

When His Eyes Opened Read Novel Chapter 3148

Novel Chapter 3148 -Hazel sat down beside the bed: “Lucas, it’s not that I want to hide you. It’s just that my family has a special situation. Besides, we haven’t seen each other for three years. I don’t know if you have changed a lot from three years ago.”

Lucas: “I understand. You are the youngest lady of a rich family now, you can’t reveal your identity casually outside, what if you get entangled.”

Hazel: “It’s not just that. My parents are mainly worried about my safety. Because last time I came here, I only brought one bodyguard.”

Lucas turned around and looked at Hazel: “Your name is Hazel Foster now, if I guessed correctly, your father is Elliot Foster?”

Hazel nodded: “Three years ago during the summer vacation, I went to Aryadelle. Unexpectedly, I found my biological parents by accident. To allow me to live a better life again, they allowed me to assume the identity of Thopiavelle, who is now died.”

Lucas: “Understood. It’s great that you can find your biological parents. You don’t have to be a babysitter for others anymore, and you don’t have to look at people’s faces.”

Hazel: “Actually, the scars on my face have always been fake. My mother-in-law made me look ugly to protect me. This was also an important reason why my biological parents had never been able to find me. In fact, my mother-in-law was very kind; she loved me very much and was afraid that I would be in danger, so she came up with this method.”

Lucas was very shocked, he had no words to express his feelings, and he couldn’t comment on anything.

If it wasn’t forced by life, how could Hazel’s life be so complicated?

Hazel walked up to Lucas, pulled him, and sat down beside the bed: “Lucas, I like you very much, and I came here this time to tell you about it.”

Lucas’s whole body seemed to have been sucked away, and he was easily pulled to the bed and sat down.

“We are not suitable.” Lucas answered quickly.

Hazel: “You think my family is too rich, so you say this? If my family has no money, would you still say that?”

Lucas: “My company’s investment is also given by your family, right?”

Hazel: “It’s my elder brother who wants to test you.”

Lucas: “What did you tell your family?”

Hazel: “What am I doing here, I can’t hide it from them. They know I like you.” Speaking of this, Hazel blushed slightly, “They really want to see you, when you are free, I will take you to Aryadelle to play.”

Lucas: “I’m very busy and don’t have time to play.”

Hazel: “Don’t look so serious! Today is the first time we officially meet again.”

Lucas: “I already guessed that you are Siena.”

Hazel: “Then why don’t you tell me?”

Lucas: “Because you didn’t admit it before.”

Hazel: “My family won’t let me admit it. I don’t want to lie either. Don’t be angry!”

Lucas: “I’m not angry.”

Lucas was indeed not angry.

Siena was still alive, and she was still alive so well, he was very happy for her.

He was so awkward now, mainly due to the gap in status.

In the past, he was the master and Siena was the servant, but now their identities have been reversed.

Hazel felt that Lucas might not be angry, so the smile on her face bloomed again: “Let’s have dinner together later, and then go to the hospital to see your mother, okay? I promised your mother earlier that I would bring her mooncakes.”

Lucas had no reason to refuse.

“Hazel, your parents will definitely not let you live here, right?” Lucas asked.
