

I'm A Quadrillionaire chapter 1442

Chapter 1442

Nek was about to leave the Simmons Continent for the Iridescent Continent. He wanted to demand an explanation from the Iridescent Sect.

No matter what, Nek was a person beyond Eternal Realm, so he was considered a famous bigwig even in Star Kingdom.

He had publicly expressed his interest in Celeste more than once and hoped that she would become his wife, but he was rejected by the Iridescent Sect and Celeste.

If Celeste came back and the news spread of this new update, how could Nek continue to show his face in public? Wouldn't the entire Simmons family be humiliated?

Celeste turned him down and lost her virginity out there in no time, and for doing so, she was slapping Nek and the Simmons family in the face.

As for the Iridescent Sect, as the top power of Star Kingdom, it was a bit unreasonable for them to go back on their word, right?

Nek figured the Iridescent Sect should be unaware of this by now.

However, that was not important. The key point was that the Iridescent Sect and Celeste went back on their word, disrespecting a person beyond Eternal Realm like him, and making him lose face in Star Kingdom.

He had to first develop a strong stance on this principle before he could talk about the next requirements.

Since the establishment of the Iridescent Sect, it had only ever accepted women. It could even be said that it had recruited more than 80% of the outstanding women in Star Kingdom.

Whenever the Iridescent Sect appeared, they would definitely be a sight for sore eyes.

Among them, the seven high priestesses were the best.

In the past, the seven high priestesses had all been selected after undergoing multiple phases of selection, combining beauty, wisdom, and talent. Not to mention each of them was extremely beautiful and very strong.

What man in Star Kingdom would not be proud to marry a high priestess of the Iridescent Sect?

However, those who could succeed were rare. After all, there were not many of them in the first place while a good number would stay behind to continue the Iridescent Sect.

Anyone who could successfully marry a high priestess of the Iridescent Sect would have a high status in the Star Kingdom.

Nek was the grandmaster of the Simmons family, and he had lived for tens of thousands of years.

However, for someone who was beyond Eternal Realm, time was no longer important to them.

They had too much time to squander.

Nek broke through Eternal Realm more than a thousand years ago and went beyond Eternal Realm.

He had been in seclusion for tens of thousands of years before.

After being in seclusion for tens of thousands of years, Nek got bored, so as soon as he got out, he began to take in wives and concubines in a high-profile manner.

Firstly, it was to solve his problem.

Secondly, it was to announce to the entire Star Kingdom that he, Nek, had been in seclusion for tens of thousands of years and was finally taking this step.

At the same time, it could also increase the prestige of the Simmons family.

If such a person wanted to find a wife, he would definitely go have a look in the Iridescent Sect.

Subsequently, he was attracted to Celeste.

Nek used to have a wife, but she failed to pass the test of time and eventually disappeared down the long river of history.

That was already tens of thousands of years ago.

With Nek's identity and strength, if he settled for the second best and did not focus on Celeste, the leader of the seven high priestesses, he would have a great chance of succeeding.

Unfortunately, he had his eye on Celeste.

Now that Celeste had lost her virginity, he could not have her anymore.

Nek was going to set his sights on this year's seven high priestesses and book one first.

In any case, no matter what, he had to marry a high priestess of the Iridescent Sect.

Only the high priestess of the Iridescent Sect was worthy of being Nek's first wife.

What he had to do now was to stand firm on this rationale, so the Iridescent Sect would not oppose him.

The Iridescent Sect would not dare to offend a person beyond immortal realm even if they were large and powerful.

Celeste still did not know what kind of predicament she would face when she returned to Star Kingdom and the Iridescent Sect.

Not only would she have to face the interrogation and punishment of her master and teacher...

I'm A Quadrillionaire chapter 1443

Chapter 1443

Nek, the Super Eternal, also wanted to ask her for an explanation.

David had made her life miserable.

Although it was not Celeste's fault, nor was it within her control, she was forced to suffer in silence.

She could only endure this unspeakable bitter suffering herself.

Once Nek knew that it was David who stole his woman, what David would face was the wrath of a person beyond Eternal Realm.

With David's current strength as an Eternal Realm Ruler Ranker, he did not even have the qualifications to kiss the feet of such a strong person.

Even if he had the system, it was impossible to defend himself against the opponent.

David would only have a chance if he was given some time to grow.

However, would the other party give him this chance?

It might be a little difficult.

Celeste frowned slightly after checking her physical condition in the room.

From the first intercourse with David that led to the activation of her alluring body, she had been trying her best to suppress the powerful desires aroused by it.

Therefore, she did not have the energy to pay any attention to her body.

After examining her body carefully, Celeste found two things that were not quite right.

One was that her mind power had become much stronger.

It was at least several times stronger than before.

This was very good news for Celeste who was about to reach peak Eternal Realm.

Her mind power had to reach a certain level to break through Eternal Realm.

Furthermore, mind power was the most difficult thing to cultivate.

Many people were stuck at Peak Eternal Realm, and they were unable to get past this stage for a long time because their mind power was not strong enough.

As for the treasures of heaven and earth that could increase mind power, those seemingly only ever appeared at random.

Once discovered, it would cause a frenzy among all major forces.

It was countless times more precious than a Soulbound Weapon.

Now, Celeste's mind power could grow several times in such a short period.

What exactly was going on?

Was it a one-time increment caused by the activation of the alluring body?

Or was it the sustainable growth that resulted from intercourse with David, a lunatic with a powerful mind power?

Celeste could not be sure.

If it was because of the activation of her alluring body, then she no longer had another alluring body to activate, so her mind power's growth would return to the previous slow rate.

However, if it was because of her intercourse with David, then there would be something to write about.

In any case, David had already taken advantage of her twice, so she could accept more of them in the future.

Not only could the desire in her body be kept in a harmonious state for a long time so that it would not resurface to cause trouble, but it could also quickly increase her mind power.

In that case, why not?

The current Celeste, after having intercourse with David twice, had slowly accepted David in her heart and acknowledged him.

At the very least, at least she did not resent doing such a shameful thing with David.

Chapter 1444

Besides her mind power increasing several times, Celeste also discovered a deeply hidden mind seed in her body.

If it were not for her mind power being much stronger, she would not have discovered it at all.

She had never noticed it before.

At first, Celeste thought it was left by her master.

However, when she touched this mind seed, she felt the energy on it not belonging to her master at all.

Celeste was puzzled.

Since it was not her master, who would leave a mind seed in her body?

It was clearly to monitor her.

And from this mind seed, Celeste felt that its owner's mind power was very strong, meaning this person's strength should also be great.

In the universe, there were people like David who had strong mind power but weak strength, but this was extremely rare.

Celeste had only met David in the past thousand years who was like this, and she had never even heard of any others.

Nor was it ever recorded in the history of the Iridescent Sect.

Mind power was something that could only be produced after reaching Eternal Realm Sovereign Rank, and it was necessary for breaking past Eternal Realm.

For David, a guy who just entered Eternal Realm, to have such a huge mind power was really incredible.

She believed that even if her master learned about it, she would definitely be shocked.

Celeste had come into contact with many powerful people over the years, and she could not figure out who had left her the mind seed.

The main factor was that she did not know when it was left behind. Otherwise, she would list all the powerful people she had interacted with during this period and exclude the rest so that she could narrow down the scope.

If she could not figure out who it was, then she would not bother trying.

She could not keep this thing in her body, and she had to find a way to get rid of it.

She tried desperately. Although the other party only left a mind seed behind, she still could not remove it with her current mind power.

If Celeste's mind power had not increased several times for some reason, she would not even have detected it.

'What should I do?'

Celeste was torn.

It seemed that David was the only one who could help her again.

Otherwise, she would have to wait until she returned to the Iridescent Sect and ask her master to remove it for her.

It would be fine if she did not discover it.

Now that she had, Celeste did not want to let other people's things stay in her body, spying on her at all times.

David just came back from a cold shower to calm his agitated body slowly.

Unexpectedly, Celeste's voice sounded again at this time.

"David, I need your help."

“Celeste! Are you failing to suppress your desire again?” David asked with a forced smile.

“What are you saying? David, can you fill your head with anything else? You only think about these lewd things!” Celeste said coquettishly.

She did not notice that the tone of her conversation with David had begun to change.

She would never speak to David in this tone before.

“Celeste, you misunderstood. I was just wondering that with your strength, what else could I help you with besides this?”

I’m A Quadrillionaire chapter 1445

Chapter 1445

“Yes, I need your help with other things this time.”

“Celeste, please tell me! As long as it’s within my power, I will definitely do my best.”

“When I was checking my body just now, I found out that someone had planted a mind seed in my body at some point. With my current mind power, I cannot remove it, so I was hoping you could use your powerful mind power to help me get rid of it.”

“A mind seed planted by someone else? Who was it? What does it do?” David asked, feeling puzzled.

Although his mind power was strong now, his understanding of mind power was still at the most elementary stage.

In the past, he actually used mind power to invade other people’s minds and control their fate.

“I don’t know who did it, but they probably didn’t have good intentions, and their purpose was to spy on me,” Celeste replied.

“Then what should I do?”

“You just need to release your powerful mind power. Then, follow the guidance of my mind power, reach the position of the mind seed, wrap it up, and move it out of my body.”

“Okay, let’s start!”

After David finished speaking, he released his mind power and followed Celeste's lead. Then, he reached her body and found the mind seed.

It was quietly hidden in Celeste's plump body.

The moment he saw it, David suddenly had an intuition in his heart that this was left by a man.

'Isn't the Iridescent Sect only for women?

'That means it wasn't left by Celeste's elders.'

This made David inexplicably angry.

This plump body was his, and he would never allow any man to touch it.

It was like two male creatures competing for a female creature.

David poured all his mind power into this mind seed, wrapped it tightly layer by layer, thus guaranteeing that it would never have a chance to escape.

After finishing this, David moved the mind seed slowly.

During this period, the mind seed also moved and tried to escape the grip of David's mind power.

Despite this, it could not escape at all.

After David carefully moved the mind seed out of Celeste's body, he exerted his mind with full force and completely destroyed the mind seed.

At the same time, on the Simmons Continent in Star Kingdom, Nek, who was about to leave for the Iridescent Continent, suddenly froze. Fire almost shot out from his eyes.

He felt the mind seed that he had left in Celeste's body being completely destroyed.

That was to say, from now on, he could no longer spy on Celeste, nor could he determine the specific location of the other party.

Originally, according to Nek's plan, he would first go to the Iridescent Sect to clarify the matter and grasp this new opportunity.

Then, according to the guidance of the mind seed he left in Celeste's body, he would quickly find the other party.

He would kill the man who took Celeste's virginity and finally bring Celeste back to the Iridescent Sect to demand an explanation.

Unfortunately, the mind seed was destroyed before he could do anything. Now, he could no longer determine Celeste's location and could not find her anymore.

He could only wait for Celeste to come back by herself.

If she did not actually bring that man back, where would he find him?

This directly disrupted all his plans.

"You b*st*rd! No matter who you are, you better pray that I don't catch you, or I will definitely kill you and give you a fate worse than death," Nek roared angrily.
