

Read Novel Married At First Sight Chapter 2355

Married at First Sight Chapter 2355-Alannah looked at Elisa lovingly, and smiled: "I'm happy, having two daughters, you and Jane."

Elisa felt a little embarrassed.

She and Remy were not married yet, but she was not married because of Remy.

Everyone laughed.

Not long after, Remy also came here.

The woman he loved and the two women he respected were here; of course he was going here.

Hearing that Remy was here, Elisa muttered: "Isn't it time to get off work? Why did Remy come here?"

He's skipping work again.

Jane teased her with a smile: "You are here with serenity; how can Remy go to work with peace of mind? Even if others stay in the company, their hearts will fly to you. Why not just come to you so as not to distract him?"

"Sister-in-law is teasing me again."

Serenity laughed and said, "Mr. Johnson and I are also very close acquaintances. Now that he is here, it's fine if I don't go out to meet him. Elisa, you can go."

Elisa stood up, "I'm your cousin, it's okay to help you entertain guests."

Obviously she wanted to go out impatiently, and she wanted to find a grandiose reason, which made everyone laugh again.

The two little guys didn't know what the adults were laughing at, so they laughed too.

They laughed, and the adults turned their attention back to the siblings, making them laugh.

When Elisa walked out of the main house, she saw Remy get off the car, and Remy was still holding a large bouquet of flowers.

Seeing that it was Elisa who came out, Remy's eyes lit up a lot, and a smile appeared on his face, which was brighter than the bouquet of flowers.

"Remy, why are you here at this time, aren't you still off work?" Elisa walked towards him and said, "It's just after ten o'clock."

There were still two hours until closing time.

Remy was busy with work, and sometimes he was busy when he got off work at twelve o'clock.

Remy smiled and said, "I'm going back to the company today to arrange business, and then I'll take a few days off. It won't matter if I go back to work after Young Master York's wedding is over."

His parents, brother and sister-in-law were all here, and he also wanted to spend time with his parents.

Since he stepped into the society, he was sent to Wiltspoon by his elder brother, honed in the branch company, and developed his own ability. Then his elder brother entrusted him with the heavy responsibility and let him take full charge of all the business of FC & Co. in Wiltspoon.

When other branch companies encountered important matters, they needed to ask the head office for instructions, and only after getting approval from the head office could they be implemented.

There was no need for the branch in Wiltspoon, Remy could make the decision.

This was Ben's affirmation of his brother's ability.

After all, Remy was regarded by the elders as the successor of the FC & Co., and his ability would not be inferior. It was because he was unwilling to take the lead that Ben took over the family business.

Remy: "Knowing that you came to Serenity's place, my mother and sister-in-law are also here, so I came here directly to pick you up."

He handed the bouquet of flowers to Elisa, her eyes were so soft that water dripped out.

He said affectionately: "Elisa, this bouquet of flowers is for you. I hope you will be happy every day and have a beautiful smile."
