

Read I Am A Quadrillionaire Chapter 2384

I am a quadrillionaire chapter 2384-When he unsealed the box and a drop of blood essence flew out, he started to believe.

Because the moment that drop of blood essence appeared, even the void could not bear it.

It was as if this thing should not be in Star Kingdom at all.

In addition, after the blood essence became a clone, it erupted with pressure stronger than that of Blue's.

Sid completely believed David's words.

With this small wooden box, there was no need to be afraid of the Feather family attacking them.

"Lord Sid, you don't have to say that! You are also concerned about Star Kingdom, so I totally understand. To be honest, I admire you very much. Anyway, I can't do what you do and I can never give my all for Star Kingdom," David said admiringly.

"Master David, don't say that! How can I compare with you? You have brought Star Kingdom back from the brink of destruction several times. You are the savior of Star Kingdom. I only did my best and I'm nowhere near comparable to you." Sid looked humble.

"Lord Sid, don't be humble. It is precisely because you care about Star Kingdom wholeheartedly and can give everything for it, that I will entrust the clone to you for safekeeping as I believe you will use it to protect Star Kingdom. From now on, I entrust Star Kingdom to you," David said solemnly.

"Thank you for trusting me, Master David. Don't worry, I will definitely protect Star Kingdom and my home. Anyone who wants to invade this planet must step over my dead body," Sid also replied seriously.

"I trust you!"

After David finished speaking, he waved his hand and dismissed the clone.

Then he gave Sid two wooden boxes with his clones inside and asked him to use them to protect Star Kingdom.

However, Sid insisted on taking only one.

Since this clone was so powerful, he figured one was enough to handle the Feather family.

Moreover, he only wasted the other one because he did not trust Master David.

Sid figured this was his responsibility so he had to bear it.

He did not believe David when he said it was easy to make another box that could seal his clone.

Not everyone could create the sliver of soul power that was needed for the clone.

One must tear their soul apart for that!

That pain was so debilitating and a lot of people could not endure it.

David had no choice.

Since Sid did not want it, what could he do?

Moreover, one was indeed enough.

Even if it was not enough, Nova still had two.

So, David stopped forcing him.

Before he left, he told Sid that if he used up the clone and Star Kingdom was still in danger, he should go to Nova in the Iridescent Sect or the Alba in the Fellowes's residence as they also had clones with them.

It would be enough for him to leave five of his clones in Star Kingdom to deal with any crisis.

After bidding farewell to Sid, David went to the West End of the Central Sacred Continent where the Fellowes family was located. It was also the jurisdiction of the Fellowes family.

After the relationship between the Fellowes family and David spread, all of the forces left West End together in fear of offending the new upstart of Star Kingdom.

Now, the Fellowes family was in complete control of West End. At the same time, the Fellowes family had also reached an unprecedented peak.

Moreover, they were no longer restrained by any forces.

The Fellowes family had never felt as relaxed as of right now.

All would walk with their heads high and their cheeks puffed.

Alba was in the secret room reading about the secrets of her family.

She had gradually started to take over the affairs of her family and had become the person who could take charge.

One could say that Alba's status in her family was already on the same level as the grandmasters.

When the grandmasters saw her, they would have to put on an amiable manner and lower their voices.

The secret room was where the family placed their secret documents.

Only the core members of the family could enter this place.

Since Alba could enter this place, it was enough to prove that she had gotten the acknowledgment of her family. In the future, she would surely become the decision-maker of the Fellowes family.

There were a lot of secret scrolls in the room. Some were about the family while some were about Star Kingdom.

As she was reading the secret scrolls, Alba was beyond astonished. It seemed that there were a lot of secrets in her family and Star Kingdom.
