask Divine Doctor Lin to keep it a secret, otherwise it will be very troublesome when the time comes."

Lin Mo didn't care about this, his main purpose was to collect information, and the other party was not just trying to save people.

"That's fine, when your side is ready, let me know when the time comes!"

"It's getting late, we should go back too!"

After Lin Mo stretched his back, he stopped paying attention to Tege and turned towards Green Shadow.

"Little Green Shadow come, let's go back."

The smaller body met Lin Mo's arms and swooped over happily.

"You're sleepy, let's go home!"

At the same time, in one corner of the cruise ship, Yin Xiaoran, who was tied up tightly, suddenly took out a blade from her sleeve and hastily cut the ropes around her wrists while everyone was not paying attention.

As everyone's attention was focused on Lin Mo and Teg, the crowd heard a clear sound of falling water.

"What's wrong?"

Lin Mo asked curiously as he stopped in his tracks.

The Prince's men at one side, with anxious faces, spoke.

"That b*tch, Yin Xiaoran, jumped into the sea and escaped, the night was too dark for us to find her."

"Well, if she escaped, she escaped!"

Lin Mo was not interested in such a small person who could be destroyed at the drop of a hat.

After this little episode, Lin Mo and his party left the cruise ship and boarded a kayak towards the transport ship.

"Lord Executive, this person Lin Mo dares to threaten you, should we send someone to teach him a lesson."

Looking at Lin Mo's departing back, his men indignantly asked for instructions.

Teg did not reply directly, but merely directed his gaze towards the a*sa*sin's bodyguard behind him.

"Can you see through this Lin Mo's strength?"

The latter frowned, recalling the majestic aura that had rushed out around Lin Mo during the confrontation, and he shook his head.

"This man is very strong, few people of his generation can have his strength, but it is not easy for my subordinates to judge exactly how strong he is.

And the weapon in his hand seems extraordinary! Also"

Teg saw him suddenly stop talking and opened his mouth to ask.

"In addition what?"

"Nothing, my subordinate just had a misunderstanding."

When the two sides confronted each other, the a*sa*sin bodyguard had also perceived a terrifying fury, a fury so powerful that it was desperate.

At the same time that the little green shadow's harmless and cute face suddenly sprang into his mind, he hurriedly shook his head again.

How could it be, how could a little girl have such terrifying strength!

Just think of it as a lack of rest during this time, the bodyguard stopped dwelling on this point.

"Lin Mo's side, you guys just pay more attention to it, but as long as you know his movements, if he finds out about our eyes, instead of being beautiful.

Also send someone to contact the Guangyao and Zhao families more often, try to pull them in."

As Tag gave the order, everyone on the deck arched their hands and bent down.

"Yes, my subordinates obey!"

Along with the loud noise of the helicopter propellers rang out again.

The originally lively Merryland cruise ship also fell completely silent.

Chapter 2654

Under the hazy moonlight, the huge steel beast is like a dragon coiled on the surface of the sea.

In the distance, a landing kayak was now approaching the steel beast breaking the waves.

"This is the transport vessel?"

Lin Mo looked up at the huge transport ship in front of him, and had to admit that he too was shocked, people were as small as ants in front of it.

Elder Nie and Grand Elder Xuan Yuan were truly generous this time, such strategic grade weaponry had actually been directly transferred over.

When the prince heard this, he introduced it excitedly.

“That’s a must, our Prince, with a draft of 160,000 tons, a hull length of three hundred and thirty meters, and carrying six super turrets.

Heavy machine guns

The first thing he did was to go over the construction process of the ship.

What Lin Mo focused on was the name of the transport ship, he thought to himself that the Martial Alliance would not pick such a middle-class name.

“The Prince?”

“Well ah, this is the name I specially picked for it before we went to sea, how about it isn’t it very atmospheric!”

Hearing this explanation Lin Mo inwardly spat out, I knew it!

Once Lin Mo had boarded the ship and settled the little green shadow, the Crown Prince approached him.

“Boss, shall we continue on to Panyang City?”

Lin Mo shook his head.

“Let’s wait first.”

The transport ship was inlaid with the Chinese Martial Alliance’s eye-catching logo, so if it sailed directly into the inner sea, it might cause unnecessary trouble.

Thinking about this. Lin Mo directly contacted Elder Zhao, and after he explained his purpose, Zhao Nan Yue directly and generously said that he would arrange an island under the Zhao family’s name for Lin Mo, specifically for berthing the ship.

While waiting for the Zhao family’s connector, the Crown Prince’s face remained indignant.

“Boss, we’re just going to take the blame? If you hadn’t stopped me, I would have had to give that pretender a shot high and low.”

If Kong Xianzhuo had been slaughtered by himself, it wouldn’t have mattered, but that wasn’t the case, it was clearly Teg’s men who had moved, but it turned out that Lin Mo had to take the blame.

“Just take it easy, Tiger just stated the truth, everyone on the whole cruise ship is expecting me to die.

Just wait, before dawn, the rumour that I killed Kong Xianzhuo will spread all over the city.”

“D*mn, a bunch of despicable people, I’ll let the Prince catch up with them now!”

The Crown Prince directly stood up in his impatience.

Only Lin Mo directly stopped him.

“There’s no need, we’re going to kill Kong Xianzhuo anyway, it doesn’t matter whose hands we die in.”

After hearing this, the Crown Prince still had a resigned look on his face.

“I’m really unhappy about helping someone take the blame for nothing.”

“Isn’t he Tag like tying me to the Sixth Prince in the same boat, just as I want to muddy the waters of Da Qo even more through them.

That way we can muddy the waters, after all, our roots are too shallow over here.”

The prince frowned suspiciously and said, “Does this Taig know the identity of your Amba*sador Zhen Yue?”

Lin Mo took a shallow sip from his cup of tea then said with a raised eyebrow.

“What else, you’re also underestimating a country’s intelligence capabilities too much, aren’t you?

Perhaps the moment I entered Da Qu, I was targeted by them.”

The prince slapped his thighs directly and shouted Crap!

“Won’t we all be exposed like that?”

“What does it matter, since the sixth prince approached me on the pretext of seeing a doctor obviously has a lot of plans, take your time, there are many ways in there!”

“Why don’t you tell me about it?”

The prince stared curiously at Lin Mo with an expectant gaze.

However, the only answer he got was Lin Mo’s big white eyes.

“Cut, when did you become so gossipy?

And why do you know so much, don’t you know that the more you know, the more dangerous it is?”

“It’s not that I’m still bored from staying in Hai Cheng all the time? By the way big brother, who is this little girl again?”

“Is it fun over here in Daju?”

“When are you going back, don’t you know I’ve gathered thousands of men just waiting for the battle on the high seas”

“.....”

Chapter 2655

On the other side, Tege came in the first report from the helicopter after his purpose had been achieved.

When Gadre walked down the hall, his face was still slightly flushed and there were tiny beads of sweat on the corners of his forehead, obviously fresh from his labours.

When he saw Tagg, he poured the wine himself with a slight smile.

“Come, hard work, how did things go?”

Although Tag was the brother-in-law of Gadre, he had always held his position to the letter and behaved in a disciplined manner.

This was one of the reasons why the Sixth Prince valued him.

After slightly bending down and accepting the gla*s with both hands, Tege recounted the events on the cruise ship truthfully.

“Everything went well, Lin Mo’s side also seems to be interested in working with us, and Kong Xianzhuo was taken out by me.”

Gadre shook the red wine in his hand as he did so, and after hearing this news, a smile could not help but appear on his face.

“Good, so our plan can still go ahead!”

“Just kill them, such a wallflower is not a good idea to keep for the New Year?”

Still wanting to use me against Lin Mo, this Kong family is legitimately ignorant of death.”

His eyes narrowed as more than killing intent surfaced on his face.

“Your Highness, will our move like this cause Lin Mo’s discontent?”

Tege was still concerned about this, after all, giving someone a backstab for no reason, anyone would be upset!

“You think too much, sometimes you don’t need to do everything, if we just flatter Lin Mo, he will have suspicions.

If we flatter Lin Mo, we will be suspicious. Since he has come to Da Qiu, the pattern of him and the vast majority of the local forces standing against each other is already predetermined.

We are merely bringing up the speed.”

“Killing Kong Xianzhuo, while we give our attitude, we also happen to attract the eastern waters of the disaster, since we are cooperating isn’t it a mutual use?”

Tege also understood the Sixth Prince’s layout at this point.

“Do you need me, to step in and knock some sense into the Kong family, they are too close to the True Wax side.”

Gadre shook his head.

“Knock? Why would you do that? The Kung family is not under us, so let them continue to be rats.

Just in time to stock up on free guns for me.”

“Just let Lin Mo clean them up, if the Kong family really does reach a partnership with the Ding family, it will be harder for us to do so.”

As soon as the words left his mouth, he smiled faintly, only with a hint of indifference in his smile.

The chess player’s posture was ready, and this great game of chess in the two provinces of Da Qu would be precisely the opening.

Two flowers are in bloom, each with its own branch.

After Zhao Yu received the order from the old master, he ordered all the Zhao’s Tiger Guards at the first opportunity.

After seeing the transport ship for the first time, he was also shocked by the fact that this hideous steel beast was completely a mobile war fortress.

“Mr. Lin, the old master sent me over to assist you in transferring the supplies!”

Although Zhao Yu’s heart was filled with curiosity, he did not ask more questions.

“It’s hard on Uncle Zhao, making you come all the way here in the middle of the night.”

“It’s alright, I’ve been idle at home for the past few days, this is just the right time to move my shins.”

After exchanging pleasantries, Zhao Yu led Lin Mo’s boat to the Zhao family’s war reserve, Harbour Island.

Due to the special topography, the island was surrounded by a natural harbour, which was not only secluded but also had an extremely wide inner sea, so it was not a problem to park hundreds of transport ships like the Prince.

With the arrival of Lin Mo’s transport ships, all of the Zhao family’s warships had already been evacuated.

“Mr. Lin, this side of the ship’s committee has all the maintenance equipment, and the personnel are also well equipped, so if you need anything, just give your orders directly.”

Lin Mo was a little embarrassed in the face of such an arrangement, after all, it was a place of war preparation, just for him to park his transport ships, it was surprising that he had cleared it out straight away.

“Uncle Zhao Yu, is this the only berthing port?”

Chapter 2656

Zhao Nan Yue is responsible for 80% of the credit for the Zhao family’s current status.

His powerful clan power not only opened up power for the Zhao family, but also deterred those curmudgeons who had tigers in their hearts, he was an essential and important presence for the Zhao family.

When Lin Mo saved Master Zhao, it was the same as saving the entire Zhao family.

He had never had the chance before, but now that Zhao Nan Yue had easily found the opportunity, he naturally had to thank Lin Mo properly.

“No, if we follow the old master’s plan, if we want to stand firm in Da Qu, maritime power is an important and indispensable part.

After your maritime warships develop, this harbour is also a more than indispensable link, and this room is just right for you to use as a place of war preparation.”

After Lin Mo looked around, he also felt that Zhao Yu’s words made sense.

“Then I’ll be cheeky and thank you for the generous gift, old master!”

“You’re welcome, if it weren’t for the consideration of concealment, the old master was planning to give you the largest Zhao Xing Bay.”

After saying that, Zhao Yu began to command the Tiger Guards to move the gun supplies that Lin Mo had requested on the transport ship onto the Zhao family’s warships, which they would take along with the prince to transport to Panyang City.

This way the Lin Mo transport ship would not have to be exposed, and with the presence of the Zhao family forces, it would just be a good cover for the source of the supplies.

For the Prince, there would be members of the Martial Alliance specifically responsible for guarding and looking after it.

As for Lin Mo, he had to continue his journey to Hanoi, plus there were still many things left to do at hand, so he split up with them halfway through the journey.

“Mr. Lin, we will see you off here, the car is ready for you, if you need anything else, just contact me at any time.”

“Also the old master asked me to remind you to be careful of the Kong family, once Kong Xianzhuo died, you are a great enemy in life and death.

And the Kong family is in extreme form, so you should pay more attention to your safety during this period of time.”

This point naturally occurred to Lin Mo, and after nodding his head to indicate that he had turned white, Zhao Yu waved his hand and the Prince continued on towards the city of Panyang.

There were no words along the way.

By the time Lin Mo arrived at the hotel on Moro Street, it was already early in the morning, and the boss was staring intently at the table in his eyes, a sleepy man who rarely slept.

“Boss, we’re back, has the room been cleaned up for us!”

The hotel owner was directly startled by Lin Mo’s voice.

“Crap, young man are you a ghost, how to walk without the sound of footsteps.”

While saying that, you once covered the paper on the table.

“Boss it’s not that I’m walking without sound, it’s that you’re looking too engrossed.

What are you looking at, give me a look too!”

When Lin Mo stretched his head towards the counter, the boss put away the paper on the table and wrapped it in his arms like a treasure.

The speed was so fast that Lin Mo did not have the slightest time to react.

Seeing this scene, Lin Mo’s pupils instantly shrank, this person was a master.

The boss seemed to perceive that he was exposed, with a saucy face twitching the corners of his mouth and forcing out a smile.

“Go go go, this is something that only us grown men can look at, you’re a hairless little kid, what are you looking at?”

“You’re the one who hasn’t grown any hair, you’re so petty!”

After Lin Mo spat out a sentence, he fetched the room card from the old hotel owner and then walked into the appliance with the little green shadow sleeping on his shoulder.

During this process, the boss kept watching his back, knowing that the moment the lift door closed, both sides saw the alarm in each other’s eyes.

“The brat is precisely cunning, to let the old man expose his body, if not for the presence of the girl, see if I don’t snap your thieving eyes.”

After the boss viciously spat out a sentence, suddenly that then sensed a familiar aura, and for a moment his face changed dramatically.

“Girl, I’m joking, hehehe joking!”

As if explaining to no one in particular, the scent only completely disappeared into thin air.

Chapter 2657

“The girl is still as petty and protective as ever!”

After the hotel owner had secretly spat out a sentence in his heart, he continued to lower his head and concentrate on those pages of paper.

On these few pages, all the major events of Da Qiu were covered.

For example, Lin Mo, Tag, the Merry Christmas Cruise, and so on, were all listed there.

“Tsk tsk, hilarious, hilarious, finally there’s a good show to watch!”

The boss’s pale cheeks were filled with a sense of anticipation.

On the other side.

After Lin Mo covered Green Shadow with the blanket, he first called his wife to report his safety.

He rubbed his swollen head and his body went limp, his entire body sinking directly into the soft sofa.

“Phew, quite tired!”

He rubbed his swollen head and couldn't help but sigh.

Originally, the purpose of coming to Heshan was to collect intelligence to facilitate the layout afterwards.

There were more than a dozen provinces in Da Qu, of which the major powers were more than involved, plus the neighbouring countries of Wanxiang and Zhenla were eyeing him.

Given his current roots, trying to rectify two of these provinces under the noses of these major powers would be like taking chestnuts out of the fire.

“If only we could use force to solve the problem directly!”

After sighing with emotion, Lin Mo shook his head in a self-conscious and childish manner.

Most of the people of Da Qu United Provinces were xenophobic, and after more than a decade and decades of development, the forces under their names were intertwined.

Simply solving Yin Tianbao and the forces under his name and rectifying a small Panyang city wasted so much of Lin Mo's efforts, not to mention big provinces like Hanoi and South Vietnam.

This was one of the reasons why the Martial Alliance had not made a move.

There was also a more important matter that caused Lin Mo a headache, and that was the night vine gra*s.

This is the most important thing, if you can't control it properly, not to mention the two provinces of South Vietnam and Hanoi, even the entire Da Qu, is a very serious scourge, and may even spread to more.

The first thing that Lin Mo did was to call the Crown Prince and Wang Laosan and instruct them to check all the goods that flowed into China from Da Qu, not even a single seed of the night vine.

And this blocking the flow of goods was just a solution to treat the symptoms but not the root cause.

Lin Mo had already taken it into his heart that he would uproot this sinister chain of interests the day he was strong enough.

As he thought about it, Lin Mo's head was getting heavier and heavier, and he could not help but enter into a dream.

There was no talk all night.

After not knowing how long he slept, Lin Mo felt a slight tickle on his nose and when he opened his eyes, he only saw Green Shadow's cute little cheek in front of him.

In her hand, she was clutching a bunch of sideburn hair, which was obviously the culprit for Lin Mo's itchy nose.

The green shadow was also startled to see Lin Mo suddenly open his eyes, and like a child who had made a mistake at the same time, she jumped off the sofa with a cheeky grin.

Just as she was about to run away, Lin Mo hugged her back with one hand.

“Little girl has grown bold, now she even dares to tease me!

See you can’t do it without teaching you a lesson.”

Said while Lin Mo then harrumphed his fingers.

Green Shadow also expected something and her face couldn’t help but change, but no matter how much she struggled she couldn’t escape Lin Mo’s clutches.

“Watch my tickling torture!”

As soon as the words left his mouth, the sound of heckling and scuffling resounded within the room.

At this moment, the innkeeper who pa*sed by outside the room door also heard the sounds coming from the room, and with an expression of wanting to cry, he could only keep shaking his head and sighing.

“Girl, how have you degenerated to such a state! Where is the pride of our people of the mountains!”

Chapter 2668

The ear-splitting sound of brakes cut through the silent night.

The Crown Prince, pistol in hand, leapt straight out of the SUV.

Originally his aim was Pan Yang, but not long after he had separated from Lin Mo, Zhao Yu received a message from Elder Zhao: the Kong family had sent an a*sa*sin to a*sa*sinate Lin Mo.

After learning this news, the prince could not sit still. Without saying a word, he directly asked Zhao Yu to arrange a car for him, and then he killed his way to the city of Heshan.

“Who are you people? The Kong Family is on business, so if you know what you’re doing, then go to hell!”

On the side of the Kong Family’s a*sa*sin group, instead of receiving a message from the leader, a group of strange forces were ushered in.

The prince sneered, rushing over in a hurry just to kill someone, really had the heart to bullsh*t.

“Laozi is looking for this group of pussies, give me a fierce fight!”

With a command, countless fire snakes began to pour out bullets frantically.

Although the Kong Family a*sa*sins were not ordinary, they were only mortal bodies, so they could not withstand such fierce firepower.

In just one exchange, more than forty bodies were left on the ground.

Seeing that the situation was not good, a kind of a*sa*sin could only speedily withdraw behind them.

“Boss, they’re trying to escape!”

“F*ck you, I’m not blind. Tie Dan you go and lead the men to close this place, the others follow me and chase after them, today I will make them all stay here.”

As the Crown Prince finished his murderous speech, the sound of roaring engines exploded into the starry sky.

In this way, the Kong family’s killer group ran for their lives all the way, with the Crown Prince leading his men in wild pursuit.

“Up ahead is the Ding Family’s dock, everyone hurry and hide inside!”

Inside the Ding Family’s Pier 67, scattered security personnel were still patrolling the surrounding containers with torches to prevent theft.

“It’s too D*mn cold for this weather, how about we have a few whole cups in the warehouse later, old Fang-head?”

Just as the inspector was planning to slack off towards his companion, the sound of gunfire suddenly came from the distance, and it was coming from far away in the direction of their dock.

“F*ck, old Fang Tau, let’s hurry over to the gate.”

In a flash, all the pier’s inspection as well as security personnel gathered at the pier’s main gate.

After waiting for a while, the sound of gunshots got closer and closer.

Seeing a dozen of black-clad men fleeing in disarray, running towards their direction, the crowd on the pier directly raised their guns.

The leader, Manager Kang, didn’t want to waste bullets and shouted directly.

“This is the Ding family dock, you want to fight, go to hell.

If the ripple affects the goods at our wharf, I’ll buy you peanuts.”

Just as he finished yelling, the pace of the group of black-clad men on the opposite side picked up again.

“Manager Kang, Manager Kang, we are from the Kong family!”

Hearing this, Manager Kong’s face changed, then he raised his hand to stop his men who were about to start robbing, and when the two sides got closer, he frowned and asked.

“What’s going on, what kind of person has eaten his heart and leopard’s guts, even your Kong family’s people dare to chase and kill.”

“We’re not sure where the other side came from, originally a few of us were just on a family mission, but we didn’t expect this group of people to kill out of nowhere.

We had no choice but to ask Manager Kang for help.”

“It’s no problem, our two families are already working closely together, so go in and rest for a while.

I, Old Kang, would like to see what the other party is.”

As Manager Kang finished speaking, the crowd at the pier gave way.

By the time the prince’s caravan arrived, the Kong family killers were already hiding at the pier.

When the Prince jumped out of the car, he saw that there were AK rifles on the pier wall and the gate was full of strong men with firearms, so he sent word to everyone to put away their firearms and then walked up to the front alone.

“Ironmen, a personal grudge, please make way!”

He was not sure where the other party was coming from, and the Prince did not want to actively invite other trouble, so he could settle the chicken peacefully.

Chapter 2659

It was late in the evening, and the dense moon was completely hidden from view, making the earth even darker.

Even the cold wind became more bitter, rattling against the windows and doors, as if to foreshadow this extraordinary night.

Accompanied by the scream of a wild cat, hundreds of black shadows swept past, until they came to a halt after arriving at Morrow Street.

“Leader, Lin Mo’s trail has been confirmed, and he is currently inside this hotel!”

The man at the head of the group nodded.

“Good, as planned, snipers in position, members of Team 2 to place the explosives.

The rest of you follow me and close the perimeter, not a single fly will be allowed to fly out of this hotel today.”

After the mission was given, the group of over five hundred elite Kong Family a*sa*sins instantly dispersed, with fifty of them being this explosive pack of a*sa*sins darting around the hotel.

If they detonated these explosives together, there would be no survivors within a two-mile radius, and even if Lin Mo was a martial arts master, he would definitely be seriously injured.

It was deeper too, and darker!

“Hey, Lin Mo is it, dare to kill our Kong family master, I’ll let you die without a body today!”

As he installed the explosive pack in his hand, the killer whispered to himself, in his opinion Lin Mo was bound to die tonight.

Just as he was excitedly fixing the explosives, a voice suddenly came from behind him.

“Hello this gentleman, may I ask if you have a room?”

For a moment the killer’s pores all over his body exploded up and his scalp instantly tingled.

He had the sharpest sense of hearing in the entire group of killers, bar none.

However, at this time, he did not hear any movement when someone appeared behind him, which was really weird.

As an assassin, he was naturally mentally strong, and after a brief moment of disorientation, he quickly drew his pistol.

However, just as he turned around and was about to fire, the figure had already arrived unnoticed at a distance of less than half a metre from him.

“Sir, do you have a room?”

Hearing this question again, the killer only had a mmp answer for the other man, only he didn't have a chance, the gun in his hand and his neck were crushed by this sudden mystery man.

The sniper on the other side of the room was no better off.

Crouched over the sniper spot, the killer was concentrating on the movement of the hotel with deadly concentration.

“Strange, where did this place get such a strong smell of wheat?”

It smells so good, I'm hungry.”

The sniper was originally just laughing at himself, relaxing a little.

However, as the words fell from his mouth, a fragrant coarse grain cake was actually handed over beside him.

“Young man, come and have one, I am sure you will want to eat the second one after eating the first one.”

When she saw that the other party did not reply, the old lady who bought the cake stood up in dissatisfaction.

“Youngsters nowadays are so rude that they don't even eat such delicious cakes.”

After saying this she patted her brand new big cotton jacket with broken flowers, and her face was replaced with joy again.

“Well, these new clothes just keep you warm!”

She then carried the bamboo basket towards the next sniper.

The sniper in situ was dead on the spot with a face full of resignation and horror, and a bloody pumpnickel was sticking out of his neck.

After waiting for a long time, the leader of the killers saw that the men who had followed the explosives had not returned, and his face instantly darkened

“You, go and see what's going on over there with them.

Really incompetent, can't even get it done in such a few hours!”

After a complaint, the man he named rushed over quickly to check for news, only after a long time, the a*sa*sins who had checked for news surprisingly did not come back either.

As he was wondering, the walkie-talkie on his chest suddenly beeped, followed by a friendly voice.

“Young man~~, it’s so cold and you’re still busy, have a cake!”

Chapter 2660

After a somewhat creepy voice came over the intercom, the atmosphere on the leader’s side slowly became agitated.

In all their years as a*sa*sins, this was the first time they had encountered such a situation.

However, before they could calm down, other voices came over the intercom.

The only difference was that this time it was a male voice that spoke.

“Guests, it’s cold outside, why don’t you get a room in my shop?”

A ghostly voice, like the Grim Reaper in the darkness of the night, just the sound of his voice seemed to take away the soul.

When the leader saw the unusual expression on his men’s faces, he directly smashed the intercom on the ground and stomped it to pieces.

“Who the hell is pretending to be a god out!”

At this point, if this sound source is not cut off as soon as possible, I am afraid that it will disturb the men’s minds, but he is ultimately a step too slow, and the intercom is not just unique to him.

In the eerie atmosphere, the killer’s face suddenly changed in surprise.

“It’s not good, the sniper team and the explosives planters can’t be reached.”

When his companions heard the news, a wave of uneasy thoughts rushed to their hearts.

As elite a*sa*sins of the Kong family, they had their own rules, no matter what unexpected matters they encountered, communicating information to each other was the first priority, even if it was a life or death crisis, they still had to alert the remaining living forces.

The form before them was obvious enough, those companions who couldn’t be contacted were definitely dead!

Add to that the eerie words of the two strangers.

Under the pitch blackness, fear had begun to creep in.

“Leader, have we encountered something unclean, or should we just forget about it?”

The voice of the man who spoke had already appeared to tremble slightly, and he seemed to have spoken the heart of the vast majority of people.

In just a few dozen seconds, a squad of dozens of elite a*sa*sins had died, and it was too late to even convey the message, which, in their perception, was no longer a pull that could be achieved by human power.

The leader looked at the group of men in front of him, his face couldn't help but look gloomy, and with a serious tone, he cursed angrily.

"Your too let me down too much, it's just someone pretending to be a god, and you're all scared like this?"

Have all these years of training and practice produced such a bunch of cowards like you."

"Hmph, if you're scared, get the hell out of the a*sa*sination team, you're a disgrace."

Perhaps his reprimand had an effect, as many of the men's fear dissipated after being reprimanded, and a look of determination appeared in their eyes once again.

The leader breathed a sigh of relief as he knew in his heart that they must not have encountered a ghost or a master.

However, the masters were even more terrifying!

"Adjust your state, since the explosives and sniper team are destroyed, we'll go head on and kill them.

If they were really capable, they wouldn't use these to scare people.

So don't be afraid, cover each other and follow me to take Lin Mo's life!"

The leader was also worried that if he delayed, he would scare himself to death before he could make a move.

As soon as he gave the order, all the a*sa*sins around him were in full gear and ready to go, surrounding the hotel in all directions.

At the same time, the little green shadow in the hotel room had already leaned against Lin Mo's body at some point.

"What exactly do you see in this kid that you are so dependent on him? Is it handsome, but it's really quite handsome, hehehe!"

After Mo asked, she nodded again.

"Oh, so it's because of pure goodness, no wonder, since the sword-bearer Tai Ah, I guess it's not a bad guy."

The weird thing was that Green Shadow was clearly the only one awake in the room, but she seemed to be conversing and talking with someone.
