

Chapter 5198

Matthew furiously cursed: "You you are really despicable and shameless!"

Emily's mouth wiped over a smile, sneering:

"What? You think I was played by you for these years,"

"Will I not leave some backhand for yourself?"

"Let me tell you, I not only have those nasty videos of you,"

"But also evidence of your collusion with others and embezzlement of corporate assets!"

"You took the lead in acquiring an ai mapping company in the first half of the year,"

"Costing the company half a billion dollars, but that company is simply an empty shell,"

"And this ai mapping technology is also a completely immature product that is not commercially available at all,"

"And at least half of the half a billion dollars you spent on acquiring it went into your pocket through various means!"

“Don’t worry, I’ll take this evidence out today!”

“You’ll be stuck in jail for the rest of your life!”

When Matthew heard this, he shook like chaff and said,

“Emily, I can give you as much money as you want, but if you destroy me, you won’t get anything!”

Emily sneered, “Fine, give me \$100 million, as long as the money arrives,”

“From now on you go your way, we will never cross a bridge,”

“The big deal is that I will retire early, no longer staying in the design circle in this life!”

Matthew agreed almost without thinking and said,

“No problem! Just \$100 million!”

At the side, Stella smiled with a subtle expression at this time and spoke,

“Mr. Peterson, this hundred million dollars, I advise you not to give it out, there is no point.”

When Emily heard this, she blurted out,

“He has to give me this money no matter what he says!”

“If he doesn’t give it, then I’ll hand over all the evidence to the police!”

Stella looked at Emily and laughed lightly,

“Don’t daydream here, not to mention 100 million dollars, even if it’s one dollar, he can’t give it to you.”

Emily subconsciously questioned, “On what grounds?”

“If he doesn’t give it to me, I’ll put him in jail!”

Matthew looked at Stella in panic and explained palely,

“Don’t misunderstand, Miss Fei, I didn’t do any of the things Emily said,”

“I promised to give her the money, as I just don’t want her to ruin my reputation outside

Stella laughed at his pale defense and said lightly,

“Mr. Peterson you should not forget that the Fei family is the largest shareholder in your company,”

“You use the position of chairman to enrich yourself, this is embezzlement,”

“And also suspected of money laundering, the violation, is the interests of all shareholders of your company,”

“Including the Fei family! And I, as the head of the Fei family, have the right to ask the FBI,”

“To step in and conduct a thorough investigation into that takeover,”

“So whether Emily has evidence or not, it’s meaningless to you because,”

“The FBI will definitely find the person in charge of the acquired company as well and find out what’s going on!”

“In addition, there is the behavior of you and minors, whether Emily has no evidence,”

“I have the obligation to report to the FBI so that the investigation can clear it,”

“Even if the two of you now try to delete the information in the phone,”

“They also have a way to restore, once it is proven that the matter is true,”

“Then the rest of your life may really have to be in prison!”

Matthew heard these words, his eyes were black, and almost fainted,

Then he kneeled down in front of Stella without thinking, choked, and said:

“Miss Fei, I am the chairman of the company, if I am arrested by the FBI,”

“The company’s stock price will definitely plummet, then the Fei family’s investment will also be damaged,”

“Please, for this sake, please give me a chance,”

“You do not want to see the two or three billion dollars invested by the Fei family going in damages

Stella said coldly: “The chairman of the Board of Directors broke the scandal,”

“A short period of time will indeed affect the share price, but your company’s business roots,”

“Not in you alone, so as long as the impact of the scandal gradually disappear,”

“The company’s share price will certainly rise back.”

After a pause, Stella continued, “And the Fei family has plenty of money,”

“Also has plenty of time and patience, when the time comes,”

“It can completely take advantage of the plunge in share prices during this period,”

“So those shareholders who do not have so much time and patience,”

“We can try to acquire more shares, and when the Fei family gets the majority of the board of directors voting rights,”

“They can appoint a new chairman to take over your company, in that case,”

“When the share price rises back, the Fei family will not only achieve control of your company,”

“But also take the opportunity to make a big profit.”

“So, if you are arrested by the FBI, for the Fei family,”

“Not only is it not a loss, but it is a good opportunity to take a bottom!”

Speaking of which, Stella remembered something and continued, “Oh yes, although you have 10% of the company’s shares,”

“But due to your encroachment on the company’s assets, resulting in a direct loss of \$500 million,”

“Indirect losses may hit a billion dollars or more,”

“In this matter, the company will certainly sue for compensation;”

“And the court will definitely seize your illegal income of 200-300 million,”

“Providing all the compensation to the company, but even so, you will still owe the company a hole of several hundred million dollars,”

“This hole, the court will definitely require you to use your personal assets to make up for it,”

“So that you have to take out the illegal income, but also to pay at least several hundred million dollars in additional losses,”

“You have to believe the Fei family’s legal team, they will definitely do their best to get this amount to the maximum.”

Matthew already felt that the sky was spinning, never thought that Stella would want to kill him like that.

Without giving him a respite she continued: "The court will force you to sell your shares to pay for the damages and penalties,"

"If you don't have enough cash to pay for them, and I don't think it will take longer to get to this point."

"In this way, the 10% of your shares will be auctioned off by the Fei family at the lowest price,"

"And the funds from the share auction, after paying the compensation and fines, I'm afraid not much will be left."

Saying that Stella added: "Oh yes, there is also the matter of you and minors,"

"Once this matter is confirmed, whether the other party is voluntary or not, you are legally responsible,"

"If the other party's lawyers seize this opportunity to knock you hard,"

"You have to come up with at least another tens of millions of dollars in compensation,"

"In this way, you may really have nothing left!"
