

Read I Am A Quadrillionaire Chapter 2423

I am a quadrillionaire chapter 2423-Star Kingdom, the Iridescent Sect.

David opened his eyes and his soul returned to his body.

The matter in The Spirit Cage had come to an end for now.

He only needed to go back to have a look occasionally.

With the protection of the mayor of Amber City and Captain Longer of the Amber City law enforcement team, he believed that no one would be so dumb as to cause trouble for him.

He could carry on his business in the real world with peace of mind.

Back then, David gave Sid two clones. He used up one so now he only had one left.

Nova had two as well.

Therefore, David did not need to worry about the safety of Star Kingdom.

Three beginner Supreme Overlord clones were enough to deal with all crises.

Even if the grandmasters of the Feather family came, Star Kingdom would still have the upper hand and wipe them out easily.

David's next plan was to take everyone back to Earth.

After being out for so long, it was time to go back and have a look.

Although Celia and the others had not yet reached Eternal Realm, they had improved significantly after coming to Star Kingdom.

Especially Selena.

She was now very close to entering Eternal Realm.

David believed that with enough resources and careful teaching, Celeste, Celia, and the others would all break through to Eternal Realm and have at least one epoch of lifespan.

What David did not expect was Lorraine becoming the first to break through Eternal Realm.

Moreover, she was not just an Eternal.

She had already gone one step further and reached Saint Realm.

She had a truly endless lifespan now.

Even though she got an opportune shortcut, it was her luck.

Some things cannot be envied.

Just like Lorraine!

How many years had it been since she arrived in Star Kingdom?

Now, she had already become a Saint, something that countless geniuses dreamed of becoming.

Aside from David, Lorraine was the one with the biggest improvement.

Among Celeste and Nova, Nova was older so she was thousands of years old while Celeste was about 2000 years old, and yet, they were only Eternal Realm Sovereign Rankers.

They were not even at partial Saint Realm level.

Meanwhile, with the help of Eira and her sisters, Lorraine crossed countless obstacles directly and achieved Saint Realm.

She was even faster than a rocket.

Nova and Celeste had worked hard for thousands of years, and yet they could not compare to a little girl who just got to Star Kingdom.

Who should they vent their anger to?

David stood up and walked out. His figure disappeared from the tightly locked secret room.

When he reappeared, he was in the courtyard where Celia and the others lived.

Now that he was an Overlord, space could no longer stop him.

At this moment, everyone was training hard under Celeste's guidance. They all wanted to get into Eternal Realm.

Meanwhile, Lorraine was bored on one side. She had no idea what she could do.

After having a near-death experience, her mindset changed completely.

To be honest, Lorraine wanted to help everyone, but she did not have the ability.

She was strong, but since she got there after Eira and her sisters used the forbidden technique on her, she lacked experience.

She could not even completely control her Saint Realm powers, let alone guide others.

The women immediately noticed David's sudden reappearance.

The reason the women could gather here was all because of David.

He was the key character.

One could say that he was the mainstay of this huge family. If something happened to David one day, this family would also be at the end of its days.
