

Read I Am A Quadrillionaire Chapter 2380

I am a quadrillionaire chapter 2380-After teaching Nova how to undo the seal, David told her that when she was in danger that she could not get out of, she could undo the seal directly and summon the clone. She did not need to be frugal about it.

It would not matter if she ran out. David would just make a few more and give them to her.

Nova readily agreed but she did not feel that on the inside.

How could she use such a precious treasure indiscriminately?

She would not break the seal unless her life was in danger.

After bidding farewell to Nova, David left the Iridescent Continent and went to the Central Sacred Continent to find Sid.

The moment he saw David, Sid put his hands together, bowed at ninety degrees, and said respectfully, "Sid greets you, Master David. I had no idea that you're coming so I've been slacking off. Please forgive me, Master David."

Facing David who had saved Star Kingdom many times, Sid only had respect for him in his heart.

After guarding Star Kingdom for many years, there was finally a young man like David, full of justice to take up the burden. Therefore, he could breathe a sigh of relief.

"Lord Sid, you're too modest."

David waved his hand and stopped Sid from bowing.

Since David stopped Sid, Sid straightened himself.

"May I know why you come so late at night, Master David?"

"Lord Sid, I will be leaving soon, so I will be entrusting Star Kingdom to you in the future. I hope you can protect your homeland and countless creatures in Star Kingdom as you did before." David got straight to the point.

“Master David, you’re leaving?” Sid was taken aback for a moment, then asked hastily.

“Yes, I have some things I need to deal with, so I have to leave for a while.” David nodded.

“How soon will you be back?”

David shook his head and replied, “I can’t say when I will return.”

“Master David, what if the Feather family strikes again after you leave? None of us here can fight against a Deity and Star Kingdom will be in ruins by then! Countless lives will be killed, wounded, and displaced. At best, we would become slaves of the Feather family and never recover. Please think again, Master David! You can’t abandon Star Kingdom!” Sid suddenly fell to his knees and cried emotionally.

David did not expect Sid to suddenly do this.

When he come back to his senses, Sid had already knelt on the floor.

So, he quickly helped the old man up.

At the same time, he lamented in his heart.

This old man in front of him had sacrificed most of his life for Star Kingdom, and now, he was still worried about Star Kingdom in his old age.

He even lowered himself and knelt in front of a youngster like David.

Indeed, he was an old man worthy of the respect of every creature in Star Kingdom.

“Lord Sid, please get up. Please don’t do this. I am here to solve this problem, so don’t worry! Since I am leaving, I must have already thought about how to eliminate the threat of the Feather family. Otherwise, why would I leave? So many of my friends are also here,” David explained, helping Sid up.

Upon hearing what David said, Sid finally felt relieved.

If David left and abandoned Star Kingdom, there would only be two endings for Star Kingdom.

Either become a slave to the Feather family or be destroyed.

However, even if they became slaves, the Feather family would not spare Star Kingdom so easily.

After all, two members of the Feather family died here.

One was Azul, a partial Deity direct descendant, and the other was Blue, a true Deity.

Judging from their last words, their statuses were not low in their family.
