

Boss Mommy 501

Chapter 501 Reversal

When the sky was very dark, Matriarch Xu and Xu Hao got out of a black car wearing sunglasses and masks, afraid of being recognized by others.

Thank you readers!

After that, they snuck into Ye Lu's clinic and went to the front desk to explain their purpose. The front desk then asked them to wait and called Ye Lu.

When Ye Lu received the call, she looked toward Shen Ruoqing who had already arrived.

Although Shen Ruoqing often talked about retirement, she always came promptly when she agreed to see a patient. Therefore, she arrived early.

At this moment, the front desk instructed Matriarch Xu and Xu Hao to follow her to a relatively private room. Matriarch Xu acted like a thief and asked, "Do you have surveillance cameras here?"

The front desk immediately replied, "No, we value patient privacy." Hearing this, Matriarch Xu still felt uneasy and asked, "Can we keep our sunglasses and masks on later?"

The front desk hesitated and replied, "Traditional Chinese medicine pays attention to observing, smelling, asking, and touching, and facial expressions are used to judge the condition, so that may not work."

Matriarch Xu frowned.

Now, all the rumors around the wealthy families of the capital were in favor of their Xu family and were saying that the Shen family was taking advantage of them. If her visit to the clinic with her son was known, things might turn around.

While she was hesitating, Xu Hao's phone rang.

Xu Hao answered the call, and upon hearing the news, he became excited and asked, "Really?"

The other person confirmed the news, and he immediately hung up the phone and told Matriarch Xu, "Mom, Little Yang is pregnant!" Little Yang was a minor celebrity he was seeing on the side, and she called to report the good news.

Matriarch Xu frowned at the news. She then looked around and still felt that this private clinic was not reliable.

Hence, she decided to stop there and told Xu Hao, "Since she's pregnant, that means there's no problem. Let's go back! We won't have the consultation tonight."

Matriarch Xu finished her words and pulled Xu Hao to leave.

The receptionist saw their reaction and frowned. She was anxious but didn't dare to stop them. Hence, she went straight to the consultation room and pushed the door open, saying, "Dr. Ye, the patient said

that his wife is pregnant, and he has no problem, so they won't continue the consultation and are leaving."

Ye Lu. "??"

She pursed her lips and said, "What the hell? Are they playing us? I looked at the data, and his physical condition is not good. How is it possible for his wife to get pregnant?" She couldn't guarantee her own judgment.

After all, even with asthenospermia, there was still a certain probability of pregnancy.

Once, a man with asthenospermia had accused his wife of having an affair and caused a scene. He didn't believe his wife until three months later when his wife had amniocentesis and did a DNA test on the baby.

As a result, the baby was the man's, but the wife suffered a miscarriage due to the amniocentesis procedure.

The man was filled with regret afterward.

There were many such cases, so Ye Lu did not dare to draw conclusions. She only looked at Shen Ruoqing for guidance.

Shen Ruoqing was examining the test report that Matriarch Xu and Xu Hao had taken at the hospital. The values were all poor, and Shen Ruoqing weighed them in her mind before saying, "His wife cannot be pregnant. His condition has reached a very severe stage, with hardly any viable sperm left. If they do not seek treatment in time, it may be impossible for them to have children in the future."

Upon hearing this, Ye Lu, in line with her professional ethics as a doctor, quickly chased after them. She ran all the way to the underground parking lot and just saw Matriarch Xu and Xu Hao who were wearing sunglasses and masks. They were getting into their car and about to drive off.

Ye Lu immediately stopped them and said, "As a patient, you cannot leave."

Matriarch Xu angrily retorted, "If we want to see a doctor, we'll see one. If we don't, we won't. Do doctors have the right to force us to do anything?"

Ye Lu had her own professional principles. Otherwise, she would not have had such a good reputation in Sea City.

She hurriedly explained, "Your son's asthenospermia is very severe, and it is impossible for him to have children. The divine doctor just said that if he doesn't seek treatment soon, his condition may worsen and it will be difficult for him to have children in the future.'

Upon hearing this, Matriarch Xu felt a sudden jolt in her heart. As an affluent wife from an aristocratic family, she naturally understood that minor celebrities were not always clean, and the pregnancy seemed suspicious.

However, Xu Hao's male ego got the best of him, and he angrily shouted,

'You're talking nonsense! My woman is pregnant!'

Ye Lu couldn't see their faces clearly, but she heard the conviction in Xu Hao's voice.

She paused for a moment. Being very intelligent, she caught something significant in Xu Hao's use of the phrase "my woman" instead of "my wife."

She said simply, "You can go back and investigate further, but the divine doctor has never been wrong in his judgments."

Matriarch Xu did not dare to offend the divine doctor and was also afraid that her son's illness would become a severe problem.

Hence, upon hearing Ye Lu's words, she immediately said, "Doctor, we apologize. We will go back and investigate. Regardless of the outcome, we will still pay the consultation fee."

They knew how to handle things!

Ye Lu smiled at Matriarch Xu and stepped aside, saying, "Take care."

Matriarch Xu and Xu Hao then sat in the car.

Xu Hao angrily cursed, "This young doctor looks very inexperienced. Mom, let me tell you, Little Yang is very innocent and is definitely a good girl!"

Matriarch Xu smiled. "I'll go see her with you."

She then instructed the driver to drive to find the little celebrity.

Xu Hao nodded. "Yeah, let's go see her, and take her to the hospital for a checkup. We can then smack Shen Tingyan's face hard! How dare she say that there's something wrong with my body? Ridiculous!"

Since Shen Ruoqing had said that something was wrong with his body and his mother had taken him to the hospital for treatment, Xu Hao had been feeling uneasy.

But now, Little Yang had brought him the good news and he was pleasantly surprised.

Matriarch Xu only silently sighed at her son's foolishness.

"I hope everything will turn out as my son wishes," she thought.

They quickly arrived at the apartment that Xu Hao had purchased for Little Yang. Matriarch Xu then took Little Yang to the hospital for a checkup without attracting any attention.

Soon, the results came out – Little Yang had been pregnant for more than a month.

Xu Hao was delighted. "It must be that time! Little Yang, you are truly my savior!"

Little Yang looked very innocent, but her eyes were full of calculation. She pretended to be shy and lowered her head.

Seeing her like this, Matriarch Xu also hung her head.

After sending Little Yang back to the apartment, Xu Hao stayed to take care of her.

When Matriarch Xu got out of the car, the driver immediately reported, ‘Madam, we have checked, and the child in her belly is definitely not the young master’s.’”

Upon hearing this, Matriarch Xu’s face turned black..

Chapter 502 Visit!

Although Shen Ruoqing didn’t get to see the patient, she wasn’t angry about being stood up.

Thank you readers!

When she was about to leave the clinic and return to the Shen family, she paused for a moment and looked in a nearby direction where a car was parked in the darkness.

She quickly averted her gaze and then a Maybach stopped next to her.

Chu Cichen was sitting in the driver’s seat, looking at her. “Jingjing, get in the car.”

Shen Ruoqing nodded and got in. As they drove away, Chu Cichen also glanced at that black car through the rearview mirror.

It was inconspicuous, but as soon as his Maybach turned, the other car started up.

Inside the car, Leng Ling coldly stared ahead.

In the back seat, Dugu Xiao was lying down and asked nervously, “Has 518 left?”

Leng Ling replied calmly, “Still watching you.”

Dugu Xiao was scared and buried his head even deeper.

He was afraid of being found out and said, “I’m afraid the Queen of Country A will send someone to kidnap her, which is their usual style, so we need to protect her.”

Leng Ling sarcastically said, “Oh, I thought you wanted to find a chance to kill Miss Shen.”

Dugu Xiao didn’t say anything, but they continued to follow Shen Ruoqing.

Soon, they watched Shen Ruoqing return to the Shen family. Dugu Xiao and Leng Ling also arrived outside the Shen family’s residence.

Leng Ling asked, “Will you continue to keep watch tonight?”

Dugu Xiao nodded and said, “Turn up the air conditioning.”

It was still very cold outside.

Leng Ling warned, “Parking and turning on the air conditioning can easily cause carbon monoxide poisoning. Are you sure?”

Dugu Xiao. “...”

—

Shen Manor.

After the Maybach was parked in the parking lot, Chu Cichen and Shen Ruoqing exited the car and walked toward the residence.

Along the way, Chu Cichen coughed and said, "That was Dugu Xiao just now."

"I know," Shen Ruoqing said coldly.

Chu Cichen fell silent for a moment and then spoke again, "Back then, he didn't want to kill you. He just wanted to seize power to save his mother."

Shen Ruoqing remained silent for a moment before nodding again.

Then she suddenly spoke, "Do you know the meaning of our code numbers that indicate the order in which we joined the organization?"

Chu Cichen nodded. "Yes."

Then he smiled. "My number is 527, which means 'I love my wife'."

Shen Ruoqing nodded. "Hmm, mine is 518, which means 'I want to be rich.'"

Chu Cichen laughed. "Dugu Xiao's number is 517, which means 'I want to eat'. We even made fun of him back then about how he ended up with the 'I want to eat' code number."

Shen Ruoqing smiled wryly. "When we joined the organization and were lining up to register, I deliberately crouched down and tied my shoelaces when I saw the person in front of me was number 516. That was how Dugu Xiao registered first."

Chu Cichen's expression darkened slightly when he heard this. He knew that Shen Ruoqing had forgiven Dugu Xiao for his past mistake.

After all, Dugu Xiao had set a bomb with the intention of killing her. But now, Shen Ruoqing no longer minded it.

Chu Cichen felt happy for her.

Letting go of the past was necessary for a better future.

Besides, the three of them had always been friends. After 518 faked her death, Chu Cichen couldn't believe that Dugu Xiao had really acted against her, so he didn't immediately seek revenge but instead investigated the cause of 518's death.

All three of them knew that 518 couldn't have died in an explosion. So Shen Ruoqing set another trap, and she died under the effects of the No.5 Neurotoxin. This way, Dugu Xiao wouldn't have to feel guilty...

But she didn't expect that both Chu Cichen and Dugu Xiao wanted to avenge her, which caused them to become enemies when they met again.

Shen Ruoqing and Chu Cichen went upstairs, and each went to their own rooms to sleep.

The next morning, Shen Ruoqing was awakened by the noise outside. When she went downstairs, she saw that the living room was in a mess.

Third Madam Shen and Shen Tingyan were standing there, glaring at Matriarch Xu.

Matriarch Xu yelled at them, "What's the point of dragging on without getting a divorce? Do you still want to waste my son's time? You have delayed him for three years. Until now, our Xu family still has no heir. Are you trying to cause our Xu family to be extinct?"

Hearing this, Shen Tingyan bit her lip as her eyes turned red, and Third Madam Shen supported her. "Matriarch Xu, don't talk nonsense! Who is responsible for the infertility problem has not been determined yet. Don't accuse my daughter!"

After hearing this, Matriarch Xu sneered and shouted at Third Madam Shen, "Yesterday's examination report and Dr. Zhang's diagnosis results cannot explain the problem? Why do you insist that we go to that testing agency for an examination? Are you trying to manipulate something? Everyone knows that the Shen family in the capital has supreme power in the medical field!"

Shen Ruoqing frowned and slowly went downstairs. Now, Third Madam Shen was angry with Matriarch Xu's accusations and said, "But we also had an examination, and there is no problem with Shen Tingyan's body!"

Matriarch Xu responded, "Dr. Zhang checked Shen Tingyan's pulse and we went to see him ourselves. Dr. Zhang personally said that she indeed has the cold womb syndrome!"

Third Madam Shen was furious. "We're all women, who wouldn't have some coldness in our wombs? Don't use this to belittle us! Divorce is possible, but Tingyan cannot be left with nothing! This kind of compensation for the divorce is unacceptable!"

If they divorced like this, how could Shen Tingyan still face people in the capital in the future?

Matriarch Xu sighed. "Then what do you want?"

Third Madam Shen bit her lip and angrily suggested, "Since you can't prove that Xu Hao is not the problem, and I cannot prove that Tingyan has no problem, why don't our families sit down and have a normal discussion about the divorce..."

As soon as she finished speaking, the butler ran in from outside with Xu Hao and a young woman.. Xu Hao supported the woman's arm and said, "Shen Tingyan, Little Yang is pregnant with my child which shows that there is nothing wrong with my body!"

Chapter 503 Scheme!

The room instantly fell silent.

Thank you readers!

Everyone looked at them. Shen Tingyan's pupils contracted slightly and she looked at Xu Hao in disbelief.

She frowned and said, "What did you just say?"

Xu Hao said, "I said that Little Yang is pregnant with my child!"

Shen Tingyan stumbled and almost fell to the ground. Thankfully, Third Madam Shen was quick and managed to support her.

Shen Tingyan stared at Xu Hao. "You kept a mistress outside? How can you treat me like this?!"

At home, her mother-in-law would make things difficult for her, thus Xu Hao could only sleep with her for one night every three days.

Shen Tingyan would feel embarrassed if she told people how they spent time together as a couple!

However, she tolerated it all.

What she hadn't expected was that this mama's boy would keep a mistress outside!

Matriarch Xu tried to console her. "Which man wouldn't get involved with women outside? But Tingyuan, you're to be blamed for this as well. Why couldn't you tell that he has kept women outside? Not only are you unable to give birth to a child, but you also can't even take your husband in hand. What did the Shen Family teach you over the years?"

Shen Tingyan looked at Matriarch Xu in disbelief.

This was clearly Xu Hao's mistake, but how could Matriarch Xu still reproach her?

Xu Hao then sneered. "Shen Tingyan, I wanted to give you some face and didn't plan on publicizing things even though I went to look for women outside. I didn't even plan on bringing them home. But you forced me to do this! You just had to say that I'm infertile! If I don't bring Little Yang out, won't I fall for your scheme?! I won't be able to clear my name no matter what I do!"

Shen Tingyan stared at him, speechless from anger.

Third Madam Shen's chest heaved. "Too far! You guys have gone too far!"

Matriarch Xu said, "You guys are the ones that have gone too far! We're just doing this for self-preservation. Otherwise, how could we acknowledge a child born by a female celebrity? Go and take a look. Which main descendants from the four great families would acknowledge a child born by a celebrity?! We were left with no choice!"

"Scoundrels! You guys are really shameless!"

Third Madam Shen bellowed with rage.

In return, Xu Hao let out a cold snort. "No matter what, Shen Tingyan, doesn't this prove that there's no problem with me now? We can go ahead with the divorce now, right? I'd advise you to sign the divorce agreement. Otherwise, you'd be the one embarrassed if the matter is blown up and brought to court!"

At this moment, Matriarch Xu nodded at Little Yang.

Little Yang immediately ran up to Shen Tingyan, crying bitterly, "Sister, Sister, please divorce Xu Hao! Otherwise, what will happen to my child? Xu Hao and I already have a child. Please give us your blessings!"

Shen Tingyan felt annoyed to be shaken by her.

She bit her lips and said, "We can divorce but not like this! Even if I can't give birth to a child, Xu Hao, since you have an extramarital affair, then you're the one at fault!"

Xu Hao sneered coldly. "How am I at fault?"

Little Yang also spoke up, "That's right, Sister. How is Xu Hao at fault? He often tells me that you're like a block of wood in bed. Every time he has s*x with you, he feels as if he is completing a mission and doesn't feel any excitement at all. Therefore, he could only come out to look for me to heal his depression. Otherwise, he wouldn't be able to get hard when facing you!"

Little Yang said viciously, "So what if you manage to keep someone by your side if his heart is not with you? He can have me, but he can also have other people. Sister, you're from the Shen Family and have a distinguished status. You can still find another man, but I can't! Moreover, he hates you so much! Please divorce him!"

Little Yang's words were crude and disgusting. Even Shen Ruoqing, who was upstairs, couldn't stand it anymore.

Shen Ruoqing didn't understand this. At a time like this, why did Matriarch Xu bring Xu Hao's mistress to challenge the wife? Wasn't she giving others a handle over her?

Moreover... Shen Ruoqing thought of how she had taken Xu Hao's pulse before. Although taking one's pulse didn't give as detailed of a result as going to the hospital for a checkup, she had done a careful check the other day. How could Xu Hao impregnate someone?

This thought had just come to her mind when Shen Ruoqing suddenly understood Matriarch Xu's intention. She felt that this was bad and immediately called out. "Third Aunt, don't!"

However, Third Madam Shen was already overwhelmed with anger.

Seeing her daughter being humiliated by a small celebrity like this, even if her daughter could tolerate this, she couldn't!

Third Madam Shen charged over and pushed Little Yang gently. She then stopped in front of Shen Tingyan. "Someone! Beat this performer up and throw her out!"

However, before anyone could come in, Little Yang let out a scream.

Shen Ruoqing looked over. As expected, she saw Little Yang fall backward. She knocked against the television console and then fell hard on the floor.

She immediately held onto her stomach and shouted, "My stomach, my stomach hurts..."

Everyone looked down and saw blood slowly seeping out from her clothes and onto the floor...

Shen Tingyan and Third Madam Shen froze in shock.

Third Madam Shen didn't dare to call for the servants anymore. She just looked at her hands and said, "I didn't use strength, I didn't use strength.."

However, Xu Hao rushed up to Little Yang and picked her up from the floor. "Little Yang, Little Yang, hang on. Hang on..."

On the other hand, Matriarch Xu just stood at the side and didn't seem agitated. She just said loudly, "Third Madam, what are you doing? Does my son not deserve to have any children just because your daughter can't give birth to one for him? How could you raise your hand against Little Yang?"

Third Madam Shen panicked. "It wasn't me, I didn't use strength..."

Shen Tingyan also grabbed the third madam's wrist. "Mother, don't be scared..." More and more blood pooled under Little Yang's body...

She had clearly suffered from a miscarriage.

Shen Ruoqing quickly came downstairs, wanting to help save Little Yang, but it was too late.

The fetus was only one month plus old. Even if they wanted to do a DNA test to prove that the child didn't belong to Xu Hao, it was impossible!

Then, after seeing Matriarch Xu's composed appearance, Shen Ruoqing realized that they had fallen into Matriarch Xu's scheme!!

Xu Hao was clearly unaware of what was going on. He picked Little Yang up and shouted anxiously, "Mother! Mother! Hurry up and call for an ambulance!"

"Hurry up and save my son!"

Matriarch Xu glared at her foolish son but still helped to call for an ambulance.

During the time they were waiting for the ambulance to come, Little Yang's bleeding didn't stop at all...

When the ambulance arrived, Xu Hao carried Little Yang into the ambulance.

Many reporters were waiting for gossip between the influential families, and all of them gushed forth after seeing that an ambulance had been called.

Matriarch Xu wiped her tears and said, "Shen Tingyan is unable to give birth to a child, but she pushed the blame onto my son. I know that my son is in the wrong to have an affair outside, but they refused to listen when we came to have a good talk with them. Instead, they became jealous and beat Little Yang up, causing her to suffer a miscarriage... Our Xu Family will not let this matter slide! Shen Tingyan, just wait to go to court for the divorce!"

Matriarch Xu's words caused the Shen Family to be completely reproached by the public!

Both Shen Tingyan and Third Madam Shen could only look at the ambulance in the distance, their faces pale as paper.

They knew that they wouldn't be able to clear their name anymore!

Chapter 504 Divine Doctor Jing

Shen Manor.

Thank you readers!

Shen Yuansong rushed over in a hurry after hearing the news. When he arrived, Third Madam Shen was still anxiously pacing back and forth.

Third Madam Shen was a coward, otherwise, she would not have let Shen Tingyan suffer so much at the Xu family without daring to tell Shen Yuansong.

She looked at the bloodstains on the floor and was still painfully blaming herself, "I really didn't use much force. She kept grabbing Tingyan's arm, and I was too angry. I didn't expect her to fall..."

Shen Tingyan comforted her. "Mom, don't blame yourself. This is my responsibility, and it has nothing to do with you! If the Xu family wants someone to take responsibility, I'll do it."

Third Madam Shen shook her head. "No, you're still so young, how can you bear the responsibility of inducing a miscarriage? I'll go. I pushed her in the first place. If I'm convicted..."

Shen Yuansong saw the two of them defending each other and couldn't help but speak up, "Okay, things haven't come to that point yet!"

After he finished speaking, he pondered carefully for a moment and said, "How did this happen so coincidentally? They brought the mistress to our doorstep, and she had a miscarriage after you pushed her once, isn't this weird? Moreover, Xu Hao has been struggling to have children, so why would a minor celebrity's pregnancy be so openly revealed? They gave us a handle for no reason... I think there's something fishy about this."

After he finished speaking, he looked at the butler and said, "Go investigate."

Although the old master didn't intervene in domestic disputes, he was still sensitive to them. The butler hurriedly left.

Shen Ruoqing stepped forward and said, "I suspect that the child in the female celebrity's belly is not Xu Hao's."

Upon hearing this, everyone looked at her. Shen Ruoqing then explained her speculation.

After listening, Third Madam Shen anxiously asked, "But how can they guarantee that she would miscarry just by pushing her?"

Shen Ruoqing sighed. "Maybe she took some medication beforehand."

Shen Yuansong immediately asked, "Can we check for that?"

Shen Ruoqing shrugged. "If the patient is in our hands, we can check for drugs in their blood, but they certainly won't let us have contact with the female celebrity now."

The Xu family's excuse for their public image was to protect their child, so they wouldn't let them have any contact with her anymore.

Third Madam Shen's eyes were red. "It's all my fault for being impulsive!"

This was Shen Ruoqing's first time encountering such a situation in a wealthy family's internal conflict, so she wasn't sensitive enough to notice the problem in time.

She rubbed her forehead and grimaced. In the past, when she worked outside, she always dealt with major issues. It was difficult to guard against such petty schemes.

That Matriarch Xu had some tricks up her sleeve.

Shen Tingyan bit her lip, trembling with anger. "The Xu family is really too much! They're going too far! If they want a divorce, they can just peacefully divorce. Why make such a scene?!"

Shen Yuansong sighed. "The Queen must have pressured them."

However, he still comforted her, "Don't worry, there will definitely be clues in this matter. No matter what they do, they can't avoid the hospital. Our Shen family is in the medical industry t in the capital!"

Shen Tingyan nodded and then looked at Third Madam Shen. "Mom, let's not go out for a while, and uninstall Weibo and WeChat on our phones. We don't want to see those negative comments and get upset."

Third Madam Shen nodded.

At this moment, the butler hurriedly walked in and approached Shen Yuansong, whispering, "Master, Matriarch Xu just spoke to reporters outside and said a bunch of bad things about our family. Now, the internet is flooded with negative news about us, and the company's stock has started to fall."

Shen Yuansong's eyes instantly became sharp.

Matriarch Xu made this matter so complicated. She would rather sacrifice her son's reputation by using the mistress to drag down the Shen family's reputation. This was all for this day!

Hence, Shen Yuansong tightened his jaw and gave the butler a look to make him keep quiet. He then comforted Third Madam Shen a few more times, telling her to stay at home with Shen Tingyan and that he would handle the matter.

After that, he followed the butler out of the door.

The two of them returned to Shen Yuansong's residence. Shen Yuansong then coughed and was about to speak when he saw Shen Ruoqing standing behind him, not knowing when she had followed.

Shen Yuansong coughed again and was about to speak, but Shen Ruoqing already said, "It's all my fault. Please tell me what happened."

The butler looked at Shen Yuansong, who nodded. Then, the butler said, "The stock is falling, and many investors are selling. Also, we found out that someone in the market is buying a large amount of our stock..."

The butler sighed.

He didn't say who was buying their stocks, but he guessed that it was the Queen!

The Queen would be taking two-thirds of the Shen family's assets, and now she was buying their stocks. Even if the Shen family recovered their stocks with a stock buyback, the company's market value would still have evaporated... The Queen was using heavy money to destroy the Shen family!

At this moment, Shen Ruoqing finally realized what kind of organization they were facing.

Shen Yuansong fell silent and said, 'How much liquid assets do we have? We can only recover as much as we can.'

The butler sighed. "But if the stocks keep falling, even if we recover them, the company's market value will still suffer a devastating blow..."

Shen Ruoqing's eyes turned icy. "I will collect evidence quickly to clear the name of the Shen family."

Protecting the reputation of the Shen family was crucial in maintaining the price of their stocks. But how could they obtain the evidence as quickly as possible?

The butler wanted to say something, but a glance from Shen Yuansong silenced him. Both their eyes rested on Shen Ruoqing.

On the other side.

Matriarch Xu forcefully took Xu Hao from the hospital.

Hence, Xu Hao was very unhappy and said, "Mom, what are you doing? Little Yang had a miscarriage because of me. Why don't you let me spend more time with her?"

Matriarch Xu said, "That wasn't even your child. Why do you care so much?"

Xu Hao.

Matriarch Xu then took him to Dr. Zhang's house.

Dr. Zhang was a respected TCM practitioner in the capital, and he was not affiliated with the Shen family's medical circle.

After examining Xu Hao, he furrowed his brow and sighed. "His symptoms are severe. He has progressed from oligospermia to azoospermia."

This shocked Matriarch Xu. "Dr. Zhang, you're the best TCM practitioner in the capital. Can you treat him?"

Dr. Zhang looked at the lab report in his hand and slowly shook his head. "I'm sorry, but I can't help."

Matriarch Xu's heart sank.

After that, Dr. Zhang suddenly spoke up, 'But there's someone who might be able to.'

Matriarch Xu asked immediately, "Who?"

'Divine Doctor Jing!'

Chapter 505 Raising Funds

When Matriarch Xu heard Dr. Jing's name, she was pleasantly surprised. However, she then started to feel troubled. "Divine Doctor Jing's whereabouts have never been certain. Who'd be able to find her?"

Thank you readers!

Dr. Zhang smiled. "I know her."

As the most reputable gynecologist in the capital, Dr. Zhang specialized in treating infertility.

However, a few years ago, his medical skills weren't this good. It was by good fortune that he had gotten to know Divine Doctor Jing and received her guidance. He had studied under her for half a year before he had his current achievements.

He knew Divine Doctor Jing. Although he didn't know her real name, he had her contact information.

Dr. Zhang smiled. "She came to the capital recently. I can help to link you guys up!"

Everyone thought that Divine Doctor Jing was a guy, but only Dr. Zhang knew that she was in fact a young lady!

Matriarch Xu's eyes lit up. "That's great."

It'd take time to contact Divine Doctor Jing, thus Matriarch Xu and Xu Hao left first. Dr. Zhang would tell them after getting in touch with Divine Doctor Jing.

After the two of them left, Dr. Zhang let out a heavy sigh.

When his assistant saw this, he couldn't help but ask, "Dr. Zhang, why are you helping them? Aren't we helping them out in their evil deeds by doing so? I heard that the Shen Family's Miss Shen Tingyan is badly scolded by the people now."

Dr. Zhang spoke up, "I owe the Xu Family a favor. I have no choice."

After saying that, he continued, "After this matter is over, we'll contact Miss Shen and I'll make a few more trips to the Shen Manor. Then, we'll tell the public that I've treated Miss Shen's infertility. I'll do this as a form of compensation."

All doctors had a bottom line, and Dr. Zhang's behavior had precisely touched that line.

If Divine Doctor Jing were to find out about this, she'd definitely not acknowledge their mentor and student relationship, right?

Dr. Zhang was also torn inside, but he didn't have a choice.

After sending Xu Hao's medical report to Divine Doctor Jing, Dr. Zhang asked if there was a way to treat Xu Hao's condition.

Shen Ruoqing didn't check her email at this moment. It was because she was checking for the balance in her bank account.

The Shen Family's scandals impacted their businesses heavily. As a result, people were fiercely selling away the stocks and the Queen, having plenty of money, bought over the stocks easily.

However, from the Shen Family's side, they'd have to take out a lot of cash from their company to buy back their stocks.

Buying the stocks directly like this could lead to insufficient liquid funds, and the company would be unable to proceed with some of their projects.

Shen Ruoqing then called Lu Hui and had him mobilize the Z Corporation's liquid funds for now and purchase the Shen Corporation's stocks...

However, Lu Hui said, "Even though we are a corporation, it was the result of your work back then. Over the years, without your management, we don't have that much excess funds. Boss, the couple hundred million we have is just like dollars and cents in the battle between the Shen Family and the royal family."

Even a few hundred million were like dollars and cents... This showed how massive this business war was!

Shen Ruoqing pursed her lips. "Just buy the stocks first."

After hanging up the call, Shen Ruoqing frowned slightly, thinking of how she could raise funds.

Chu Cichen had been hanging out around Shen Ruoqing from the moment she was trying to raise funds. However, he wanted the woman to bring this matter up first, so she would know that he was always by her side no matter what...

When Shen Ruoqing looked over, he immediately straightened his back.

Shen Ruoqing stared at his good-looking face for a while. Just as Chu Cichen thought that she was about to bring the topic up, her phone suddenly rang. When she picked up the call, a voice sounded, "Eldest Sister-in-law, I'm Shanshan."

Shen Ruoqing asked, "Shanshan? What's the matter?"

Bai Shanshan coughed and then said, "I've sent over a bank card. Inside is the money my grandfather from the Bai Family has given me. He said that the Bai Family cannot support the Shen Family openly. He also doesn't want to give the money to Old Master Shen directly in case Old Master Shen feels that my grandfather looks down on him. That's why he gave the money to me. I raised some money too and my mother-in-law did the same. We've sent the money to you. There's probably a bit over a billion."

Upon hearing this, Shen Ruoqing's expression warmed up a lot. She didn't try to put up a front but just said, "Help me thank Old Master Bai."

"We're a family. There's no need to stand on ceremony," Bai Shanshan said gently. "I know that you must be busy. I'll hang up first."

"Alright."

Chu Cichen who overheard the call from the side. "?"

He had been composed, waiting for Jingjing to bring the matter up to him. But he hadn't expected someone else to get one step ahead of him!

Hence, Chu Cichen coughed and was about to say something when a "pa" sound suddenly came from the window. Hearing this, Chu Cichen instantly stood up and looked over nervously. He moved and stood in front of Shen Ruoqing in a flash.

They then saw an icy-cold woman standing outside the window. It was Leng Ling.

Shen Ruoqing walked over and opened the window.

Leng Ling jumped in and handed a bank card to Shen Ruoqing. "There are several billion in this card. It's from Dugu Xiao."

After saying that, she didn't give Shen Ruoqing a chance to refuse and jumped straight out of the window. 'Just keep it. You gave the dark web to him, letting him take over the Aplow Family. He has money now, and this is what he owes you! Moreover, the entire dark web isn't worth just this amount of money.'

The Dark Web Organization was very powerful and couldn't be measured by money.

Shen Ruoqing lowered her head and looked at the card in her hand. Several billion... This amount should be the max of what Dugu Xiao could raise within a short period.

She then raised her brows and accepted the card instead of refusing it.

However, Chu Cichen's gaze darkened.

It was one thing for him to have spoken later than Bai Shanshan, but now, even Dugu Xiao got ahead of him?!

He mustn't wait anymore!

But then, Shen Ruoqing's phone rang again. Chu Cichen took a glance and saw that it was from Yun Wei.

She said, "Cousin, it's not convenient for my parents to step in, so they have me do it on their behalf. I know your account number and have just transferred a few hundred million into it... The Yun Family doesn't have a lot of liquid funds, and I know that a few hundred million might be nothing much in this case, but it's a token of our sincerity."

Shen Ruoqing's gaze turned even warmer.

Even her tone changed. "Thank you.

Now, the sense of danger from the bottom of Chu Cichen's heart grew even stronger. He knew that even though the Shen Family only had 20% of the company's shares, they were worth over hundreds of billions. Therefore, the amount that Shen Ruoqing raised was far from enough.

Chu Cichen spoke up slowly, "Jingjing..."

Before he could finish his sentence, Shen Ruoqing's phone rang again. It was from Rong Rong. "Little Jing, I don't have much. Our family managed to raise tens of millions, and I'll transfer them to you in a bit..."

Shen Ruoqing knew that Rong Rong was a sensitive person. These tens of millions were hard to raise for her, but they were nothing to the Shen Family.

However, this was probably all that Rong Rong could manage to send.

Moreover, the money should be from the Rong Family's second branch. After all, Rong Rong herself had no money.

Shen Ruoqing lowered her gaze. 'Sister Rong, thank you.'

'You're welcome.'

This time around, after she hung up the call, Chu Cichen quickly said, 'Jingjing,

I have..."

Before he could finish his words, the butler knocked on the door. Hence, both Shen Ruoqing and Chu Cichen turned and saw the butler's elated expression.

'Eldest Young Miss, we've managed to raise enough money! The Loong Corporation overseas contacted the old master directly, saying that they can help us!'

Shen Ruoqing then passed the money she had just received to the butler. The butler did a rough estimation and said, "This is enough! This is enough! There's even too much! But now, what we need to do is to snatch up the shares. After all, the more the merrier! I'll go inform the old master right away!" Shen Ruoqing nodded.

After the butler left excitedly, Chu Cichen's expression turned grim.

At this moment, his phone rang.

Chu Cichen then lowered his head to see Lu Cheng's message: [Bro Chen, I've contacted the Shen Family in the name of Loong Corporation as you instructed! The Shen Family's problem of having sufficient funds is resolved!]

Chu Cichen.

(Why did you have to take action so quickly?!)

Chu Cichen suddenly felt itchy to spar against Lu Cheng.

When he looked up again, he saw that Shen Ruoqing no longer had any psychological pressure. She took out her phone to check her emails.

An email sent by Dr. Zhang was lying quietly in her inbox..

Chapter 506 Founder of the Loong Corporation!

Dr. Zhang was one of the apprentices that Shen Ruoqing took in when she was saving lives in the past.

Thank you readers!

She remembered that they were on a train when someone fell seriously ill and she needed an assistant to help with the treatment.

Unfortunately, the patient's family wasn't present, and there was no one to sign a waiver.

In such situations, only a few doctors would step forward, as they were afraid of getting into unnecessary trouble.

When Shen Ruoqing heard some people chatting about their doctor's identity on the train, she knew that Dr. Zhang was one of them.

Even so, when she called for help, the others hesitated. However, Dr. Zhang stepped forward and helped her.

Shen Ruoqing was impressed with Dr. Zhang, so she taught him a lot of medical knowledge. Dr. Zhang was also eager to learn and followed Shen Ruoqing everywhere she went.

After half a year, Dr. Zhang returned to the capital with a lot of medical experience, and he would turn to Shen Ruoqing for help with any difficult cases.

That was how Dr. Zhang had gained such a great reputation in the capital in just two years.

When Shen Ruoqing received an email from Dr. Zhang with a medical report attached, she didn't give it much thought and opened it directly.

After seeing it, Shen Ruoqing laughed.

Wasn't this the patient who ran away from Ye Lu's clinic?

Shen Ruoqing thought about it and gave a suggestion: [The patient's condition is too serious, so I will recommend acupuncture.]

Dr. Zhang immediately asked: [Where can they find you?]

It was clear that he had been waiting for her reply from how fast he responded.

Shen Ruoqing then sent him the address of Ye Lu's clinic.

Dr. Zhang: [No problem.]

Shen Ruoqing shook her slightly as she found this situation laughable. When she lifted her head again, she saw Chu Cichen standing in front of her, revealing an aggrieved expression. "Jingjing, I also want to contribute some money... the Chu Corporation also has available funds..."

Shen Ruoqing replied, "No need for that, we have enough money! However, who exactly is the founder of the Loong Corporation? They actually helped the Shen Family at such a time. I'm filled with respect for him."

Just when Chu Cichen wanted to speak, Shen Yuansong's loud laughter could be heard from the doorway. "Yes, I also think that the Loong Corporation is very interesting! I heard that they are very

supportive of the business circle in China. Perhaps we can take this opportunity to break free from the constraints of the royal family and cooperate with them.”

Shen Ruoqing nodded, and the butler brought over the card that Bai Shanshan had sent.

Shen Ruoqing then handed over various bank cards to the butler one by one, saying, “Regardless of the support provided by Loong, we should use as little of their funds as possible. This is the money that my friends and I crowdfunded. Let’s use this first...”

The butler was stunned to see how casually Shen Ruoqing nearly accumulated billions of assets. At such a young age, she was able to raise such a sum in a short period, which was a testament to her character.

Even Shen Yuansong couldn’t help but comment, “When you are on the right path, you will receive help from others. Jingjing, these are the good deeds that you have accumulated in the capital during this time!”

The butler excitedly counted the money and said, “From the Bai family, the Rong family, the Yun family...” After counting, the butler couldn’t help but glance at Chu Cichen and said, “Matriarch Chu also gave some...”

The implication was that Chu Cichen didn’t contribute anything! The Chu Corporation was so large that it would not be a problem to contribute a few billion.

Even if Chu Cichen personally contributed one or two billion, it would still be no problem. But he didn’t!

Shen Yuansong also noticed the butler’s resentment and coughed, looking at Chu Cichen. “The Chu family has just arrived in the capital and probably needs money in many places.”

This was an excuse for Chu Cichen, but deep down, Shen Yuansong didn’t like it.

Chu Cichen felt squeezed by the two of them and wanted to explain that he also wanted to contribute, but Shen Ruoqing didn’t give him the opportunity.

Besides, the Loong Corporation was his!

But he couldn’t say that out loud.

The Loong Corporation was currently one of the targets of the world’s three ancient families. He had lost a commercial battle last time and had been lying low for the past few years, vowing to break free from the suppression of the three ancient families and make a name for himself.

Therefore, his identity must not be revealed, otherwise, both the Chu and Shen families would suffer. While he was thinking about this, he heard the butler and Shen Yuansong marveling, “I heard that the founder of the Loong

Corporation is very young, and so are his other partners... The person who just contacted me sounds very young too...”

After he finished speaking, he even glanced at Shen Ruoqing. The implication was that if the miss wasn’t engaged yet, it would be better. Just pick one of them, and they would be stronger than Chu Cichen!

Chu Cichen.

Suddenly, he felt like killing Lu Cheng even more!

Shen Yuansong smiled, stopped the butler from continuing, and changed the subject. "Any leads on that celebrity's whereabouts?"

The butler shook his head and sighed. "The Xu family is protecting her too well, and we can't get close to her. Even if she took abortion pills, it's unlikely that it would show up in her blood test after so much time has passed.

Shen Yuansong frowned, and Shen Ruoqing pursed her lips. They had missed the best time...

Meanwhile, after receiving Shen Ruoqing's reply, Dr. Zhang immediately sent the address of Ye Lu's clinic to Matriarch Xu and told her, "Divine Doctor Jing is here. Just go there and look for her."

After seeing the address, Matriarch Xu was surprised.

She had initially mistrusted the clinic, but since Dr. Zhang had said so, it seemed to be true.

She immediately brought Xu Hao along and headed toward Ye Lu's clinic!

Chapter 507 Mentor!

Matriarch Xu was afraid of delaying her son's illness and wanted to go out with Xu Hao, but she was directly stopped by her husband.

Thank you readers!

The current head of the Xu family was Xu Hao's father.

He said, "Since we want to help the Queen, don't be in a hurry to see a doctor. If we leave any evidence or traces, we will lose."

Matriarch Xu was anxious and said, "Dr. Zhang said that this Divine Doctor Jing is the leader of the Chinese medical field and is his mentor. Last time we went, although we didn't meet, Doctor Jing did say that Xu Hao's illness cannot be delayed!"

Father Xu said, "Then let's move the lawsuit forward to tomorrow! Our momentum is strong enough!"

Matriarch Xu hesitated. However, Father Xu supported her arm and said, "This is for the sake of the cooperation between the Xu family and the royal family. This settles it. The Shen family is watching us now, and they are not easy to deal with. If they find any clues, our previous efforts will be in vain!"

Xu Hao also didn't want to see a doctor for this kind of illness and said, "Mom, listen to Dad."

Considering this, Matriarch Xu had to give up and said, "Then let's go to the court first before we go to see the divine doctor."

The next day.

The Shen family still had no clues.

With the support of the Queen, the Xu family was not weak, so it was normal for the Shen family to not find any clues about the young celebrity.

Shen Ruoqing also received a call from Rong Rong. "Dr. Xu is from the Xu family's side branch. He tried to investigate this matter with the Xu family, but they are currently very secretive. There is no room for a reversal in this matter."

Shen Ruoqing took a deep breath and said, "Okay, please thank Dr. Xu for me."

After hanging up the phone, Shen Ruoqing received the news that the Xu family had sued the Shen family for divorce, and they also demanded compensation of 60 million yuan for the miscarriage caused by the Shen family.

The court had initially ruled that they should negotiate privately, and the court had also sent some negotiators to help.

But seeing that the Xu family was very angry, the negotiators were very anxious and decided to begin the process this afternoon.

The Xu family hired the best lawyer in the capital, but the Shen family was not to be outdone.

In fact, both families understood that the lawyers were secondary, and even the compensation amount was secondary.

The party who won this lawsuit would have its reputation enhanced, and the future stock price of the Shen family would depend on the outcome of this lawsuit.

Shen Ruoqing went downstairs and saw Shen Tingyan and Third Madam Shen sitting on the sofa in the living room, both with slightly red eyes.

Shen Yuansong was sitting across from them, holding a cane with both hands. He also had a gloomy expression on his face.

He narrowed his eyes and said, "In this kind of matter, the Xu family just needs to drag it out. We cannot produce any evidence, and the development of the whole matter is in their favor. But since the process has suddenly accelerated, there must be something going on."

Old Master Shen was very sharp. On the other hand, Third Madam Shen and Shen Tingyan didn't understand his meaning, but the butler said, "Yes, but the Xu family is now extremely vigilant, and the Queen has also sent a team of guards to help them. It is very difficult for us to obtain any information about them."

Shen Yuansong lightly tapped the sofa with his fingers. "Could it be because of Xu Hao's illness?"

"It's for Xu Hao's illness," Shen Ruoqing and Shen Yuansong spoke simultaneously, one speculating and the other confirming.

Shen Yuansong looked at Shen Ruoqing, who was the one who confirmed. "Xu Hao's illness seems to be more severe than we imagined. They can't delay any longer, so they want to quickly conclude this case and make it so that our Shen family is at fault."

Shen Yuansong stared at her. "Jingjing, are you sure that Xu Hao has a problem?"

Shen Ruoqing calmly said, "Yes, but the pulse diagnosis that day was relatively short, and there were no detailed examinations, so it's still unclear to what extent."

Third Madam Shen said, "However, they found Dr. Zhang, and he said that Xu Hao has no problem. Dr. Zhang is a famous gynecologist in the capital, specializing in the treatment of infertility. I took Tingyan to see him before, and at that time, Dr. Zhang only said that Tingyan has a little case of cold womb syndrome and that pregnancy depends on fate."

Shen Yuansong fell silent.

Third Madam Shen didn't know about Shen Ruoqing's medical background, but Shen Yuansong had some guesses.

He knew that this granddaughter was reliable and wouldn't talk nonsense.

The butler spoke up, "But Dr. Zhang owes Matriarch Xu a favor. When he went to college, Matriarch Xu sponsored him. So this time, he will definitely be biased toward the Xu family and help with the false evidence. It's going to be troublesome."

He sighed. "If we could find a doctor with a better reputation than Doctor Zhang's, to help prove that Miss Tingyan doesn't have a problem and Xu Hao is the one with the problem instead, then this case might be overturned!"

When he said this, Shen Yuansong shook his head slightly. "How can medicine be divided into good and bad? Besides, Dr. Zhang's reputation has been rising in the capital in recent years. Where can we find a more capable doctor than him?"

When this was said, Shen Ruoqing spoke slowly, "I can find one."

Everyone turned to look at her.

Shen Ruoqing looked them straight in the eye. "Let's go, the negotiation is about to begin."

The others didn't understand what she meant, but the time was indeed approaching, so they got up and headed out.

Just as they stepped out of the Shen family gate, reporters who had been waiting there rushed over, taking pictures and asking random questions:

"Miss Shen Tingyan, is it true that your physical condition is preventing you from getting pregnant?"

"Is the Shen family really using its power to pressure the Xu family?"

"It is indeed wrong to have a mistress outside of marriage, but did you have to kill the child in her womb because of jealousy?"

"Rumor has it that you're going to court, can the Shen family win this case?"

Shen Yuansong didn't bother to answer these questions. They were traveling by car and already had bodyguards rushing over to stop the reporters. So they left directly from the crowd of reporters and headed to the courthouse.

At this moment, outside of the courthouse.

Matriarch Xu, who had the upper hand, was crying to the reporters. "Ever since Miss Shen married into our family, I couldn't say or do anything. She has the final say in everything, and my son has been oppressed too much. That's why he went out and found a young celebrity..."

"I know my son is wrong, but they shouldn't have laid a hand on the child in the young celebrity's womb! Since Shen Tingyan can't give us a child, why can't others give us one?"

'What? My son can't possibly have a health issue! The young celebrity was pregnant and we have invited Dr. Zhang from the capital to give my son and Miss Shen a diagnosis on the spot! His words can't be wrong!

"We're not seeking real compensation and just want the Shen family to show a good attitude. They can't do something wrong and still act so arrogantly, right?"

Dr. Zhang, as a witness, was sitting in the witness room, looking around in confusion and feeling a little lost.

As a doctor, he hadn't forgotten his original intentions as a healer.

But now he had to make a false testimony here...it made him uneasy.

However, he owed Matriarch Xu...

After this false testimony, would he be fit to continue practicing medicine again?

Guilt surged up in his heart. At this moment, Dr. Zhang only had one thought — Thank goodness his mentor, the Divine Doctor Jing, wasn't here, or she would be so disappointed to see him like this.

Just as he was thinking this, he heard someone outside say. "The Shen family's people are here!"

He then instinctively looked outside....

Chapter 508 Negotiation

Dr. Zhang's resting room was located backstage at the courthouse.

Thank you readers!

It was because before any negotiation took place, the people from the Xu and Shen families were not allowed to meet each other.

Upon hearing the commotion, Dr. Zhang instinctively looked outside but only saw the backs of the Shen family's people as they passed by the entrance.

Dr. Zhang's gaze fell on Shen Tingyan, and a sense of guilt surged up within him.

He had examined her before and found nothing wrong with her health, but pregnancy itself was truly something that depended on fate.

Just as Dr. Zhang was about to avert his gaze, he saw a familiar figure.

His pupils contracted slightly, and he wanted to continue looking, but the group in front had turned the corner.

Nonetheless, this figure still made him feel shaken deep down.

Was that figure just now... his mentor? The famous Divine Doctor Jing?

This thought made him feel even more uneasy.

—

After Matriarch Xu feigned crying outside and ensured that public opinion was on their side, she finally brought Xu Hao to the negotiation room.

Shen Yuansong was absent. His car was parked outside, and he was waiting for the results of this negotiation inside the vehicle, just like Father Xu, who also did not appear in such negotiations.

Both of them had a special status. As it concerned their family members, if they appeared in the negotiation room, it would mean a complete rupture between the Shen and Xu families.

Shen Ruoqing sat in the first row of the Shen family's seats, her posture languid and her peach blossom eyes fixed on Xu Hao.

Xu Hao was uncomfortable under her gaze.

He tried his best to reduce his presence, but her eyes were too scorching as if she could see through him, making him feel like he wanted to dig a hole and hide in it.

He angrily exclaimed, "What are you looking at?"

Shen Ruoqing probably intended to provoke him. "What's wrong? You don't like being looked at? Or is there something you don't want people to see?"

If Xu Hao lost his temper, it would definitely leave a bad impression on the judge.

As expected, Xu Hao exploded with anger.

As a person whose heartstrings had been touched, he stood up and was about to lose his temper.

The judge immediately pounded the table. "Alright, we're here today to mediate and negotiate. Please calm down and exercise restraint on both sides."

Matriarch Xu immediately took Xu Hao's hand and sighed, looking at the judge. "Your Honor, I'm sorry, but my son was provoked because they slandered him by saying that he had a physical problem. Please understand a man's dignity."

The judge frowned. "I understand, but if he loses control of his emotions again, we will have to ask him to leave."

Matriarch Xu immediately nodded. "Understood."

The judge then said, "Alright, now both sides can speak. Plaintiff, you can start first."

Upon hearing this, Matriarch Xu immediately looked at Shen Tingyan and, in front of the judge, she put on a hypocritical facade. "Tingyan, no matter what, we've been mother-in-law and daughter-in-law for three years. Things have gotten to this point, and nobody looks good in a case like this. So, I've convinced Little Yang and she won't sue you. Today, we will only discuss divorce, not anything else."

Although Little Yang was a mistress and was morally reprehensible, her action was not illegal. But Third Madam Shen's action of pushing her and causing a miscarriage could be considered an intentional battery.

And now that they weren't pursuing this matter, Little Yang wouldn't have to testify in court.

Like this, Matriarch Xu was being merciful to the Shen family on the surface, but in reality, she didn't want Little Yang to appear in court.

What if someone saw through the loophole?!

The Xu family had indeed come prepared.

This sentence made the judge feel favorable toward the Xu family. At least for now, the Xu family wasn't being aggressive.

Third Madam Shen also breathed a sigh of relief upon hearing this.

Regardless of whose child was in Little Yang's belly, if the miscarriage were really pinned on Third Madam Shen, she wouldn't be able to explain it even if she had ten thousand mouths.

However, Shen Tingyan tightened her jaw.

Matriarch Xu continued, "Our Xu family isn't unreasonable. But since you can't have children and our family needs an heir, let's negotiate here. We don't want the 60 million compensation, but she can only take half of her dowry with her. The other half is to make amends and compensate Little Yang. Let's all go our separate ways, how about it?"

The judge nodded and then looked toward the Shen family. "What do you think?"

Shen Ruoqing didn't speak.

As an elder, Third Madam Shen spoke on behalf of Shen Tingyan, "Divorce is okay, but we need to clarify the reason for the divorce. My daughter has no health problems and can get pregnant. The doctor has checked her. What you said earlier is not true! We can negotiate the divorce, and we won't pursue the matter of your son's affair. As long as no one is at fault, the dowry can be up to you. Consider it as my daughter's living expenses in the Xu family for three years!"

The Shen family wasn't short on money. Even in this situation, they didn't lack anything for their children's living expenses.

However, Matriarch Xu certainly couldn't agree.

The Queen's goal was to damage the reputation of the Shen family.

Hence, Matriarch Xu sneered. "You don't want to pursue the matter of the affair? What's there to pursue? My son had no choice but to find someone to help him have a child since your daughter couldn't. Is that unacceptable?"

Third Madam Shen was furious. "My daughter can have children. Her health is fine!"

Matriarch Xu sneered. "Whether she has any health problems or not, it's up to the doctor to decide! Is it useful for you to say all of this here?"

Upon hearing this, Shen Ruoqing spoke up, "Miss Shen Tingyan has no health problems. I am a doctor, and I can attest to that."

Matriarch Xu immediately looked at Shen Ruoqing and sneered. "You're a doctor? Miss Shen, what are you kidding about here? Your fake diagnosis almost caused harm to my son. Can I sue you for damaging our reputation?"

The judge frowned. "That can be a separate lawsuit. Right now, we're discussing the divorce case. Plaintiff, do you have any evidence to support your claim that the defendant can't have children?"

"Of course, I do!" Matriarch Xu stood up.

"To prove that my son has no problem, we have a specialist come from the capital.

"Unlike this unlicensed quack, our expert is Dr. Zhang, a famous gynecologist in the capital. I'm sure we all recognize his medical credentials, right?" The judge nodded. "Then please bring in the witness."

Matriarch Xu waved her hand, and someone went to fetch Dr. Zhang.

Then, Matriarch Xu sneered and looked at Shen Ruoqing. "Miss Shen, I advise you not to treat people anymore. It's outrageous for someone as young as you to say that a man can't have children. Today, I'll show you what a real '1'CM doctor is like!"

With that, the door was pushed open, and Dr. Zhang walked in.

As soon as Dr. Zhang entered the room, he saw Shen Ruoqing....

Chapter 509 Reversal Again!

Dr. Zhang was hesitant and uneasy. He really disliked his current behavior, but he had to come here regardless. However, he had never expected to see his mentor here.

Thank you readers!

He was stunned, looking at Shen Ruoqing.

Unfortunately, Matriarch Xu didn't understand his surprise.

She saw Dr. Zhang coming in and handing his medical license and various certificates to the judge.

She then began to boast about him. “Dr. Zhang is a famous TCM expert in the capital. He has treated thousands of cases of infertility. Judge, you will believe his testimony, won’t you?”

The judge immediately nodded.

Matriarch Xu then turned to Shen Tingyan and said, “Shen Tingyan, now will you let Dr. Zhang examine you on the spot?”

Third Madam Shen was about to say that Dr. Zhang was a person in Matriarch Xu’s camp, but Shen Ruoqing stopped her.

With a cold face, she looked at Dr. Zhang, who stood unmoving in the doorway. He was clearly surprised to see a familiar face.

After all, Shen Ruoqing was the one who had mentored and instructed him.

Shen Ruoqing’s peach blossom eyes then drooped slightly. She suddenly said, “What’s there to be afraid of? Tingyan, you go.”

Shen Tingyan was a year younger than Shen Ruoqing and her sister. She hesitated for a moment upon hearing this.

Third Madam Shen was also confused. “Jingjing...”

Shen Ruoqing said slowly, “Dr. Zhang is a famous doctor in the capital. Moreover, doctors have benevolence and integrity, and they never deceive their patients. I believe he won’t speak nonsense. Tingyan, go!”

Several people looked at Dr. Zhang.

He clenched his fists, his gaze shifting from Shen Ruoqing to Matriarch Xu.

At this moment, Matriarch Xu also looked at him and nodded, saying, “Dr. Zhang, please examine her. Tell us the truth later.”

She emphasized the words “Tell us the truth”.

Dr. Zhang clenched his fist, and then he heard the cold voice of his mentor saying, “Dr. Zhang, please.”

Dr. Zhang, who was now in his thirties, had followed Shen Ruoqing to study medicine for half a year.

During that time, Dr. Zhang sincerely admired Shen Ruoqing. He knew that his mentor was the purest person in medicine in the world.

Hence, Dr. Zhang did not dare to disobey Shen Ruoqing’s command and sat in front of Shen Tingyan.

He tensed his chin, placed his hand on Shen Tingyan’s wrist, and carefully and calmly took her pulse.

For some reason, this pulse-taking action looked so sacred that everyone in the room, including the judge, felt an inviolable authority.

Matriarch Xu was satisfied.

Dr. Zhang was truly worthy of his reputation for being a steady person who never bullied patients. This made his testimony convincing enough.

Matriarch Xu knew that she had won this lawsuit today!

She immediately looked at Shen Ruoqing and sneered. "Miss Shen, I know that you also have some knowledge of Chinese medicine, but the last time you took my son's pulse, your posture was not good. Diagnosis in Chinese medicine emphasizes quietness. Look at how Dr. Zhang is taking the pulse, only someone like him is worthy of people's trust!"

At this moment, Shen Ruoqing did not respond to her.

Her eyes were only on Dr. Zhang.

She had trusted his character and chosen to teach him for half a year.

But she hadn't expected him to end up like this. No matter what the reason was, helping the Xu family to fabricate evidence was wrong!

There was a faint anger in Shen Ruoqing's heart.

She had made a mistake in judging him, and she was also angry with Dr. Zhang's choice!

Third Madam Shen, who was sitting next to her, saw that Shen Ruoqing did not speak and feared that they would leave a bad impression in the judge's mind, so she quickly retorted, "Some doctors have a human face but a beastly heart, helping bad people to bully others. Of course, they have to play their role well in appearance! Otherwise, how can they awe people?"

Matriarch Xu responded sarcastically, "Third Madam Shen, I think you are speaking without thinking. Do you dare to question Dr. Zhang's reputation? Go and ask those more than a thousand patients who have been cured by him if they agree!"

On the side, Xu Hao chimed in, "Yes, Dr. Zhang has a sterling reputation. He has treated countless patients over the years. You can suspect anyone, but you cannot question Dr. Zhang's medical ethics! Shen Tingyan, I suggest you sign the divorce agreement and admit that you have a physical defect. Is that so difficult? Why must you create such a public spectacle? There are reporters outside waiting for the outcome. If your reputation is ruined, it's not our problem!"

Xu Hao was furious. He felt that if Shen Tingyan had not caused trouble, they would have smoothly divorced, and he would not have been found to have a medical condition!

Shen Tingyan was about to speak, but Dr. Zhang interjected, "When I am taking the pulse, it is taboo to have emotional agitation."

Shen Tingyan immediately stopped talking.

Xu Hao thought that Dr. Zhang was helping him and sneered. "Shen Tingyan, you should calm down, so that in case Dr. Zhang says you have a problem later, you won't deny it and try to shift the blame on me!"

His demeanor was irritating, and even Third Madam Shen's eyes turned red with anger.

She wanted to say something but couldn't argue.

She just leaned in and whispered to Shen Ruoqing, "Jingjing, didn't you say that you would bring a doctor here? Where is he?"

Shen Ruoqing stared at Dr. Zhang and then lowered her gaze slowly. "Auntie, the doctor I brought is already here."

Originally, she had planned to use herself as the doctor, but now she found that she didn't have to sacrifice herself.

As her words fell, Dr. Zhang finished the pulse diagnosis, and everyone turned to look at him.

Matriarch Xu smiled and asked with ease, "Dr. Zhang, how is it?"

Dr. Zhang looked at Shen Ruoqing and tightened his fists. "Miss Shen Tingyan does indeed have some cold womb syndrome..."

As soon as he said this, Matriarch Xu laughed. "Did you hear that? It's her condition! That's why she can't get pregnant. It has nothing to do with our Xu

Hao!"

Xu Hao immediately cursed, "Shen Tingyan, do you understand now? Don't blame me if anything happens! It's your own problem! Do you still have anything to say?!"

After they finished their arrogant tirade, they saw Shen Ruoqing look at Dr. Zhang and ask, "But?"

Chapter 510 Face Smacking!

Matriarch Xu looked at her and said, "What 'but'? There's no doubt that she's infertile!"

Thank you readers!

However, Shen Ruoqing ignored her and just looked at Dr. Zhang.

A doctor shouldn't become corrupted.

Once they crossed that line, how would any future patients trust them?

Shen Ruoqing didn't reveal her identity, as she wanted to give her disciple a chance.

After all, Dr. Zhang had stood out among so many doctors in the past. She believed that he wouldn't make the wrong choice this time.

Her eyes showed persistence and trust.

And this trust made Dr. Zhang's heart burn with emotion.

He tightened his jaw and tried to recall the rules of medical ethics, but he couldn't seem to find the words.

Meanwhile, Third Madam Shen and Shen Tingyan were both silent.

They knew that it was over since Dr. Zhang had been bought by the Xu family.

Anything he would say later would definitely lean toward the Xu family.

Third Madam Shen then looked at Shen Ruoqing with disappointment for the first time.

She had believed that Shen Ruoqing would actually bring a highly authoritative doctor.

If she had known that this would happen, she could have brought the chief physician of the Shen family to testify.

Where was the doctor that Shen Ruoqing had promised?

Just as she took a deep breath, ready to say something, Dr. Zhang's voice slowly came through. "But it doesn't affect her ability to conceive."

His voice was low and hoarse.

The hesitation and indecisiveness in his heart seemed to be resolved by Shen Ruoqing's determined gaze, so he spoke more confidently and definitely, "There is nothing wrong with Miss Shen Tingyan's body."

Matriarch Xu and Xu Hao were stunned, and the two of them looked at him.

Matriarch Xu shouted in a high-pitched voice, "Dr. Zhang!"

Xu Hao was even more furious. "Do you know what you're saying?!"

Dr. Zhang looked at them and said, "Matriarch Xu, thank you for your support in the past, but a doctor has their own professional ethics. Please forgive me for being unable to betray my heart."

At this moment, Dr. Zhang's heart was as calm as water. He was grateful that his mentor had come and allowed him to protect his bottom line. In the future, he could continue to be an upright doctor.

The judge nodded upon hearing this and said directly, "Before receiving testimony from witnesses presented by the Xu family, we already investigated Dr. Zhang and found that in his five years of practice, he has never charged his patients more than necessary, nor has he ever committed fraud. He is an outstanding TCM doctor. Therefore, we will accept his testimony. Dr. Zhang, I would like to ask, whose body has a problem in this case?"

Matriarch Xu and Xu Hao looked at him again.

Dr. Zhang lowered his head and said, "It's Xu Hao's. He has oligozoospermia, and now it has developed into azoospermia."

The judge then glanced at Xu Hao.

As a result, Xu Hao's face turned red and he exclaimed, "What nonsense are you talking about?! If I have azoospermia, how did Little Yang get pregnant?!"

"Alright, I understand now. Little Yang's child is not yours at all, so you planned all of this! I knew it was just a light push, so how could that have caused her to miscarry? I'm sure that little celebrity also knows about this! Matriarch Xu, you are really scheming!"

On the opposite side, Third Madam Shen understood everything and stood up suddenly.

Xu Hao was shocked by what he heard. He then looked at Matriarch Xu in disbelief and asked, "Mom, is this true?"

Just as Third Madam Shen was about to say something sarcastic, Shen Tingyan suddenly held her hand and shook her head.

Seeing this, Third Madam Shen did not add fuel to the fire.

Matriarch Xu only looked at them and tightened her chin.

"Does Third Madam Shen have any evidence for these baseless accusations? Little Yang's child is already gone, so is it not Xu Hao's child just because you say so?"

This matter was a deadlock. Matriarch Xu then glared at Dr. Zhang again and withdrew her gaze.

She was worthy of being the head of the Xu family.

She suddenly stood up and said, "Judge, I request a postponement of the hearing. There is nothing wrong with my son's health! Dr. Zhang must have been bribed by the Shen family to testify falsely!"

The judge frowned and said, "Then we'll postpone the hearing."

The two sides didn't reach a successful negotiation, so the next meeting would probably end up in a lawsuit.

In a villa halfway up the mountain, by the suburbs of the capital, the queen sat on her throne.

The royal butler entered the door and whispered, "We just received news that

Dr. Zhang temporarily defected and failed to bring down the Shen family."

The queen lowered her eyes and sneered. "It doesn't matter. As long as the Xu family doesn't admit it, no matter how many doctors speak up, it won't be of any use."

The Xu family was at a disadvantage in this regard, as it could be said that the Shen family controlled all the doctors in the capital. But even if the Xu family lost the lawsuit, as long as Matriarch Xu created a scene, the Shen family would still get into trouble!

The queen wanted to put pressure on the Shen family and let them know that if she allowed it, the Shen family could become the number one wealthy family in the capital. But if she didn't allow it, the Shen family would be nothing but insects!

Look, wasn't the Xu family's knife quite useful?

After the judge left, in the negotiation room, Matriarch Xu looked at Dr. Zhang and sneered. "What did the Shen family give you? How could you defect at the last minute?!"

Dr. Zhang remained silent for a moment and didn't say anything.

Seeing his silence, Matriarch Xu angrily scolded, "You are an ungrateful b*stard, Zhang Zhongze! When you were poor and couldn't afford to go to school, who supported you?! Have you forgotten

everything? When you got into college and came to thank me, what did you say? You said you would always remember my kindness and repay me for the rest of your life. Is this how you repay me?!"

Dr. Zhang felt guilty and couldn't lift his head.

Seeing his appearance, Matriarch Xu sneered and turned to Shen Ruoqing.

"Do you think you have won this case? You are wrong! You will never win! Because this matter itself is hard to explain. Moreover, I am working for the queen and will always be pulling the Shen family down! I can fight with you in court for two years for this divorce lawsuit. But can the Shen family afford it?"

Haha, I heard that the Shen family's stock has fallen by 10% in just three days." After saying this, she turned and walked out.

But before she left the door, she heard Shen Ruoqing say lightly, "Don't you want to cure your son's illness?"

Matriarch Xu stopped in her tracks and turned around suddenly.

Shen Ruoqing said, "Your son is the only child of the Xu family, right? If he can never have children, will the Xu family really have no descendants?"

Matriarch Xu narrowed her eyes and sneered. "Who are you threatening here? I know a clinic where the famous Divine Doctor Jing can help cure my son's illness!"

After saying this, Matriarch Xu suddenly turned to Dr. Zhang. "Zhang Zhongze, I won't hold a grudge against you for your actions. As long as you help me contact Divine Doctor Jing, I will consider it as you repaying the favor to my family!"

Then she sneered and said, "You want to uphold your medical professional ethics, but you can still help us with this matter, right?"

Dr. Zhang looked up at Shen Ruoqing.

Matriarch Xu became angry and asked, "What? Are you really going to be an unfaithful person?!"

Dr.. Zhang sighed and said, "Matriarch Xu, do you know who Divine Doctor Jing
