

I'm A Quadrillionaire chapter 1497

Chapter 1497

The seven fairies then began to dance in the hall for David to enjoy.

The seven danced with everything they got, hoping to get David's attention so that he would take them away.

If they are taken away by David, the seven fairies would be one step closer to their ultimate goal.

If they stayed in the Iridescent Sect, they would have no chance to break through to Eternal Realm in their lifetime.

However, the seven fairies were going to be disappointed.

Although David seemed to be enjoying himself, he was not paying attention at all.

As for taking them away, that was even more impossible.

Now, David was still troubled over Celia and other women, so how would he add more women to the mix?

Wouldn't he be lifting a rock and smashing his own feet?

Not long after, more beauties entered the hall carrying trays of delicious food and wine and placed them in front of David.

David was a little interested in the food, so he enjoyed it unceremoniously.

While David was enjoying the wine, food, and beautiful women, Celeste came to the place where Celia and others lived. It was a large yard.

Celia and the women were arranged to stay here.

However, after Nova's ceremony three days later, they would part ways.

Selena, the head's personal disciple, would live in a different place than Celia and the others who were just disciples in name.

As soon as Celeste entered the yard, she saw the women gathering and chatting in the yard.

They were chatting curiously about everything they saw today.

When they saw Celeste coming in, everyone stood up and said, "Celeste, you're here."

"No need to be so polite, everyone, sit down," Celeste said as she walked.

However, no one listened to her.

After Celeste approached, everyone made room for her.

"Sit down, Celeste!"

Everyone sat down only after Celeste sat down.

"How is it? Are you satisfied with this place?" Celeste asked.

"Celeste, we think this place is amazing. The scenery is great, the air is fresh, and the environment is also brilliant, we are very satisfied," Selena replied.

As the most talented among the seated women, she was accepted as a personal disciple by the head of the Iridescent Sect.

Everyone else was treating Selena as their backbone.

They knew they would be living in the Iridescent Sect for a long time to come.

Where there were people, there would be drama, not to mention the fact that the Iridescent Sect was such a big force.

Furthermore, Master Nova also told them to be prepared to be criticized.

Their future days might not be too peaceful.

This was an unfamiliar place. Therefore, everyone agreed that they had to unite to tide over the difficulties together.

Selena was the soul of their small group.

I'm A Quadrillionaire chapter 1498

Chapter 1498

As for Astrid, the princess of the Milky Way Empire who was once favored by countless people, she had already let go of her identity and fully integrated into this small group.

She had never carried the airs of a princess.

“It’s good that you’re happy, but this is only a temporary residence. In three days, the sect will hold a ceremony to make this official. At that time, Selena will be accepted as a personal disciple by the head, and she will be separated from the disciples in names. You must be prepared.”

“Ah? Celeste, do I have to separate from them and live alone? I don’t want to be separated from them. Can you tell Master to let me live with everyone?” Selena pleaded sadly.

“This is the sect’s regulations. You should live according to your status and identity. There are arrangements, and there will be no overriding them. You can come to them if you have nothing to do, but you can’t live with them. Although I am one of the elders of the Iridescent Sect, I cannot change the rules.”

“Okay, I understand,” Selena said, feeling a little depressed.

She knew she could not change this.

They had lived together for several years and got along very well.

She would be sad to part ways with any of them.

Even if Selena was asked to live in a higher-level place, she was not willing.

“Celeste, is David leaving the Iridescent Sect soon?” Mia asked.

“Yes! The Iridescent Sect only accepts female disciples. As a man, David could not join the sect. He could only live here as a guest, and he can’t walk around at will. He should leave after you are all settled down,” Celeste replied.

“Celeste, I don’t want to stay here. Can I leave with David? Lady Dream doesn’t want to accept us anyway, so it won’t matter if I leave, right?”

As soon as Mia’s words left her mouth, they immediately attracted the attention of the other women.

Everyone was curious about why she made such a choice.

“Oh? You don’t want to stay in the Iridescent Sect? Can you tell me why?”

“I think David will not get used to this strange place of Star Kingdom by himself. He will not have anyone to talk to if he is separated from us, so I just want to help him a little. He is my benefactor. Back then, I swore in my heart that I would follow him in this life and repay his kindness.”

“Do you know how much effort I have put in to get you to be Lady Dream’s discipline in name? Do you know how many people in Star Kingdom dreamed of becoming Lady Dream’s discipline in name? Do you know how rare this opportunity is?”

“I know, Celeste! I am very grateful to you, but I don’t want to leave David,” Mia whispered.

“Do you know what you are giving up? It is an opportunity, an opportunity to enter Eternal Realm. Also, this opportunity is what countless people strike to have. David entrusted you to me because he wants you to enter Eternal Realm in the future so that you will at least have a lifespan of an epoch. Otherwise, as time goes by, all the organs of your body will fail, and you will age slowly and eventually die. The short separation now will guarantee you a longer company in the future. Are you sure you want to do this?”

‘The short separation now will guarantee you a longer company in the future?’

Mia murmured these words in her heart.

She then seemed to be enlightened.

She felt that what Celeste said made sense.

‘If I work hard to reach Eternal Realm, I can spend more time with David.’

Not only her, but Celia and others were also working hard because of this sentence.

Did they just want to separate from David?

Obviously not.

This was so that they could be together for a longer time in the future, so that was why they had to part ways temporarily.

However, Celeste’s words raised another question in everyone’s mind.

‘Didn’t they say we can live forever when we get to Eternal Realm?’

‘What does at least a lifespan of one epoch mean?’

‘What is that?’

“But David is alone in Star Kingdom, and he is unfamiliar with the place. I’m afraid he won’t be used to it.”

“David is an Eternal. Although he is not very powerful in Star Kingdom, he is not weak. He can rise step by step in the Milky Way and eventually become Master of the Milky Way, so he is very adaptable. You just need to do your own thing and not let him worry about you. Plus, even if you want to follow him, he won’t agree.”

“I understand. Thank you, Celeste, I will definitely work hard and strive to reach Eternal Realm so that I can be by David’s side.”
