

I'm A Quadrillionaire chapter 1461

Chapter 1461

As time went by, the enormous tortoise slowly approached the outskirts of Star Kingdom.

During this time, Celeste asked David to help her again.

Naturally, David would not refuse, but after reaching the state of harmony, Celeste was the first to escape from the fantasy.

David had made up his mind.

If Celeste asked him for a favor next time, he had to ask for one too.

After thinking about this, David still had no choice but to accept the reality.

Celeste sat in her room, a little dazed.

After intercourse with David, she felt that her mind power had increased significantly.

It seemed that her mind power was not increased because of the destruction of her alluring body, but because of the intercourse with David.

'So if I do this with David every day, will my mind power increase rapidly?'

Celeste could not help but blush at the thought.

For a Sovereign Ranker who was about to reach peak Eternal Realm, the increase in mind power was undoubtedly a huge temptation.

This was a key stepping stone before breaking through Eternal Realm.

Reaching peak Eternal Realm was almost a sure thing for a powerhouse like Celeste, it just needed a little time.

Moreover, it would not take too long.

However, the growth of mind power was significantly harder.

If her mind power was not up to standard, then she would never be able to break through.

Most peak Eternals were stuck at this step because of insufficient mind power, and they were unable to break through for a long time.

If Celeste did not seize such an opportunity now, she felt that she would regret it in the future.

Besides, she had already had intercourse with David three times, and it did not matter if they did it eight, ten, or even dozens of times more.

It was just that Celeste was in a little dilemma.

The interval between this time and the last time was a bit long, and it seemed a little unreasonable for her to find David again immediately.

It would be bad if David misunderstood.

'How can I make David have intercourse with me at any time so that I can increase my mind power quickly?

'This is a question that needs careful consideration.'

Celeste was going to find a time to tell David directly.

She also did not want to spend that much time making excuses.

She would tell him that doing so would allow her mind power to grow rapidly, and she would be able to break through Eternal Realm and reach a higher realm in the future.

At this moment, a red light flashed before Celeste's eyes.

An illusory red token was then printed on her forehead.

I'm A Quadrillionaire chapter 1462

Chapter 1462

When the illusory red token was printed on Celeste's forehead, a voice sounded in her head.

"Get back now!"

The owner of the voice is none other than Nova, the current head of the Iridescent Sect.

As one of the elders of the Iridescent Sect, Celeste naturally knew what the illusory red token was.

It was an emergency recall order from the Iridescent Sect.

It was cast using a secret technique, and then it would head to the target using the Life Flame of the target left in the sect.

It could cross the limitation of layers of space and quickly reach its target.

Anyone who received it must rush back to the sect as quickly as possible.

In reality, even if Celeste did not receive an emergency recall order from the sect, Celeste would still rush back to the sect quickly.

Her alluring body had been fully activated, and she wanted to find her teacher to see how to solve this. However, at this time, Celeste was also very puzzled.

It stood to reason that she was now performing patrol missions as a Universe Enforcer.

Therefore, her sect should not issue an emergency recall order to her at this time.

'Did something unexpected happen to the sect?'

'Impossible!'

Celeste dismissed the idea outright.

'The Iridescent Sect is the top power in the entire Star Kingdom.'

'There are four reputable elders beyond Eternal Realm.'

'How could there be an accident?'

'If that's the case, why would the head cast a secret technique to ask me to go back?'

Celeste was confused.

The sect would only issue a recall order to the sect members who were performing missions outside unless something very important happened in the sect.

'Forget it, stop thinking about it. I'll just go back first.'

'We're not far from Star Kingdom anyway.'

The enormous tortoise had covered two-thirds of the distance so far.

Celeste was having mixed feelings.

'We're reaching Star Kingdom soon, so should I go to David?'

'If I don't go, I will not have had such a good opportunity when we arrive at Star Kingdom or the Iridescent

Sect.

'But if I go, how should I bring it up to David?'

As she was pondering this, another few days in the outside world passed.

Seeing that they were getting closer and closer to Star Kingdom, Celeste made up her mind, gritted her teeth, and finally decided to go to David.

It was a matter of whether she could cross Eternal Realm in the future. Therefore, no matter the price, it was worth it.

She also believed that even if her teacher knew of this, she would not blame her.

And there was no real physical contact anyway, they only did it in fantasy, and this was not their first time anyway.

Now that she had decided, Celeste did not hesitate any longer.

However, she did not go to David directly, instead, she sent him a voice message.

David was chatting with Celia and the others to relieve boredom when Celeste's voice suddenly appeared in his head.

"David, go back to your room! I have something to tell you."

David was a little puzzled.

'Didn't we just do it a few days ago?'

'She can't hold herself back again?'

'Impossible!'

'The gap between the previous sessions was so long.'

'How is she failing to control herself after just a few days?'
