

## I'm A Quadrillionaire chapter 1537

### Chapter 1537

In the end, Nova could not stand David's pestering, so she told the truth about what happened to Celeste.

To put it bluntly, the ice cavern was the prison of the Iridescent Sect.

Once someone committed a serious mistake, they would enter the ice cavern to accept punishment.

It could be said that that place was the nightmare of everyone in the Iridescent Sect.

Those who entered would not have a good ending.

The ice cavern was divided into many layers.

The lower you went, the more extreme the cold.

In addition, the extremely cold air was a special energy similar to mind power. Except for mind power, all other means would not be able to defend against it.

If the extreme cold air entered the body, it would not only make the person feel bone-piercing pain, but it would also affect their emotions.

If you were exposed to the extreme cold air for a long time, even your personality would gradually change. After coming out, the person would act like a completely different person even if they did not go crazy. Since Celeste was a Sovereign Ranker, she would be at the bottom.

In Nova's mind, once Celeste emerged again after staying at the bottom of the ice cavern for a hundred years, she would not be the original Celeste anymore.

As David listened to Nova, his face became more and more gloomy.

When Nova had finished speaking, David's face sank, and his eyes shone coldly.

Not only did Celeste have to bear the piercing pain after entering the ice cavern and face the wall for a hundred years, but her temperament in the future would also change.

David could not accept this.

"Nova, is there any way to rescue Celeste?" David asked in a deep voice.

“David, I know you want to save Elder Red, but I can only tell you, don’t even think about it. No one can change the reputable elders’ decisions. If Elder Red wants to come out, she has to stay in the ice cavern for a hundred years and not one day less,” Nova shook her head and said.

“Is there really nothing I can do?” David asked unwillingly.

“No,” Nova directly denied.

“What if a Saint comes along?” David was still unwilling.

“David, you think things are too simple. Even if you get a Saint to come forward, it is still impossible to rescue Elder Red. Nek is Saint, right? You also saw how Nek could only be respectful in front of the reputable elders and finally retreated in despair under the reputable elders’ strength,” Nova sighed. She understood what David meant.

He must have wanted to go home and to get a Saint to rescue Elder Red.

Unfortunately, this was destined to fail.

It was no certain whether David could get a Saint to come forward. After all, a Saint was a transcendent

existence in Star Kingdom and not everyone could get them to show their face.

Even if he could, he would most likely just get a Pre-Saint.

This kind of Saint was useless in front of the reputable elders.

What was the difference between them and Nek?

David would not be able to the reputable elders unless he got a True Saint.

However, it was all just talk.

There was still little hope of rescuing Elder Red.

One must know that there were four reputable elders in the Iridescent Sect.

Therefore, what was the use of having a True Saint?

Moreover, most of the Saints in Star Kingdom were Pre-Saints.

Not many could achieve True Saint Rank.

Also, every True Saint had a distinguished status and would not show their face so easily.

## I'm A Quadrillionaire chapter 1538

### Chapter 1538

It was obviously unlikely that David would get a True Saint.

If David wanted to save Elder Red from the ice cavern, there was only one way, and it was to directly get a Sacred Saint to come forward.

If a Sacred Saint came to the Iridescent Sect, the situation would be very different.

The four reputable elders would definitely show respect to this person who stood at the top of the pyramid in Star Kingdom.

However, the number of known Sacred Saints in the entire Star Kingdom could be counted on one hand.

It was impossible for David to come into contact with such a character, let alone ask the other party to step forward.

“Nova, Saint Realm is a big realm, so there should be a hierarchy like Eternal Realm. Nek is a newcomer to Saint Realm, meanwhile, the reputable elders of the Iridescent Sect had been in Saint Realm for a long time, so they are much stronger than Nek. Can you tell me the specific division of power?”

Nova looked at David with some doubt.

She did not understand why someone like David did not even know the division of Saint Realm. ‘Didn’t the force he belongs to tell him about this matter?’

However, Nova suppressed the doubts in her heart and patiently explained, “Saint Realm is indeed divided into three ranks like Eternal Realm. Those who are new to Saint Realm like Nek are Pre-Saints, and the next is True Saint. I think Elder Red’s teacher, Eira, is a True Saint, and the last rank of Saint

Realm is Sacred Saint Rank. Currently, the known Sacred Saints in Star Kingdom can be counted on one hand. Of course, it cannot be ruled out that there are other hidden Sacred Saints, but there won’t be too many. That is to say, Sacred Saint is the strongest in Star Kingdom.”

David understood when he heard this.

The three different ranks of Saint Realm were Pre-Saint Rank, True Saint Rank, and Sacred Saint Rank.

Each rank should also be divided into beginner, mid, late, and peak.

According to Nova's guess, Celeste's teacher was a True Saint.

However, she had no idea if she was a beginner True Saint or a peak True Saint.

If David wanted to rescue Celeste, the safest way was to reach the realm above True Saint.

At least a partial Sacred Saint was required, or even a Sacred Saint.

David calculated silently in his heart.

He was only an Eternal Ruler Rank now and he was too far from Saint Realm Sacred Saint.

If he wanted to reach Sacred Saint Rank, the number of lavish points he required would be pretty huge.

However, David could not worry about that now.

He had to find a way to get enough lavish points to become a Sacred Saint and then rescue Celeste.

Furthermore, he could not wait too long as Celeste was constantly suffering from piercing pain.

It would be troublesome if the extreme cold air stayed in Celeste's body for a long time and caused her temperament to change drastically.

"Nova, according to what you said, we can save Celeste as long as a Sacred Saint comes forward, right?" David asked.

"Yes! But David, although I don't want to dampen your passion, I must tell you that there are only a few Sacred Saints in the entire Star Kingdom. You can't get them to come forward, and it's even impossible for you to meet them," Nova could not stop herself from telling David.

"I know!" David replied casually.

"David, don't blame me for not reminding you. Sacred Saints are not someone you can meet whenever you want. Once you offend them, no one can save you. A Pre-Saint like Nek is not even worthy of kissing their foot," Nova said with a frown.

Seeing David's expression, she thought David was going to get a Sacred Saint to come forward.

'Isn't this courting death?

'How can he get a Sacred Saint so easily?

'If he makes a mistake, he will fall into eternal doom.'

## **I'm A Quadrillionaire chapter 1539**

### Chapter 1539

"Thank you for reminding me, I understand what you mean, but don't worry! I won't bother a Sacred Saint," David explained.

He knew that Nova had misunderstood him.

Right now, he was not thinking of asking a Sacred Saint to help but how to turn himself into a Sacred Saint.

If Nova knew what David was thinking, she would think David was crazy.

A beginner Ruler Ranker wanted to become a Sacred Saint in such a short time.

This kind of thing would be impossible even if it was a dream, let alone in reality.

"It's good that you understand! If you dare to bother a Sacred Saint, you will be slapped to death if you encounter one with a bad temper. You will lose your life before you can save Elder Red."

"Understood! Nova, I have something to ask you," David said.

"Go ahead. As long as I can do it, I will try my best to satisfy you, but first and foremost, I can't do anything about Elder Red."

"Nova, it's not about that. Celeste brought back a few women from outside and they are all my good friends. Celeste promised to take care of them, but now Celeste has entered the ice cavern and cannot protect herself. I hope you can help me take care of them."

"You mean Selena and the others?" Nova asked.

"Exactly! Nova, do you know them?" David asked back.

“I not only know them, but Selena is my personal disciple, and the rest are also my disciples in name. I will hold a ceremony in three days for them. Needless to say, I will take good care of them and prevent them from being wronged by the Iridescent Sect,” said Nova with a smile.

“I see! Then I would like to thank you. With you around, I believe they will have a very good life in the Iridescent Sect.”

“Of course! I’m the head of the Iridescent Sect. They will certainly have a good life as my disciples. By the way, David, you care about them so much, so what’s your relationship with them?”

“Uh... We’re just friends.”

“Really? Why do I feel that you are more than just friends?”

“Nova, don’t overthink. We really are just friends!”

Nova smiled and did not continue to ask.

From how David asked her to take care of those women, she knew that the relationship between the two parties was not simple.

However, everyone had their secrets, and since David did not want to tell her, she would stop asking.

“Okay, David, if there is nothing else, I have to go. There are still many things waiting for me to deal with. You should also take a good rest. Since you survived a catastrophe today, I believe you have also come to a lot of realization. Try to improve your strength as that is more important than anything else. In Star Kingdom, all the rules are made by the strong, and only those who reach Saint Realm are eligible to participate in the rulemaking process.”

“Thank you, Nova, I will definitely work hard,” David said seriously.

Nova continued, “There are two sentences in Star Kingdom, one is that one should not insult a Saint, and the other is that everyone below Saints is an ant. Remember these two sentences. The first sentence is that you should not insult a Saint without remorse, and the second sentence is so that you will practice hard. Only when you reach Saint Realm can you break away from the category of ants. Even if I am a Peak Eternal, I would still be an ant in front of Nek the Saint if I were not the head of the Iridescent Sect.”

“I got it.”

“Well, I’ll go first, and you can contact me anytime if you need anything!”

Nova left after speaking.

After Nek made such a fuss, the whole of the Iridescent Sect was buzzing.

Nova was going to hold a meeting with the seniors of the sect and give everyone a reasonable explanation.

David lived in the small courtyard.

He encountered a life-and-death crisis the moment he arrived at Star Kingdom.

It made David very upset.

Nek was already on David's hit list.

Once he had enough strength, he would kill this guy first.

The next thing was to wait for Celia and the women's acceptance ceremony three days later to end.

After confirming their safety, David would leave the Iridescent Sect.

## **I'm A Quadrillionaire chapter 1540**

Chapter 1540

He would go out and spend money to get lavish points.

As for where to go, David had already thought about it.

He would go to the Central Sacred Continent!

It was the largest continent in Star Kingdom, and it was also the most prosperous continent in Star Kingdom.

Eighty percent of the transaction volume of the entire Star Kingdom was generated from here.

Therefore, one could see the importance of the Central Sacred Continent in Star Kingdom.

Furthermore, it did not belong to any force.

Each force had its own industry on the Central Sacred Continent, and the management of the Central Sacred Continent was in the hands of the Saints Association.

The headquarters of the Saints Association was also on this continent.

Therefore, no one dared to cause trouble here.

The place David originally chose was not the Central Sacred Continent.

Even though it was the best place to spend money, at the same time, there were also a lot of powerful people there.

The Saints in Star Kingdom would often come here.

If he was not careful when he spent money on the Central Sacred Continent, he would be noticed by others.

With David's current strength, anyone could easily kill him.

According to David's plan at the beginning, he would start from a small place step by step, and then slowly move closer to the Central Sacred Continent as his strength grew.

By the time he finally stepped onto the Central Sacred Continent, he would be strong enough to protect himself.

In doing so, he could greatly reduce the strength. This was the most reasonable plan.

It was a pity that Celeste was punished by her teacher to face the wall in the ice cavern for a hundred years, which completely disrupted David's plan.

If he followed the original plan, David would not know how long it would take for him to gather enough strength.

Celeste could not wait that long.

In order to ensure that Celeste suffered as little as possible and avoid being affected by the extreme cold air David had to rescue her as quickly as possible.

Thus, David had to change his plan.

He had to be quick and head straight to the Central Sacred Continent.

Only then could David spend more money and get more lavish points in a very short period.

However, David had to be careful and not relax in the slightest throughout.

Opportunities were often accompanied by crises.

The purchasing power of Star Dollar in Star Kingdom was similar to that of Somerland Dollars on Earth.

If David spent tens of billions or hundreds of billions, it might not be very impressive in the Central Sacred Continent.

After all, this was the most prosperous place in Star Kingdom, and there were countless powerful forces stationed here.

However, he was not going to limit his spending just to that.

He would spend trillions, tens of trillions, or even hundreds of trillions.

It would be hard not to get noticed.

He could only do this slowly after he arrived at the Central Sacred Continent.

He could naturally spend more with the increase in strength.

If David were a Sacred Saint, who would dare to say anything if he spent hundreds of trillions of Star Dollars?
