Chapter 3563

Layne Naiswell frowned. She knew she had no choice but to stay for the time being.

She took a deep breath and calmed herself down before she looked around her.

"Young Master John's situation is quite peculiar, everyone. I might use all my energy just to treat him. We'll have to end it here today!

"I hope that all of you can understand!"

There were people about to cause an uproar before Aldo John waved his hand. His bodyguards then revealed a briefcase filled with cash.

"Please, everyone!"

Between the towering bodyguards and the money, everyone knew exactly how to choose.

Layne showed an odd look before making a gesture to invite Aldo inside.

Aldo sat down in front of Layne before she put her tender fingers on his wrist. Her frown was quite apparent at this moment.

After a long while, she heaved a long sigh.

"Your body's naturally weak, but you forced yourself to learn the Rising Heat Fist, causing your body to lose energy and blood for long periods of time...

"That's why you've been having headaches while burning up every night.

"Though, your situation isn't that hard to deal with. Just come here to be treated for three years, and you'll be able to return to normal. You'll also be able to lift your hands as usual!"

Aldo's face slightly lost color after hearing Layne's words.

"Are you saying I can only return to normal after three years? Can't I become an expert with this?"

"You should know that people like me have no chance of getting a higher status if I can't train myself!"

"I don't want to be normal my entire life!"

"Please! There must be some way for me to train again!"

"As long as you help me, I'll pay any price!"

"I have ten properties in the heart of Flutwell, a Maybach, a Land Rover, and shares of the John Family Corporation!"

"If you're willing to help..."

"Then, these are all yours!"

Layne's eyes lit up instantly after hearing Aldo's words. She felt a little annoyed at that moment...

But she was also exhilarated to think she would not need to fight for anything anymore after getting all those things.

Without a second thought, Layne stood up and took a deep breath.

"There might just be a way."

"If I'm correct, you're on the verge of breaking through."

"If

you can do that, you should be able to deal with the situation and become a true expert!"

"But first, you need someone to open up the five acupuncture spots in your body..."

Aldo was breathing rapidly.

"Please help me!"

Layne nodded with a cold expression.

"I'll definitely help..."

"But if I force myself to help you break through, I'd be extremely weak for the next three months..."

"I have tens of millions of dollars in a bank in Switzerland! I'll give you that too!" "Right!"

Layne wasted no time starting.

If this action would completely cripple her, she would not even hesitate for all that money!

Chapter 3564

"Sit down here! I'll use my force to help you break through!"

Layne Naiswell got someone to bring out a futon and gestured to Aldo John to sit on

1.

She then took a deep breath before slapping his forehead.

Then, she slapped his temple before slapping the middle of his chest and other spots

Finally, she slapped Aldo's pelvic region before she completely lost all color on her face. She instantly became frail.

Aldo, on the other hand, was rejuvenated. His face was as red as a tomato.

Layne fell on her chair before she started gasping for air.

Aldo could not help but laugh after feeling the energy flowing inside him.

"Hahaha!"

Everyone was filled with shock when they saw Aldo.

They were completely surprised by the sight. After all, the people in Flutwell had some understanding of martial arts.

"How is this possible?! Aldo seemed so weak before, but now he looks like a true expert!"

"This is insane!"

"Instructor Naiswell actually helped him achieve his breakthrough!"

"Maybe we'll be experts too if instructors like this teach us!"

Everyone was filled with admiration when they looked at Layne. Some were even on the verge of kneeling.

After all, everyone in Flutwell wished to be an expert martial artist.

There might be a chance to have a relationship with such a beautiful instructor in the future after being taught by her! What a wonderful dream!

Layne's pride could be seen in her cold expression.

The other nine instructors were also showing arrogant looks on their faces.

Even Wilbur Lee let out a sigh of relief before he glared at Harvey York while moving his thumb across his neck.

Naturally, he was telling Harvey that the Martial Hall was finished!

Pfft!

Right as Wilbur and the others were getting cocky and the exact moment Aldo was also laughing out loud...

His entire body trembled before blood spurted right out of his mouth.

Aldo was filled with unbearable pain as he held his chest.

"It's so painful, Instructor Naiswell..."

The bodyguards were shocked when they shifted their gaze toward Layne.

"What's going on here?"

Layne was also terrified. She dragged her exhausted body out of the chair and checked Aldo's pulse before heaving a sigh.

"It's fine. It's just the congested blood in his body after so long. He'll get better after getting it all out!

"This is normal. He'll be fine soon."

Before Layne was even done talking, Aldo immediately fell to the ground head first before he started twitching. White foam was coming right out from his mouth while he was bleeding out of every single orifice.

"He's dying!"

"He's actually dying!"

The crowd went dead silent after hearing those words.

Wilbur and the others instinctively looked over before they showed horrible looks.

Layne immediately froze when she saw Aldo on the verge of death.

"Why?!"

"How is this even happening?!"

Aldo used all his remaining strength just to grab Layne's skirt.

"Save me, Instructor Naiswell..."

"I don't want to die...!"

Chapter 3564

"Sit down here! I'll use my force to help you break through!"

Layne Naiswell got someone to bring out a futon and gestured to Aldo John to sit on

1.

She then took a deep breath before slapping his forehead.

Then, she slapped his temple before slapping the middle of his chest and other spots

Finally, she slapped Aldo's pelvic region before she completely lost all color on her face. She instantly became frail.

Aldo, on the other hand, was rejuvenated. His face was as red as a tomato.

Layne fell on her chair before she started gasping for air.

Aldo could not help but laugh after feeling the energy flowing inside him.

"He's dying!"

"He's actually dying!"

The crowd went dead silent after hearing those words.

Wilbur and the others instinctively looked over before they showed horrible looks.

Layne immediately froze when she saw Aldo on the verge of death.

"Why?!"

"How is this even happening?!"

Aldo used all his remaining strength just to grab Layne's skirt.

"Save me, Instructor Naiswell..."

"I don't want to die...!"

Chapter 3565

Layne Naiswell forced herself to stand so she could recheck Aldo John's pulse. Her expression frantically changed the next second.

"His energy's going out of control. He's about to be crippled..."

"Hurry! Get this man to the Golden Palace!"

"Ask the lord to help!"

"Nobody else can save him now!"

Then, she glanced at Wilbur Lee.

"We'll all be in trouble if someone from the John family dies!"

Naturally, Layne knew that it would be hard for her to bear the consequences even if she was a disciple of the Golden Palace.

That said, she had no strength left to help since she was completely drained.

The other instructors quickly came over to help, but none of them were able to help with Aldo's energy going berserk.

"Is he going to die?"

Wilbur shuddered. He knew he would have to pay a heavy price if Aldo died here.

After all, his life was a thousand times inferior compared to Aldo's!

Wilbur bellowed at the people behind him, "Hurry!"

"Get the car!"

"Send him to the Golden Palace immediately!"

"I'll have you b*stards join him if he dies!"

Aldo's head bodyguard was showing a pair of bloodshot eyes.

Aldo treated him and the other bodyguards very well. If anything were to happen to Aldo, they would not hesitate to kill off the people who did this to him.

Layne and the others were utterly anxious. They knew full well just how powerful the John family was,

If someone from the family were to die in their hands, they would also be thrown six feet under.

"Move!"

The crowd was pushed aside while chaos ensued. Soon after, a figure came beside Aldo.

Harvey York reached out to check Aldo's pulse before putting on a frown. Then, he immediately slapped right at his pelvic region.

Harvey's movements were so swift that nobody could even tell what he did.

Next, Harvey poked different parts of Aldo's chest and stomach with his finger.

Aldo's breathing gradually slowed down at that moment. He was no longer coughing up blood or white foam.

Everyone was confused by Harvey's casual movements.

Layne came to her senses immediately after that.

"Stop screwing around, Harvey!" she instinctively exclaimed.

Before she could finish talking, Aldo coughed up more blood before color returned to his face.

Aldo, who seemed to be on the verge of death, immediately became vigorous again.

"What?!"

The people around were pretty well-versed in martial arts, but they were still completely shocked when they saw the sight.

Layne and the others had completely lost color on their faces. They never expected that Harvey could easily suppress Aldo's energy going berserk.

'Who is he? What level of martial art is that even?'

"You're fine now. You won't experience that again.

"Just don't work your body too hard for the next month.

"Find a doctor who's well-versed in eastern medicine to treat you.

"Don't try to channel your energy, especially right now. If not, even God wouldn't be able to save you."

Harvey calmly looked at Aldo, who barely regained his consciousness at that moment.

Aldo immediately nodded after coming back from the verge of death.

"I understand! Thank you! Thank you, kind sir!"

1/3

Chapter 3566

"Just doing my job.

"Though, I didn't save you for free. I'll need a hundred and fifty thousand dollars from you."

Aldo John froze before he stumbled off the ground. Then, he took out a checkbook from his pocket and handed Harvey York a check he just wrote.

At the same time, a business card was attached to the check to show his gratitude.

Harvey took the card and the check before walking out.

"He's an expert!"

"He's a true expert!"

Everyone came to their senses before they started cheering.

Harvey did not have a demeanor of a true master since he took the money, but at least he saved someone.

Dillon Lee and Kayden Balmer were completely shocked as well.

'Sir York is insane!'

They knew that Harvey's actions would instantly suppress Layne and the others!

At this moment, everyone could clearly tell who the true master was.

"What happened?!"

"Why did Young Master John go berserk like that?!"

Layne could not help but speak up after seeing Harvey walk away.

"I already helped him break through to a new level!"

"Why did this happen?! I didn't do anything wrong!"

Layne closely retraced her steps. She truly believed that she did not do anything wrong.

The other nine instructors were also confused. Layne was a true top talent with martial arts experience.

How come Harvey was able to help Aldo but not Layne?

Harvey stopped in his tracks.

"You did everything correctly, but you missed out on something.

"Aldo's tendons and body are fragile after so many years of being crippled! There was just no way that he could suddenly withstand such strong energy inside his body!"

"He couldn't even lift a finger then!"

"I suppressed his energy so he could get used to it slowly.

"If not, he'd most likely die after going berserk!"

"How do you not know about this as the Golden Palace's top talent?"

Layne froze before she understood.

It was not that she did not understand. She had too little experience. There was no way she would have remembered such a thing.

"It's not that you don't know. I'm sure you have a lot of experience as well.

Harvey exposed Layne's thoughts in an instant.

"You've been pampered all the time while you've been here!

"You'd think you're some hot shot after a while...

"But, you're not just good enough for that yet.

"It's good to be confident, but you'd be heading right toward death if you get too cocky.

"It's better if you don't follow the path of the underworld. If not, you might just die without even knowing why!"

The other instructors' faces were completely boiling in anger.

They thought the Martial Hall was about to go out of business without them around...

But Harvey actually taught them such a meaningful lesson right this moment!

"You're amazing, Master York! Do you accept disciples?"

Aldo asked a question everyone had in their minds while they were still in shock.

Clearly, compared to Layne and the others, they wanted to learn under Harvey's wing more.

Harvey looked back at Aldo.

"No, but I do teach students.

"Though my enrollment fees aren't cheap.

"The fees start from fourteen thousand dollars if you want to be trained in the Martial Hall."
a

Chapter 3567

The crowd was completely dumbstruck after hearing about the fees.

Everyone went dead silent after they were yelling at Wilbur Lee earlier.

Many people would be unable to accumulate this much money even after working for an entire year!

Some even had the faintest idea of just how many zeroes were in those numbers!

Even if Harvey York's performance were extraordinary, they would not want to spend that much money to be enrolled anyway.

Wilbur thought he was totally done for before he heard the enrollment fees were so high.

"At the end of the day, your Martial Hall is no better than the People's Budokan! This place is basically free at this point!" exclaimed Wilbur before coldly chuckling.

"At this point, that's just daylight robbery!

"You think you can mark up your price just because you saved Young Master John?!

"The Martial Hall's fees were expensive before, but they weren't that expensive!

"You're price gouging here!

"You're shameless!"

The people with no money to be enrolled were starting to have opinions about Harvey.

Obviously, they thought that Harvey was not giving them a fair chance.

"Do you think I'm raising the price because I want to?" asked Harvey.

"Do you think I'm not giving you a chance?"

"Yeah!"

The people were enraged.

"You're just looking down on us poor people!"

"You only work for money?"

"Is that what you think?"

"Fine! Then, I'll add another condition!"

"If you can prove to me that you're a top talent, not only will I not keep a single dime of your money, I'll even start paying you for it!"

Everyone went dead silent.

They were all looking at each other. Many of them really wanted to learn, but they knew that they were no top talents at all.

Harvey pointed at Aldo John.

"All of you saw what happened to Young Master John.

"He's quite talented at figuring out the Rising Heat Fist all on his own.

"But do you know why he went berserk?"

Everyone felt curious. Even Aldo was listening intently.

"He's too stingy.

"Since ancient times, the poor focused on literature while the rich focused on martial arts. This isn't just because of privilege.

"Training martial arts and swordsmanship requires a lot of stamina and spirit.

"These things need to be replenished every so often.

"For example, people who train in martial arts will always have Yarsha-gumbas, giant swiftlets, and fish gelatin by their side.

"If not, they'll become weaker over time and end up like Young Master John.

"Simply put, if Young Master John wasn't that stingy in the first place, he wouldn't have ended up like this."

The crowd immediately understood after hearing Harvey's explanation.

'Is Young Master John really this poor?'

"You're right. It's not because I'm poor. I never liked to eat things like those. My family would always prepare them, but I'd always just throw them out...

"I didn't think that..."

Everyone felt speechless after hearing Aldo's words. They did not expect that he would humble-brag like this.

But after that, all of them understood that learning martial arts was not just about courage and willpower.

Harvey's fees were expensive, but that was the right way to treat the students.

Compared to him, Wilbur was just killing people!

Chapter 3568

While the crowd was screaming in anger, Wilbur Lee and the others had no choice but to run off after burning tens of thousands of dollars.

The People's Budokan was immediately closed after it had just opened. They came as quickly as they left.

Harvey York gave Kayden Balmer a look before he walked off. He could no longer be bothered to deal with a small fry like Wilbur.

After all, it was much more suitable for someone like Kayden to handle the situation.

After saving Aldo John and raising the enrollment fees for the Martial Hall, people started to look at Harvey in a new light.

Layne Naiswell and the other instructors showed up when the crowd left soon after.

They felt a little awkward. They did not know what to feel at that moment.

Before Harvey could even say anything, Layne, whose face had completely lost color then, immediately took a step forward with the other instructors before bowing in

unison.

"Sir York, we're here to apply for the Martial Hall.

"To show our sincerity, we'll only take one-third of the salary.

"I hope you'll give us a chance!"

Harvey nodded. Layne and the others must have hesitated for quite a while before they decided to come to apologize.

For martial artists, it was good that they could correct their mistakes. That was why Harvey rehired all ten instructors without making it any harder for them.

The Martial Hall was an instant hit. Many people would be enrolling soon, so Harvey decided to give Layne and the others a chance.

Of course, he still had the final say regarding who and what to teach.

Dillon Lee and the others were completely impressed by Harvey. Only he had the talent and strength to accomplish such a feat.

A simple tactic was enough to completely turn the tables, making Layne and the others get off their high horses and turn them into obedient disciples.

The next day, early in the morning, the Martial Hall was swarming with people. Many

people were waving their credit cards around, waiting to be enrolled. Upon closer inspection, there were at least a hundred people there already.

Dillon and the others were exhilarated. After all, this was their first proper opening.

The people who came naturally thought about it long and hard beforehand. They believed that they could really learn something useful here. Since they were really interested in martial arts, they decided to enroll here.

Harvey was not as happy as the others. He could tell that many people were not financially stable, judging from their clothes. After heaving a sigh, he asked Dillon to do something for him.

Soon, some of the students started to sign up for the classes.

Vroom!

Half an hour later, the sounds of engines roaring could be heard from outside.

A dozen pitch-black cars drove over immediately after.

Dozens of people in black robes walked out of the cars with white gloves and swords

on their waists. It was clear that they were filled with murderous intent at this moment.

Under the lead of a middle-aged man, the group of people walked toward Harvey.

Harvey calmly took a step forward.

"What seems to be the problem?"

"We're from the Martial Arts Alliance!"

The middle-aged man showed a badge with an icy look. The words "Martial Arts" were written on it.

"Martial Arts Alliance? Never heard of you before," replied Harvey casually.

"Then, you're not well informed then!"

"The Martial Arts Alliance is an abbreviation of the sacred martial art training grounds 'alliance!"

"Our duty is to protect the rules of martial arts and its order!"

Chapter 3569

"Oh!"

Harvey York nodded.

"How impressive.

"That said, you people are at the wrong place, aren't you?"

"Enough playing around!"

The middle-aged man showed an austere look while placing his hand on his longsword.

"According to the laws of the Martial Arts Alliance, every single Budokan must be regulated by us!

"This is to prevent people from scamming others in the name of martial arts, causing the citizens to misunderstand the entire thing!

"We received reports last night that the Martial Hall was involved with fraud, using underhanded tactics to deceive people's money!

"The Martial Arts Alliance will thoroughly investigate the situation!

"We have permission to act before reporting to the higher-ups, so you better not try to stop us!

"We'll even use force if we have to!"

The middle-aged man's words were calm and steady, but there was a sense of arrogance and pride while he talked about the Martial Arts Alliance.

It was as if he was announcing his authority to everyone around him.

He could not even be bothered to see Harvey's reaction at that moment. He waved

his hand and coldly exclaimed, "Search the entire place!

"If there's even something a little shady about the place, we'll shut it down immediately!

"If anyone resists, we'll break their limbs before anything else!

"I, Boden Osborne, will take responsibility for the entire situation!"

Dozens of people swarmed into the Martial Hall and started flipping the place around, as if it was an organized raid.

Dillon Lee and the others were boiling with anger. They wanted to stop it from

happening, but Harvey immediately stopped them before calmly looking at Boden and the others.

"You're from the Osborne family?"

Harvey calmly sipped his tea casually with a smile on his face.

"Wilbur and the others were with you, I assume.

"You want to pay me back for what I did to your pride?"

"That's funny.

"Do you actually think you can find anything here?"

"You have no say in that! I do!"

At this point, Boden was not even trying to hide his true intentions.

"I know something's wrong with this place!" exclaimed Boden, furiously glaring at Harvey.

"I'm sure of it!"

Then, he grabbed one of the students' credit cards and snapped it in half.

"This guy's a con artist! He's been lying to all of you! Everything that happened last night was all just an act!"

"You can't just willingly give him money like that!"

"I'll make sure every single one of you gets the justice you deserve!"

"I won't let any of you leave the premises until that happens!"

The students who were about to sign up were immediately frozen in their tracks.

"What do you mean by that?! Everyone saw what Master York did last night!"

"Right! Even if he could've hired someone, nobody would be able to hire a young master from the John family!"

"Layne Naiswell and the others were also completely convinced by Master York's heart and strength, yet you're still slandering him?!"

"Yeah! If Master York wanted to make money out of this, he would've just asked for ten dollars from everyone last night! The people would've immediately given up their money right away!"

Chapter 3570

"Right! Why would he talk to us about the philosophies of martial arts if he only wanted to get rich?!"

"How could he possibly be a con artist if he's treating his students this way?!"

After pondering the situation for a while, those people had immense trust and acknowledgment toward Harvey York.

"You people are idiots! How could he fool you if he didn't have someone good enough to convince you?!"

"Layne Naiswell and the others were just working for him last night before they fought!"

"Are you telling me that it wasn't just an act?!"

The students who spoke up were instantly silenced. They did not know what to reply at this point.

After seeing the students' beliefs being swayed, Boden Osborne chuckled disdainfully.

"I know you people don't believe that Harvey's only good at putting on a facade!"

"That's why, to prove that he's just a conman, I invited a few deacons from the

Martial Arts Alliance here!

"These people are experts! You'll know that Harvey's just a conman soon enough!

Boden took a few steps back.

"I hope you'll show everyone his true colors."

Harvey calmly glanced over before he saw five elderly people in traditional clothing standing behind Boden.

Two of them seemed transcendent-looking. The other two were well-known for giving talks on stage and sharing a lot of knowledge regarding martial arts.

Safe to say that anyone with a passion for martial arts would recognize the two well-respected figures.

Clearly, they were prepared for this moment!

Countless people were looking at the two elderly people.

Boden handed over a few manuals he confiscated here to the students with a smile.

"This is the teaching manual with the lessons you'd be learning here.

"Take a look."

The students took the manuals and casually flipped through the pages.

Ordinary martial arts and stances were documented on the pages.

Safe to say that any Budokan in Flutwell would teach the same thing. There was nothing extraordinary about this at all.

The five experts looked at the students while shaking their heads.

"It's too basic!"

"Nothing in the teaching manual is out of the ordinary!"

"Not just any Budokan; you'd be able to get this at any bookstore!"

"You can probably learn something independently if you want to!"

"If you're not confident enough, you can probably find a Budokan that only costs you a few hundred dollars to teach you this stuff!"

"This guy is asking for fourteen thousand dollars to teach you the absolute basics here!"

"If he's not a conman, then what is he?!"

"This is heinous!"

"It's my first time seeing someone like this after being alive for so long!"

The students shifted their gaze toward Harvey in complete shock after hearing the deacons' words.

"Huh?! No way!"

"Master York's a nice man! He wouldn't do something like this, right?"

"We believe in Master York!" 3
