

When His Eyes Opened Chapter 2626

Chapter 2626

It seemed that Siena didn't want to recognize them.

Elliot and Avery were at a loss for a moment, not knowing what to do.

After all, Siena was not a three-year-old child, so she could be coaxed casually.

At this age, Siena already had her own consciousness and opinions, and she no longer needed to rely on anyone for her life. She matured earlier than girls of the same age and knew how to survive in this society.

So no matter what social status Avery and Elliot had, as long as money was not the most important thing in Siena's heart, then they were dispensable to Siena.

"Uncle, auntie, you go back first! I will persuade her." Seeing the two of them in a daze, Lilly felt distressed and embarrassed, "My parents will also persuade her."

Avery took the lead to return.

"Lilly, if Siena wants to leave, you must tell us immediately. No matter what, we will definitely see her." Avery said.

Lilly: "Okay."

Avery pulled Elliot away from Wesley's house.

After they left, Lilly immediately went back to the room and told Siena.

Siena immediately got off the bed and wanted to pack her luggage and leave.

"Siena, don't be like this! They've already left." Lilly held Siena's hand, not wanting to let her go, "They won't force you to recognize them."

Siena: "I know. I just feel too embarrassed. There was a layer of window paper in the middle, but now this layer of paper has been pierced, I feel that I am here, very uncomfortable. Lilly, you can go to Thopiavelle in the future and find me to play. I can also take you to play around."

Lilly: "I will definitely find you in the future. Just don't leave now, okay? If you want to leave now, my uncle and auntie will come to you."

Siena: "..."

“They already know you are here, they haven’t seen you yet, how could they let you go like this? No matter what, they must want to meet you.” Lilly held Siena’s hand tightly, “Siena, calm down first, don’t worry. I will protect you. If you really don’t want to recognize them, I will stand by your side.”

Listening to Lilly’s words, Siena really calmed down a lot.

“My parents will also stand by your side.” Lilly continued.

.....

After Elliot and Avery returned home, they took a shower and changed their clothes.

After a while, Layla came back from the company.

“Dad, Mom! Have you seen Siena?” Layla asked.

“She doesn’t want to see us.” Avery wiped her hair with a towel, “Lilly talked to her a little bit. She said that she already knew about her life experience.”

“Does she not want to go back to our house? Doesn’t it mean that she has nothing else?” Layla didn’t quite understand Siena’s thoughts.

“The old woman who raised her passed away. She is living alone now.” Avery said, “She can live alone, which shows that she has a very strong ability to survive. And she didn’t come to us knowing her life experience, which shows that she doesn’t care about our family’s wealth and status. She must hate us.”

“Why does she hate us? It’s not that we don’t want to raise her.” Layla frowned, “How about I go talk to her.”

Avery held her daughter back: “Don’t go. We’ll wait until the results of your appraisal with her come out. Let’s calm down first.”

Avery calmed down a lot after taking a bath, but Elliot didn’t seem to calm down. He was sitting on the sofa, drinking a cup of coffee.
