Chapter 851

The Johnstons were one of the families that made up the Ancient Four.

These families were able to trace their lineage to the principal officials of the Prince of Orchid's court a thousand years ago.

Since antiquity, the Johnstons were a family that revolved around Martial Arts.

Every member of the family was required to practice it.

Unfortunately, talent was still the determining factor in how far one could go and how well one would perform in Martial Arts.

As such, not every individual is able to rise to the top.

The Emperor was one such person in their family.

Despite his status and heritage as a Johnston, he did not have a mote of talent whatsoever.

Wind, Rain, Thunder, and Lightning were major officials that had been specifically brought up by the Johnstons.

Throughout the years, the Johnstons scoured the world for particularly talented orphans in hopes of nurturing their talents from a young age and inducting them into the fold.

However, only these four major officials became martial art grandmasters.

They were not just highly skilled but they also managed to achieve the third rank after cultivating.

After receiving the patriarch's orders, Kennedy immediately set out to capture James along with the four major officials.
