I am a quadrillionaire chapter 2524-One million lavish points disappeared.

Signs started to show on his body as it started to warm up.

Then, it slowly became more and more obvious.

The muscles of his entire body also started to ache.

Three hours later, the breakthrough for his Body ended.

“Huff...”

After David let out a long sigh, he opened the system.

[Body: Ancient level 1 (You may upgrade one level using 10 thousand lavish points)]

[Mind: Ancient level 1 (You may upgrade one level using 10 thousand lavish points)]

[Combat: Beginner Ancient Overlord Rank]

[Lavish points: 1816253]

[Special skill: Cloning (level 5)]

After taking a few deep breaths, David continued to upgrade his Body and Mind.

Next, he would use the remaining 1.8 million lavish points to upgrade his Body and Mind from Ancient level 1 to Ancient level 10.

The time he needed to upgrade to another level would be

less than what was needed to upgrade to another rank.

However, he would need to upgrade more times.

In total, he would need to do the same thing 18 times.

Combining all of the time needed would surely be more than the time needed for a breakthrough.

Then, David started from Mind and upgraded it level by level.

Level 9 civilization Leila.

One of the major families, the Campbell family, finally received the powerhouses of the Marche family.

The person in the lead was an old woman.

She was hunchbacked and stooped over while holding a cane. There were wrinkles all over her face and she looked as if she was about to die.

Yet, the Campbell family did not dare to disrespect such an old woman on the brink of death.

When he saw this old woman, the head of the Campbell family, Jonathan, was shocked.

The Marche family was so generous in sending someone of her status.

They were making such a big fuss over a minor issue.

Jonathan did not dare to be careless at all.

So, he immediately reported this to the grandmaster of his family.

In the end, even the partial Overlord Realm grandmaster of the Campbell family had to come out to welcome her.

So, one could see how terrifying this old woman's status was.

She was one of the stabilizing forces of the Marche family, Agatha Marche.

She was an intimidating powerhouse who was already at partial Overlord Realm.

When the Marche family learned that Fabiola died in The Spirit Cage, they could be described as ballistic.

Even though Fabiola was not pleasant to the eyes, and one could even say that she was hideous, she was still the young mistress and granddaughter of the head of the Marche family.

She died without a reason. So, as one of the top forces in The Spirit Cage, would the Marche family let this go so easily?

They would be extremely humiliated.

So as long as they sent someone to find the killer, avenge Fabiola, and regain the Marche family's prestige, everything would be fine.

This was not worthy for a partial Overlord to come forward herself.

Yet coincidentally, Agatha came out to clear her mind after she just finished cultivating a secret technique.

Then, she encountered someone who dared to look down on the Marche family and kill their direct descendant.

Since Agatha had some free time, she decided to bring people over.

She wanted to see who was so bold as to do this.

Did he think that the Marche family would not be able to do anything if he hid in The Spirit Cage?

How naive!

Indeed, it was much more troublesome to seek revenge in The Spirit Cage than in real life.

However, this was not a challenge for a family on the Marche family's level.

The Marche family could use any forces' channel to enter The Spirit Cage.

No one would offend a force like the Marche family for something so trivial.

After finding out through the Campbell family that Fabiola's killer was in Amber City's mayor's residence in The Spirit Cage and getting special treatment from the mayor, Agathe immediately brought her people into The Spirit Cage to demand an explanation from David.

The Campbell family followed behind.

Since the partial Overlord of the Marche family was here, they had more reasons to stand back and let them take the lead.
